Appendix B

Informational Packet

WHAT YOU NEED TO KNOW

Your water service line may be causing unsafe levels of lead in the drinking water at your home. If we find a lead public water line serving your property, we will replace it. With your permission, we will also replace the portion of the water line that you own if it is also made of lead. This pocket contains information to help you understand the water line replacement process, which portion of the water line belongs to you and which portion belongs to us, and how your lead water line may be impacting your home.

READY TO GET STARTED?

Before we can begin the process of replacing your lead water line, you will need to read, sign, and submit the agreement provided in this pocket. We are already planning on replacing the portion of the lead water line that we own, running from the water main to the curb. But if we determine that the portion you own is also made of lead, we also want to replace that portion. We need your permission because you own the portion of the water line that runs between the curb and your house.

DO YOU HAVE MORE QUESTIONS? Contact the Lead Help Desk using the email or phone number on the back of this folder.

START THE PROCESS OF SAFER WATER: Sign and mail in the agreement form today.

NOT THE OWNER OF THIS PROPERTY? Contact us to provide your landlord's contact information.

NOT THE OWNER OF THIS PROPERTY? Contact us to provide your landlord's contact information.

WATER LINE REPLACEMENT TIMELINE

This is the sequence of events for your upcoming water line replacement

- [ ] **AGREEMENT SIGNED AND SUBMITTED**
  You must sign and submit the agreement included in this packet in order for us to replace the private portion of your water line. Once you submit the agreement and service line replacement has started on your street, we will contact you to schedule an inspection of your water line connection.
- [ ] **WATER LINE INSPECTION**
  We will inspect your water line connection to determine if the portion of the water line you own is made out of lead. If we find a lead water line, we will determine an exact date for your water line replacement.
- [ ] **WATER LINE REPLACEMENT**
  If we find a lead public water line serving your property, we will replace it, and with your permission, we will replace the portion of the lead water line that you own. Our contractors may be able to use methods to drill underneath walls and other obstacles to replace your water line while minimizing the impact to your property. There is always a possibility that water line work may require our contractors to dig a trench on your property.

  SCHEDULED FOR: _____
- [ ] **FLUSH YOUR HOUSEHOLD PLUMBING**
  You must follow the instructions to flush your household plumbing following the construction on your water line. It is important to flush your plumbing whether or not construction took place on the portion of the water line that you own.
- [ ] **TAKE AND SUBMIT A WATER SAMPLE**
  To test the lead levels of your water four to six months following our construction, you must follow the instructions we provide in your lead water test kit to take a water sample and submit it to the lab for analysis.

Dear Tenant/Owner,

We are contacting you from Pittsburgh Water because we need your permission to replace your lead service line at « ServiceAddress», « City», « State» «ZipCode». If you are not the owner of this property, you should still read this letter, but please contact the Lead Help Desk to provide your landlord's or the new property owner's contact information.

Your water line, like many other old water lines throughout Pittsburgh, may be made of lead. Exposure to lead in drinking water can cause serious health effects in all age groups. Infants and children can have decreases in IQ and attention span. Lead exposure can lead to new learning and behavior problems or exacerbate existing learning and behavior problems. The children of women who are exposed to lead before or during pregnancy can have increased risk of these adverse health effects. Adults can have increased risks of heart disease, high blood pressure, kidney or nervous system problems.

PGH2O | PITTSBURGH WATER

We are scheduled to perform work on your street to replace service lines. The reason why we need your permission to replace your service line is because you own a portion of the service line. If we determine that the portion you own is made of lead, we also want to replace that portion. Without your permission to replace the section of the service line from the curb box to your property, we would be required by the Pennsylvania Public Utility Commission (PUC) to shut off your water service to protect the occupants of your property, until you have replaced this section of service line.

In addition to the benefits to your water quality and your health and safety, replacing your lead service line can also potentially improve your property value, and help you to be able to sell your property in the future. Plus, if your property has a lead service line, that means it is already old, and more likely to break and cost you money to repair it in the future.

SIGNING THE AGREEMENT

In this packet, we have included an agreement that authorizes Pittsburgh Water and our contractors to perform the construction required to replace the portion of the water service line that you own. Please review and return this agreement as soon as possible. You must sign and return the agreement to receive a full lead service line replacement. If your service line is lead and you do not return a signed agreement, we will be required to shut off water service until you have the service line replaced at your expense. After we receive the signed agreement, one of our representatives will contact you to begin the replacement process by scheduling an inspection of the service line connection inside your property.

What to Expect

If you allow us to replace the portion of the service line which you own, there will be a few times when our representatives or contractors will need to enter your property. First, before the replacement, one of our representatives must inspect your service line inside your property. This is typically located in your basement. During this visit, we will discuss options and potential obstacles to replacement before doing any work. Following this visit, we will determine an exact date for your service line replacement.

During the replacement itself, our contractors will need to enter your property for several hours. You or somebody 18 years old or older will need to be present during this time. Finally, once the work is complete the Allegheny County Health Department will need to inspect the work we have completed.

Our contractors will make every effort to minimize disruption to your property. They have methods to drill underneath walls and other obstacles, so they can replace your service line with limited impact to your property. During our construction, we may be required to make minor improvements to your internal plumbing. We will also restore your sidewalk as part of this work.

Please note that Pittsburgh Water is not responsible for restoring private property, such as lawns and driveways, that may be disrupted during the service line replacement. Details on property restoration can be found in the authorization included in this packet. Remember, if your service line is lead and you do not return a signed agreement, we will be required to shut off water service until you have the service line replaced at your expense.

Additional information regarding construction impacts as well as instructions for reducing your exposure to lead are provided in this mailing.

After the Water Line Replacement

PGH2O | PITTSBURGH WATER

Following the replacement, you will receive a certified lead water filter and pitcher at no cost. In four to six months after replacement, you will receive a free water test kit in the mail for you to sample your water.

Contact Us

If you have any questions about this lead service line replacement process, please contact our Lead Help Desk at 412.255.8987 Monday through Friday between 8:00 a.m. and 5:00 p.m. or email us at LeadHelp@pgh2o.com.

Thank you for working with us to remove harmful sources of lead from our drinking water system. We appreciate your patience and coordination as we perform this important work.

Sincerely,

William J. Pickering

PGH2O | PITTSBURGH WATER

AUTHORIZATION FOR REPLACEMENT OF THE LEAD SERVICE LINE ON YOUR PROPERTY

RESPONSE REQUIRED

The Pittsburgh Water and Sewer Authority ("Pittsburgh Water") is offering certain property owners with lead service lines, replacement of their lead service line from the water main to the curb stop and from the curb stop to the meter or to interior plumbing, at no cost to the property owner.

Under the Pittsburgh Water's Rules and Regulations, Pittsburgh Water owns and maintains residential service lines of 1 inch in diameter or less from the water main to and including the curb stop. The property owner owns and is responsible for the maintenance of that portion of the water service line running from the curb stop to the meter at the premises being served by Pittsburgh water. Commercial customers own and are responsible for maintenance of the entire service line. As part of our work on your street, for residential properties, Pittsburgh Water, subject to available funding, will be (1) replacing service lines for which Pittsburgh Water has maintenance responsibility (from the water main to the curb stop) and (2) replacing the portion of the lead water service line owned by the property owner (from the curb stop to the water meter or to interior plumbing), when the property owner signs this agreement. (A Service Line Schematic is attached as Exhibit A.) For commercial properties, subject to available funding, Pittsburgh Water will only replace the lead water service line owned by the property owner if we need to replace a portion of the service line as part of our work, and when the property owner signs this agreement.

Please return your agreement as soon as possible.

If Pittsburgh Water determines, in its sole discretion, that replacement of the portion of the lead water service line owned by the property owner at a particular property or related interior plumbing modification is not technically feasible safe and secure conditions are not present, or will result in excess expense, due to conditions such as length, terrain, obstructions, structures, pavement, trees, or other utilities, Pittsburgh Water may exclude such property from the Program and not replace the remaining portion of the lead water service line.

Property owners, or the owner's legal representative, must give their authorization by signing this Authorization for Private Side Replacement of Lead Service Line Form ("Form"). Following is a description of responsibilities of Pittsburgh Water and property owners who want to have their service line replaced:

Pittsburgh Water Responsibilities:

- As part of its Program and with the property owner's signed Form, Pittsburgh Water, subject to the terms and conditions set forth in this Form, will (1) replace the service line from the water main to the curb stop, (2) replace the service line from the curb stop to the water meter (for meters inside the property) or to a point within 1-foot inside the outer foundation wall of the property (for meters outside the property), (3) backfill any excavation from the curb stop to the property, and (4) make interior plumbing modifications related to service line replacement, as required by the Allegheny County Health Department (limited to installation of a backflow preventer and water expansion tank), all at no cost to the property owner.
- Pittsburgh Water's contractor or sub-contractor will be responsible for obtaining all necessary permits.
- Pittsburgh Water will require by contract that the contractor and/or sub-contractor are insured.
- Pittsburgh Water's contractor or sub-contractor will be responsible for providing all pipe, fittings, miscellaneous material, equipment, tools, and labor to (1) replace the service line from the curb stop to the water meter or to interior plumbing, (2) backfill any excavation from the curb stop to the property, and (3) make any interior plumbing modifications related to service line replacement included in the Program. All replacement and repair debris will be removed from the work area by Pittsburgh Water's contractor or sub-contractor upon completion of work.
- The Pittsburgh Water contractor or sub-contractor, before any work is done, will examine the areas of the property that will be disturbed by construction and provide a list of related work that may need to be done by the property owner prior to or after the service line replacement.
- Pittsburgh Water or its contractor may take interior and exterior photos before and after work begins.
- If the service line or any plumbing connected to it is damaged during the replacement of the service line and the property owner notifies Pittsburgh Water of the damage within two years of installation of the new service line, Pittsburgh Water's contractor will be responsible for repairing or replacing the damaged service line and any damaged plumbing connected to it. Pittsburgh Water will be responsible for normal maintenance of the part of the service line from the curb stop to the meter for a period of two years from the date of installation. Pittsburgh Water will not be responsible for damage to the service line caused by the property owner, any tenant, any resident, or any third party. Pittsburgh Water will otherwise have no maintenance responsibility or any other responsibility for (1) the part of the service line from the curb stop to the water meter or from an outside meter into the property or (2) interior plumbing modifications.

Property Owner's Responsibilities:

- Property owner recognizes that during the replacement and any maintenance of the service line there will be an interruption of water service to the property.
- Property owner or designee, at least 18 years in age, must be at the property on the date and time scheduled for the contractor to perform the work.
- Property owner must provide reasonable, safe, secured, lighted, and unencumbered access to the water meter and to the water service piping inside the property, including access to the wall or floor area where the water service line enters the building, and moving any items blocking access such as boxes, furniture, washers,

PGH2O | PITTSBURGH WATER

dryers, etc. If the property owner does not provide these accomodations, Pittsburgh Water reserves the right to not complete the lead service line replacement and will terminate water service at the property.

- If the meter and/or service line is located behind a finished wall, or under a finished floor such that gaining access will disrupt the room finish, the property owner is responsible for removing the obstruction and establishing the necessary access to perform the work. Restoration of the disturbed area upon completion of the service line replacement, any plumbing modifications, and maintenance is the property owner's responsibility.
- The property owner is responsible for final grading, seeding, and the restoration of exterior landscaping, hardscaping, or structures on the property that impede the replacement of the water service or maintenance, or will be disturbed as part of the service line replacement maintenance. This includes items such as steps, patios, retaining walls, specialty or tinted concrete, stone or brick walls or paving, structures of any type, grass, trees, shrubs, bushes, and flowers. Replacement and/or restoration of any such exterior landscaping, hardscaping, or structures on the property will be the responsibility of the property owner.
- After installation of the new service line, maintenance of the service line from the curb stop to the water meter and any interior plumbing modifications remain the responsibility of the property owner (except for Pittsburgh Water's limited responsibility for normal maintenance of private service lines for two years, as provided above).
- The property owner is responsible for performing the required flushing of the property's plumbing system as described in the Pittsburgh Water's Flushing Instructions for Replacement of Service Lines (attached to this Form as Exhibit B) after completion of the work.
- The property owner agrees to take tap water samples and return them to the laboratory in accordance with the Tap Water Sample Instructions for Replacement of Service Lines (attached to this Form as Exhibit C).
- For service lines for which Pittsburgh Water will provide maintenance, as described above, the property owner agrees to (1) promptly notify Pittsburgh Water of any conditions that may require maintenance of the service line, (2) promptly notify Pittsburgh Water before any sale or transfer of the property and (3) provide to the purchaser or transferee of the property, before a sale or transfer, a copy of this Form.

I hereby authorize Pittsburgh Water to (1) replace the service line from the water main to the curb stop, (2) replace the service line from the curb stop to the water meter (for meters inside the property) or to a point within 1-foot inside the outer foundation wall of the property (for meters outside the property), (3) make any included interior plumbing modifications and (4) provide any included maintenance of the service line in or on my property in accordance with the terms and conditions set forth in this Form and I agree to all of the terms and conditions of this Form.

I agree that by signing this Form that Pittsburgh Water is permitted, but not obligated, to replace the service line and make any included interior plumbing modifications.

I certify that I am the owner, or the legal representative for the owner, of the below service address property and have the legal right and authority to execute this Form and to grant Pittsburgh Water the rights set forth in this Form. I hereby grant to Pittsburgh Water and its contractors or sub-contractors the license and the right to enter this property and perform such inspections, testing, construction and repairs as determined reasonably necessary for (1) the replacement of my service line and any related interior plumbing modifications and (2) any included maintenance of the service line. I certify that if there are any tenants or other residents of the property other than the undersigned, I will provide them advance notice of the scheduled work and provide a copy of the Pittsburgh Water Flushing Instructions for Replacement of Service Lines to them.

I agree that I am responsible for ensuring that the property is in safe and sanitary condition and that the necessary plumbing shall be accessible for workers to complete the replacement of the service line and any required interior plumbing modifications.

I understand that if Pittsburgh Water determines that safe and sanitary conditions are not met, or that the plumbing is not accessible, replacement will not be done and water service to my property will be terminated.

PGH2O | PITTSBURGH WATER

YOUR RESPONSE IS REQUIRED: You must sign and submit this agreement in order for us to replace your service line. You own the portion of the service line on your property, and we will not replace it without your consent. If you DO NOT wish for us to replace this portion of your service line, you may decline using the form below. If you decline this work and have a lead service line, we are required to shut off your water service until you have the service line replaced at your expense.

Use the enclosed envelope to send us your response.

DECLINE PRIVATE LEAD LINE REPLACEMENT:

If you DO NOT want Pittsburgh Water to replace your lead water service line when it replaces the system owned part, check this box, sign here, and return this form. Declining the private water line replacement will not impact any Pittsburgh Water plans to replace the public portion of your water line. Note that partial water line replacement is prohibited because it may lead to increased levels of lead in your water.

I understand that declining the private water line replacement may shut off service to my property until a time when I have replaced the portion I own

EXHIBIT B

FIushing InstructionsHAZARDS RELATED TO LEAD SERVICE LINE REPLACEMENT AND YOUR OPTIONS

Even though we are replacing the lead service line at your property, disturbance during work may temporarily increase lead levels. These flushing instructions are an additional method to minimize lead in your property's water supply. Do not consume any tap water or open hot water faucets during the following procedures.

<u>Immediately after Pittsburgh Water performs their replacement work, flush all faucets using these steps:</u>

Throw away any ice in your freezer. If you have an automatic ice maker, shut it off.
Tip: Do not use any filtered water from your refrigerator or any other source until you complete the flushing.

Unscrew and remove the aerators from all of your sinks and taps.
Tip: If your aerator is difficult to remove, you may need to use a pair of pliers.

Once your aerators are removed, separate the parts and remove any debris. Soak the parts in white vinegar and scrub them with a brush.

Starting at the lowest level of your property and working your way up, fully turn on all the cold water taps in your sinks, tubs, and showers.
Tip: Make sure to turn on any taps and hose spigots on the outside of your property as well.

After you turn on the last tap, allow the water to run for at least 30 minutes.

Starting at the highest level of your property and working your way down, shut off each of your water taps.

PGH2O | PITTSBURGH WATER

EXHIBIT C

Water Sample Test Instructions

Pittsburgh Water asks the property owner to collect a water sample four to six months after the line is replaced. We will send the kit in the mail with return postage included. Follow the instructions for sampling the water and send to the lab as instructed in the water sample kit.

Post-Construction Water Sample

After replacing the lead water service line at your property, Pittsburgh Water requires the Owner or Occupant to sample the water in your property. In addition, Pittsburgh Water may ask you to resample the water if your initial sample shows lead levels above the Action Level of 15 parts per billion set by the U.S. Environmental Protection Agency and the Pennsylvania Department of Environmental Protection. This will help to inform you and Pittsburgh Water about the quality of drinking water in your property after lead service line replacement.

Post-Construction Pitcher Filter Use

Use the NSF-certified lead-reducing water filter provided to you for at least six months after replacement, regardless of tap sampling results.

Sample Collection Instructions

Before taking a sample of your water to send to Pittsburgh Water, water must sit stagnant for six (6) hours. This means that you should not use any water for six hours. Overnight or while you are away at work is a good time to allow the water to sit in your pipes. Collect the water sample from a tap from which you would normally drink (for example, a kitchen sink). Run the water until there is a significant change in temperature. Collect samples in the bottles provided. Follow directions included with the sample kit and return to Pittsburgh Water using the pre-paid postage.

Let's Work Together to Improve the Safety and Quality of Your Drinking Water

A lead water line may be causing unsafe levels of lead at your property. Your property is eligible to participate in Pittsburgh Water's Community Lead Response program.

If you sign and submit the lead service line replacement agreement, we will replace the portion of your lead service line at no additional cost to you. However, because the portion of the water line is on your property, you have certain responsibilities that you must complete in order to make the replacement possible, and to improve the quality and safety of your water.

Remember, declining the lead service line replacement will shut off service to your property until a time when you have replaced the portion you own.

Please contact the Lead Help Desk at LeadHelp@pgh2o.com or 412.255.8987 with any questions.

Pittsburgh Water reserves the right to exclude a property from the program due to construction feasibility or excessive cost concerns.

Property owners interested in participating in the Community Lead Response program must return the signed Agreement within ten days. Please review the enclosed agreement for additional details and requirements, including an explanation of the Pittsburgh Water's restoration policy.

Pittsburgh PA 15222

THE SHARED RESPONSIBILITY OF LEAD SERVICE LINE REPLACEMENT

PITTSBURGH WATER PGH2O

PROPERTY OWNER RESPONSIBILITIES

- Complete and return the agreement
- Be present during construction, or designate somebody else at least 18 years old to be present
- Provide contractors with clear access to the water meter and service line, both at designated inspection dates, and on the designated water line replacement date
- Allow the Allegheny County Health Department to access your property after the work is complete to conduct a final inspection of the work
- Replace any outdoor landscaping, hardscaping, or structures that are disturbed during construction. (We will make every effort to minimize disruption, but you are ultimately responsible for your property's final appearance)
- Flush out your interior plumbing after construction is complete, following the instructions provided
- Use the NSF-certified lead-reducing water filter provided to you for at least six months after replacement, regardless of tap sampling results.
- Collect and submit a water sample four to six months after construction following the instructions provided
- Follow any additional instructions for testing water after your initial sample is evaluated by Pittsburgh Water
- Notify us within two years if the service line or any plumbing connected to it is damaged during construction

PITTSBURGH WATER RESPONSIBILITIES

- Examine water service line and connections to determine whether portions are made of lead
- Require all contractors to obtain permits and carry insurance
- Prior to completing any construction, examine any areas of property that may be disturbed by construction and provide you with a list of related work that you may need to complete before, during, or after construction
- Replace the service line that is made of lead
- Make any required interior modifications associated with the service line replacement required to meet the plumbing code
- Take interior and exterior photos of the property before, during, and after to ensure safety and completeness of work
- Provide a lead test kit to sample water four to six months after construction
- Repair or replace any damaged service line or connected plumbing that is reported to us within two years of construction

Pittsburgh Water reserves the right to exclude a property from the program due to construction feasibility or excessive cost concerns.

Property owners interested in participating in the Community Lead Response program must return the signed Agreement within ten days. Please review the enclosed agreement for additional details and requirements, including an explanation of the Pittsburgh Water restoration policy.

1. Where does the lead found in tap water come from?

Lead enters drinking water through corrosion in lead pipes or plumbing materials. The primary source of lead in Pittsburgh Water water is the old water service lines that connect properties to the water main in the street. A residential lead service line is a joint responsibility—the Pittsburgh Water owns the portion of the water line that runs between the water main and the curb, and homeowners own the portion that runs between the curb and their homes. Commercial property owners own the entire service line.

Aside from lead water service lines, lead can also enter the water through:

- Interior lead pipes
- Interior galvanized iron pipes (especially if there is or was a lead water service line running to the property)
- Interior copper pipes with lead soldered joints
- Interior plumbing fixtures

2. What can I do to reduce risk of exposure to lead?

If you know or suspect that you have a lead service line or plumbing, there are ways to reduce your exposure to lead in your drinking water:

- Test your water for lead. Call us at 412-255-8987 or go to pgh2o.com/leadform to request a free lead test kit. This service is available to residential homes that receive drinking water from Pittsburgh Water.
- Run your water to flush out lead. If you haven't used your water for several hours, run your cold tap for one minute before using your water for cooking or drinking. If your home has a longer service line, this may require flushing for a longer period of time. Using toilets, washing clothes, showering, or doing dishes before you drink from your tap are all ways that you can flush your interior plumbing without wasting water.
- Use cold water for cooking and preparing baby formula. Lead dissolves more easily in hot water. Do not drink, cook with, or make baby formula using hot water.

FREQUENTLY ASKED QUESTIONS ABOUT LEAD IN DRINKING WATER

PITTSBURGH WATER PGH2O

- Do not boil water to remove lead. Boiling water does not remove or reduce lead exposure.
- Look for alternative sources or treatment of water. Purchase a NSF Water filter that is certified to remove lead. Customers can also choose to drink bottled water.
- Identify if your plumbing fixtures contain lead. Lead check swabs are available at hardware stores to help you detect lead on plumbing surfaces, such as solder and pipes. You can also go to pgh2o.com/lead to understand how to identify lead pipe materials in your home. Consider replacing pipes and fixtures that contain lead.
- Get your child's blood tested. If you think that your child may have been exposed to lead, talk to your doctor about testing your child. Allegheny County requires all children to be tested for lead exposure at approximately 9-12 months and again at 24 months.
- After replacement of a lead service line, use the NSF-certified lead-reducing water filter provided to you for at least six months after replacement, regardless of tap sampling results.

3. Why do some properties have high levels of detected lead?

Our corrosion control treatment reduces lead levels across our water service area. However, some homes may still show elevated lead levels through water sampling. This can be caused by low water usage at a property. When water is not consistently run through lead service lines or interior plumbing, orthophosphate does not have a chance to coat the inside of the pipes. Follow the tips for reducing lead exposure listed above to properly flush your pipes. You can also use filters and pitchers if necessary.

4. How does the Pittsburgh Water test homes for lead?

The Environmental Protection Agency (EPA) requires that we regularly request water samples from homes that were determined to have a lead water service line or plumbing. Results from the most recent test can be found at pgh2o.com/water-quality.

5. What's next?

We modified our water treatment process to reduce corrosion in lead pipes throughout the entire water system using orthophosphate. An extensive study completed by our water quality team showed that orthophosphate will be most effective at reducing corrosion from lead pipes. Orthophosphate improves water quality for all customer with lead service lines while we work to remove all lead lines from the system. Orthophosphate is widely used across the country to reduce lead in water.

The Community Lead Response program is replacing thousands of lead service lines throughout our water distribution system at no direct cost to our customers. Changes to state law allow us to perform lead service line replacements on private property as part of the replacement program, preventing potentially harmful partial lead service line replacements.

Resources

- To request a free customer lead test kit: Call the Pittsburgh Water Lead Help Desk at 412-255-8987 or go to pgh2o.com/leadform.
- For any other questions regarding the lead program or lead service line replacement, please call the Pittsburgh Water Lead Help Desk at 412-255-8987 or email LeadHelp@pgh2o.com
- We have created a map that displays the best available information on the location of lead service lines in our water system, including historical property data, construction records, and results from curb box inspections. To see if your home may have a lead service line, visit pgh2o.com/lead-programs.

Important notice to tenants

Pittsburgh Water will shut off water service at locations where the property owner has failed to allow us to replace a private lead service line. To help ensure safe drinking water at properties, we will replace the lead service line for free; however, we need the landlord's authorization. If your landlord does not sign the agreement to allow us to replace the lead service line, your water service will be shut off.

Contact your landlord as soon as possible to ensure that they sign and return the agreement allowing us to replace the private lead service line. If you have a good phone number or email for your landlord, please share it with the Pittsburgh Water Lead Help Desk at 412-255-8987 or by email at LeadHelp@pgh2o.com. Property owners are eligible for a free lead service line replacement, even if the Pittsburgh Water bill is overdue.

Post-Construction Pitcher Filter Use

Use the NSF-certified lead-reducing water filter provided to you for at least six months after replacement, regardless of tap sampling results.

Resources

Important Health Notice:

Water Service Line Inspection Results

Pittsburgh Water has just completed an inspection to determine whether the public and/or private portion of your water service line contains lead pipes.

TODAY'S DATE: _____

INSPECTION RESULTS:

- O No lead found
- O Lead found on public side
- O Lead found on private side - If you have not already, call to schedule an appointment to discuss the work that will occur
- O Internal inspection required - call to schedule an appointment

If lead was found on your private lead service line and you do not give us permission to replace it, we will be required to terminate water service.

