Data Request

1. After consultation with the Pennsylvania Department of Transportation it has been determined that in order for the vehicle driver/owner to operate under the applicant's authority with the appropriately designated "TAXI" license plate that the following conditions need to be met: the driver's personally owned vehicle would need to be registered to the applicant/authority holder (and not the vehicle's actual owner), and the vehicle could no longer be allowed to be used by the driver/owner for their own personal use.

Are you aware of these circumstances, and have you explored the viability of obtaining vehicles from owners who would be required to register their vehicles to the applicant/authority holder, install meters and dome lights on "their" personal vehicles, and would no longer be able to use their vehicles for personal use? This business model appears to require that the driver/vehicle owner to provide de facto ownership of their property to their employer and to lose the rights of personal usage.

It appears that your proposed operating model may more appropriately fall under the category of a **Transportation Network Company (TNC)**. I would encourage you to review that authority type and determine if that is more appropriate to your proposed operations.

2. You have not provided verification of the requested financial information as was fully described in the previous data request – **PROVIDE THE PREVIOUSLY REQUESTED EVIDENCE OF FINANCIAL POSITION.**
