TO ALL PARTIES OF RECORD

Application of PPL Electric Utilities Corporation for approval to alter the public crossing (DOT 589 024 T) by the installation of one (1) new utility pole and replacement of one (1) existing utility pole where State Route 0054 (Barnesville Drive) crosses, at grade, a single track of Reading Blue Mountain & Northern Railroad Company located in Ryan Township, Schuylkill County.

To Whom It May Concern:

By application received by the Commission on June 26, 2025, PPL Electric Utilities Corporation (PPL) seeks Commission approval to alter the public crossing (DOT 589 024 T) by the installation of one (1) new utility pole and the replacement of one (1) existing utility pole where State Route 0054 (Barnesville Drive) crosses, at grade, a single track of Reading Blue Mountain & Northern Railroad Company located in Ryan Township, Schuylkill County.

PPL proposes to install the new and replacement utility poles and transfer their existing aerial facilities to the new poles within the joint right-of-way of State Route 0054 (Barnesville Drive) and Reading Blue Mountain & Northern Railroad Company. The installation will provide a vertical clearance of 43-feet as measured from the top of rail to PPL's lowest aerial facility. The minimum vertical clearance for all aerial facilities at the subject crossing is proposed to be 41-feet as measured from the top of rail to the foreign utility's line.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, PPL states that the proposed installation is necessary to provide adequate, efficient, and reasonable communication facilities and power to the public in Schuylkill County and surrounding areas. PPL will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the new facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$54,000.

All work is to be performed in accordance with the revised plans entitled: "EXHIBIT A" consisting of one (1) sheet submitted to the Commission on July 8, 2025.

PPL served a copy of the application and plans on Schuylkill County, Ryan Township, Reading Blue Mountain & Northern Railroad Company, the Pennsylvania Department of Transportation, CTSI (Frontier), and Service Electric Cablevision. All parties of record were queried by letter dated July 10, 2025, sent via email as to any objection to the subject application and revised plans. None of the parties have responded with any objection to the subject application or revised plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience, or safety of the public.