PLEASE FLUSH YOUR HOUSEHOLD PLUMBING IMMEDIATELY.

Our inspection may have caused debris to enter your water service line. Follow the instructions on the other door hanger we left or visit pgh2o.com/flushing for video instructions to completely flush your household plumbing before using the water for drinking or cooking.

Use the NSF-certified lead-reducing water filter provided to you for at least six months after service line work, regardless of tap sampling results.

PGH2O

We have just performed work on your water line.

To remove any potential debris from construction and minimize your exposure to lead in your water, it is important that you thoroughly flush your household plumbing.

For more information about water safety, usage of NSF-approved water filters, and other questions you may have, please visit lead.pgh2o.com, or call the Lead Help Desk.

REMEMBER TO FLUSH YOUR HOUSEHOLD PLUMBING

Before anyone in your house drinks water or turns on the hot water in any faucets, please follow the steps on the back of this hanger to flush out your faucets, bathtubs, and showers.

Use the NSF-certified lead-reducing water filter provided to you for at least six months after replacement, regardless of tap sampling results.

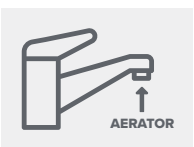
FLIP FOR ADDITIONAL INFORMATION

FLUSHING INSTRUCTIONS



FLUSHING INSTRUCTIONS

1. **Throw away any ice in your freezer. If you have an automatic ice maker, shut it off.**

   Tip: Do not use any filtered water from your refrigerator or any other source until you complete the flushing.

2. **Unscrew and remove the aerators from all of your sinks and taps.**

   Tip: If your aerator is difficult to remove, you may need to use a pair of pliers.

3. **Once your aerators are removed, separate the parts and remove any debris.** Soak the parts in white vinegar and scrub them with a brush.

4. **Starting at the lowest level of your home and working your way up, fully turn on all the cold water taps in your sinks, tubs, and showers.**

   Tip: Make sure to turn on any taps and hose spigots on the outside of your house as well.

5. **After you turn on the last tap, allow all the water run for at least 30 minutes**.

6. **Starting at the highest level of your home and working your way down**, shut off each of your water taps.

After completing these steps, the 30-minute flushing process is complete. If we replaced any lead at your property, in 4 to 6 months, you will receive a lead water test kit. Before using the kit, allow your water to sit for 6 to 8 hours and carefully follow the instructions provided to take and submit your water sample.

Exposure to lead in drinking water can cause serious health effects in all age groups. Infants and children can have decreases in IQ and attention span. Lead exposure can lead to new learning and behavior problems or exacerbate existing learning and behavior problems. The children of women who are exposed to lead before or during pregnancy can have increased risk of these adverse health effects. Adults can have increased risks of heart disease, high blood pressure, kidney or nervous system problems."

3-MONTH POST-CONSTRUCTION
SAMPLE COLLECTION INSTRUCTIONS

Dear Water Customer,

Pittsburgh Water recently replaced your lead water service line (the pipe which connects your house to the water main in the street) to your home.

120Water has been contracted to assist in testing your water after replacement of your lead service line and answer any questions you might have. You are receiving this kit because your lead water service line has been replaced. You will use the enclosed bottles to collect a water sample for testing and then utilize the prepaid shipping label to mail the sample to a state certified water quality laboratory for lead analysis. This sample is being collected to determine the lead levels in your water following your water service line replacement. The test results will be mailed directly to you **within 10 days** of the laboratory analysis of your sample.

IMPORTANT: Collect your water sample from the cold faucet in your kitchen or bathroom after your water has been sitting unused for ***6 hours****, but no longer than 24 hours*. We recommend collecting your sample either first thing in the morning or in the evening upon your returning home. Samples must be taken from a kitchen or bathroom tap used for drinking and/or cooking. Do not remove the aerator prior to sampling (the small screen on the tip of your faucet). If there is a filter on your kitchen faucet, please collect your sample from another tap.

If you have any questions about your test kit or sampling process, please contact 120Water at 800-674-7961 or Sampling@120Water.com. If you have any questions about Pittsburgh Water's drinking water, please contact the Lead Help Line at 412-255-8987 or LeadHelp@pgh2o.com.

PITTSBURGH WATER
PGH2O

Scan the QR Code to the right with your phone to watch a short sampling tutorial provided by 120Water.

STEP ONE I Kitchen tap is recommended. After your water has been unused for a minimum of 6 hours, you are ready to collect your sample.

STEP TWO A I Place bottles in order from 1–5 next to the kitchen or bathroom sink. Remove the caps from bottles 1 and 5 (caps are not provided for the other bottles) and place them next to their corresponding bottle. Do not touch the inside of the bottles or caps. Please notice the tape boundaries on the side of the bottle, and be sure to fill the bottle in between these two lines.

STEP TWO B I Place the sample bottle labeled "1st" below the faucet and then turn on the cold-water tap. If you have a single handle faucet, turn it fully to the COLD side. Fill the first sample bottle completely and be prepared to immediately start filling the next bottle once the first bottle has been filled. Repeat this process until all bottles are full, filling the sample bottle labeled "5th" last. DO NOT turn off the faucet in between filling sample bottles. Tightly cap the 1st and 5th bottles. Empty the other bottles out in the sink.

STEP THREE I Completely fill out the Chain of Custody area labeled *"To Be Filled out by the Resident."* Please note, we must have all the information filled out or your sample will not be analyzed.

STEP FOUR I Place the bottles and Chain of Custody back in the box.

STEP FIVE I Place the return shipping label on top of the original mailing label, then place the kit in your mailbox or drop it off at your nearest United States Postal Service within 3 days of collection. Or, scan the QR code here to schedule a next day USPS package pick-up.

Thank you for participating in the Pittsburgh Water lead testing program. Your test kit is helping inform you and Pittsburgh Water about the quality of our drinking water.

The results of the sample taken from 9999 Doctor Martin Luther King Junior Boulevard, Pittsburgh, PA 99999-9999 are listed in the below table. The Environmental Protection Agency (EPA) lead action level is 15 ppb.

We changed to 1st and 5th liter testing kits for post-construction samples. The 5th liter sample is intended to collect water from the service line instead of water right at the faucet where the 1st liter is collected. Test results below show lead results for each sample.

PITTSBURGH WATER
PGH2O

Sample Id	Collected On	Sample Bottle	Analyzed For	Result	Unit
123	1/1/2020	1	Lead	1.5	ppb
123	1/1/2020	5	Lead	1.5	ppb

What is the lead action level?

The lead action level is the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow when they reach or exceed 15 ppb. We ask residents from our service area to submit samples to help us determine if our treatment methods are effective at reducing corrosion from lead pipes. If more than ten percent of the samples we collect exceed the lead action level of 15 ppb, we must take certain actions like replace lead service lines and explore alternative water treatment methods. It is important to remember that this is not a safety standard because there is no safe level of lead. The Maximum Contaminant Level Goal (MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety. The MCLG for lead is 0 ppb.

What do my results mean?

If the lead result listed above is 10 ppb or greater, you should have received a complimentary water filter pitcher that is certified to remove lead delivered to the service address. Please call Pittsburgh Water at 412.255.8987 if you did not receive this. If this sample was collected after a lead service line replacement, you should use the provided pitcher and filter for a minimum of six months after replacement.

If the lead test result is ND ppb (Not Detected), this indicates that the laboratory equipment was not able to detect lead in the water sample.

Completing a lead test is a good first step in understanding your water quality. To check further for sources of lead, you can test your household plumbing for lead using swabs, which you can find at most home improvement stores. You can also check our online map at www.pgh2o.com/leadmap to see if your home has historical data on file indicating that lead pipe was used to build your service line.

What are the health effects of lead?

According to EPA, “Lead can cause serious health problems if too much enters your body from drinking water or other sources. It can cause damage to the brain and kidneys and can interfere with the production of red blood cells that carry oxygen to all parts of your body. The greatest risk of lead exposure is to infants, young children, and pregnant women. Scientists have linked the effects of lead on the brain with lowered IQ in children. Adults with kidney problems and high blood pressure can be affected by low levels of lead more than healthy adults. Lead is stored in the bones, and it can be released later in life. During pregnancy, the child receives lead from the mother’s bones, which may affect brain development.”

PITTSBURGH WATER
PGH2O

How does lead exposure happen?

The Mayo Clinic states that most exposure to lead happens by ingesting paint chips or lead contaminated dust. There can also be lead in soil and drinking water. Lead enters drinking water through corrosion in lead pipes or plumbing materials. The primary source of lead in Pittsburgh Water's system are the old water service lines that connect homes to the water main in the street. Our water mains are not made of lead, and there is no lead in our water when it leaves the water treatment facilities.

What can I do to reduce exposure to lead in drinking water?

If you know or suspect that you have lead service lines or plumbing, there are ways to reduce your exposure to lead in your drinking water:

- Run your water to flush out lead. If you haven't used your water for several hours, run your cold tap for one minute before using your water for cooking or drinking. If your home has a longer lead line, this may require flushing for a longer period of time. Using toilets, washing clothes, showering, or doing dishes before you drink from your tap are all ways that you can flush your water lines without wasting water.
- Use cold water for cooking and preparing baby formula. Lead dissolves more easily in hot water. Do not drink, cook with, or make baby formula using hot water.
- Do not boil water to remove lead. Boiling water does not remove or reduce lead exposure.
- Look for alternative sources or treatment of water. Purchase or use the provided NSF Water Filter that is certified to remove lead from your water. Customers can also choose to drink bottled water.
- Identify if your plumbing fixtures contain lead. Lead check swabs are available at hardware stores to help you detect lead on plumbing surfaces, such as solder and pipes. Consider replacing pipes and fixtures that contain lead.Contact us if you decide to replace your lead service line. Depending on your income, you may be eligible to have your lead water service line replaced at no cost.
- Get your child's blood tested. If you think that your child may have been exposed to lead, talk to your doctor about testing your child. Allegheny County requires all children to be tested for lead exposure at approximately 9-12 months and again at 24 months.

What is being done?

We are identifying and replacing thousands of lead service lines, with a goal of replacing all of the lead service lines in our system. As we identify the location of lead service lines, we make this information available to the public on our website at http://pgh2o.com.

Where can I get more information?

For more information, visit the Pittsburgh Water website at http://pgh2o.com or call 412.255.8987.

Sincerely,

William J. Pickering

We are contacting you from Pittsburgh Water with information regarding the application for reimbursement for private lead service line replacement. The results of the income verification by our PGH2O Cares Team for the resident at this property are as follows:

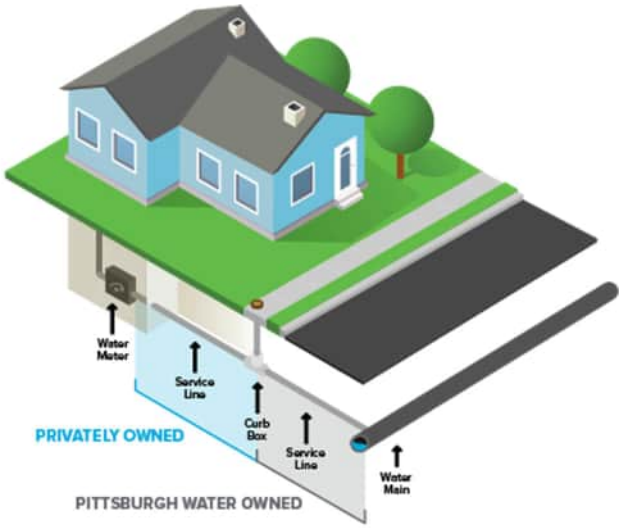
Applicant Name: «ProcessFields_CustomersFullName»
Percentage of Federal Poverty Level: «ProcessFields_PercentageofFederalPoverty»
Pittsburgh Water's Reimbursement amount: «ProcessFields_PWSAsReimbursementPercenta»
This applies to the property at: «ProcessFields_ServiceAddress»

This income verification and reimbursement amount are valid for one year from the date of this letter.

PITTSBURGH WATER
PGH2O

You must submit the attached estimate, completed by you and your plumber, to Pittsburgh Water at LeadReimbursement@pgh2o.com. You will be notified by mail when the estimate is approved and can then hire the plumber to complete the work. You will not be reimbursed for work that is completed without an approved estimate.

Pittsburgh Water reserves the right to void authorizations if eligibility conditions for reimbursement have changed before an estimate is received for review. This includes the addition of the location to a planned Pittsburgh Water work order.



A section of your water service line belongs to you, and a section of it belongs to Pittsburgh Water

As shown in the example diagram, in a typical situation, the section of your water line that runs between the water main and the curb box is owned and maintained by Pittsburgh Water. The section between the curb box and the water meter belongs to you. In some instances, this example diagram may not be indicative of ownership. Pittsburgh Water will confirm your ownership responsibilities.

The best available record for the material type of your water service line is as follows:

Homeowner's (private) portion of the service line: «ProcessFields_PrivateServiceLineMaterial»

Pittsburgh Water's (public) portion of the service line: «ProcessFields_PublicServiceLineMaterial»

Next Steps

You need to contact a licensed, private plumber to complete an inspection of your water service line entering your property. The plumber should confirm the service line material and provide you with an estimate of the costs for replacement of the section you own. Pittsburgh Water recommends that you get at least two estimates to ensure you are receiving a fair cost for this service. Once you have the estimate, you must submit the estimate for the plumber you select to Pittsburgh Water for approval prior to proceeding with the work.

Note that if the service line is confirmed to be lead or galvanized iron, Pittsburgh Water will offer reimbursement at the percentage identified above. If the service line is found to be any other material Pittsburgh Water will only reimburse you (at the percentage identified above) the cost of the test pit used to determine the material type.

If lead is found on the Pittsburgh Water-owned section during replacement, your private plumber should coordinate with Pittsburgh Water at least two weeks in advance so we can replace our section at the same time as yours.

We encourage you to use our directory of approved private plumbers

PITTSBURGH WATER
PGH2O

Included in this packet is a list of local private plumbers that Pittsburgh Water has approved to ensure that the reimbursement process is as simple as possible for you, and that no deposit is charged for the work before it begins. Once you have selected a plumber, submit their estimate to the Pittsburgh Water Lead Help Desk and Pittsburgh Water will review the estimate and notify you of the reimbursement amount. If no further information is needed, the plumber may proceed with the lead line replacement. After the final invoice for the work is submitted to Pittsburgh Water by the plumber, a check will be made out to you and the plumber for the agreed-upon reimbursement amount. You will be responsible to use this check towards the cost of the plumber and also pay for any remaining costs not reimbursed by Pittsburgh Water.

Enclosures in this letter

- A checklist of Pittsburgh Water's responsibilities and your responsibilities as the homeowner during this reimbursement process
- List of local private plumbers
- Plumbers pay items estimate form

Contact Us

If you have any questions, please contact our Lead Help Desk at 412.255.8987 Monday through Friday between 8:00 a.m. and 5:00 p.m. or email us at LeadReimbursement@pgh2o.com.

Sincerely,

William J. Pickering

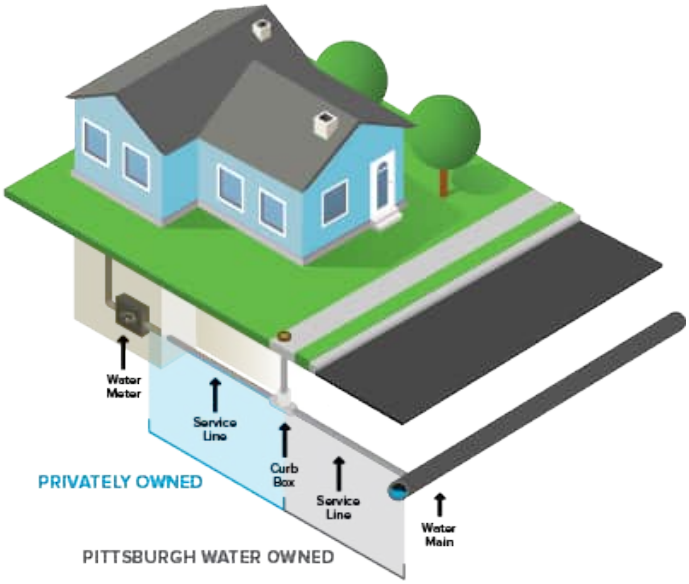
THE SHARED RESPONSIBILITY OF PRIVATE LEAD LINE REIMBURSEMENT

PITTSBURGH WATER PGH2O

Let's Work Together to Improve the Safety and Quality of Your Drinking Water

A lead water line may be causing unsafe levels of lead at your home. Through our Private Lead Line Reimbursement Program, we will financially assist you with the replacement of privately-owned lead lines to improve the quality of your drinking water.

Below are a list of responsibilities that you - the homeowner - and we will have during the reimbursement process. Please read this carefully before beginning work.



If you have any questions, please contact the Lead Help Desk at LeadReimbursement@pgh2o.com or 412-255-8987.

A section of your water service line belongs to you, and a section of it belongs to Pittsburgh Water

As shown in the diagram, in a typical situation, the section of your water line that runs between the water main and the curb box is owned and maintained by us. The section between the curb box and the water meter belongs to you. In some instances, this example diagram may not be indicative of ownership. We will confirm your ownership responsibilities.

PROPERTY OWNER RESPONSIBILITIES

- Contact the Pgh2o Cares at 412-255-2457 to determine how much we will reimburse you for the private service line work.
- Obtain at least two estimates for work.
- Hire private plumber.
- Homeowner must provide final invoice and Allegheny County Health Department inspection to PWSA
- Homeowner must pay remaining costs of private service line replacement after reimbursement.

PLUMBER RESPONSIBILITIES

- Plumber must verifiy the private and public service line material and generate and estimate to be submitted to us.
- Plumber must replace lead service line as detailed in the approved estimate.
- Plumber must provide photo documentation of public service line material.
- Plumber must coordinate with us two weeks prior to work so that our operations team can replace public lead line at the same time.

PITTSBURGH WATER RESPONSIBILITIES

- Notify customer of reimbursement level after income verification.
- Review plumber estimate and request additional detail from plumber if needed.
- Review final invoice and submit co-written check to homeowner and private plumber for agreed-upon reimbursement amount

Residents who utilize choose to work with a plumber from our approved list of private plumbers will not be required to pay for the cost of an estimate.

We are contacting you from Pittsburgh Water with information regarding your reimbursement for private lead service line replacement. Based on our most updated records, the private portion of your service line at **«ProcessFields_ServiceAddress»** is not made of lead. For this reason, you do not need to proceed with replacement work and Pittsburgh Water will not provide any reimbursement for costs if you do proceed. You can view the Homeowner's (private) portion of the service line material on the Pittsburgh Water Lead Map: pgh2o.com/leadmap. If you feel that the records we have for your property are incorrect, please contact us.

We are contacting you from Pittsburgh Water to inform you that your plumber's estimate from «ProcessFields_PlumbingCompany» submitted to our Lead Help Desk has been approved for certain eligible costs. The reimbursement amount you can expect after work is completed is as follows:

Plumber's Estimate: $«ProcessFields_PlumbersEstimateAmount»
Pittsburgh Water's reimbursement percentage: «ProcessFields_PWSAsReimbursementPercenta»
Pittsburgh Water's reimbursement amount: $«ProcessFields_TotalReimbursementAmount»
This applies to the property at: «ProcessFields_ServiceAddress»

The best available record for the material type of your water service line is as follows:

PITTSBURGH WATER
PGH2O

Homeowner's (private) portion of the service line: «ProcessFields_PrivateServiceLineMaterial»
Pittsburgh Water's (public) portion of the service line: «ProcessFields_PublicServiceLineMaterial»

Your plumber may now proceed with the private lead service line replacement. To receive reimbursement, you or your plumber must submit the Pittsburgh Water Lead Line Replacement Form, including an itemized invoice from the plumber and the Allegheny County Health Department (ACHD) final inspection report (your plumber should provide). After this has been reviewed by the Lead Help Desk Staff, and based on your application, a check for the amount listed above will be written to:

«ProcessFields_CustomersFullName» and «ProcessFields_PlumbingCompany».

FLUSHING INSTRUCTIONS

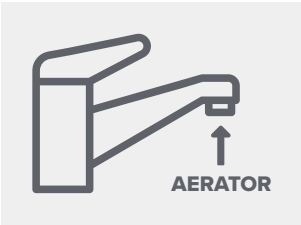
PGH2O | PITTSBURGH WATER

1. **Throw away any ice in your freezer. If you have an automatic ice maker, shut it off.**

   Tip: Do not use any filtered water from your refrigerator or any other source until you complete the flushing.

2. **Unscrew and remove the aerators from all of your sinks and taps.**

   Tip: If your aerator is difficult to remove, you may need to use a pair of pliers.



3. **Once your aerators are removed, separate the parts and remove any debris. Soak the parts in white vinegar and scrub them with a brush.**

4. **Starting at the lowest level of your home and working your way up, fully turn on all the cold water taps in your sinks, tubs, and showers.**

   Tip: Make sure to turn on any taps and hose spigots on the outside of your house as well.

5. **After you turn on the last tap, allow the water to run for at least 30 minutes.**

6. **Starting at the highest level of your home and working your way down, shut off each of your water taps.**

Please be advised that lead levels in your water may be elevated for up to six months following construction. Please use the water filter pitcher provided for your drinking and cooking needs.

Exposure to lead in drinking water can cause serious health effects in all age groups. Infants and children can have decreases in IQ and attention span. Lead exposure can lead to new learning and behavior problems or exacerbate existing learning and behavior problems. The children of women who are exposed to lead before or during pregnancy can have increased risk of these adverse health effects. Adults can have increased risks of heart disease, high blood pressure, kidney or nervous system problems."

We are contacting you from Pittsburgh Water with information regarding your application for reimbursement for private lead service line replacement. The results of the income verification by our PGH2O Cares Team for the resident at this property are as follows:

Percentage of Federal Poverty Level: «ProcessFields_PercentageofFederalPoverty»
Pittsburgh Water's Reimbursement amount: «ProcessFields_PWSAsReimbursementPercenta»
This applies to the property at: «ProcessFields_ServiceAddress»

A section of your water service line belongs to you, and a section of it belongs to Pittsburgh Water

PITTSBURGH WATER
PGH2O

As shown in the example diagram, in a typical situation, the section of your water line that runs between the water main and the curb box is owned and maintained by Pittsburgh Water. The section between the curb box and the water meter belongs to you. In some instances, this example diagram may not be indicative of ownership. Pittsburgh Water will confirm your ownership responsibilities.

The best available record for the material type of your water service line is as follows:

Homeowner's (private) portion of the service line: «ProcessFields_PrivateServiceLineMaterial»

Pittsburgh Water's (public) portion of the service line: «ProcessFields_PublicServiceLineMaterial»

Note that if the homeowner's portion of the service line is confirmed to be lead or galvanized iron, Pittsburgh Water will offer reimbursement identified above. If the service line is found to be any other material Pittsburgh Water will only reimburse you the cost of the test pit dug used to determine the material type.

If you have already replaced your service line and are seeking reimbursement after the fact, Pittsburgh Water will offer reimbursement for replacement of lead or galvanized iron if replacement occurred on or after January 1, 2019. Pittsburgh Water will review the plumber's invoice and determine if the cost of the lead service line replacement is eligible and reasonable. You will receive reimbursement as identified above for eligible costs.

If lead is found on the Pittsburgh Water -owned section during replacement, your private plumber should coordinate with us at least two weeks in advance so we can replace our section at the same time as yours.

Next Steps

After the work is completed by a licensed, private plumber and final invoice for the work is submitted to Pittsburgh Water, a check will be made out to you for the agreed-upon reimbursement amount.

Please complete the attached Pittsburgh Water Private Lead Line Reimbursement Form and return the form and attachments to LeadReimbursement@pgh2o.com.

7.1 APPENDIX A – DEFINITIONS 106

1. Introduction

This Project Management Policy and Standard Operating Procedures (PMP-SOP) describes the processes, activities, and procedures necessary to fully implement the Pittsburgh Water and Sewer Authority (PWSA) Capital Improvement Program (CIP) or other engineering projects, as the authority organizes to manage an increased workload required to meet modernization goals and to properly maintain its water utility systems.

Establishment and use of standard processes and procedures by all staff will assure the consistency, quality, and timeliness of all actions taken by the PWSA personnel in the execution of its Capital Programs. Improved interfaces between the PWSA personnel and external resources will increase this Authority's ability to deliver CIP projects on time and within budget and achieve industry-wide standards of care with the right performance results.

The PWSA has implemented a Project Management Information System, e-Builder, as a primary tool to support and automate these standard procedures. The PWSA-specific e-Builder tools, forms, and instructions will be incorporated into this PMP Manual.

This PWSA PMP-SOP was developed to document program processes to facilitate best industry practices to achieve project planning and delivery. Moreover, the PWSA strives to be recognized as a well-managed water utility. The PMP documents are designed to maximize the value of each project dollar spent so that customer rates are minimized.

The PWSA has begun to significantly increase its annual capital project spending and maintain a $100M-$200M+ annual investment to the system. This capital project volume increase demands a new level of management excellence to achieve the efficiencies necessary to meet the challenge of adhering to project schedules. The PWSA must work seamlessly as a unit, control all aspects of the CIP, minimize through internal efficiencies the impacts of external groups on the project schedule, identify and resolve issues and impediments quickly, and solve problems with consistency.

The PMP-SOP provides a living template to successfully and sustainably manage and deliver the PWSA projects. These guidelines will help PWSA track project activities and program progress against compliance obligations and other benchmarks, thus giving the PWSA an accurate "finger on the pulse." It will give the PWSA the information needed to take timely and appropriate corrective action. It will also help the PWSA Engineering and Construction Department improve consistency and quality in many areas, such as data management, contract language, policies and procedures, standardized forms and formats, interpretation, design standards, analysis, problem resolution, change management, construction management, documentation, and more, all of which will lead to better performance and productivity.

