SUR-REPLY TO REPLY EXCEPTIONS OF PECO ENERGY COMPANY

Complainant Jonathan DiBello, hereby files this sur-reply to the “Reply Exceptions of PECO Energy” filed on July 11, 2025. As an initial matter, PECO’s reply states that PECO nor the Commission can grant a stay for the Complainant’s electricity shutoff which is required by law until the matter is fully resolved and finalized. The Commonwealth Court case is an appeal from the Commission’s previous decision siding with PECO energy affirming that the Complainant is ineligible for pay payment arrangement. The complainant still continues to dispute the previous matter prompting him to file an appeal with the Commonwealth Court which as of this filing is still pending. With that the Complainant should be granted a stay from the shutoff of services until the Commonwealth Court issues a final ruling on the case which has not yet happened.

In conclusion, for the foregoing reasons, Administrative Law Judge Brady’s decision was incorrectly decided. Therefore, the commission should grant the Complainant's exceptions and issue a decision that permits the commission to impose a stay from shutoff.

Respectfully Submitted,

Jonathan DiBello, Complainant
