*Thank you & we appreciate your
business!*

P.O. No.	Terms:	Project
Testing	-Due on receipt	

Quantity	Description	Rate	Amount
	JDC 250124-14 Tech Note. Testing to look for Loads that would make a \$400 a month PPI bill Older style service 4-6 amp connected load while we were on site No large or vampire loads detected $6amps \times 124 volts = 744watts / 1000 = .744KW$ $.75kw \times 24hr. \times 30days = 540 KWH \times \$14 per KWH = \$75.60$ I can't help with PPI billing for other charges but this is connected load charges at the assumed rate with any lighting on you may double that to be safe \$400 for the connected loads we saw does not make sense 1 Test and documentation	100.00	100.00
Paid CC - 1/29 PSD (1/29/25) 			
Allentown Master MS01 PA Home Improvement #9441		We accept checks and all major credit cards for payment.	Total \$100.00