The PMP-SOP is to provide a high-level overview of the processes inherent in the successful development, planning, design, and construction of a project. In addition, it includes core functional procedures performed on a routine basis. Procedures were developed by interviewing and collaborating with a selected group of PWSA staff and consultants and developing workflows to capture the existing processes. In some cases, modifications were made to the procedures in order to establish an efficient approach and up-to-date process.

The PMP includes several tools, forms, and references to further support project activities. These tools provide the PWSA with guidance, information, and supplemental materials for use in conjunction with the procedures. These tools are to keep the processes and procedures as concise as practical and limit the need to revise procedures when the tools and forms are revised.

2. Initiation

2.1. New Project Request (NPR) Process

Revision Number	Effective Date	Description
0	10/1/2015	Procedure Issued Pros
1	11/30/2015	Updated so that the Project Manager initiates the Process
2	11/14/2016	Updated page layouts for certain roles to populate specific fields

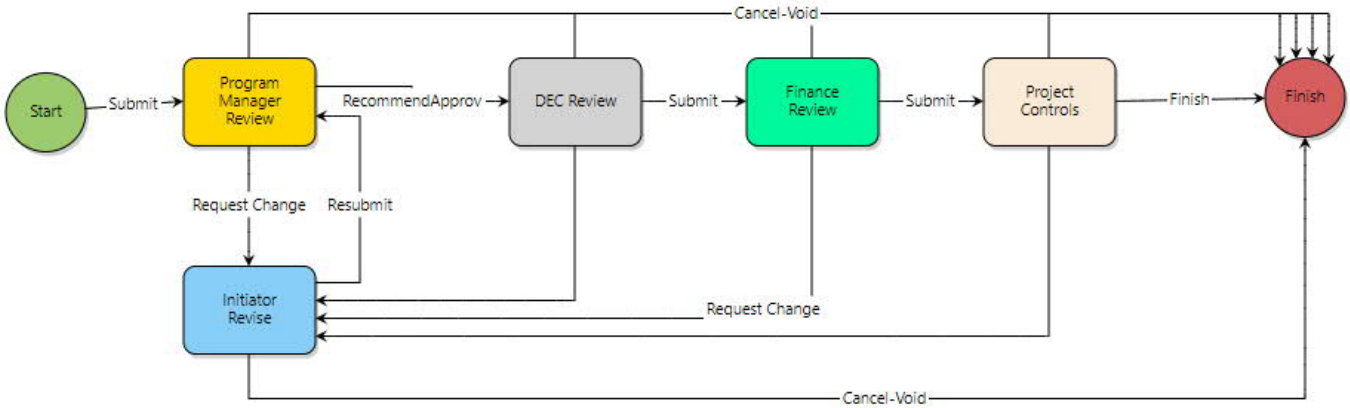
2.1.1. Overview

This procedure explains how a new capital (not in the original CIP) and specific operational funded project is prepared, set-up, reviewed and approved in e-Builder.

e-Builder is an integrated project management system that provides the project manager the ability to manage all aspects of the project from a common platform. All relevant project information is stored, managed, reported, and shared in e-Builder (i.e., cost, schedule, documents, etc.).

For PWSA to achieve the maximum value from e-Builder, every new project must be created in e-Builder at its inception. This process applies a consistent methodology for generating the necessary information for the project setup. It is required that the basic project elements be defined to provide Project Controls the essential information to create the project in e-Builder. Once the project is set-up and the budget is established, the project is ready to receive commitments. Also, all project management functions will now be available.

The process of setting up a new project is incorporated within an e-Builder structured workflow. The automation of these activities provides the advantages of process consistency, quality control, performance audits, and accountability.



2.1.2. Roles

The following project participants are involved in this process:

PROJECT MANAGER (PM)
PROGRAM MANAGER (PRGM)
DIRECTOR OF ENGINEERING AND CONSTRUCTION (DEC)
DIRECTOR OF FINANCE/DEPUTY DIRECTOR OF FINANCE/TREASURER
PROJECT CONTROLS (PC)

2.1.3. Process Overview

The workflow diagram is the standard workflow process implemented in e-Builder which identifies the roles and how the New Project Request (NPR) is processed from start to finish.

2.1.4. Process Steps

A new project is created in e-Builder by using the NPR workflow for both Capital and Operational funded projects. The following table provides detailed instructions for completing the process:

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)** or • **Embedded Consultant** – Requested by the PWSA Chief Executive Officer (CEO), Director of Engineering and Construction (DEC) or Program Manager (PrgM)	1.0 The purpose of this step is to identify the required information to establish a new project. The process Initiator, the Project Manager (PM) or Embedded Consultant, must provide the necessary information required to guide Project Controls to set-up the new project. 1.1 The Initiator begins the process by following the steps below: 1.1.1 Login to e-Builder 1.1.2 Select the **Projects** tab along the top of the screen. 1.1.3 Use the dropdown located at the top right and search for **New Project Requests**. 1.1.4 Chose the **Processes** module on the left-side panel. 1.1.5 At the top right of the screen, select **Start Process**. 1.1.6 Choose **New Project Request (NPR)**. 1.1.7 Complete all required data fields. 1.1.7.1 Subject – This will be the same as the New Project Name field 1.1.7.2 It is critical to not only identify the total project budget, but also to allocate the budget to the appropriate cost codes. If a project estimate is created, attach the estimate to the process using the Attach Documents feature. 1.1.7.3 It is also essential to develop the project schedule (i.e., start and end date). 1.2 Submit – The PM or Embedded Consultant initiates the NPR process, completes all required and necessary data fields. 1.2.1 Proceed to **Step 3**.
• **Project Manager (PM)** or • **Embedded Consultant**	2.0 **Initiator Revise** – If the NPR is returned for revision, the initiator revises as necessary and resubmits. Otherwise, this step is omitted. 2.1 Resubmit – Initiator revises information as necessary, including updating data fields, addressing comments, and/or attaching supporting documents. 2.1.1 Once the NPR is revised, the Initiator is required to enter a comment to explain the revision(s). 2.1.2 Proceed to **Step 3**.
• **Program Manager (PrgM)**	3.0 **Program Manager Review** – The Program Manager (PrgM) reviews the NPR for overall completeness and accuracy of the NPR submitted and may take one of the following actions: 3.1 Request Change – If the NPR requires revision or additional information, the PrgM returns the process to the Initiator. 3.1.1 User is required to enter a comment to explain reason for returning. 3.1.2 Return to **Step 2**. 3.2 Approve – If the NPR is acceptable, the PrgM recommends approval, and the NPR is routed to the Director of Engineering (DEC). 3.2.1 Proceed to **Step 4**.

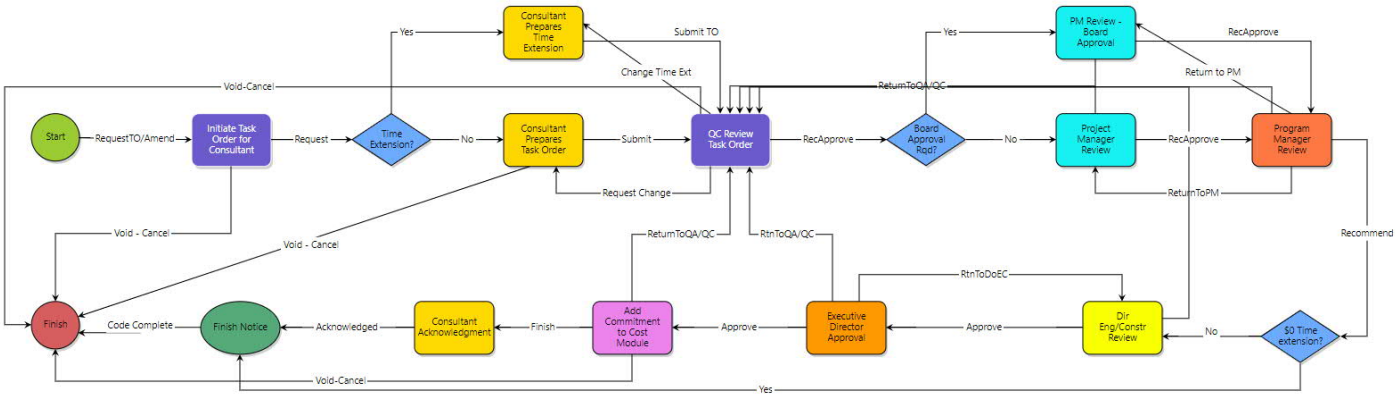
Step Actor(s)	Process Action
• **Director of Engineering and Construction (DEC)**	4.0 **Director of Engineering and Construction Review** – The Director of Engineering and Construction (DEC) reviews the NPR for overall completeness and accuracy of the NPR submitted and may take one of the following actions: 4.1 Request Change – If the NRP requires revision or additional information, the DEC returns the process to the Initiator. 4.1.1 User is required to enter a comment to explain reason for returning. 4.1.2 Return to **Step 2**. 4.2 Approve - If the NPR is acceptable, the DEC recommends approval, and the NPR is routed to the Director of Finance or Deputy of Finance/Treasurer. 4.2.1 Proceed to **Step 5**.
• **Director of Finance** or • **Deputy Director of Finance/ Treasurer**	5.0 **Finance Review**– The Director of Finance or Deputy of Finance/Treasurer, depending on the funding source (i.e., Capital, Operations, PennVest or other funding source), reviews the NPR for completeness and accuracy of the financial data and may take one of the following actions: 5.1 Request Change – If the NPR requires revision or additional information, the Director of Finance or Deputy of Finance/Treasurer returns the process to the Initiator. 5.1.1 User is required to enter a comment to explain reason for returning. 5.1.2 Return to **Step 2**. 5.2 Approve – If the NPR is acceptable, the Director of Finance or Deputy of Finance/Treasurer recommends approval, and the NPR is routed to the Project Controls (PC). 5.2.1 Proceed to **Step 6**.
• **Project Controls (PC)**	6.0 **Project Controls** – Project Controls enters all necessary and required data to set-up the new project in both e-Builder and Cogsdale. 6.1 Finish – In this step, PC will generate a project number, apply templates, add the budget and give access to the appropriate personnel. 6.1.1 Proceed to **Step 7**.
• **Finish**	7.0 **Finish** – Process is closed.

2.2. Task Order (TO) and Task Order Amendment (TOA) Process

Revision Number	Effective Date	Description
0	11/20/2015	Established Task Order Process
1	6/8/2016	Included Finance Step in the process
2	2/2/20217	Included Procurement Step in the process
3	3/2/2017	Included Executive Step in the process
4	8/25/2017	Updated page layout and instructions within the process. Removed of Legal from process
5	10/8/2018	Updating the Initiator and QA/QC Review Page Layout to include new RFQU firms, 10 categories of services, and new subject nomenclature.

2.2.1. Overview

The Task Order (TO) process is used when PWSA needs to procure professional services for planning, design, and other professional services. The selected firms providing the services are entered into a Master Service Agreement (MSA) initiated by PWSA. The TO must define the scope, cost and schedule to specify the elements of work. If changes are to be made to the original TO, a Task Order Amendment (TOA) is to be submitted. A TOA can be submitted for time extensions, scope changes or monetary reasons.



2.2.2. Roles

The following project participants are involved in this process:

Consultant
Program Controls Administrator
Project Manager (PM)
Program Manager (PrgM)
Director of Engineering and Construction (DEC)
Chief Executive Officer (CEO)
Project Controls (PC)

2.2.3. Process Overview

This workflow diagram is the standard workflow process implemented in e-Builder which identifies the roles and how a TO/TOA is processed from start to finish.

2.2.4. Process Steps

The standard operating procedure for the Task Order (TO)/Task Order Amendment (TOA) is outlined in the following table which provides detailed instructions, including roles, responsibilities and accountability.

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)** or • **Embedded Consultant** – Requested by the PWSA Chief Executive Officer (CEO), Director of Engineering and Construction (DEC) or Program Manager (PrgM)	1.0 **Start** - The purpose of this step is to define the Task Order (TO)/Task Order Amendment (TOA) requirements. In this step, the process Initiator must provide the information required to guide the consultant in the preparation of the draft TO/TOA. Before beginning this step, it is critical for the Initiator to confirm with the Program Manager (PrgM) and/or Director of Engineering and Construction (DEC), in order to fully understand the TO/TOA requirements and explain them in this step. 1.1 The Initiator begins the process by following the steps below: 1.1.1 Login to e-Builder 1.1.2 Select the **Projects** tab along the top of the screen. 1.1.3 Use the dropdown located at the top right and search for the project a process needs to be created for. 1.1.4 Chose the **Processes** module on the left-side panel. 1.1.5 At the top right of the screen, select **Start Process**. 1.1.6 Choose **Task Order or Task Order Amendment (TO)**. 1.1.7 Complete all required data fields. 1.1.7.1 Beware that some fields apply to a TO and other fields apply to a TOA. 1.1.7.2 Complete all the required data fields and attach supporting documentation. 1.1.7.3 It is very important that an initial project budget is identified and that the budget is allocated to the appropriate scope tasks and the cost code that should be used. 1.2 Request TO/Amend – The PM or Embedded Consultant initiates the TO/TOA process, completes all required fields and attaches necessary documents. 1.2.1 Status of the TO/TOA is set to “Pending.” 1.2.2 Proceed to **Step 2**.

Step Actor(s)	Process Action
• **Program Controls Manager Administrator**	2.0 **Program Controls Manager Administrator** – The Program Controls Manager Administrator reviews the TO/TOA for overall completeness and accuracy, and may take one of the following actions: 2.1 Request to Consultant – If the TO/TOA is acceptable, the Program Controls Manager Administrator will complete the following criteria: 2.1.1 Complete all required data fields, including the following: 2.1.1.1 Contract Name 2.1.1.2 Contract Number 2.1.1.3 TO/TOA Name 2.1.1.4 TO/TOA Number 2.1.2 Confirms the amount budgeted falls within the accurate line item. 2.1.3 Attaches the Exhibit C template (see Appendix A.1 Task Order and Task Order Amendment Exhibit C & D template) for the Consultants to complete, except for Time Only Extensions TOA's. 2.1.4 Status will be displayed as "Request." 2.1.5 Return to **Step 3**. 2.2 Void-Cancel – If it is determined the TO/TOA needs to be cancelled (i.e., duplicate, error, etc.), the Program Controls Manager Administrator cancels the process instance. 2.2.1 User is prompted to confirm the action. 2.2.2 User is prompted to enter required comments to explain reason for cancelling. 2.2.3 Status of the TO/TOA is set to "Void." 2.2.4 Proceed to **Step 11**.

Step Actor(s)	Process Action
• **Consultant**	3.0 **Consultant Prep Step** – The Consultant is responsible for preparing the cost for the scope of work and resources the PM has requested to complete the task. The Consultant is to download and complete the Exhibit C template (found under Attached Documents). Once the template is completed, the Consultant must attach the completed Exhibit C to the "Exhibit C (Budget)" field, this does not apply to Time Extension Only amendments. The Consultant reviews the TO/TOA for overall completeness and accuracy, and may take one of the following actions: 3.1 Submit Task Order – If the TO/TOA is acceptable and includes the required information listed below; the Consultant submits the TO/TOA and it is routed to the Program Controls Manager Administrator for the QA/QC Review. 3.1.1 **New Task Order**: 3.1.1.1 Define Scope of Work (attached under Exhibit A) 3.1.1.2 Proposed TO fee 3.1.1.3 Minority participation percentage(s) (i.e., MBE/WBE/SDVBE) 3.1.2 **New Amendment**: 3.1.2.1 Original TO fee 3.1.2.2 Proposed Amendment fee 3.1.2.3 Previous Approved Amendment 3.1.2.4 Total fee including the Amendment being submitted 3.1.2.5 Amended minority participation percentage(s) (i.e., MBE/WBE/SDVBE) 3.1.3 **Time Extension Only**: 3.1.3.1 Original TO dates 3.1.3.2 New TO dates 3.1.4 Status will be displayed as "Submitted." 3.1.5 Proceed to **Step 4**. 3.2 Void-Cancel – If it is determined the TO/TOA needs to be cancelled (i.e., duplicate, error, etc.), the Consultant cancels the process instance. 3.2.1 User is prompted to confirm the action. 3.2.2 User is prompted to enter required comments to explain reason for cancelling. 3.2.3 Status of the TO/TOA is set to "Void." 3.2.4 Proceed to **Step 11**.

Step Actor(s)	Process Action
• **Program Controls Manager Administrator**	4.0 **QA/QC Review** – The Program Controls Manager Administrator reviews the TO/TOA documents for overall completeness but is not responsible for accuracy of the services rendered and/or associated terms/conditions. The Program Controls Manager Administrator may take one of the following actions: 4.1 Request Change – If the TO/TOA requires revision, additional information or documents, the Program Controls Manager Administrator returns the process to the Consultant. 4.1.1 User is required to enter a comment to explain reason for returning. 4.1.2 Status is set to "Submitted." 4.1.3 Return to **Step 3**. 4.2 Request Change – Time Extension – If the TO/TOA requires revision, additional information or documents, the Program Controls Manager Administrator returns the process to the Consultant. 4.2.1 User is required to enter a comment to explain reason for returning. 4.2.2 Status is set to "Submitted." 4.2.3 Return to **Step 3**. 4.3 To Project Manager - If the TO/TOA is acceptable, the Program Controls Manager Administrator recommends approval, and the TO/TOA is routed to the PM. 4.3.1 Status is set to "Pending." 4.3.2 Proceed to **Step 5**. 4.4 Void-Cancel – If it is determined the TO/TOA needs to be cancelled (i.e., duplicate, error, etc.), the Program Controls Manager Administrator cancels the process instance. 4.4.1 User is prompted to confirm the action. 4.4.2 User is prompted to enter required comments to explain reason for cancelling. 4.4.3 Status is set to "Void." 4.4.4 Proceed to **Step 11**.

Step Actor(s)	Process Action
• **Project Manager (PM)** or • **Embedded Consultant** – Requested by the PWSA Chief Executive Officer (CEO), Director of Engineering and Construction (DEC) or Program Manager (PrgM)	5.0 **Project Manager Review/Board Approval**– The PM reviews the TO/TOA for completeness and accuracy, including scope, schedule, and cost, and may take one of the following actions: 5.1 Return to QA/QC – If the TO/TOA requires revision or additional information, the PM returns the process to the Program Controls Manager Administrator. 5.1.1 The PM should resolve the issues with the Consultant. This can be conducted by using the comment feature in the process. 5.1.2 The PM must determine if the current project budgets can fund the TO/TOA. If additional funds are needed, an explanation of the budget increase is required in the "Project Manager Review Comments" text field. The proposed budget adjustments are reflected in the "Revised Task Budget" fields. 5.1.3 User is required to enter a comment to explain reason for returning. 5.1.4 Proceed to **Step 4**. 5.2 Recommend Approval – If the TO/TOA is acceptable, the PM recommends approval, and the TO/TOA is routed to the Program Manager (PrgM). 5.2.1 If Board Approval is required, attach the signed Board Resolution. 5.2.2 Proceed to **Step 6**.
• **Program Manager (PrgM)**	6.0 **Program Manager Review –** The PrgM reviews the TO/TOA for completeness and accuracy, including scope, schedule and cost, and may take one of the following actions: 6.1 Return to PM – If the TO/TOA requires revision or additional information, the PrgM returns the process to the PM. 6.1.1 User is required to enter a comment to explain reason for returning. 6.1.2 Proceed to **Step 5**. 6.2 Return to QA/QC – If the TO/TOA requires revision such as, a formatting, amending data and/or budget adjustment, the PrgM returns the process to the Program Controls Manager Administrator. 6.2.1 User is required to enter a comment to explain reason for returning. 6.2.2 Proceed to **Step 4**. 6.3 Recommend – If the TO/TOA is acceptable, the PrgM recommends approval, and the TO/TOA is routed to the Director of Engineering and Construction (DEC). 6.3.1 Proceed to **Step 7**. 6.3.2 If a Time Extension Only, Proceed to **Step 11**.

Step Actor(s)	Process Action
• **Director Engineering and Construction (DEC)**	7.0 **Director of Engineering and Construction Review –** The DEC reviews the TO/TOA for completeness and accuracy, including scope, schedule and cost, and may take one of the following actions: 7.1 Return to QA/QC – If the TO/TOA requires revision or additional documentation, the DEC returns the process to the Program Controls Manager Administrator. 7.1.1 User is required to enter a comment to explain reason for returning. 7.1.2 Proceed to **Step 4**. 7.2 Approve – If the TO/TOA is acceptable, the DEC recommends approval, and the TO/TOA is routed to the Chief Executive Officer (CEO). 7.2.1 Proceed to **Step 8**.
• **Chief Executive Officer (CEO)**	8.0 **Chief Executive Officer Review –** The CEO reviews the TO/TOA's details and may take one of the following actions: 8.1 ReturnToDoE&C – If the TO/TOA requires revision or to justify the scope of work, the CEO returns the process to the DEC. 8.1.1 User is required to enter a comment to explain reason for returning. 8.1.2 Status will be displayed as "Submitted." 8.1.3 Proceed to **Step 7**. 8.2 ReturnToQAQC – If the TO/TOA requires revision, additional information or documents to be addressed with the Consultant, the CEO returns the process to the Program Controls Manager Administrator. 8.2.1 User is required to enter a comment to explain reason for returning. 8.2.2 Status will be displayed as "Submitted." 8.2.3 Proceed to **Step 4**. 8.3 Accept - If the TO/TOA is acceptable, the CEO recommends approval, and the TO/TOA is routed to Project Controls (PC). 8.3.1 Status will be displayed as "Approved." 8.3.2 Proceed to **Step 9**. 8.4 Void-Cancel – If it is determined the TO/TOA needs to be cancelled (i.e., duplicate, error, etc.), the CEO cancels the process instance. 8.4.1 User is prompted to confirm the action. 8.4.2 User is prompted to enter required comments to explain reason for cancelling. 8.4.3 Status will be displayed as "Void." 8.4.4 Proceed to **Step 11**.

Step Actor(s)	Process Action
• **Project Controls (PC)**	9.0 **Project Controls** – PC will verify the accuracy of the TO/TOA and take one of the following actions: 9.1 ReturnToQAQC – If the TO/TOA requires revision, additional information or documents to be addressed with the Consultant, PC returns the process to the Program Controls Manager Administrator. 9.1.1 User is required to enter a comment to explain reason for returning. 9.1.2 Status will be displayed as "Submitted." 9.1.3 Proceed to **Step 4**. 9.2 TO Approved - If the TO/TOA is acceptable, PC adds the Commitment and creates the Purchase Order (PO) in Cogsdale then recommends approval and the TO/TOA is routed to the Consultant. 9.2.1 Status will be displayed as "Approved." 9.2.2 Proceed to **Step 10**. 9.3 Void-Cancel – If it is determined the TO/TOA needs to be cancelled (i.e., duplicate, error, etc.), PC cancels the process instance. 9.3.1 User is prompted to confirm the action. 9.3.2 User is prompted to enter required comments to explain reason for cancelling. 9.3.3 Status will be displayed to "Void." 9.3.4 Proceed to **Step 11**.
• **Consultant**	10.0 **Consultant Acknowledgement –** The Consultant acknowledges the TO/TOA has been approved by the appropriate personnel. 10.1 Finish – The Consultant will acknowledge the TO/TOA process has been completed. 10.2 Status will be displayed to "Finished." 10.3 Proceed to **Step 11**.
• **Finish**	11.0 **Finish** - Process is closed.

2.2.5 Appendix A.1 Task Order and Task Order Amendment Exhibit C & D Template

PWSA TASK ORDER/AMENDMENT EXHIBIT C INSTRUCTIONS

*An additional Exhibit C or D may be used if space provided is not sufficient.

General Instructions

1. DEFINITION: A task is a type of service that will be performed in a Task Order or Amendment, for example, it might be Design Engineering, or Construction Management, or Field Inspection. A project budget may contain individual budgets for each type of service. A Task Order or Amendment may provide for one or more type(s) of service. When preparing this Exhibit C, make sure that each type of service is separately annotated, and that the cost of labor and expenses for each type of task (budget code) is distinctly represented. PWSA's goal is to individually track the cost of each type of task or service.
Should the amount of staff needed exceed the total number of columns, you may provide an addtional completed template for each Exhibit. Just be sure your TO/Amendment Total Fee matches as an accumalative value.
2. See the Budget Codes tab for an explanation of where a Task type should be applied in this Exhibit.
3. Use these Exhibit forms as is. **Do not attempt** to alter them. **If they are altered they will be rejected.** If a change should be considered, discuss with your PWSA point of contact.
4. **Be sure** that all labor rates used in these forms are consistent with the rates used in the Master Services Agreement.

Exhibit C.1

Purpose: Exhibit C.1 identifies the Consultant's staff members who will contribute to each Task type to be provided,their MSA classification, their Task Order role, their anticipated labor hours, and their labor costs.
1. The Consultant's Scope of Services must be defined according to the distinct tasks that apply to a project budget code. The cost to perform each Task must be captured on this Exhibit.
2. On Row 45, enter each Consultant staff member name in a different column.
3. On Row 46, enter each Consultant Staff member's Master Service Agreement classification in a different column.
4. On Row 47, enter each Consultant Staff member's Task Order role in a different column.
5. Enter the hours each staff person will contribute to each task in the rows below each staff person's name. **If it doesn't apply, leave row blank.**
6. Enter the Subconsultant markup as an integer or decimal number (field is coded as a percentage). The spreadsheet will calculate the Total Hours and Total Labor Cost for the Consultant.

