Question 5 – Number of Drivers and Driver Standards

FLV Logistics, LLC intends to utilize 4 qualified drivers. This number is appropriate for the service area because it allows us to maintain flexible scheduling, ensure timely service, and handle multiple moves simultaneously while keeping labor costs in proportion to demand.

A. Hiring Standards for Drivers

- Must hold a valid driver's license (Class C minimum; CDL if operating larger vehicles).
- Must have an excellent driving record for the last three years, verified by a motor vehicle record (MVR) check.
- Must have verifiable moving industry experience or complete company training before unsupervised work.
- Must pass a pre-employment and criminal background check.

B. Criminal Background Checks

- All prospective drivers undergo a national criminal background check prior to hire.
- Employment offers are contingent on satisfactory results.

C. Driver Training Program

- New hires receive hands-on training in packing, loading, safe lifting techniques, equipment operation, customer service, and PUC compliance.
- Ongoing training is provided quarterly, covering safety updates, regulatory changes, and customer service skills.

D. Driver License Checks

- MVR checks are conducted annually for all drivers.
- Any license suspension, restriction, or serious violation is grounds for suspension or termination.

E. Policies Regarding Alcohol and Drug Use

- FLV Logistics, LLC maintains a zero-tolerance policy for alcohol and illegal drug use while on duty or on company premises.
- Any violation results in immediate suspension and may lead to termination.

Question 7 – Describe your vehicle safety program

A. Periodic Vehicle Maintenance Plan

- All company vehicles undergo pre-trip and post-trip inspections performed by the driver, with any defects reported immediately to management.
- Preventive maintenance (oil changes, tire inspections, brake checks, fluid top-offs, etc.) is performed every 5,000 miles or as recommended by the vehicle manufacturer, whichever comes first.
- Comprehensive inspections, including DOT-level safety checks, are performed quarterly by a certified mechanic.
- Maintenance logs are maintained for each vehicle, documenting all inspections, repairs, and parts replacements.

B. Compliance with Pennsylvania Vehicle Equipment Standards (67 Pa. Code, Chapter 175)

- All vehicles are inspected annually by a certified inspection station.
- Equipment such as lights, brakes, mirrors, safety belts, wipers, tires, and coupling devices are checked regularly to ensure continuous compliance.
- Any vehicle failing to meet safety standards is immediately removed from service until repairs are completed and verified by inspection.
- Necessary safety equipment are kept in every truck, inspected monthly, and replaced as necessary.

Question 4 – Facilities, Record Maintenance Plan, and Communication Network

Facilities

FLV Logistics, LLC operates from a commercial facility located in **Monroe, Ohio**. The premises include:

- An office space equipped with desks, computers, printers, internet access, and phone lines for administrative operations.
- A secure yard and warehouse area used for parking and maintaining moving trucks and equipment.
- Storage space for packing materials, protective equipment, and moving supplies.

Record Maintenance Plan

- All required PUC records, such as bills of lading, driver logs, vehicle maintenance reports, and insurance documentation, will be stored electronically in a secure cloud-based system with regular backups, and physically in locked file cabinets at the office.
- Business records such as invoices, contracts, and payroll will be maintained in our accounting software and backed up weekly.
- Records will be retained for the minimum period required by Pennsylvania Public Utility Commission regulations.

Communication Network

- Customer requests for transportation will be received by phone, email, and through our website contact form.
- Dispatching will be handled from the office via scheduling software, assigning jobs to crews based on vehicle availability, crew schedules, and geographic location.
- Continuous communication with drivers will be maintained through company-issued mobile phones and GPS tracking devices installed in vehicles, allowing real-time coordination and route adjustments.
