TO ALL PARTIES OF RECORD

Application of UGI Utilities, Inc-Electric Division for approval of the alteration of the crossing where Italy Street crosses, at grade, track owned by Norfolk Southern Railway Company (DOT 517 791 W) by the installation of an aerial wire in Conyngham Township, Luzerne County.

To Whom It May Concern:

By application received by the Commission on June 2, 2025, UGI Utilities, Inc-Electric Division (UGI) seeks Commission approval to alter the at grade crossing (DOT 517 791 W) by the installation of an aerial electric wire where Italy Street crosses a single track of Norfolk Southern Railway Company in Conyngham Township, Luzerne County.

UGI proposes to install a new aerial electric line within the right of way of Italy Street and Norfolk Southern Railway Company. The aerial wire will be attached to replacement poles located outside of the joint right of way. The new aerial facility will have a minimum of 32 feet of clearance from the track to the lowest wire.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, UGI states that the proposed aerial electric line is necessary to upgrade existing aging infrastructure. UGI will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the proposed facilities, at its sole cost and expense. The cost of the project is anticipated to be \$65,000.

All work is to be performed in accordance with the plans entitled: "EXHIBIT A" consisting of two (2) sheets submitted to the Commission with the application on June 2, 2025.

UGI has served a copy of the application and plan on Breezeline Communications, Conyngham Township Sewer Authority, Frontier Communications, Pennsylvania American Water, Conyngham Township, Norfolk Southern Railway Company, Luzerne County, and the Pennsylvania Department of Transportation. All parties in interest were queried by letter dated June 9, 2025, sent via email as to any objection to the subject application and plans, and none of the parties have responded with any objections.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.