Exhibit C.2

Purpose: Exhibit C.2 captures the Consultant's anticipated expenses. Note that there is a table section for each Task type (budget code).
1. Exhibit C.1 will auto-populate each staff person's name in the appropriate row.
2. In Column B enter the type of expense that will be invoiced, e.g. mileage, hotel, auto rental. These fields are editable.
3. The spreadsheet will calculate the total costs by person and by task.
4. Repeat 1 - 3 for each Task type.

Exhibit C.3

Purpose: This table captures the Sub Consultants' anticipated costs and MBE/WBE/VBE/SDVBE classification. Note that the entries in this table are all inclusive of both labor and expenses.
The details of this data must be reflected in the required attached Sub Consultants' proposals.
1. Enter the name of each Sub Consultant firm in the Columns of the table.
2. Enter the cost **by task** of each Sub Consultant firm.
3. The spreadsheet will calculate the total costs by Sub Consultant and by Task.

Exhibit C.4

Purpose: In this Exhibit C.4, the Consultant should enter into lines 4, 5, and 6, as needed, any stipulations PWSA should consider about the Task Order or Amendment proposed budget.
Note that items 1, 2, and 3 are required by PWSA, and cannot be changed.

Exhibit C.4: ASSUMPTIONS

LIST OF ASSUMPTIONS RELATED TO BUDGET AND EXPENSES - List any conditions the Consultant places on the Budget and Expenses indicated above.

1	Consultant shall notify the Authority's Representative when expenditures based upon the billing of this Task Order reaches 50, 75 and 90% of the total budget, and an estimate of the time and funds necessary to complete the work. If additional funds are requested and not authorized in writing by the Authority's Representative, the Consultant shall reduce the scope of work to complete within the funds available.
2	In no event shall the Consultant's total billings for the services performed under this Task Order exceed the approved Fee amount without the Authority's written authorization and notice that it has approved an increase in the budget limit and funds available.
3	Should a key or non-key staff person not listed on an approved Task Order get assigned to the task, an Action Item to the project manager will suffice to acknowledge the change without an increase to the overall total fee. This MUST be done within 30 days of the assignment, preferably before PWSA receives the invoice for the time in which work was performed. Project Managers have the right to reject or accept the assignment of a staff person with proper justification. The consultant has the right to appeal that decision to the Director of Engineering and Construction.

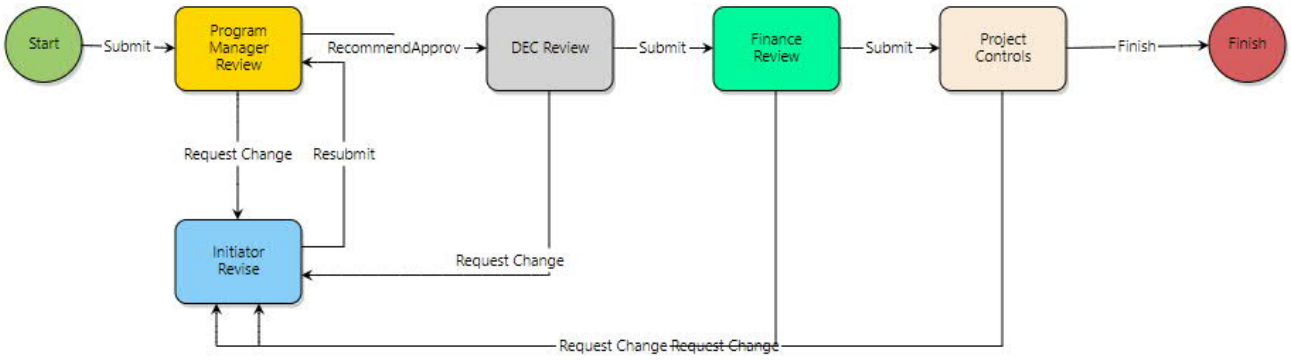
2.3. New Private Developer Project (NPDP) Process

Revision Number	Effective Date	Description
0	7/11/2019	Established New private Developer Project Process

2.3.1. Overview

The New Private Developer Project ("NPDP") process is used when a private property owner/developer is constructing new or relocated water, sewer and/or related infrastructure that PWSA will own and maintain at the completion of the project.



2.3.2. Roles

The following project participants are involved in this process:

Project Manager (PM)
Program Manager (PrgM)
Director of Engineering and Construction (DEC)
Director of Finance
Project Controls (PC)

2.3.3. Process Overview

This workflow diagram is the standard workflow process implemented in e-Builder which identifies the roles and how a NPDP is processed from start to finish.

2.3.4. Process Steps

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)** or • **Embedded Consultant** – Requested by the PWSA Chief Executive Officer (CEO), Director of Engineering and Construction (DEC) or Program Manager (PrgM)	1.0 **Start** - The purpose of this step is to identify the required information to establish a New Private Developer Project (NPDP). The process Initiator, the Project Manager (PM) or Embedded Consultant, must provide the necessary information required to guide Project Controls to set-up the new project. 1.1 The Initiator begins the process by following the steps below: 1.1.8 Login to e-Builder 1.1.9 Select the Projects tab along the top of the screen. 1.1.10 Use the dropdown located at the top right and search for **New Private Developer Project**. 1.1.11 Chose the Processes module on the left-side panel. 1.1.12 At the top right of the screen, select Start Process. 1.1.13 Choose **New Private Developer Project (NPDP).** 1.1.14 Complete all required data fields. 2.1.7.1 Subject – This will be the same as the New Private Developer Project 2.1.7.2 It is critical to not only identify the total project budget, but also to allocate the budget to the appropriate cost codes. If a project estimate is created, attach the estimate to the process using the Attach Documents feature. 2.1.7.3 It is also essential to develop the project schedule (i.e., start and end date). 1.3 Submit – The PM or Embedded Consultant initiates the NPDP process, completes all required fields and attaches necessary documents. 1.3.1 Proceed to **Step 3**.
• **Project Manager (PM)** or • **Embedded Consultant**	2.0 **Initiator Revise** – If the NPDP is returned for revision, the initiator revises as necessary and resubmits. Otherwise, this step is omitted. 2.1 Resubmit – Initiator revises information as necessary, including updating data fields, addressing comments, and/or attaching supporting documents. 2.1.1 Once the NPR is revised, the Initiator is required to enter a comment to explain the revision(s). 2.1.2 Proceed to **Step 3**.
• **Program Manager (PrgM)**	3.0 **Program Manager Review** – The Program Manager (PrgM) reviews the NPDP for overall completeness and accuracy of the NPR submitted and may take one of the following actions: 3.1 Request Change – If the NPDP requires revision, additional information or documents, the PrgM returns the process to the Initiator. 3.1.1 User is required to enter a comment to explain reason for returning. 3.1.2 Proceed to **Step 2**. 3.2 Approve – If the NPDP is acceptable, the PrgM recommends approval and the NPDP is routed to the Director of Engineering (DEC). 3.2.1 Proceed to **Step 4**.

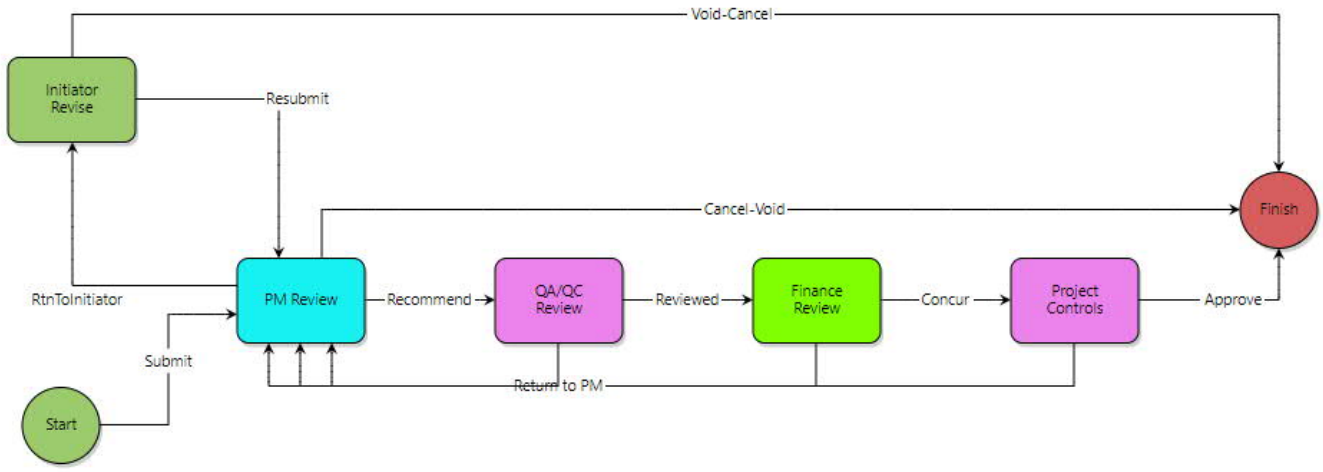
Step Actor(s)	Process Action
• **Director of Engineering and Construction (DEC)**	4.0 **Director of Engineering and Construction Review** – The Director of Engineering and Construction (DEC) reviews the NPDP for overall completeness and accuracy of the NPDP submitted and may take one of the following actions: 4.1 Request Change – If the NPDP requires revision, additional information or documents, the DEC returns the process to the Initiator. 4.1.1 User is required to enter a comment to explain reason for returning. 4.1.2 Proceed to **Step 2**. 4.2 Approve - If the NPDP is acceptable, the DEC recommends approval, and the NPR is routed to the Director of Finance. 4.2.1 Proceed to **Step 5**.
• **Director of Finance**	5.0 **Finance Review**– The Director of Finance reviews the NPDP for completeness and accuracy of the financial data and may take one of the following actions: 5.1 Request Change – If the NPDP requires revision or additional information, the Director of Finance returns the process to the Initiator. 5.1.1 User is required to enter a comment to explain reason for returning. 5.1.2 Proceed to **Step 2**. 5.2 Approve – If the NPDP is acceptable, the Director of Finance recommends approval and the NPDP is routed to the Project Controls (PC). 5.2.1 Proceed to **Step 6**.
• **Project Controls (PC)**	6.0 **Project Controls** – Project Controls enters all necessary and required data to set-up the NPDP in e-Builder. 6.1 Finish – In this step, PC will generate a project number, apply templates, add the budget and give access to the appropriate personnel. 6.1.1 Proceed to **Step 7**.
• **Finish**	7.0 **Finish** – Process is closed.

2.4. Vendor Invoice (VI) Process

Revision Number	Effective Date	Description
0	5/26/2015	Process established
1	3/4/2016	Per Interim Chief Executive Officer (Jim Good) remove his role from VI process
2	8/8/2017	Removal of Chief Executive Officer and updates to Initiator Step layout
3	11/10/2017	Updated version of the VI checklist. Removed #14 (Have all daily reports been submitted?), updated #8. PWSA Task Order No. to say MM23-99, CE27-52, and inserted word "box" after "Comment" for #6.
4	9/13/2019	Included Dynamic Grid on Initiation Step for uploading and tracking M/W/SDVBE subconsultants commitment and invoice amount to report to the Board on a monthly basis.
5	9/1/2021	Updated VI Checklist to require consultants to include Diversity Participation invoice financial information in the dynamic grid in Vendor Invoice Details tab. Prime consultants must have their subconsultant include (Project Name/Number, Task Order or Amendment Name/Number, and summary financial (i.e., Budget amount, Invoice Amount, Bill-to-Date, and Remaining) on invoices when attached.

2.4.1. Overview

The Vendor Invoice ("VI") process is used to manage the submission, review, and approval of invoices from vendors. This process is integrated with the Actual Cost (Commitment) object in the e-Builder Cost module and will automatically update cost information directly from the process.



2.4.2. Roles

The following project participants are involved in this process:

Vendor/Consultant
Project Manager (PM)
Finance
Project Controls (PC)

2.4.3. Process Overview

This workflow diagram is the standard workflow process implemented in e-Builder which identifies the roles and how the VIs are processed from start to finish.

2.4.4. Process Steps

The standard operating procedure for the Vendor Invoice ("VI") is outlined in the following table which provides detailed instructions, including roles, responsibilities, accountability, and checklist requirements for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **Vendor**	1.0 The purpose of this step is to define the Vendor Invoice (VI) process so the VI can be properly executed. The Initiator, typically the Vendor, prepares all required supporting documents and information to begin the process. 1.1 Submit – The Vendor or PC initiates the invoice process, completes the required information, and attaches supporting documents. The Initiator will also enter the invoice amounts for each line item. 1.1.1 Once the invoice is submitted, the status is displayed as "Received." 1.1.2 Proceed to **Step 3**.

Step Actor(s)	Process Action
• **Vendor**	2.0 **Initiator Revise** – If the invoice was returned for revision, the Initiator revises as necessary and resubmits. Otherwise, this step is omitted. If the amount of the invoice needs to be edited to reflect a revised amount as marked up by any reviewer, the Initiator revises all affected line items. The invoice will also need amended if not all requirements pertaining to the Vendor Invoice Checklist have been included. 2.1 Resubmit – Initiator amends information as necessary, including updating invoice amounts and/or data fields. 2.1.1 Once the invoice is amended, the Initiator is required to enter a comment to explain the modification(s). 2.1.2 Proceed to **Step 3**.
• **Project Manager (PM)**	3.0 **PM Review** – The PM reviews the invoice for completeness and accuracy. In cases where the invoice requires review by a Project Manager (PM), the PM may use the Request Comment or Delegate feature to route the process to another reviewer. The PM or delegate may take one of the following actions: 3.1 Cancel-Void – If it is determined that this invoice needs to be cancelled (i.e., duplicate, error, etc.), the PM cancels the process. 3.1.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 3.1.2 The status will be displayed as "Void." 3.2 Rtn to Initiator – If the invoice requires revision or additional information, the PM returns the process to the Initiator. 3.2.1 User is required to enter a comment to explain reason for returning. 3.2.2 Proceed to **Step 2**. 3.3 Recommend – If the invoice is acceptable, the PM recommends approval, and the invoice is routed to Finance Review. 3.3.1 Proceed to **Step 4**.
• **Project Controls**	4.0 **QA/QC Review –** Project Controls (PC) reviews the invoice, compares the information entered into the VI's instance page and may take one of the following actions: 4.1 Return to PM – If the invoice requires revision or additional information, PC returns the process to the PM who may subsequently return it to the Initiator. 4.1.1 User is required to enter a comment to explain reason for returning. 4.1.2 Proceed to **Step 3**. 4.2 Recommend – If the invoice is acceptable, PC recommends approval, and the invoice is routed to Finance Review. 4.2.1 User is required to enter a comment to explain reason for returning. 4.2.2 Proceed to **Step 5**.

Step Actor(s)	Process Action
• **Finance**	5.0 **Finance Review** – Finance reviews rate tables, backup details, inspection reports, and cost and may take one of the following actions: 5.1 Return to PM – If Finance requires revision or additional information, the invoice will be returned to the PM who may subsequently return it to the Initiator. 5.1.1 User is required to enter a comment to explain reason for returning. 5.1.2 Proceed to **Step 3**. 5.2 Concur – If the invoice is acceptable, Finance indicates concurrence and advances the process. 5.2.1 Proceed to **Step 6**.
• **Project Controls (PC)**	6.0 **Project Controls** – Project Controls (PC) enters the invoice information into Cogsdale, prepares requisition reports, and submits for payment. After payment is made, PC updates Cogsdale and e-Builder, and closes the e-Builder process. 6.1 Close – PC enters payment details into e-Builder, including the Cogsdale Receipt No., Cogsdale PO No., Requisition No., and payment date, and closes the e-Builder process. 6.1.1 Once the invoice is approved, the status will be displayed as "Paid." 6.1.2 Proceed to **Step 7**.
• **Finish**	7.0 **Finish** - Process is closed.

Appendix A.1 - e-Builder Vendor Invoice Checklist (Version 8)

The responsibility and actions taken for a Vendor to submit an invoice to the PWSA will be to populate the following fields in e-Builder below.

The consultant should make sure they are applying the invoice to the correct **PWSA project name** and **project number.**

Consultant must populate following items on the Details tab in e-Builder (EB).

1. ☐ Invoice Number
2. ☐ Invoice Date
3. ☐ Invoice File (attach the invoice file that contains staff working on project, hours, date, bill rates, cost, and other project invoice information. The prime consultants must submit their invoices (as well as their subconsultants invoices) every month, for the work performed within a specific month. The monthly invoice should include labor and associated expenses incurred in that month.)
4. ☐ Invoice Period From (This includes dates on expenses and subconsultant invoices)
5. ☐ Invoice Period To (This includes dates on expenses and subconsultant invoices)
6. ☐ Does this invoice overlap another invoices time period on this commitment? If yes, select the "Yes" button and enter a comment in the "Comment" box tab.
   If no, select "No" button.
7. ☐ Final Invoice (Select "Yes" if this is the final and last invoice, if not select "No")
8. ☐ PO/Limit (This will be either the Purchase Order amount provided by PWSA per contract or proposal award, or the maximum current commitment amount)
9. ☐ PWSA Task Order No. (i.e., MM-PRGM-05, HT-CM-12, CE27-52, URS27-55 Amendment 1, CMD00-05 Amendment 3 or if there is not a Task Order, please enter “N/A”)
10. ☐ Task Order/PO Start Date (Enter the start date of the PO or Task Order/Amendment)
11. ☐ Task Order/PO End Date (Enter end date of the PO or Task Order/Amendment)
12. ☐ Consultant/Vendor Contact Person (e.g., ACME Inc/John Smith)
13. ☐ Subconsultant on TO/TOA (Include only the subconsultants listed on the attached invoice i.e., ABC Inc, XYZ Inc, etc.).
14. ☐ **NOTE:**

    a. If additional “non-key personnel” (i.e., additional staff not listed on the TO/TOA to provide support on the project, someone filling in for another member on the team who is out on vacation/sick leave, or supporting the project for a short period of time) are invoiced, but not included on the original Task Order or Task Order Amendment, the Consultant must file an Action Item to the PWSA Project Manager advising them of the following:
       i. Staff Name
       ii. Staff Title/Classification
       iii. Raw Labor Rate Range (Low-High Range)
       iv. Multiplier

    b. If there has been a change to the “KEY STAFF PERSONNEL” (i.e., Primary Project Manager, lead design engineers, quality assurance/quality control or other lead project managers), then a Task Order

Amendment must be approved via e-Builder. **DO NOT SUBMIT INVOICES IF THESE STEPS ARE NOT PERFORMED FIRST**.

15. ☐ Diversity Participation Backup Attached? (This should include all expense receipts provided in an organized manner.)
16. ☐ Project Completion % (Estimated physical work completed percentage not financial completion percentage)
17. ☐ Task Progress (include work items or task completed that are associated with the hours billed on this invoice)

The following **Sub Consultants Diversity Participation Information** in EB is required, if a M/W/SDVBE firm invoice is being submitted under a prime consultant.

Sub Consultant Diversity Participation Information

18. ☐ MBE (Select MBE firm from the drop-down menu where charges were made on the invoice being submitted)
19. ☐ WBE (Select WBE firm from the drop-down menu where charges were made on the invoice being submitted)
20. ☐ SDVBE (Select SDVBE firm from the drop-down menu where charges were made on the invoice being submitted)
21. ☐ Original Commitment (Enter the original commitment of the M/W/SDVBE firm on this contract)
22. ☐ Amount Paid on This Invoice (Enter the invoice amount being paid to the M/W/SDVBE firm only for this period)
23. ☐ Amount Paid to Date (Enter the amount paid to date for the individual M/W/SDVBE firm)

Note: If a firm is not listed in any of the M/W/SDVBE drop down menus, please contact e-Builder Team to have a firm added. If no M/W/SDVBE firm was used on this project or this period of invoicing, skip to the next section. This information is critical and will be audited on a monthly/quarterly basis by PWSA Performance Manager (Emily Pontarelli) and reported back to the PWSA Board.

Commitment Invoice Details

24. ☐ Current Commitment - (Select your Commitment. If the current commitment is not corrected or does not match the approved amount on the Task Order, contact the PWSA e-Builder Project Controls to resolve the issue.)
25. ☐ Date Received (enter the date Vendor is submitting the invoice to the PWSA)
26. ☐DO NOT SELECT ANYTHING ELSE IN THIS SECTION BESIDES “Current Commitments” and “Date Received”

Commitment Invoice Custom Fields

27. **Note:** Do not enter anything in this section “**Commitment Invoice Custom Fields**”. They are not required.
28. ☐ Any draft/final report, analysis, or other deliverables and/or milestones defined in the approved Task Order should be uploaded to “09.04 - Record Documents Deliverables Folder” or other EB Document Folders guided by the PWSA Project Manager, not attached the invoice. For example, Final 90% Design Deliverable should be uploaded to “03.01.03 – 90 Percent” and not with the invoice.

Note:

☐ Prime Consultants should make sure they have the following items listed somewhere on their invoices, preferably on the 1ST page;

- PWSA Project Name

- Project Number
- Invoice Number
- Invoice Period ("Period From" and "Period To")
- Task Order or Task Order Amendment Name
- Task Order or Task Order Amendment Number
- Task Order/PO Start Date
- Task Order/PO End Date (including the latest time extension dates)
- Finance Summary
    - Billing Cap or Billing Limit Amount (includes the Approved TO/PO/Amendment Amounts)
    - Previously Billed
    - Total Billed
    - Amount Remaining

☐ If any commitment information is not corrected, vendor or consultant must contact the PWSA e-Builder Project Controls to correct the issue.

☐ Subconsultant invoices are required to have the following items listed on their invoice;

- PWSA Project Name
- PWSA Project Number
- PWSA Task Order Name and Task Order, the subconsultant is working under
- PWSA Task Order or Task Order Amendment Number, the subconsultant is working under
- Finance Summary
    - Cap or Original Commitment Amount
    - Invoice Amount
    - Previously Billed
    - Total Billed to Date
    - Remaining Balance

☐ "Project closeout related activities", listed within the approved Task Order, must be invoiced between the Task Order Start and Completion Date timeframe. Effective close-of-business April 3, 2020, there will no longer be a 90-day window for submission of Vis with project closeout related activities.

☐ Accordingly, all Vendor Invoices submitted after the Task Order Completion Date will be rejected and a new Task Order will need to be issued by the PWSA Project Manager (via e-Builder) and approved to extend the original Completion Date accordingly. However, if identified early, while the existing Task Order is active, and with enough time to allow for the review and approval process to be completed, a Task Order Amendment (time extension) can also be issued by the PWSA Project Manager.

☐ Be sure to use the Comments tab to include any additional comments needed to assist the PWSA Project Manager regarding the invoice.

☐ Receipts must be provided for all expenses; including Consultants and Subconsultants and should be provided immediately after the labor charges per firm.
☐ Before submitting the invoice, please make sure you select the correct PO and enter in the invoice amount.
☐ Do not change the "FUNDING RULE" on the commitment item section when entering the invoice amount.

☐ If “FUNDING RULE” (i.e., Ops, Capital, Pennvest, PAYGO, DISC, etc.) is incorrect, please notify the Project Manager or Project Controls to apply the correct FUNDING RULE to your PO.

☐ If your Task Order expired and a new Task Order is approved, the billing limit or PO limit should only be for the current Task Order. Do not include previous amounts.

Project Management Vendor Invoice Checklist

The responsibility and actions taken for a Project Manager or the PWSA Project Manager is to review the vendor invoice for completeness and accuracy.

The PM is to review and validate the information entered, by the vendor, in e-Builder matches the attached invoice. In doing so, the PM will be responsible for reviewing and recommending approval of the invoice submitted to them, based on the following information entered in e-Builder by the vendor.

1. ☐ Review the populated information entered by consultant or vendor in e-Builder matches to what is on the attached invoice submitted and the invoice is applied to the correct in e-Builder.
2. Confirm the submitted invoice is includes the Project Name and Project Number on the Prime invoice and Sub invoice.
3. ☐ Subject field contains TO Number, Month and Year of the Invoice, and consultant invoice number.
4. ☐ Invoice Number
5. ☐ Invoice Date
6. ☐ Invoice File (attach the invoice file that contains staff working on project, hours, date, bill rates, cost, and other project invoice information)
7. ☐ Period From
8. ☐ Period To
9. ☐ Does this invoice overlap another invoices time period on this commitment? If yes, select the "Yes" button and enter a comment in the "Comment" box tab.
10. ☐ Final Invoice (Confirm if this is the final and last invoice)
11. ☐ PWSA Task Order No. (i.e., MM-PRGM-05, HT-CM-12, MM23-99, CE27-52, URS27-55 Amendment 1, CMD00-05 Amendment 3)
12. ☐Task Order/PO Start Date
13. ☐ Task Order/PO End Date
14. ☐ Consultant/Vendor Contact Person (e.g., John Smith)
15. ☐ Subconsultant on TO/TOA (e.g., Company XYZ Inc/Company 123 Inc/etc.) – only list firms that have invoices associated to invoice. Not necessary to include the names of all the firms without invoices.
16. ☐ Rate Table (current rate table file is attached) and include the following items;
    a. ☐ Staff Name
    b. ☐ Staff Title/Classification
    c. ☐ Raw Labor Rate Range
    d. ☐ Multiplier
17. ☐ M/W/SDVBE Back up attached? (Make sure attached M/W/SDVBE invoices + any other invoice supporting documents are attached).
18. ☐ Project Completion % (Confirm the estimated physical work completed percentage is accurate. This is not a financial completion percentage)
19. ☐ Task Progress (Confirm work or task listed is accurate to the hours billed on this invoice)
20. ☐ M/W/SDVBE Amounts (Confirm the consultant entered the correct values under the In
21. ☐ Invoice Amount (Confirm the consultant entered the correct value under the Invoice Items section and accurately matches what is on the attached invoice)
22. ☐ On the Invoice Items e-Builder table, ensure that the “Remaining to be Invoiced” amount of <u>each</u> Commitment Line Item is greater than or equal to $0.00. Even if the Total Remaining Budget is positive, if an

individual line item is in the negative then a Project Budget Request (PBR) will have to be submitted to reallocate the Commitment line item funds accordingly.

