

**BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION**

**Tiffany Tenaglia,
Complainant**

v.

**PECO Energy Company,
Respondent**

Docket No. C-2025-3056241

ANSWER TO PRELIMINARY OBJECTION OF PECO ENERGY COMPANY

Complainant Tiffany Tenaglia submits this Answer to PECO Energy Company's Preliminary Objection as follows:

1. Complainant denies that the Formal Complaint is seeking monetary damages from the Pennsylvania Public Utility Commission.
2. The "Damages and Costs" list attached to the Formal Complaint was included solely to document the impact and extent of the incident, not as a request for the Commission to award monetary relief.
3. Complainant's Formal Complaint is focused on issues of reliability, safety, and the adequacy of PECO's service at the service address, which are within the Commission's jurisdiction.
4. Complainant respectfully requests that the Commission deny the Preliminary Objection to the extent it seeks to strike factual evidence of the incident's impact, as such evidence is relevant to the service and safety issues raised in the Complaint.
5. Complainant further acknowledges that any claim for monetary damages would be pursued, if necessary, through the appropriate civil forum and not before the Commission.

WHEREFORE, Complainant respectfully requests that PECO Energy Company's Preliminary Objection be denied insofar as it seeks to prevent Complainant from presenting relevant

evidence regarding the effects of PECO's service, and that the Formal Complaint be permitted to proceed on the merits.

Respectfully submitted,

Tiffany Tenaglia
