A-2025-3055342

TO ALL PARTIES OF RECORD

Application of Verizon Pennsylvania LLC for approval to alter the public crossing (DOT 832 065 R) by lashing an aerial fiber optic cable in an aerial innerduct where Hokes Road (T-352) crosses, at grade, a track of CSX Transportation Inc., located in Manheim Township, York County.

To Whom It May Concern:

By application received by the Commission on May 21, 2025, Verizon Pennsylvania, LLC (Verizon) seeks Commission approval to alter the public crossing (DOT 832 065 R) by lashing an aerial fiber optic cable in an aerial innerduct where Hokes Road (T-352) crosses, at grade, a track of CSX Transportation Inc., located in Manheim Township, York County.

Verizon proposes to install an aerial fiber optic cable and an aerial innerduct lashed to an existing copper cable attached to existing utility poles within the joint right of way of Hokes Road (T-352) and CSX Transportation Inc. The proposed minimum overhead clearance to the lowest copper cable is 24-feet 3-inches above the track.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, Verizon states that the proposed aerial fiber optic cable is necessary to provide subsidized broadband. Verizon will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the fiber optic facilities, at its sole cost and expense. The cost of the project is anticipated to be \$20,000.

All work is to be performed in accordance with the plan entitled: "EXHIBIT A" consisting of one sheet, a plan view, that was submitted to the Commission with the application and resubmitted on July 10, 2025. Verizon has served a copy of the application and plan on CSX Transportation Inc., Manheim Township, York County, MET-ED / First Energy, Comcast CATV, and the Pennsylvania Department of Transportation. All parties in interest were queried by letter dated May 30, 2025, sent via

email as to any objection to the subject application and plan. None of the parties have responded with any objections.

A Commission staff engineer requested a profile view be submitted. A profile view entitled: "EXHIBIT A 7-2-25", was submitted to the Commission on July 10, 2025. The parties have not had an opportunity to review the profile view and respond. However, this Secretarial Letter will be issued to all the parties of record and will therefore provide for an opportunity to respond within twenty days of this Secretarial Letter issuance date.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.