Note:

☐ Project Manager should confirm the following **required** items are on the attached Prime vendor invoice and aligns with what is in EB;

- PWSA Project Name
- PWSA Project Number
- Invoice Number
- Invoice Period (including "Period To" and "Period From", making sure the charges are within the Task Order, Amendment, or PO contract timeframe)
- PWSA Task Order or Task Order Amendment Name
- PWSA Task Order or Task Order Amendment Number
- PWSA Task Order/PO Start Date
- PWSA Task Order/PO End Date (including the latest time extension dates)
- Billing Cap or Billing Limit Amount (includes the Approved Invoices)
- Previously Billed
- Total Billed
- Amount Remaining

In addition, the PM is also responsible for making sure the subconsultant invoices have the **required** items on their invoice page or they will be returned to initiator step to correct.

☐ Subconsultant invoices are required to have the following items listed on their invoice;

- PWSA Project Name
- PWSA Project Number
- PWSA Task Order Name and Task Order, the subconsultant is working under
- PWSA Task Order or Task Order Amendment Number, the subconsultant is working under
- Finance Summary
    - Cap or Original Commitment Amount
    - Invoice Amount
    - Previously Billed
    - Total Billed to Date
    - Remaining Balance

If the subconsultant is a M/W/SDVBE firm, the following items must be entered **(and are required)** in the **Sub Consultant Diversity Participation Information** section in EB, which ultimately gets reviewed on a monthly/quarterly basis by the PWSA Performance Manager and PWSA Board;

- Subconsultants Original Commitment (Amount issued for the sub on the Task Order/Amendment)
- Subconsultants Invoice Amount (Amount being for this month)
- Subconsultants Total Billed to Date (Amount

☐ “Project closeout related activities”, listed within the approved Task Order, must be invoiced between the Task Order Start and Completion Date timeframe. Effective close-of-business April 3, 2020, there will no longer be a 90-day window for submission of Vis with project closeout related activities.

Accordingly, all Vendor Invoices submitted after the Task Order/PO Completion Date will be rejected and a new Task Order will need to be issued by the PWSA Project Manager (via e-Builder) and approved to extend the original Completion Date accordingly. However, if identified early, while the existing Task Order is active, and with enough time to allow for the review and approval process to be completed, a Task Order Amendment (time extension) can also be issued by the PWSA Project Manager.

☐ Confirm the consultant bill rates on the invoice reflect the current bill rates table/schedule within the approved Task Order. If the bill rates on the invoice are outside of the bill rate table, communicate with Procurement to justify if the bill rate table/schedule is current per contract agreement. If not, return invoice back to consultant to correct the bill rate.

☐ Project Managers are responsible for managing and reviewing any inspection reports (if necessary) are completed and stored on EB.

Finance Checklist

The responsibility and actions taken for Finance will be to;

1. Confirming the information populated on the Details tab reflects the information on the uploaded invoice;

   a. ☐ PWSA Project Name
   b. ☐PWSA Project Number name is correctly listed on the invoice
   c. ☐ Invoice Number
   d. ☐ Invoice Date
   e. ☐ Invoice File and any subconsultant or M/W/SDVBE invoices are attached (attach the invoice file should contains staff working on project, hours, date, bill rates, cost, and other project invoice information)
   f. ☐ Period From
   g. ☐ Period To
   h. ☐ Total Invoice Amount
   i. ☐ Confirms funding source commitment is correct. If not, please notify Project Controls to correct it since they are the only users to edit this field.
   j. ☐ The following 4 items on the vendor invoice aligns with what is in EB;
      - Billing Cap or Billing Limit Amount (includes the Approved TO/Amendment/PO Amount)
      - Previously billed
      - Total Billed
      - Amount Remaining
   k. ☐ Subconsultant invoices are required to have the following items listed on their invoice;

      - PWSA Project Name
      - PWSA Project Number
      - PWSA Task Order Name and Task Order Number working under
      - Finance Summary
        - Cap or Original Commitment Amount
        - Invoice Amount
        - Previously Billed

          Total Billed to Date

Please note that the following 4 items (above) might be off due to pending Task Orders or Amendments or POs currently in the EB system and that the invoice information provided by the vendor or consultant may not always align to what is in the system. If this is the case, Finance should communicate with PM to understand and confirm the information provided is accurate prior to returning it back to the consultant step.

Notes:
☐ Review comments on the vendor invoice process Comments tab
☐ Commitment match on invoice

2.5. Project Budget Request (PBR) Process

Revision Number	Effective Date	Description
0	7/14/2020	Established Project Budget Request Process

2.5.1. Overview

The Project Budget Request ("PBR") process is used when a PWSA Project Manager needs to perform one or several of the following:

a) reallocate project budget funds within their project (see Project Budget Reallocation definition below),
b) reallocate project commitment funds within their project, (see Project Commitment Reallocation definition below),

c) transfer project budget funds from one project budget to another (see Project Budget Transfer definition below), or

d) transfer program budget funds from one program to another (i.e., Water to Sewer, Sewer to GI/Storm, etc.), (see Program Budget Transfer definition below).

The following are definitions to further elaborate the (4) categories listed above when submitting a PBR process.

Project Budget Reallocation - Reallocating the project budget funds, from one budget line item to another budget line item.

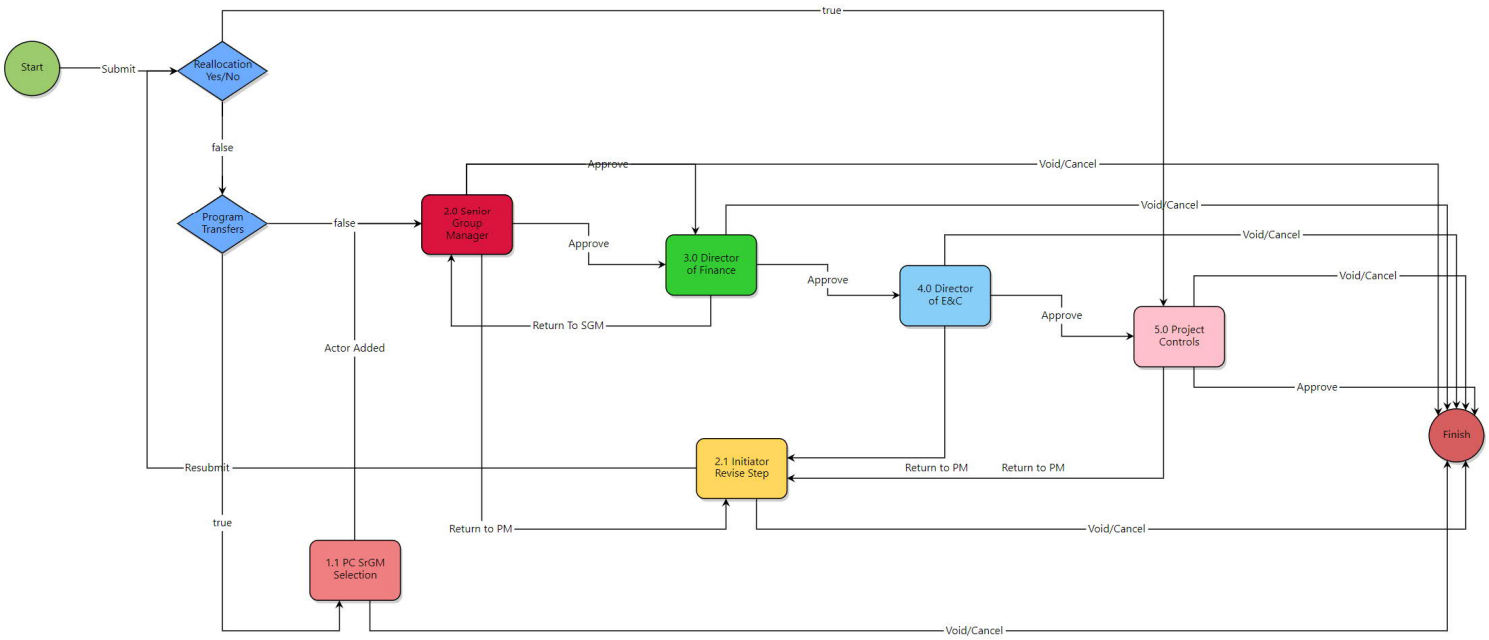
Project Commitment Reallocation - Reallocating monies within the approved commitment/PO of the project.

Project Budget Transfer - Taking funds from one project to support another, within the program (i.e., Water to Water Projects Budgets, Sewer to Sewer Project Budget, etc.)

Project Budget Increase - Having to increase existing Project Budget to accommodate additional scope of work, potential change orders, directives (i.e., DEP, EPA, City, etc.), or other ancillary project related activities not initially captured or planned in the original budget. This should ONLY be used if no other project budget funds can be transferred from another project. This will require SrGM, Finance, and Director of E&C approvals.

Program Budget Transfer - Taking funds from one program to another. Transferring funds for Water to Sewer, Storm/GI to Sewer, etc.

2.5.2. Roles



The following project participants are involved in this process:

Project Manager (PM)

Senior Group Manager (SrGM)
Director of Finance
Director of Engineering & Construction (DEC)
Project Controls (PC)

2.5.3. Process Overview

The workflow diagram is the standard workflow process implemented in e-Builder which identifies the roles and how the Project Budget Request (PBR) is processed from start to finish.

2.5.4. Process Steps

The standard operating procedure for the PBR is outlined in the following table which provides detailed instructions, including roles, responsibilities, and accountability for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)**	1.0 The purpose of this step is to define the Project Budget Request ("PBR") process requirement, initiated primarily by the Project Manager (PM). In this step, the Initiator must provide the information required to properly execute the PBR process. 1.1 Submit – The PM will initiate the process and submit the request based on 1 of 4 categories selected above in section 1.1.1 above. ***If the request is a simple budget or commitment reallocation, then the next steps would go right to Project Controls for Review and Approval.** 1.1.1 Proceed to **Step 5.** ***If the request involves budget transfers between Water, Sewer and Storm/GI programs, then the process will proceed to Senior Group Manager for review. Project Controls will add the appropriate personnel into the approval process, if a program transfer is being requested.** ***Also note, if the PM is requiring a budget transfer either within their program or outside of their program, the PM MUST SEE THEIR RESPECTIVE SrGM FIRST before proceeding. SrGM must be made aware and confirm the transfer of funds are appropriate, so then they are prepared to approve the PBR when PBR enters their court for approve in e-Builder.** 1.1.3 Proceed to **Step 1.1**.

Step Actor(s)	Process Action
• **Senior Group Manager (SrGM)**	8.0 **Senior Group Manager Review** – The Senior Group Manager (SrGM) has the responsibility of reviewing the budget request, primarily if the request is for a transfer of funds from one project budget to another or from one program budget to another. They have the options to Void/Cancel the request, resubmit it back to the Project Manager to make revisions, or approve and move forward. 8.1 Cancel-Void – If it is determined that this request needs to be cancelled (i.e., duplicate, error, etc.), the SrGM cancels the process. 8.1.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 8.1.2 The status will be displayed as "Void." 8.1.3 Proceed to **Step 6** 8.2 Return to PM– If the PBR requires revision or additional information, the SrGM returns the process to the Initiator. 8.2.1 User is required to enter a comment to explain reason for returning. 8.2.2 PM must resubmit to the SrGM for reapproval. 8.2.3 PM could also Void/Cancel the request at this time 8.2.4 Proceed to **Step 2.1.** 8.3 Approve – If the request is acceptable, the SrGM recommends approval and the PBR is routed to **Finance** Review. 8.4 Proceed to **Step 3**.
• **Project Controls (PC)**	3.1 **PC SrGM Selection** - The purpose of this step is to add the SrGM to the project in order for them to approve funds are being removed from their program budget and moved into another program budget (i.e., Water to Sewer, Sewer to Water, etc.). They have the option to Void/Cancel the request and Add Actor (e.g., SrGM) to project for approval in 2.0 Step. 3.2 Cancel-Void – If it is determined that this request needs to be cancelled (i.e., duplicate, error, etc.), the PC cancels the process. 8.4.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 8.4.2 The status will be displayed as "Void." 8.4.3 Proceed to **Step 6.** 3.3 Actor Added– The appropriate SrGM will be added for the next step in 2.0. 3.3.1 Proceed to **Step 2.0.**

Step Actor(s)	Process Action
• **Project Manager (PM)**	**2.1 Initiator Revise Step -** If the PBR was returned for revision, the Initiator revises as necessary and resubmits. Otherwise, this step is omitted. 7.1 Resubmit – Initiator revises information as necessary, including updating data fields, addressing comments, and/or attaching supporting documents. 7.1.1 Once the PBR is revised, the Initiator is required to enter a comment to explain the revision(s). 7.1.2 Proceed to **Step 2**. 7.2 Void-Cancel – If it is determined the PBR needs to be cancelled (i.e., duplicate, error, etc.), the PM cancels the process instance. 7.2.1 User is prompted to confirm the action. 7.2.2 User is prompted to enter required comments to explain reason for cancelling. 7.2.3 Status of the PBR is set to "Void." 7.3 Proceed to **Step 6**.
• **Director of Finance**	4 **Director of Finance Review** – Finance will review the request all submitted materials for accuracy. The Finance director has the responsibility to Void/Cancel the request, return it back to the SrGM, or approve it to the next steps. 4.1 Cancel-Void – If it is determined that this PBR needs to be cancelled (i.e., duplicate, error, etc.), Finance cancels the process. 4.1.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 4.1.2 The status will be displayed as "Void." 4.1.3 Proceed to **Step 6.** 4.2 Rtn to SrGM – If the PBR requires revision or additional information, Finance returns the process to the SrGM. 4.2.1 User is required to enter a comment to explain reason for returning. 4.2.2 Proceed to resubmit back to SrGM. 4.2.3 Proceed to Step **2.0.** 4.3 Approve – If the PBR is acceptable, Finance recommends approval and the PBR is sent the Director of E&C for review. 4.3.1 Proceed to **Step 4**.

Step Actor(s)	Process Action
• **Director of Engineering & Construction (DEC)**	**5** **Director of Engineering & Construction Review –** The Director of Engineering (DEC) will review the request that has been approved by the Senior Group Manager and Finance. The DEC has the responsibility to Void/Cancel the request, return it back to the PM, or approve it to the next steps. 5.1 Cancel-Void – If it is determined that this PBR needs to be cancelled (i.e., duplicate, error, etc.), the DEC cancels the process. 5.1.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 5.1.2 The status will be displayed as "Void." 5.1.3 Proceed to **Step 6.** 5.2 Return to PM – If the PBR requires revision or additional information, the DEC returns the process to the Project Manager. 5.2.1 User is required to enter a comment to explain reason for returning. 5.2.2 Proceed to resubmit back to PM. 5.2.3 Proceed to Step **2.1.** 5.3 Approve – If the PBR is acceptable, the DEC recommends approval and the PBR is sent to Project Controls for review and execution of the information being requested. 4.3.1 Proceed to **Step 5**.

Step Actor(s)	Process Action
• **Project Controls (PC)**	6 **Project Controls Review –** Project Controls reviews all entered information provided for the PBR prior to executing the actions necessary in the e-Builder Cost Module. The PC may take one of the following actions: 6.1 Cancel-Void – If it is determined that this PBR needs to be cancelled (i.e., duplicate, error, etc.), the PC cancels the process. 6.1.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 6.1.2 The status will be displayed as "Void." 6.1.3 Proceed to **Step 6.** 6.2 Rtn to PM – If the PBR requires revision or additional information, the PC returns the process to the Project Manager for correction. This will then have to get reapproved once again by all appropriate actors in the PBR process 6.2.1 User is required to enter a comment to explain reason for returning. 6.2.2 Proceed to resubmit back to PM. 6.2.3 Proceed to **Step 2.1.** 6.3 Approve – If the PBR is acceptable, the PC will make the appropriate modifications to the project Cost Module in e-Builder to reflect the request made on the PBR. Once transaction of funds has been appropriately reallocated and/or transferred, the PC will Take Action by selecting "**Approve**". This will then complete the process and all supporting documentation will reside in project document folder **Documents \ 05 - Project Management_Construction \ 05.02 - Budget Change.** 6.3.1 Once the PBR is approved, the status will be displayed as "**Approved**." 6.3.2 Proceed to **Step 6**.
• **Finish**	7 **Finish - Process is closed.**

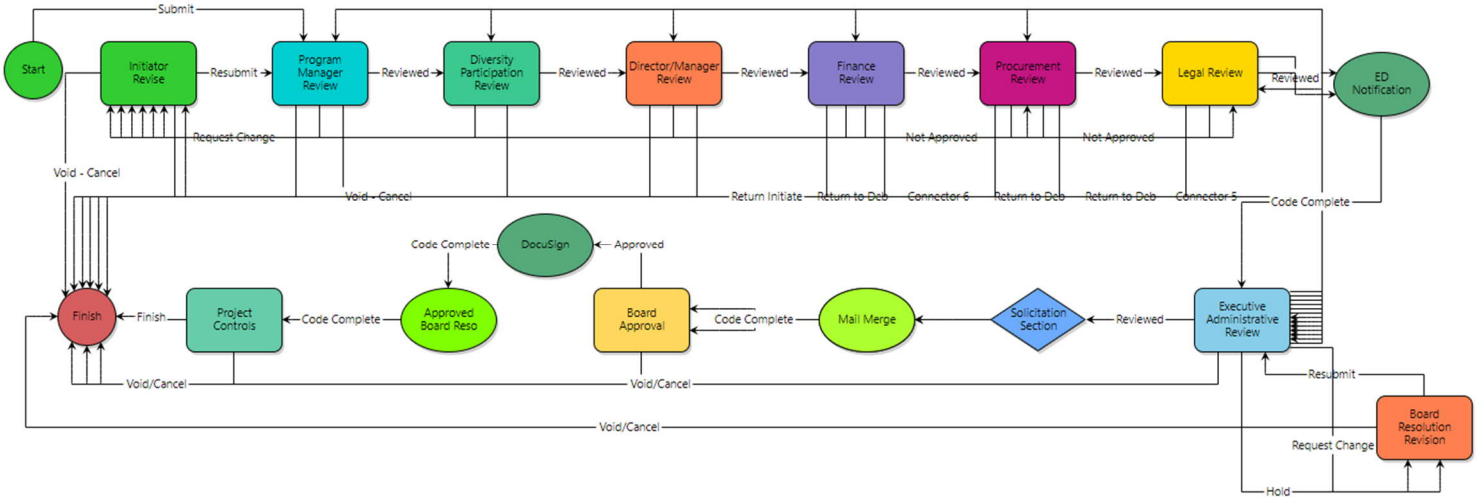
2 Development

3.1 Board Resolution Process (BRP)

Revision Number	Effective Date	Description
0	6/18/2019	Established Board Resolution Process
1	9/19/2019	Included Project Controls at the end of the process
2	4/30/2021	Included Diversity Participation Review step to process

3.1.1 Overview

The Board Resolution Process ("BRP") is used to manage the submission, review and approval of items needed to be submitted to the PWSA Board of Directors for approval under the Sunshine Act. All board resolutions will need to be submitted through the e-Builder BRP process to be presented at the monthly Board Meeting.



3.1.2 Roles

The following project participants are involved in this process:

Project Manager (PM)
Program Manager (PrgM)
Senior Manager of Performance
Director of Engineering and Construction (DEC)
Director of Finance/Deputy Director of Finance/Treasurer
Procurement (PROC)
Legal (LGL)
Executive Administrator (EA)
Board Secretary

3.1.3 Process Overview

This workflow diagram is the standard workflow process implemented in e-Builder which identifies roles and how the Board Resolution Process (BRP) is processed from start to finish.

3.1.4 Process Steps

The standard operating procedure for the BRP is outlined in the following table which provides detailed instructions, including roles, responsibilities, accountability, and checklist requirements for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)**	1.0 **Start** - The Initiator, typically the Project Manager (PM), submits all required information and attaches all necessary documentation to begin the Board Resolution Process (BRP). 1.1 The Initiator begins the process by following the steps below: 1.1.1 Login to e-Builder 1.1.2 Select the Projects tab along the top of the screen. 1.1.3 Use the dropdown located at the top right and search for the project a process needs to be created for. 1.1.4 Chose the Processes module on the left-side panel. 1.1.5 At the top right of the screen, select Start Process. 1.1.6 Choose Board Resolution Process (BRP). 1.1.7 Complete all required data fields and attach supporting documentation. 1.2 Submit – The PM initiates the BRP process, completes the required information, and attaches supporting documents. 1.2.1 Proceed to **Step 3**.
• **Project Manager (PM)**	2.0 **Initiator Revise** – If the BRP is returned for revision, the initiator revises as necessary and resubmits. Otherwise, this step is omitted. 2.1 Resubmit – Initiator revises information as necessary, including updating data fields, addressing comments, and/or attaching supporting documents. 2.1.1 Once the BRP is revised, the Initiator is required to enter a comment to explain the revision(s). 2.1.2 Proceed to **Step 3**.

Step Actor(s)	Process Action
• **Program Manager (PrgM)**	3.0 **Program Manager Review** – The Program Manager (PrgM) reviews the BRP for overall completeness and accuracy of the BRP submitted and may take one of the following actions: 3.1 Request Change – If the BRP requires revision or additional information, the PrgM returns the process to the Initiator. 3.1.1 User is required to enter a comment to explain reason for returning. 3.1.2 Proceed to **Step 2**. 3.2 Reviewed – If the BRP is acceptable, the PrgM recommends approval and the BRP is routed to the Director of Engineering (DEC). 3.2.1 Proceed to **Step 4**.
• **Diversity Participation Review**	4.0 **Diversity Participation Review –** The Senior Manager of Performance reviews the diversity participation breakdown of the BRP for completeness and accuracy and may take one of the following actions: 4.1 Request Change – If the BRP requires revision or additional information, the Senior Manager of Performance returns the process to the Initiator. 4.1.1 User is required to enter a comment to explain reason for returning. 4.1.2 Proceed to **Step 2**. 4.2 Reviewed – If the BRP is acceptable, the Senior Manager of Performance recommends approval and the BRP is routed to the Director of Engineering (DEC). Proceed to **Step 5.**
• **Director of Engineering and Construction (DEC)**	5.0 **Director of Engineering and Construction Review** – The Director of Engineering and Construction (DEC) reviews the BRP for overall completeness and accuracy of the BRP submitted and may take one of the following actions: 5.1 Request Change – If the BRP requires revision or additional information, the DEC returns the process to the Initiator. 5.1.1 User is required to enter a comment to explain reason for returning. 5.1.2 Proceed to **Step 2**. 5.2 Reviewed – If the BRP is acceptable, the DEC recommends approval and the BRP is routed to the Director of Finance or Deputy of Finance/Treasurer. 5.2.1 Proceed to **Step 5**. 5.3 Void-Cancel – If it is determined that this BRP needs to be cancelled, the DEC cancels the process. 5.3.1 User is required to enter a comment to explain reason for voiding. 5.3.2 Status will be displayed as "Void." 5.3.3 Proceed to **Step11**.

Step Actor(s)	Process Action
• **Director of Finance** or • **Deputy Director of Finance/ Treasurer**	6.0 **Finance Review**– The Director of Finance or the Deputy Director of Finance/Treasurer, depending on the funding source (i.e., Capital, Operations, PennVest or other funding source), reviews the BRP for completeness and accuracy of the financial impact section and may take one of the following actions: 6.1 Request Change – If the BRP requires revision or additional information, the Director of Finance or Deputy of Finance/Treasurer returns the process to the Initiator. 6.1.1 User is required to enter a comment to explain reason for returning. 6.1.2 Proceed to **Step 2**. 6.2 Reviewed – If the BRP is acceptable, the Director of Finance or Deputy of Finance/Treasurer recommends approval and the BRP is routed to the Procurement (PROC). 6.2.1 Proceed to **Step 6**.
• **Procurement (PROC)**	7.0 **Procurement Review** – Procurement (PROC) reviews the BRP for completeness and accuracy of the solicitation section and may take one of the following actions: 7.1 Request Change – If the BRP requires revision or additional information, PROC returns the process to the Initiator. 7.1.1 User is required to enter a comment to explain reason for returning. 7.1.2 Proceed to **Step 2**. 7.2 Reviewed – If the BRP is acceptable, PROC recommends approval and the BRP is routed to Legal (LGL). 7.2.1 Proceed to **Step 7**.
• **Legal (LGL)**	8.0 **Legal Review** – Legal (LGL) reviews the BRP for completeness and accuracy of any agreements following PWSA's legal control standards and may take one of the following actions: 8.1 Request Change – If the BRP requires revision or additional information, LGL returns the process to the Initiator. 8.1.1 User is required to enter a comment to explain reason for returning. 8.1.2 Proceed to **Step 2**. 8.2 Reviewed – If the BRP is acceptable, LGL recommends approval and the BRP is routed to the Executive Administrator. 8.2.1 Proceed to **Step 8**.

Step Actor(s)	Process Action
• **Executive Administrator (EA)**	9.0 **Executive Administrative Review** – The Executive Administrator (EA) prepares the BRP for the Chief Executive Officer (CEO) to review and creates a number for the Board Resolution, as well as making sure all data fields have been properly completed. 9.1 Request Change – If the CEO requires revisions to be made to the BRP, the EA will direct the process to the Board Resolution Revision step where the DEC will be responsible for making the revisions. 9.1.1 User is required to enter a comment to explain reason for revision. 9.1.2 Proceed to **Step 9**. 9.2 Hold – If the CEO requires the BRP to be placed on hold, the EA will direct the process to the Board Process Revision step where the DEC will hold the process until further notice. 9.2.1 User is required to enter a comment to explain reason for hold. 9.2.2 Proceed to **Step 9**. 9.3 Approve – If the BRP is acceptable, the EA recommends approval and is routed to the Board Secretary. 9.3.1 Proceed to **Step 10**. 9.4 Void-Cancel – If it is determined that this BRP needs to be cancelled, the EA cancels the process. 9.4.1 User is required to enter a comment to explain reason for voiding. 9.4.2 Status will be displayed as "Void." 9.4.3 Proceed to **Step 12**.
• **Director of Engineering and Construction (DEC)**	10.0 **Board Resolution Revision** – The DEC will revise or hold the BRP per the ED's recommendations. After the revisions are made and/or the BRP can resume, the DEC will take the following action: 10.1 Resubmit – The DEC revises information as necessary and/or releases the BRP. 10.1.1 User is required to enter a comment to explain revisions and/or the continuation of the BRP. 10.1.2 Proceed to **Step 8**.
• **Board Secretary**	11.0 **Final Board Approval –** The Board Secretary will use DocuSign to finalize the BRP after the Board Meeting. 11.1 Revise – If the BRP requires revisions or additional information, the Board Secretary returns the process to the EA. 11.1.1 User is required to enter a comment to explain reason for revision. 11.1.2 Proceed to **Step 8**. 11.2 Approved – If the BRP is acceptable, the Board Secretary will sign the approved BRP then route it to Mail Merge. 11.2.1 Proceed to **Step 12**. 11.3 Void-Cancel – If it is determined that this BRP needs to be cancelled, the Board Secretary cancels the process. 11.3.1 User is required to enter a comment to explain reason for voiding. 11.3.2 Status will be displayed as "Void." 11.3.3 Proceed to **Step 12**.

Step Actor(s)	Process Action
• **Executive Administrator (EA)**	12.0 **Mail Merge** – The EA will receive an automated e-mail from e-Builder stating the Mail Merge is complete and can file for PWSA's records. 12.1 Proceed to **Step 12**.
• **Finish**	13.0 **Finish** - Process is closed.

3.1.5 Appendix A.1 – Board Resolution Agenda Item Template

RESOLUTION

Originating Department: _____ Phone: _____

Department Contact: _____ E-mail: _____

Date: July 26, 2019

AGENDA ITEM xxx Approving the award/amendment/change order/entering

STATEMENT OF THE ISSUE:

FINAL BOARD APPROVAL:
ADOPTED JULY 26, 2019

James Turner, Secretary

RESOLUTION

AGENDA ITEM #:	
DATE:	July 26, 2019
TO:	PWSA Board of Directors
SUBJECT:	Approving the award / amendment / change order / entering etc.

STATEMENT OF THE ISSUE:

This statement should be more in depth to what you put on page 1.

For solicitations, complete the following: *If you do not need this table, delete it.*

ITEM	
Dates of Advertisement:	
Date of Pre-Bid/Pre-Proposal Meeting and Number of Firms in Attendance:	
No. of Firms that Requested Solicitation:	
Dates of Issue of Addenda and brief description:	
Bid/Proposal Due Date and Time:	
No. of Bids/Proposals Received:	
Why did firms requesting the solicitation not submit a bid/proposal?	

RECOMMENDED ACTION:

4.1 Procurement Policies and Standard Operating Procedures, and Boilerplates

Revision Number	Effective Date	Description
0	8/30/2021	New section added to PMP-SOP document used for reference purposes. Link provided is to PWSA's Procurement's SharePoint site where all Procurement SOPs and Boilerplate templates are updated.

4.1.1 Overview

The Procurement Department is responsible for overseeing the procurement function, providing guidance, and monitoring the procurement activity, as appropriate, to assure compliance with applicable laws and the Procurement Manual. Procurement works with internal and external stakeholders to procure required services, materials, equipment, and construction while ensuring that quality, safety, and cost-effectiveness are achieved. The department also works with the Performance Department to encourage the recruitment and utilization of certified MBE, WBE, DBE, SBE, VBE, and SDVBE businesses and takes all necessary and reasonable steps to ensure businesses have an opportunity to compete for and participate in PWSA contracts.

The Sharepoint link below will direct the PWSA user to PWSA's Procurement's Policies and Standard Operation Procedures regarding the guidelines for all types of solicitations.

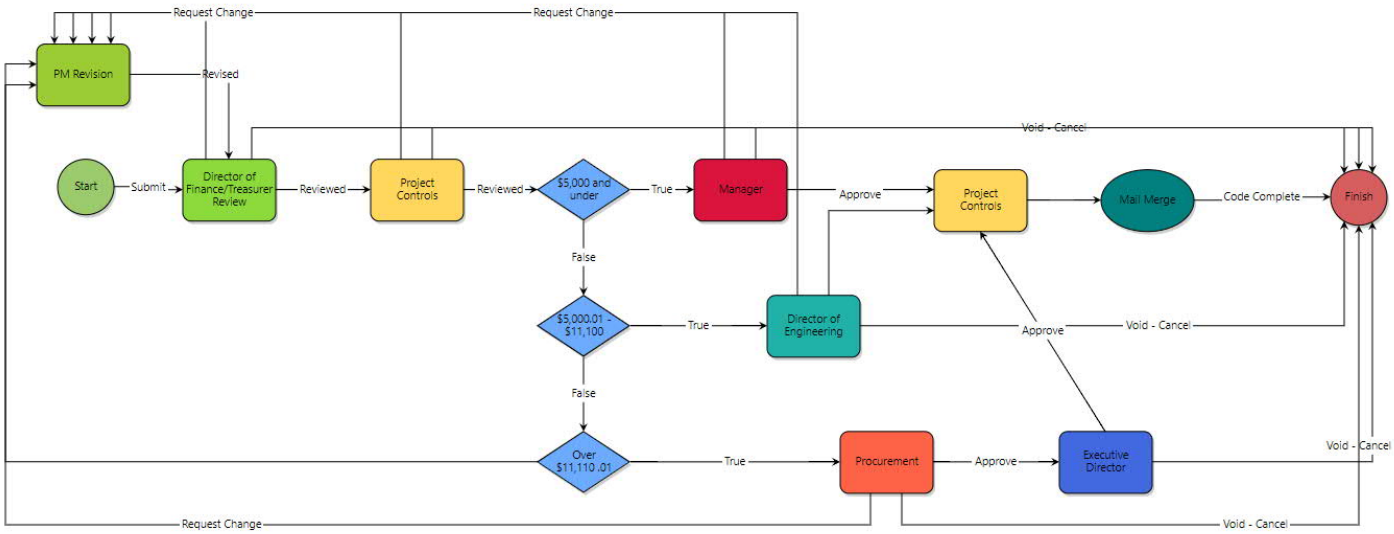
4.2 Purchase Order (PO) Process

Revision Number	Effective Date	Description
0	1/8/2016	Process established
1	2/16/2016	Process revised
2	1/1/2020	Delegation of Authority thresholds revised

4.2.1 Overview

The Purchase Order ("PO") process is used when PWSA needs to purchase goods and/or services. The PO is created in Cogsdale and is transferred to e-Builder to match the Commitment. The PO number should be included on all invoices. If changes to the original PO are required, a Change Order will need to be submitted. Refer to Purchase Order Change Order ("POCO") for instructions on how to submit.



4.2.2 Roles

The following process project participants are involved in this process:

Project Manager (PM)
Project Controls (PC)
Director Finance/Deputy Director of Finance/Treasurer
Engineering Manager
Director of Engineering and Construction (DEC)
Procurement Manager (PRC)
Chief Executive Officer (CEO)

4.2.3 Process Overview

This workflow diagram is a standard workflow process implemented in e-Builder which identifies roles and how the Purchase Order ("PO") is processed from start to finish.

4.2.4 Process Steps

The standard operating procedure for the PO process is outlined in the following table which provides detailed instructions, including roles, responsibilities, accountability, and checklist requirements for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)**	1.0 **Start** - The PM prepares all required supporting documentation and information and initiates the process. 1.1 Submit – The PM initiates the process, completes the required information and attaches all supporting documents. The PO will identify the line items being used for the commitment. 1.1.1 Status of the commitment invoice is set to Submitted. 1.1.2 Proceed to **Step 3**.
• **Project Manager (PM)**	2.0 **PM Revise** - If the process was returned for revision, the PM revises as necessary and/or provides additional documentation and resubmits. Otherwise, this step is skipped. 2.1 Resubmit – Initiator updates information as necessary, including updating information and/or providing additional documentation. 2.1.1 User is prompted to enter required comments to explain what updates were made. 2.1.2 Proceed to **Step 3**.
• **Director of Finance** or	3.0 **Finance Review –** Depending on the funding source, the Director of Finance or the Deputy of Finance/Treasurer, will review the provided information, documents, and budget, and may take one of the following actions: 3.1 Void-Cancel – If it is determined that PO needs to be cancelled (i.e., duplicate, error, etc.), the Director of Finance or Deputy Director of Finance/Treasurer cancels the process instance.

<table>
<tr><th>Step Actor(s)</th><th>Process Action</th></tr>
<tr><td>• Deputy Director of Finance/ Treasurer</td><td>3.1.1 User is prompted to confirm the action.
3.1.2 User is prompted to enter required comments to explain reason for cancelling.
3.1.3 Status is displayed as “Void.”
3.1.4 Proceed to Step 8.
3.2 Reviewed – If the PO is acceptable, the Director of Finance or the Deputy Director of Finance/Treasurer approves the PO and routes to Project Controls (PC).
3.2.1 Process will automatically be assigned to the appropriate personnel for approval based on monetary thresholds entered in the “Dollar Amount” data field entered in the PO details tab.
3.2.2 Proceed to Step 6.</td></tr>
<tr><td>• Project Controls (PC)</td><td>4.0 Project Controls Process – PC reviews the provided information and documents for completeness and accuracy and may take one of the following actions:
4.1 Void-Cancel – If it is determined that PO needs to be cancelled (i.e., duplicate, error, etc.), the PC cancels the process instance.
4.1.1 User is prompted to confirm the action.
4.1.2 User is prompted to enter required comments to explain reason for cancelling.
4.1.3 Status of the commitment invoice is set to “Void.”
4.1.4 Proceed to Step 8.
4.2 Request Change – If PC requires revision or more information and/or documentation, the process returns to the initiator.
4.2.1 User is prompted to enter required comments to explain reason for returning.
4.2.2 Return to Step 2.
4.3 Reviewed – If the PO is acceptable, PC will generate a PO number in Cogsdale and enter the number in the “Purchase Order Number” data field. PC will also enter the vendor ID number.
4.3.1 Process will automatically be assigned to the appropriate personnel for approval based on monetary thresholds entered in the “Dollar Amount” data field entered in the PO details tab.

<table><tr><td>MANAGER</td><td>$25,000 AND UNDER</td></tr><tr><td>DEPARTMENT DIRECTOR OR DIRECTOR OF ENGINEERING AND CONSTRUCTION (DEC)</td><td>$25,000 - $100,000</td></tr><tr><td>CHIEF EXECUTIVE OFFICER (CEO)</td><td>$100,000 - $250,000</td></tr><tr><td>BOARD APPROVAL</td><td>$250,000.01 AND OVER</td></tr></table>
4.3.2 Proceed to Step 5.</td></tr>
</table>

Step Actor(s)	Process Action
• **Engineering Manager;** • **Director of Engineering and Construction (DEC);** or • **Procurement Manager**	5.0 **PO Approval** – The appropriate personnel, based on monetary thresholds, reviews information and documents provided and may take one of the following actions: 5.1 Void-Cancel – If it is determined that PO needs to be cancelled (i.e., duplicate, error, etc.), the PC cancels the process instance. 5.1.1 User is prompted to confirm the action. 5.1.2 User is prompted to enter required comments to explain reason for cancelling. 5.1.3 Status will be displayed as "Void." 5.1.4 Proceed to **Step 8**. 5.2 Request Change – If the PO requires revision or more information, the appropriate personnel returns the process to the PM. 5.2.1 User is prompted to enter required comments to explain reason for returning. 5.2.2 Return to **Step 2**. 5.3 Reviewed – If the PO is acceptable, the appropriate personnel will approve the PO. 5.3.1 If the PO is under $11,100.01, the PO will be routed to Mail Merge. 5.3.2 Proceed **Step 8**. 5.3.3 If the PO is over $11, 100.01, the PO will be routed to the ED. 5.3.4 Proceed to **Step 6**.
• **Chief Executive Officer (CEO)**	6.0 **Chief Executive Officer Review** – The CEO reviews the PO for completeness and accuracy and may take one of the following actions: 6.1 Void-Cancel – If it is determined that PO needs to be cancelled (i.e., duplicate, error, etc.), the PC cancels the process instance. 6.1.1 User is prompted to confirm the action. 6.1.2 User is prompted to enter required comments to explain reason for cancelling. 6.1.3 Status will be displayed as "Void." 6.1.4 Proceed to **Step 8.** 6.2 Approve – If the invoice is acceptable, the CEO approves the PO is routed to Mail Merge. 6.2.1 Proceed to **Step 7**.
• **Project Controls (PC)**	7.0 **Mail Merge** – The PM and PC will receive an automated message from e-Builder stating the Mail Merge is ready. 7.1 PC will send the Mail Merge to Procurement to approve the PO in Cogsdale to reflect the status in e-Builder. 7.1.1 Proceed to **Step 8**.
• **Finish**	8.0 **Finish** - Process is closed.

4.2.5 Appendix A.1 – Purchase Order Mail Merge (example)

Pittsburgh Water & Sewer Authority

Please complete this form in its entirety before submitting to Procurement for processing. For clarity, please always type your responses only. Purchase order can only be approved with a complete form. Incomplete submittals will be returned.

Name of Requester: Sonja Svihla

Vendor Name: Layfield Group

Project Number: 2021-OPS-117-0

Vendor Number: 31077

Is this an Emergency PO? No

Purchase Order Number: PO39458

Contract Number: 2021-OPS-117-0

Dollar Amount: $242819.00

Is there an approved contract? No

Dept. Code: 930 - Engineering

Account Code: 5370 - Operating Contract.Other

Please explain the need for this order and attach quote(s) / requests for quotes:

Layfield Group will be working on Herron Hill Reservoir covers for repair/modification and cleaning, and working on Lanpher Reservoir covers for inspection and cleaning. With the coordination between the work in both reservoir and the contingency upon fair weather condition for this work, their mobilization would need to commence soon.

Only acquire signature from the most appropriate person. No other business unit approver signatures needed.

Name: Will Pickering

Title: Executive Director

Date of Approval: 08.30.2021

Procurement Manager must also approve any Finance order (not limited to the above-listed dept. codes) over $40,000 OR any other department order over $11,100. (EXCLUDING UTILITY BILLS)

Procurement Manager Name: Nicole Dickun

Date of Approval: 08.31.2021

E-mail this completed and signed form along with quotes and other supporting documentation to:
1. The Procurement Department at procurement@pgh2o.com, cc your department director
2. In the subject line, enter "Under $10,000" or "Over $10,000" based on PO value.
3. If an Emergency PO, mark email as High Importance

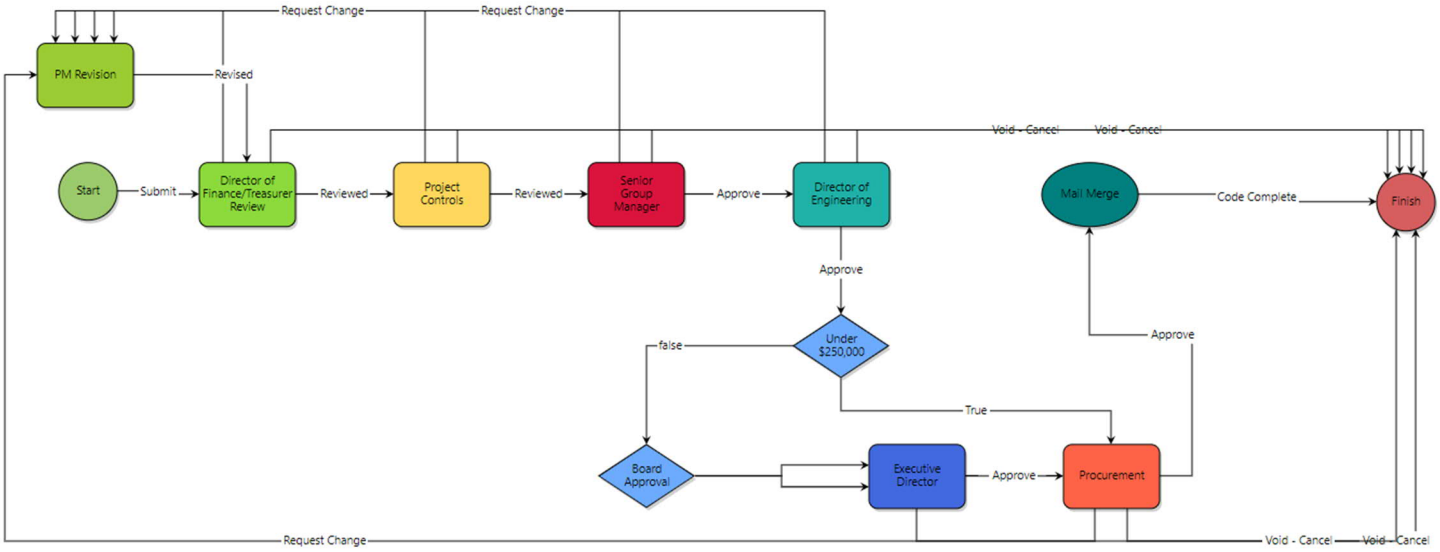
Please keep a copy of the completed form until you receive an invoice.

4.3 Purchase Order Change Order (POCO) Process

Revision Number	Effective Date	Description
0	5/20/2019	Process established
1	8/13/2020	Process revised with new approval thresholds

4.3.1 Overview

When changes to the original PO are required, a Purchase Order Change Order (POCO) process will need to be submitted.



4.3.2 Roles

The following process project participants are involved in this process:

Project Manager (PM)
Director Finance/Deputy Director of Finance/Treasurer
Project Controls (PC)
Senior Group Manager
Director of Engineering and Construction (DEC)
Procurement Manager (PRC)
Chief Executive Officer (CEO)

4.3.3 Process Overview

This workflow diagram is a standard workflow process implemented in e-Builder which identifies roles and how the Purchase Order Change Order ("POCO") is processed from start to finish.

4.3.4 Process Steps

The standard operating procedure for the POCO process is outlined in the following table which provides detailed instructions, including roles, responsibilities, accountability, and checklist requirements for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)**	1.0 **Start** - The PM prepares all required supporting documentation and information and initiates the process. 1.1 Submit – The PM initiates the process, completes the required information and attaches all supporting documents. The POCO will identify previous PO amount and information. 1.1.3 Status of the Purchase Order Change Order is set to Submitted. 1.1.4 Proceed to **Step 3**.
• **Project Manager (PM)**	2.0 **PM Revise** - If the process was returned for revision, the PM revises as necessary and/or provides additional documentation and resubmits. Otherwise, this step is skipped. 2.1 Resubmit – Initiator updates information as necessary, including updating information and/or providing additional documentation. 2.1.3 User is prompted to enter required comments to explain what updates were made. 2.1.4 Proceed to **Step 3**.
• **Director of Finance/ Treasurer**	3.0 **Finance Review –** Depending on the funding source, the Director of Finance or the Deputy of Finance/Treasurer, will review the provided information, documents, and budget, and may take one of the following actions: 3.1 Request Change – If the NPR requires revision or additional information, the PrgM returns the process to the Initiator. 3.1.1 User is required to enter a comment to explain reason for returning. 3.1.2 Return to **Step 2**. 3.2 Reviewed – If the POCO is acceptable, the Director of Finance/Treasurer approves the POCO and routes to Project Controls (PC). 3.2.1 Process will automatically be assigned to the appropriate personnel for approval based on monetary thresholds entered in the "This CO Amount" data field entered in the POCO details tab. Proceed to **Step 4**. 3.3 Void-Cancel – If it is determined that POCO needs to be cancelled (i.e., duplicate, error, etc.), the Director of Finance/Treasurer cancels the process instance. 3.3.1 User is prompted to confirm the action. 3.3.2 User is prompted to enter required comments to explain reason for cancelling. 3.3.3 Status is displayed as "Void." 3.3.4 Proceed to **Step 8**.
• **Project Controls (PC)**	4.0 **Project Controls Process** – PC reviews the provided information and documents for completeness and accuracy and may take one of the following actions:

Step Actor(s)	Process Action
	4.1 Reviewed – If the POCO is acceptable, PC will make the appropriate changes to the existing PO in Cogsdale. PC will also enter the vendor ID name and number. 4.1.1 Process will automatically be assigned to the appropriate personnel for approval based on monetary thresholds entered in the "Dollar Amount" data field entered in the POCO details tab. **SENIOR GROUP MANAGER & DEPARTMENT DIRECTOR OR DIRECTOR OF ENGINEERING AND CONSTRUCTION (DEC)** — UNDER $100,000 **CHIEF EXECUTIVE OFFICER (CEO)** — $100,000 - $250,000 **BOARD APPROVAL** — $250,000.01 AND OVER 4.1.2 Proceed to **Step 5.** 4.2 Request Change – If PC requires revision or more information and/or documentation, the process returns to the initiator. 4.2.1 User is prompted to enter required comments to explain reason for returning. 4.2.2 Return to **Step 2**. 4.3 Void-Cancel – If it is determined that POCO needs to be cancelled (i.e., duplicate, error, etc.), the PC cancels the process instance. 4.3.1 User is prompted to confirm the action. 4.3.2 User is prompted to enter required comments to explain reason for cancelling. 4.3.3 Status of the commitment invoice is set to "Void." 4.3.4 Proceed to **Step 8**.
• **Engineering Senior Group Manager (SrGM);** • **Director of Engineering and Construction (DEC);** or	5.0 **POCO Approval** – The appropriate personnel, based on monetary thresholds, reviews information and documents provided and may take one of the following actions: 5.1 Reviewed – If the POCO is acceptable, the appropriate personnel will approve the Change Order. 5.1.1 If the original PO amount plus the POCO is less than $250,000, the PO will be routed to Procurement followed by a Mail Merge. 5.1.2 Proceed **Step 7**. 5.1.3 If the original PO amount plus the POCO is over $250,000.01, the PO will be routed to the CEO. Proceed to **Step 6**. 5.2 Request Change – If the POCO requires revision or more information, the appropriate personnel returns the process to the PM.

Step Actor(s)	Process Action
• **Procurement Manager**	5.2.1 User is prompted to enter required comments to explain reason for returning. 5.2.2 Return to **Step 2**. 5.3 Void-Cancel – If it is determined that POCO needs to be cancelled (i.e., duplicate, error, etc.), the PC cancels the process instance. 5.3.1 User is prompted to confirm the action. 5.3.2 User is prompted to enter required comments to explain reason for cancelling. 5.3.3 Status will be displayed as "Void." 5.3.4 Proceed to **Step 8**.
• **Chief Executive Officer (CEO)**	6.0 **Chief Executive Officer Review** – The CEO reviews the POCO for completeness and accuracy and may take one of the following actions: 6.1 Approve – If the Change Order is acceptable, the CEO approves the POCO is routed to Procurement followed by a Mail Merge. 6.1.1 Proceed to **Step 7**. 6.2 Request Change – If the POCO requires revision or more information, the CEO returns the process to the PM for corrections. 6.2.1 User is prompted to enter required comments to explain reason for returning. 6.2.2 Return to **Step 2**. 6.3 Void-Cancel – If it is determined that POCO needs to be cancelled (i.e., duplicate, error, etc.), the PC cancels the process instance. 6.3.1 User is prompted to confirm the action. 6.3.2 User is prompted to enter required comments to explain reason for cancelling. 6.3.3 Status will be displayed as "Void." 6.3.4 Proceed to **Step 8.**
• **Procurement/ Mail Merge**	7.0 **Procurement/Mail Merge** – Procurement reviews the information approved by the previous reviewers and incorporates the POCO into their records. Once approved the PM and PC will receive an automated message from e-Builder stating the Mail Merge is ready. 7.1 E-Builder will send a Mail Merge copy to Procurement to approve the PO in Cogsdale to reflect the status in e-Builder. 7.1.1 Proceed to **Step 8**.
• **Finish**	8.0 **Finish** - Process is closed.

4.3.5 Appendix A.1 – Purchase Order Change Order Mail Merge (example)

Pittsburgh Water & Sewer Authority

Please complete this form in its entirety before submitting to Procurement for processing. For clarity, please always type your responses only. Purchase order can only be approved with a complete form. Incomplete submittals will be returned.

Name of Requester: Dan Cleary

Vendor Name: Johnson, Mirmiran & Thompson, Inc.

Project Number: 2019-325-101-0

Vendor Number: 40021

Is this an Emergency PO?

Purchase Order Number: PO34845

Contract Number: 2019-325-101-0

Dollar Amount: $19008.54

Is there an approved contract? Yes

Dept. Code: 325 - Water

Account Code: 1840 - Capital Projects Only

Please explain the need for this order and attach quote(s) / requests for quotes:

This change order is for design engineer time to cover the Tecumseh St and Second Ave water relay work that was originally planned for this contract but was removed due to delays with CSX Agreements. Design was completed under original PO. This is for DSDC only.

Only acquire signature from the most appropriate person. No other business unit approver signatures needed.

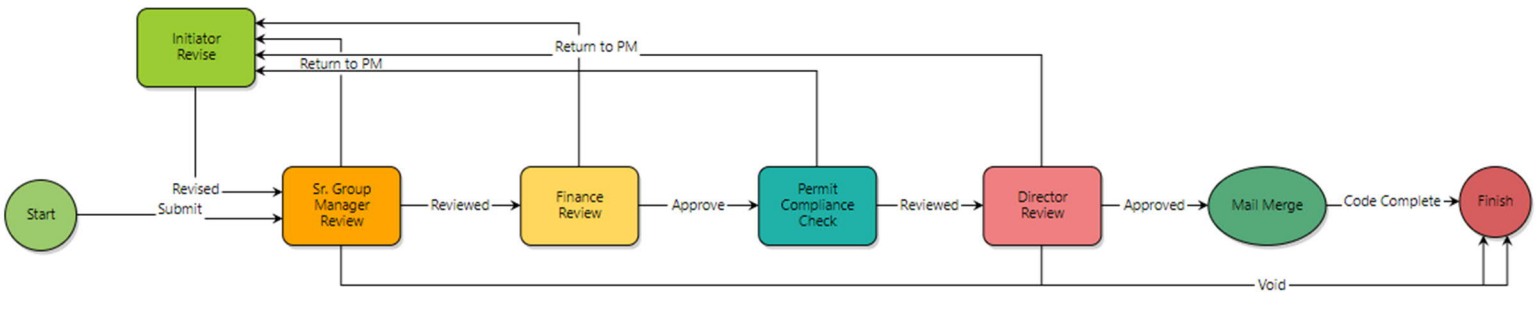
4.4 Invitation For Bid (IFB) Process

Revision Number	Effective Date	Description
0	8/1/2021	Process established
1	6/16/2022	Updated Section 4.7.4 Process Steps (IFB) Step 4.3 should read "If the IFB is acceptable, Finance recommends approval and the IFB is sent to the Permit Manager for review". (This currently reads that it goes directly to DEC and skips the permit manager.

4.7.1. Overview

The Invitation For Bid ("IFB") process is used when a PWSA Project Manager needs to fill out a Solicitation Checklist to present to Procurement for any of the following:

a) Request For Proposal (RFP)
b) Invitation For Bid (IFB)
c) Request For Quote (RFQ)
d) Request For Qualifications (RFQu)



4.7.2. Roles

The following project participants are involved in this process:

Project Manager (PM)
Senior Group Manager (SrGM)
Permit Manager
Director of Finance
Director of Engineering & Construction (DEC)

4.7.3. Process Overview

The workflow diagram is the standard workflow process implemented in e-Builder which identifies the roles and how the Invitation For Bid (IFB) is processed from start to finish.

4.7.4. Process Steps

The standard operating procedure for the IFB is outlined in the following table which provides detailed instructions, including roles, responsibilities, and accountability for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)**	**1.0** **Start** - The purpose of this step is to define the basic information necessary for the solicitation checklist, initiated primarily by the Project Manager (PM). In this step, the Initiator must provide the information required to properly execute the IFB process. 1.1 Submit – The PM will initiate the process and submit the request. The PM will make sure that all selected documents are attached under "Attached Documents". 1.1.4 Proceed to **Step 2.0**
• **Senior Group Manager (SrGM)**	**2.0** **Senior Group Manager Review** – The Senior Group Manager (SrGM) has the responsibility of reviewing the solicitation information as well as making sure all the necessary documents are attached for the type of solicitation being requested. They have the options to Void/Cancel the request, resubmit it back to the Project Manager to make revisions, or approve and move forward. 2.1 Cancel-Void – If it is determined that this request needs to be cancelled (i.e., duplicate, error, etc.), the SrGM cancels the process. 2.1.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 2.1.2 The status will be displayed as "Void." 2.1.3 Proceed to **Step 7.** 2.2 Return to PM– If the IFB requires revision or additional information, the SrGM returns the process to the Initiator. 2.2.1 User is required to enter a comment to explain reason for returning. 2.2.2 PM must resubmit to the SrGM for reapproval. 2.2.3 PM could also Void/Cancel the request at this time 2.2.4 Proceed to **Step 3.** 2.3 Approve – If the request is acceptable, the SrGM recommends approval and the IFB is routed to **Finance** Review. 2.3.1 Proceed to **Step 4**.

Step Actor(s)	Process Action
• **Project Manager (PM)**	**3.0 Initiator Revise Step -** If the IFB was returned for revision, the Initiator revises as necessary and resubmits. Otherwise, this step is omitted. 3.1 Resubmit – Initiator revises information as necessary, including updating data fields, addressing comments, and/or attaching supporting documents. 3.1.1 Once the IFB is revised, the Initiator is required to enter a comment to explain the revision(s). 3.1.2 Proceed to **Step 2**. 3.2 Void-Cancel – If it is determined the IFB needs to be cancelled (i.e., duplicate, error, etc.), the PM cancels the process instance. 3.2.1 User is prompted to confirm the action. 3.2.2 User is prompted to enter required comments to explain reason for cancelling. 3.2.3 Status of the IFB is set to "Void." 3.2.4 Proceed to **Step 7**.
• **Director of Finance**	**4.0 Director of Finance Review** – Finance will review the solicitation, and all submitted materials for accuracy. The Finance director has the option to Void/Cancel the request, return it back to the SrGM, or approve it to the next step. 4.1 Cancel-Void – If it is determined that this IFB needs to be cancelled (i.e., duplicate, error, etc.), Finance cancels the process. 4.1.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 4.1.2 The status will be displayed as "Void." 4.1.3 Proceed to **Step 7.** 4.2 Rtn to SrGM – If the IFB requires revision or additional information, Finance returns the process to the SrGM. 4.2.1 User is required to enter a comment to explain reason for returning. 4.2.2 Proceed to resubmit back to SrGM. 4.2.3 Proceed to Step **2.0.** 4.3 Approve – If the IFB is acceptable, Finance recommends approval and the IFB is sent the Permit Manager for review. 4.3.1 Proceed to **Step 5**.

Step Actor(s)	Process Action
• **Permit Manager**	**5.0 Permit Compliance Check –** Permit Manager will review whether permits are required for the solicitation and if so, determine if all permit requisites have been applied for and received. 5.1 Return to PM– If the appropriate permits have not been applied for and/or received, the Permit Manager returns the process to the Initiator. 5.1.1 Proceed to **Step 3.** 5.2 Reviewed – If the permit information is acceptable and all requisite permits have been applied for and received, the Permit Manager acknowledges review of the information and the IFB is sent the Director of E&C for review. 5.2.1 Proceed to **Step 6.**
• **Director of Engineering & Construction (DEC)**	**6.0 Director of Engineering & Construction Review –** The Director of Engineering (DEC) will review the solicitation request that has been approved by the Senior Group Manager, Finance, and the Permit Manager. The DEC has the responsibility to Void/Cancel the request, return it back to the PM, or approve it to the next steps. 6.1 Cancel-Void – If it is determined that this IFB needs to be cancelled (i.e., duplicate, error, etc.), the DEC cancels the process. 6.1.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 6.1.2 The status will be displayed as "Void." 6.1.3 Proceed to **Step 7.** 6.2 Return to PM – If the IFB requires revision or additional information, the DEC returns the process to the Project Manager. 6.2.1 User is required to enter a comment to explain reason for returning. 6.2.2 Proceed to resubmit back to PM. 6.2.3 Proceed to Step **3.** 6.3 Approve – If the IFB is acceptable, the DEC recommends approval and the IFB is sent to a Mail Merge step for a formatted printout of the information being solicited (see Appendix A – Solicitation Checklist Mail Merge printout). Mail Merge document gets sent to the Process Initiator. 6.3.1 Proceed to **Step 7**.
• **Finish**	**7.0 Finish - Process is closed.**

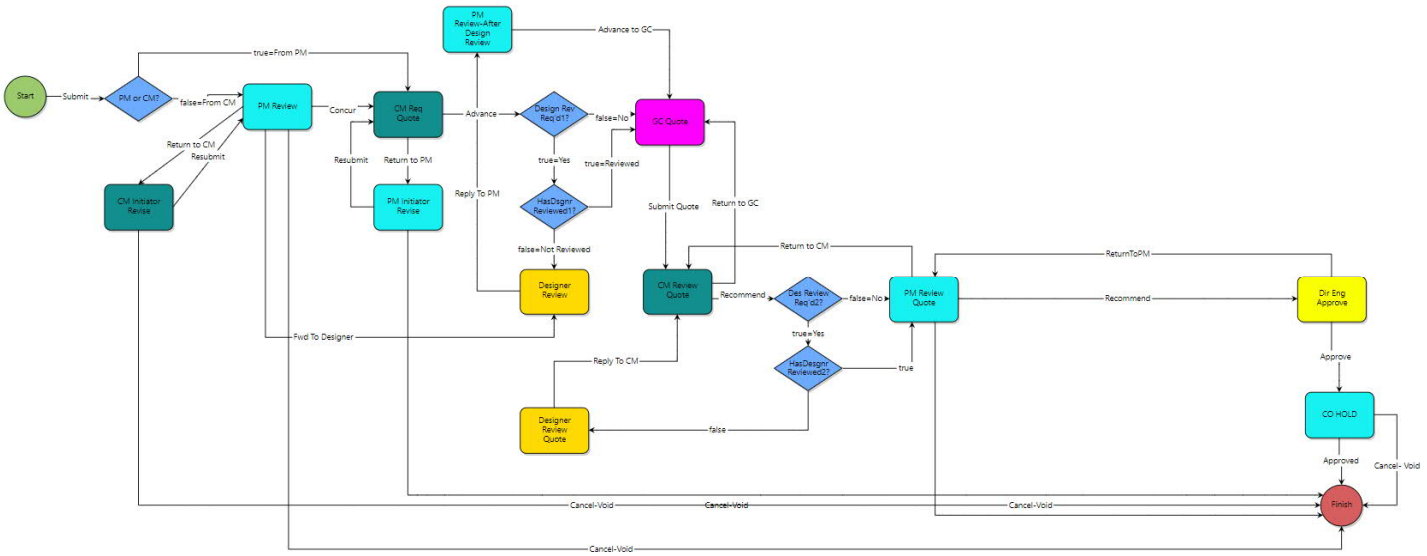
5.1 Contractor Potential Change Order (CPCO) Process

Revision Number	Effective Date	Description
0	7/1/2015	Established Process
1	7/31/2017	Updated Mail Merge Printout to remove signature and updated instructions
2	7/15/2021	Updated workflow to include Senior Group Managers

5.1.1 Overview

A Contractor Potential Change Order ("CPCO") process is used to manage the development and approval of changes to cost and/or schedule in a general contractor's contract. The CPCO is used to create a potential commitment change against the contractor's contract; to solicit, receive, and review the contractor's quote; and to hold the changes for subsequent attachment to a Contractor Change Order (CCO) process for approval. The CPCO process is integrated with e-Builder's Cost module commitment change information directly from the process and must be created before a CCO can be submitted.



5.1.2 Roles

The following process project participants are involved in the process:

Project Manager (PM)
Construction Manager- Project Manager (CM-PM)
Designer
Program Manager (PrgM)
Director of Engineering and Construction (DEC)

5.1.3 Process Overview

The workflow diagram is a standard workflow process implemented in e-Builder which identifies roles and how the CPCO is processed from start to finish.

5.1.4 Process Steps

The standard operating procedure for the CPCO is outlined in the following table which provides detailed instructions, including roles, responsibilities, and accountability for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)**	1.0 **Start** - The Project Manager (PM) initiates and attaches the Contractor Potential Change Order (CPCO) process instances that are to be part of this change order. 1.1 The Initiator begins the process by following the steps below: 1.1.1 Login to e-Builder 1.1.2 Select the **Projects** tab along the top of the screen. 1.1.3 Use the dropdown located at the top right and search for the project a process needs to be created for. 1.1.4 Chose the **Processes** module on the left-side panel. 1.1.5 At the top right of the screen, select **Start Process**. 1.1.6 Choose **Contractor Potential Change Order (CPCO).** 1.2 Submit – The PM initiates the CPCO process, completes the required information, and attaches supporting documents. 1.2.1 Proceed to **Step 3**.

Step Actor(s)	Process Action
• **CM Initiator Revise**	2.0 **CM Initiator Revise** – If the process was returned to the CM-PM for revision, the CM-PM may take one of the following actions. Otherwise, this step is skipped. 2.1 Void-Cancel – If it is determined that the process should no longer be pursued, the CM-PM cancels the process instance. 2.1.1 User is required to enter a comment to explain the reason for cancelling. 2.1.2 Status will be displayed as "Void." 2.1.3 Proceed to **Step 13.** 2.2 Resubmit – CM-PM updates information as necessary, including any of the supporting documents and/or data fields, and resubmits to the PM. 2.2.1 User is prompted to enter required comments to explain what updates were made. 2.2.2 Proceed to **Step 3**.
• **PM Review**	3.0 **PM Review** – If the process was initiated by the CM-PM, the PM reviews the process for scope and contract compliance, and may take one of the following actions: 3.1 Void-Cancel – If it is determined that the process should no longer be pursued, the PM cancels the process instance. 3.1.1 User is required to enter a comment to explain the reason for cancelling. 3.1.2 Status will be displayed as "Void." 3.1.3 Proceed to **Step 13.** 3.2 Return to CM– If revision or more information is required, the PM returns the process to the CM-PM. 3.2.1 User is required to enter a comment to explain the reason for returning. 2.1.1 Return to **Step 2.** 2.2 Fwd to Designer – If the PM determines that the Designer needs to review the process, the PM forwards the process to the Designer. 2.2.1 User is required to enter a comment to explain the request. 2.2.2 Proceed to **Step 4**. 2.3 Concur – If the PM concurs, the process advances to the CM-PM who will request a quote from the GC. 2.3.1 User is prompted to enter optional comments. 2.3.2 Proceed to **Step 6**.
• **Designer Review**	4.0 **Designer Review** – If the process was forwarded to the Designer, the Designer reviews the process; enters comments, cost; schedule impact estimates; attach supporting documents; and replies to the PM. Otherwise, this step is skipped. 4.1 Reply to PM– The Designer completes form fields and may attach supporting documents, and replies to the PM. 4.1.1 Proceed to **Step 5**.

Step Actor(s)	Process Action
• **PM Initiator Revise**	5.0 **PM Initiator Revise**– If the process was returned for revisions, the PM may take one of the following actions: 5.1 Void-Cancel - If it is determined that this change should no longer be pursued, the PM cancels the instance. 5.1.1 User is required to enter a comment to explain the reason for cancelling. 5.1.2 The status will be displayed as "Void." 5.1.3 Proceed to **Step 13**. 5.2 Resubmit – The PM updates the necessary information and required documentation before resubmitting to the CM-PM. 5.2.1 User is required to enter a comment to explain updates. 5.2.2 Proceed to **Step 6.**
• **CM Req Quote**	6.0 **CM Req Quote** – The CM-PM requests a quote from the GC and may take one of the following actions: 6.1 Return to PM – If revision or more information is required from the PM, the CM-PM returns the process to the PM. 6.1.1 User is required to enter a comment to explain reason for returning. 6.1.2 Proceed to **Step 5**. 6.2 Advance – If the CM-PM is ready to request a quote, the CM-PM advances the process. The process is routed based on whether the PM indicates the Designer needs to review the process. 6.2.1 If a Designer review is not required or the Designer has already reviewed the process, the process is routed to the GC. 6.2.1.1 Proceed to **Step 7**. 6.2.2 If a Designer review is required and the Designer has not reviewed the process, the process is routed to the Designer. 6.2.1.2 Proceed to **Step 4**.
• **GC Quote**	7.0 **GC Quote** – The GC prepares and submits a quote. 7.2 Submit – The GC prepares a quote for the requested change, attaches supporting documents as needed, enters total cost and schedule impact of the change, and submits the quote to the CM-M. 7.2.1 User is required to enter a comment to explain reason for returning. 7.2.2 Proceed to **Step 8**.
• **CM Review Quote**	8.0 **CM Review Quote** – The CM-PM reviews the quote from the GC and may take one of the following actions: 8.2 Return to GC – If revision or more information is required from the GC, the CM-PM returns the process to the GC. 8.2.1 User is required to enter a comment to explain reason for revision. 8.2.2 Proceed to **Step 7**. 8.3 Recommend – If the quote is acceptable, the CM-PM recommends approval. 8.3.1 Proceed to **Step 9**.

Step Actor(s)	Process Action
• **Designer Review Quote**	9.0 **Designer Review Quote** – If the PM has indicated that the Designer review is required, the process is routed to the Designer to review the quote. Otherwise, this step is skipped. 9.2 Reply to CM – The Designer reviews the quote and replies to the CM-PM. 9.2.1 User is required to enter a comment. 9.2.2 Proceed to **Step 8**.
• **Project Manager (PM)**	10.0 **PM Review Quote** – The PM reviews the quote from the GC and may take one of the following actions: 10.1 Void-Cancel - If it is determined that this change should no longer be pursued, the PM cancels the instance. 10.1.1 User is required to enter a comment to explain reason for voiding. 10.1.2 Proceed to **Step 13**. 10.2 Return to CM – If revision or more information is required, the PM returns the process to the CM who may subsequently return it to the GC. 10.2.1 User is required to enter a comment to explain reason for revision. 10.2.2 Proceed to **Step 8**. 10.3 Recommend – If the quote is acceptable, the PM recommends approval, and the process is routed to the Director of Engineering (DEC). 10.3.1 Procced to **Step 11**.
• **Director of Engineering and Construction (DEC)**	11.0 **Director of Engineering and Construction Approval** – The DEC reviews the CPCO for approval and may take one of the following actions: 11.1 Rtn to PM – If revision or more information is required, the DEC returns the process the PM. 11.1.1 User is required to enter a comment to explain reason for revision. 11.1.2 Proceed to **Step 5**. 11.2 Approve – If the process is acceptable, the DEC recommends approval and is routed to the holding step. 11.2.1 Data assignments are applied to set the DEC's name and approval date fields. 11.2.2 Status will be displayed as "Pending." 11.2.3 Proceed to **Step 12**.

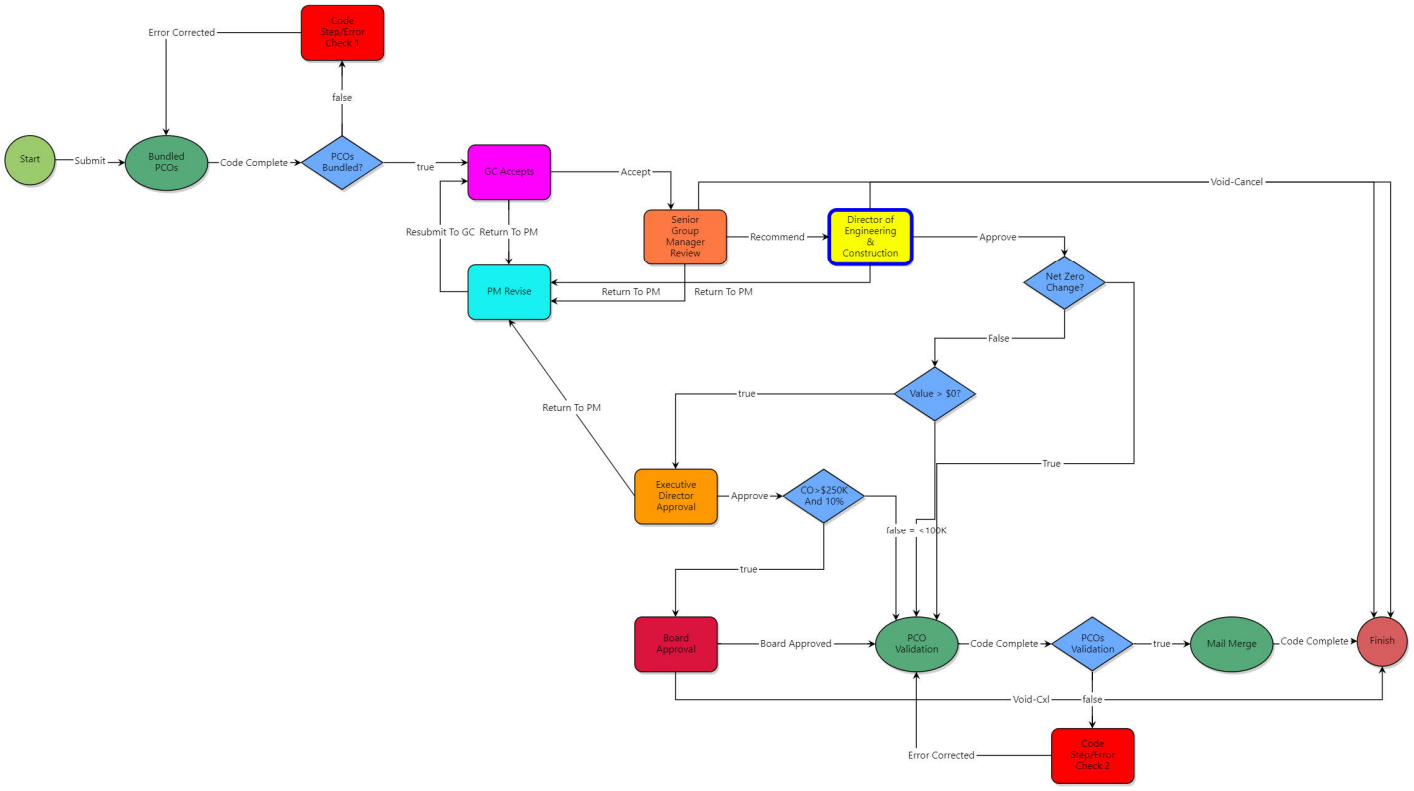
Step Actor(s)	Process Action
• **Hold**	12.0 **CO Hold** – The process instance is held in this step whole it is attached to a CCO process and routed for approval. During this step, the CPCO process is assigned to the PM, who may update it if necessary (e.g., if the final cost or schedule impact values change prior to execution of change order). The approval and closure of the CPCO process is controlled through a code step driven by the CCO process. 12.1 Approve – This action is automated upon the approval of the CCO process to which this CPCO process instance is attached. This action should not be taken by the PM in the CPCO process. 12.1.1 Status will be displayed as "Approved." 12.1.2 Proceed to **Step 13**.
• **Finish**	13.0 **Finish** - Process is closed.

5.2 Contractor Change Order (CCO) Process

Revision Number	Effective Date	Description
0	7/1/2015	Established Process
1	7/31/2017	Updated Mail Merge Printout to remove signature and updated instructions
2	1/1/2019	Updated Mail Merge Printout to remove the term "DEC" and update email addresses for Project Controls point of contact

5.2.1 Overview

The Contractor Change Order ("CCO") is used to process a single Contractor Potential Change Order ("CPCO") or a group of multiple CPCO processes into a single process for bulk approval. One or more CPCO processes may be attached to a CCO process. When the CCO process is approved, all the attached CPCO processes are also automatically approved and closed.



5.2.2 Roles

The following process project participants are involved in the process:

Project Manager (PM)
Construction Manager- Project Manager (CM-PM)
General Contractor (GC)
Senior Group Manager (SrGM)
Director of Engineering and Construction (DEC)
Project Controls (PC)
Chief Executive Officer (CEO)
Board

5.2.3 Process Overview

The workflow diagram is a standard workflow process implemented in e-Builder which identifies roles and how the CCO is processed from start to finish.

5.2.4 Process Steps

The standard operating procedure for the CCO is outlined in the following table which provides detailed instructions, including roles, responsibilities, and accountability for completing the process.

Step Actor(s)	Process Action
Initiator step: • **Project Manager** (PM)	1.0 Start – The PM initiates the process and attaches CPCO process instances that are to be part of this change order. 1.1 Submit – PM attaches CPCO processes that are in the CO Hold step, and which should be part of this change order, enters other required information and submits the process to the GC. 1.1.1 Status of the process instance is set to "Pending." 1.1.2 A code step is used to set This Change Order Total Amount field to the sum from all linked CPCO processes. 1.1.3 Proceed to Step 3.
• **Project Manager (PM)**	2.0 PM Revise – If the process was returned to the PM for revision, the PM revises as necessary and resubmits. The PM may resubmit to the GC for re-acceptance, if necessary, or may resubmit to the Senior Group Manager. Otherwise, this step is skipped. 2.1 Resubmit to PrgM – If the updates do not require that the GC re-accept, the PM updates information as necessary, including attaching/detaching CPCO processes and/or updating data fields, and resubmits to the Senior Group Manager.

Step Actor(s)	Process Action
	2.1.1 User is prompted to enter required comments to explain what updates were made. 2.1.2 Data assignments are applied to clear values in the Senior Group Manager Name, Senior Group Manager Recommendation Date, Director of Engineering Name, and Director of Engineering Approval Date fields. 2.1.3 A code step is used to refresh the This Change Order Total Amount field to the sum from all linked CPCO processes. 2.1.4 Proceed to step 3.
• General Contractor (GC)	3.0 GC Accept – GC reviews the process for acceptance and may take one of the following actions: 1.1 Return to PM – If revision or more information is required, the GC returns the process to the PM. 1.1.1 User is prompted to enter required comments to explain reason for not accepting. 1.1.2 Return to Step 2. 1.2 Accept – If the change order is acceptable, the GC accepts. 1.2.1 Data assignments are applied to set Contractor Representative Name and Contractor Acceptance Date fields. 1.2.2 Proceed to Step 4.
• Project Manager (PM)	4.0 Resubmit to GC – If the updates require that the GC re-accept, the PM updates information as necessary, including attaching/detaching CPCO processes and/or updating data fields, and resubmits to the GC. 4.1 User is prompted to enter required comments to explain what updates were made. 4.2 Data assignments are applied to clear values in the Contractor Representative Name, Contractor Acceptance Date, Senior Group Manager Name, Senior Group Manager Recommendation Date, Director of Engineering Name, and Director of Engineering Approval Date fields. 4.3 A code step is used to refresh the This Change Order Total Amount field to the sum from all linked CPCO processes. 4.4. Proceed to Step 5.
• Senior Group Manager (SrGM)	5.0 SrGM Review – Senior Group Manager reviews the process and may take one of the following actions. 5.1 Return to PM – If revision or more information is required, the Senior Group Manager returns the process to the PM. 5.1.1 User is prompted to enter required comments to explain reason for returning. 5.1.2 Return to Step 2. 5.2 Recommend – If the information is acceptable, the Senior Group Manager recommends approval and the process advances to the Director of Engineering. 5.2.1 Data assignments are applied to set Senior Group Manager Name and Senior Group Manager Recommendation Date fields 5.2.2 Proceed to Step 6.

Step Actor(s)	Process Action
• **Director of Engineering (DEC)**	6.0 Dir Eng Approve – Director of Engineering reviews the change for approval and may take one of the following actions. 6.1 Return to PM – If the Director of Engineering cannot approve the process and revision or more information is required, the Director of Engineering returns the process to the PM. 6.1.1 User is prompted to enter required comments to explain reason for returning. 6.1.2 Senior Group Manager receive FYI email notification. 6.1.3 Return to Step 2. 6.2 Approve – If the change order is acceptable, the Director of Engineering approves. 6.2.1 Data assignments are applied to set Director of Engineering Name and Director of Engineering Approval Date fields. 6.2.2 A code step is used to refresh the This Change Order Total Amount field to the sum from all linked CPCO processes. 6.2.3 The process is routed based on the cost and schedule impact. 6.2.3.1 If the change order is less than $100,000 or is less than or equal to 10% of the original contract amount, the Director of Engineering is the last required approver, and the process is approved and closed. 6.2.3.1.1 Data assignments are applied to set Director of Engineering's Name and Date Approved. 6.2.3.1.2 Proceed to Step 9, which will close out the process and make it final. 6.2.3.2 Otherwise, if cost is greater than $100,000 (as evidenced by the value in the This Change Order Total Amount field) OR schedule impact (as evidenced by value greater than $100,000 in the This Change Order Total Schedule Impact field), the process is routed to the Chief Executive Officer. 6.2.3.2.1 Proceed to Step 7.

Step Actor(s)	Process Action
• **Chief Executive Officer**	7.0 Exec Dir Approve – If there is cost or schedule impact, the Chief Executive Officer reviews for approval and may take one of the following actions. Otherwise, this step is skipped. 7.1 Return to PM – If the Chief Executive Officer cannot approve the process and revision or more information is required, the Chief Executive Officer returns the process to the PM. 7.1.1 User is prompted to enter required comments to explain reason for returning. 7.1.2 Legal, Procurement, Director of Engineering, Program Manager, and Project Manager receives FYI email notification. 7.1.3 Return to Step 2. 7.2 Approve – If the change order is acceptable, the Chief Executive Officer approves. 7.2.1 Data assignments are applied to set Chief Executive Officer Name and Chief Executive Officer Approval Date fields. 7.2.2 The process is routed based on the cost impact. 7.2.2.1 If the sum of all items in this change order is less than or equal to $250,000 AND the sum of all prior approved change orders plus this change order is less than or equal to 10% of the original contract amount, the Chief Executive Officer is the last required approver and the process is approved and closed. 7.2.2.1.1 Data assignment is applied to set Approved by Resolution No. field to "--Not Required--." 7.2.2.1.2 Proceed to Step 9. 7.2.2.2 Otherwise, if the sum of all items in this change order is greater than $250,000 OR the sum of all prior approved change orders plus this change order is greater than 5 percent of the original contract amount, the change must be approved by the Board. 9.3 Proceed to Step 8.
• **Board Approval (Project Controls)**	8.0 Board Approval – If the sum of all items in this change order is greater than $250,000 or the sum of all prior approved change orders plus this change order is greater than 10% of the original contract amount, the Board reviews for approval. During this time, the Project Controls holds the process and may take one of the following actions. Otherwise, this step is skipped. 8.1 Board Tabled – If the Board tabled the approval of this CCO, the Senior Group Manager takes this action to return the process to the same step. 8.1.1 Required data fields are not validated. 8.1.2 User is prompted to enter required comments to explain. 8.1.3 Director of Engineering and Engineer or Record receive FYI email notification. 8.1.4 Data assignment is applied to set Board Tabled Count field. 8.1.5 Project Controls will hold this CCO under board approves the Board Resolution which includes the respective CCO 8.2 Return to Step 7.Board Approved – If the Board approved the change order, Project Controls enters approval information, attaches the executed change order document, and closes the process. 8.2.1 Proceed to Step 9.

Step Actor(s)	Process Action
• **Finished**	9.0 Finish – Process is closed. 9.1 All CPCO processes attached to the Contractor Change Order process are automatically closed. 9.1.1 Status of the CCO process instance is set to "Approved." 9.2 Status of the commitment change in each CPCO process attached to this CCO process is set to "Approved." 9.3 PM, CM-PM, Program Manager, GC, and the PWSA Project Controls receive FYI email notification.

5.3 Expedited Contractor Change Order (ECCO) Process

Revision Number	Effective Date	Description
0	12/22/2016	Established Process
1	1/27/2017	Included Procurement and Legal in process per direction of Interim Chief Executive Officer (Bernie Lindstrom)
2	4/1/2018	Excluded Procurement and Legal from the process per direction of new Interim Chief Executive Officer (Robert Weimar)
3	1/1/2019	Updated Mail Merge Printout to remove the term "Interim DEC" and update email addresses for Project Controls point of contact

5.3.1 Overview

This process explains how Expedited Contractor Change Orders ("ECCO") are prepared, reviewed and approved.

The PWSA occasionally needs to expedite the processing of a change to a contractor's contract for time sensitive situations. The routine process of preparing a Contractor Potential Change Order ("CPCO") and processing it through the Contractor Change Order ("CCO") process is not timely enough to meet this type of event. This process should be used sparingly; or only when an urgent need arises.

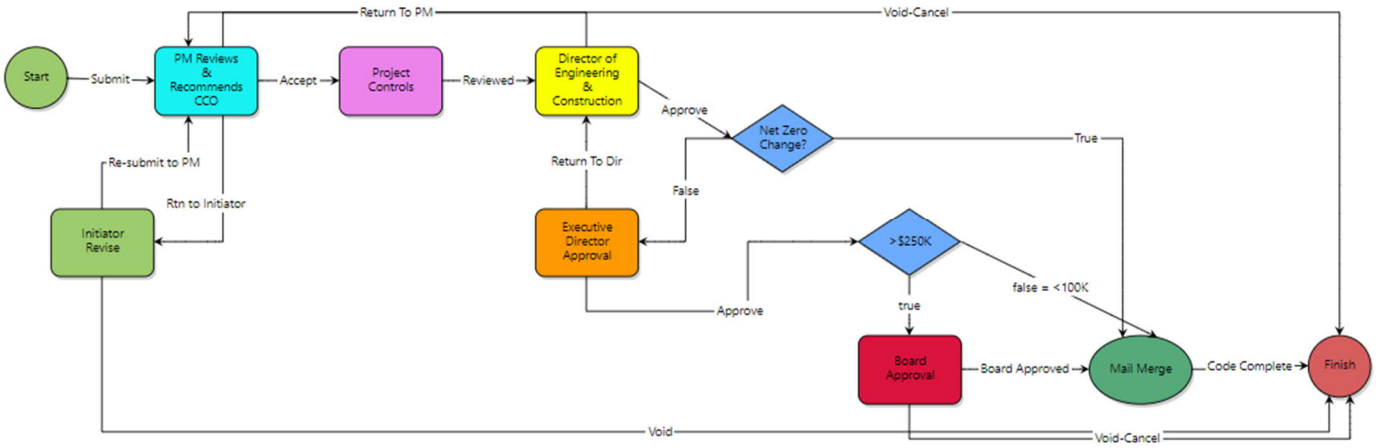
For example:

- Contractor time extensions
- Balancing or zeroing out quantities in the bid items once the construction is complete
- Government mandates (i.e., EPA, DEP, City Officials, etc.) requesting action to be taken on a project which is time sensitive and/or poses security risk(s).

The EECO process should not be used to circumvent the normal CPCO and CCO processes.

The process of preparing an ECCO, along with the review and approval are incorporated within e-Builder structured workflow. The automation of these activities provides the advantages of process consistency, quality control, performance audits and accountability.

5.3.2 Roles



The following process project participants are involved in this process:

Construction Manager-Project Manager (CM-PM)
Project Manager (PM)

Program Manager (PrgM)
Director of Engineering and Construction (DEC)
Chief Executive Officer (CEO)
PWSA Board
Project Controls (PC)

5.3.3 Process Overview

This workflow diagram is a standard workflow process implemented in e-Builder which identifies roles and how the ECCO is processed from start to finish.

5.3.4 Process Steps

The standard operating procedure for the ECCO is outlined in the following table which provides detailed instructions, including roles, responsibilities, and accountability for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **Construction Manager – Project Manager (CM-PM)** or • **Project Manager (PM)**	1.0 **Start** –The Initiator, typically the Construction Manager – Project Manager (CM-PM), submits all required information and attaches all necessary documentation to begin the Expedited Contractor Change Order (ECCO). It is critical for the CM-PM to confer with the contractor in order to fully document the Change Order (CO) and obtain a signed proposal/quote from the contractor. 1.1 The Initiator begins the process by following the steps below: 1.1.1 Login to e-Builder. 1.1.2 Select the **Projects** tab along the top of the screen. 1.1.3 Use the dropdown located at the top right and search for the project a process needs to be created for. 1.1.4 Choose the **Process** module on the left-side panel. 1.1.5 At the top right of the screen, select **Start Process**. 1.1.6 Choose **Expedited Contractor Change Order (ECCO).** 1.1.7 Complete all required data fields and attach supporting documentation. 1.2 Submit – The CM-PM initiates the ECCO process, completes the required information, and attaches supporting documents. 1.2.1 Proceed to **Step 3**.
• **Construction Manager – Project Manager (CM-PM)** or • **Project Manager (PM)**	2.0 **Initiator Revise** – If the ECCO is returned for revision, the initiator revises as necessary and resubmits. Otherwise, this step is omitted. 2.1 Resubmit – Initiator revises information as necessary, including updating data fields, addressing comments, and/or attaching supporting documents. 2.1.1 Once the ECCO is revised, the Initiator is required to enter a comment to explain the revision(s). 2.1.2 Proceed to **Step 3**.

Step Actor(s)	Process Action
• **Project Manager (PM)**	3.0 **PM Review** – The Project Manager (PM) reviews the ECCO for overall completeness and accuracy of the ECCO submitted and may take one of the following actions: 3.1 Request Change – If the ECCO requires revision or additional information, the PM returns the process to the Initiator. 3.1.1 User is required to enter a comment to explain reason for returning. 3.1.2 Proceed to **Step 2**. 3.2 Accept – If the ECCO is acceptable, the PM recommends approval and the ECCO is routed to the Director of Engineering (DEC). 3.2.1 It is critical in this step that the PM fully evaluates the merit of the ECCO, but also whether additional construction management and/or design engineer effort will be needed to support the ECCO. If so, the CM-PM should enter the appropriate values in the "Forecast" column of the project's cost module. In addition, the PM should initiate the Task Order Amendment (TOA) for the required additional service. 3.2.2 If the current budget cannot support the ECCO or construction management or design engineer services, the PM must annotate the additional budget that is required. 3.2.3 Proceed to **Step 4**. 3.3 Void-Cancel – If it is determined that the ECCO needs to be cancelled (e.g., it is a duplicate, errors, etc.) the PM cancels the process instance. 3.3.1 User is prompted to confirm the action. 3.3.2 User is prompted to enter required comments to explain reason for cancelling. 3.3.3 Status will be displayed as "Submitted." 3.3.4 Proceed to **Step 9**.
• **Project Controls (PC)**	4.0 **Project Controls** – Project Controls (PC) will submit a budget request to the Director of Finance (e.g., responsible for Operated funded projects) or Deputy Director of Finance/Treasurer (e.g., responsible for Capital funded projects) to approve the budget change (e.g., increase or decrease the project budget amount). Once the budget request has been approved, PC will add the appropriate commitment to the ECCO, as well as change the date and reason code so the budget approval (if needed) can be processed simultaneously with the ECCO. PC will take the following action: 4.1 Reviewed – Once the budget request has been approved, PC will amend the commitment and the ECCO is routed to the Director of Engineering (DEC). 4.1.1 Proceed to **Step 5**.

Step Actor(s)	Process Action
• **Director of Engineering and Construction (DEC)**	5.0 **Director of Engineering and Construction Review**– The Director of Engineering and Construction (DEC), reviews the ECCO for overall completeness and accuracy and may take one of the following actions: 5.1 Request Change – If the EECO requires revision or additional information, the DEC returns the process to the PM. 5.1.1 User is required to enter a comment to explain reason for returning. 5.1.2 Proceed to **Step 3**. 5.2 Approve – If the ECCO is acceptable, it will move to the appropriate step. 5.2.1 If the ECCO equals $100,000 or less than 5% of the original contract value, the DEC approves the ECCO and is then routed to Mail Merge. 5.2.1.1 Proceed to **Step 8**. 5.2.2 If the ECCO does not have a net zero-dollar change, the ECCO will be routed to Chief Executive Officer (CEO). 5.2.2.1 Proceed to **Step 6**. 5.3 Void-Cancel – If it is determined that the ECCO needs to be cancelled (e.g., it is a duplicate, errors, etc.) the DEC cancels the process instance. 5.3.1 User is prompted to confirm the action. 5.3.2 User is prompted to enter required comments to explain reason for cancelling. 5.3.3 Status will be displayed as "Void." 5.3.4 Proceed to **Step 9**.
• **Chief Executive Officer (CEO)**	6.0 **Chief Executive Officer Review** – The Chief Executive Officer (CEO) reviews the ECCO for completeness and accuracy of the solicitation section and may take one of the following actions: 6.1 Request Change – If the ECCO requires revision or additional information, the CEO returns the process to the DEC. 6.1.1 User is required to enter a comment to explain reason for returning. 6.1.2 Proceed to **Step 5**. 6.2 Approve – If the ECCO is acceptable, it will move to the appropriate step. 6.2.1 If the ECCO has a cumulative value of all previously approved Change Orders equals $250,000 or less and the total of the Change Order(s), including the current ECCO, is greater than 5% of the original contract, the ECCO will be routed to Mail Merge. 6.2.1.1 Proceed to **Step 8**. 6.2.2 If the ECCO has a cumulative value of all previously approved Change Orders is more than $250,000, the ECCO will be routed to Board Approval. 6.2.2.1 Proceed to **Step 7**.

Step Actor(s)	Process Action
• **Project Controls (PC)**	7.0 **Board Approval** – PC acts on the behalf of the PWSA Board in this step. If the Board approves the ECCO, e-Builder will automatically record the new cost commitment into the project cost account and PC will complete the necessary information to move the process forward and may take one of the following actions: 7.1 Void-Cancel – If it is determined that the ECCO needs to be cancelled (e.g., it is a duplicate, errors, etc.), PC cancels the process instance. 7.1.1 User is prompted to confirm the action. 7.1.2 User is prompted to enter required comments to explain reason for cancelling. 7.1.3 Status will be displayed as "Void." 7.1.4 Proceed to **Step 9**. 7.2 Board Approved – If the ECCO is acceptable, PC recommends approval and the ECCO is routed to Mail Merge. 7.2.1 Proceed to **Step 8**.
• **All users within the process**	8.0 **Mail Merge** – All users within the process will receive an automated e-mail from e-Builder stating the Mail Merge complete and process is closed.
• **Finish**	9.0 **Finish** - Process is closed.

5.3.5 Appendix A.1 – Contractor Change Order Mail Merge Printout via e-Builder

Expedited Change Order Instructions

Pittsburgh Water & Sewer Authority

PROJECT (Name and address):
z_Sandbox - Giuseppe Sciulli
Sharpsburg
Sharpsburg, PA

e-Builder Process Number: 2
DATE: 02.14.2019 06:03PM
ECCO.G010 Final Quantity Adjustment

TO CONTRACTOR: PWSA GC Test Company

THE CONTRACT IS CHANGED AS FOLLOWS:

The original Contract Sum was	$ .00
The net change by previous authorized Change Orders	$ .00
The Contract Sum prior to this Change Order is	$ .00
The Contract Sum will be adjusted by this Change Order in the amount of	$ .00
The new Contract Sum including this Change Order will be	$ .00

The Contract Time will be increased by 0 days
The date of Final Completion as of the date of this Change Order therefore is 03.31.2019

NOTE: This Change Order does not include changes in the Contract Sum, Contract Time or Guaranteed Maximum Price which have been authorized by Construction Change Directive until the cost and time have been agreed upon by both the Owner and Contractor, in which case a Change Order is executed to supersede the Construction Change Directive.

ACCEPTED BY:
PWSA GC Test Company

CONTRACTOR

APPROVED BY:

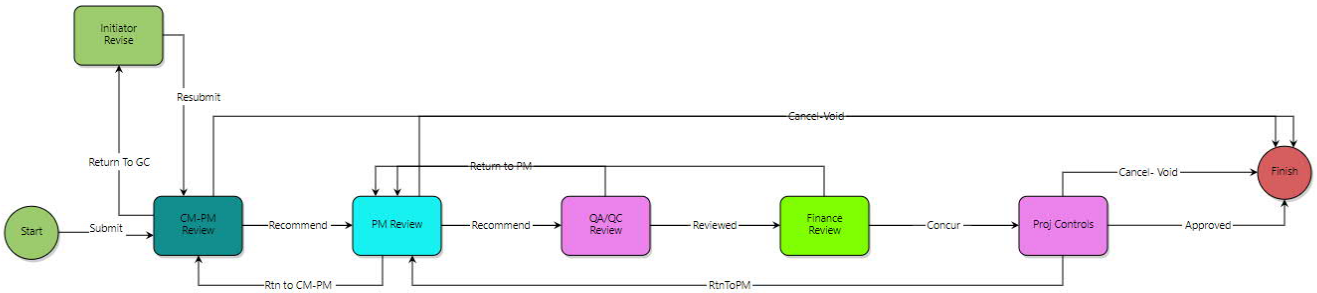
PWSA

5.4 Contractor Pay Application (CPA) Process

Revision Number	Effective Date	Description
0	7/1/2015	Established Process
1	8/8/2017	Removal of Chief Executive Officer from CPA Process
2	1/1/2019	Removal of CM-Executive from the CPA Process
3	9/15/2019	Included additional step in CPA Process for Project Controls (i.e., QA/QC Step)
4	8/27/2021	Updating CPA Checklist to instruct contractors and reviews about liquidated damages, entering subcontractor diversity participation invoices information in e-Builder CPA Process, no longer using the MBE/WBE Monthly Utilization Template. New version of the CPA Template has been added and used for all new projects starting 9/1/2021.

5.4.1 Overview

The Contractor Pay Application ("CPA") is used to manage the submission, review, and approval of invoices for a general contractor's contract. This process is integrated with the Actual Cost (commitment) object in the e-Builder Cost Module and will automatically updated cost information directly from the process. The CPA includes the services or materials used for the jobs being executed under a contract agreement.



5.4.2 Roles

The following process project participants are involved in this process:

General Contractor (GC)
Construction Manager- Project Manager (CM-PM)
Project Manager (PM)
QA/QC (PC)
Finance
Project Controls (PC)

5.4.3 Process Overview

This workflow diagram is a standard workflow process implemented in e-Builder which identifies roles and how the Contractor Pay Application ("CPA") is processed from start to finish.

5.4.4 Process Steps

The standard operating procedure for the CPA is outlined in the following table which provides detailed instructions, including roles, responsibilities, and accountability for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **General Contractor (GC)**	1.0 **Start** - The General Contractor (GC) prepares all required supporting documents and information and initiates the process. The invoice line items presented to the GC in the invoice form (see Appendix A) are the same as the approved line items in the GC's commitment. If the retainage percent on any of the invoice line items are incorrect, the GC must contact the PM to update the commitment prior to submitting the invoice. Prior to submitting the pay application, the GC and the Construction Manager-Project Manager (CM-PM) are expected to review a "pencil copy" of the pay application in order to confirm that the pay application information is correct and acceptable. This will keep an absolute minimum of occasions when a submitted pay application is rejected upon CM-PM review. 1.1 Submit – The GC initiates the process, completes the information on the CPA form and attaches the supporting documents. The GC commitments will use the e-Builder Payment Application feature allowing to download a schedule of values worksheet in Excel format, populate it offline, and import the invoice items into e-Builder directly from the Excel worksheet. Alternatively, the GC may manually enter the invoice amounts for each invoice line item. The GC submits the process to the CM-PM. 1.1.1 Status of the commitment invoice is set to Received. 1.1.2 Proceed to **Step 3**.
• **General Contractor (GC)**	2.0 **Initiator Revise** - If the process was returned for revision, the Initiator revises as necessary and resubmits. Otherwise, this step is skipped. If the amount of the invoice needs to be edited to reflect a revised amount as marked up by any reviewer, the Initiator revises all affected line items.

Step Actor(s)	Process Action
	2.1 Resubmit – Initiator updates information as necessary, including updating invoice amounts and/or updating data fields. 2.1.2 User is prompted to enter required comments to explain what updates were made. 2.1.3 Proceed to **Step 3**.
• **Construction Manager – Project Manager (CM-PM)**	3.0 **CM-PM Review** – The CM-PM reviews the CPA for completeness and accuracy and may take one of the following actions: 3.1 Void-Cancel – If it is determined that the CPA needs to be cancelled (e.g., it is a duplicate, errors, etc.) the CM-PM cancels the process instance. 3.1.1 User is prompted to confirm the action. 3.1.2 User is prompted to enter required comments to explain reason for cancelling. 3.1.3 Status will be displayed as "Void." 3.1.4 Proceed to **Step 8**. 3.2 Return to GC – If the CM-PM requires revision or more information, the CM-PM returns the process to the Initiator. 3.2.1 User is prompted to enter required comments to explain reason for returning. 3.2.2 Return to **Step 2**. 3.3 Recommend – If the invoice is acceptable, the CM-PM recommends approval and the process is routed to the Project Manager (PM). 3.3.1 Proceed to **Step 4**.
• **Project Manager (PM)**	4.0 **Project Manager Review** - The PM reviews the CPA for completeness and accuracy and may take one of the following actions: 4.1 Void-Cancel – If it is determined that the CPA needs to be cancelled, the PM cancels the process instance. 4.1.1 User is prompted to confirm the action. 4.1.2 User is prompted to enter required comments to explain reason for cancelling. 4.1.3 Status will be displayed as "Void." 4.1.4 Proceed to **Step 8**. 4.2 Rtn to CM-Exec – If revision and/or more information is required, the PM returns the process to the CM-PM. 4.2.1 User is prompted to enter required comments to explain reason for returning. 4.2.2 Return to **Step 3**. 4.3 Approve – If the invoice is acceptable, the PM approves the process is routed to Project Controls (PC). 4.3.1 Proceed to **Step 5**.

Step Actor(s)	Process Action
• **Project Controls (PC)**	5.0 **QA/QC Review** – Project Controls (PC) reviews the CPA for completeness and accuracy and may take one of the following actions: 5.1 Void-Cancel – If it is determined that the CPA needs to be cancelled, PC cancels the process instance. 5.1.1 User is prompted to confirm the action. 5.1.2 User is prompted to enter required comments to explain reason for cancelling. 5.1.3 Status is displayed as "Void." 5.1.4 Proceed to **Step 8**. 5.2 Return to PM – If revision and/or more information is required, PC returns the process to the PM. 5.2.1 User is prompted to enter required comments to explain reason for returning. 5.2.2 Return to **Step 3**. 5.3 Approve – If the invoice is acceptable, PC approves the process and is routed to Finance. 5.3.1 Proceed to **Step 6**.
• **Finance**	6.0 **Finance Review** - Finance reviews rate tables, dates, and cost, and may take one of the following actions: 6.1 Rtn to PM – If revisions and/or more information is required, Finance returns the process to the PM. 6.1.1 User is prompted to enter required comments to explain reason for returning. 6.1.2 Return to **Step 4**. 6.2 Concur – If the invoice is acceptable, Finance indicates concurrence and the process is routed to the Project Controls. 6.2.1 Proceed to **Step 7**.
• **Project Controls (PC)**	7.0 **Project Controls Review** - PC enters CPA information into Cogsdale, prepares requisition reports, and submits for payment. After payment is made, PC updates Cogsdale and e-Builder, and closes the process. 7.1 Close – PC enters payment details into e-Builder, including the Cogsdale Receipt No., Cogsdale PO No., Requisition No., and payment date, and closes the e-Builder process. Gets sent to GC regarding their CPA was approved by all parties in process. PWSA will issue checks from Cogsdale and generally takes 3-5 business days for GC's to receive their check(s). 7.1.1 Proceed to **Step 8**.
• **Finish**	8.0 **Finish** - Process is closed.

5.4.5 Appendix A.1 - PWSA Contractor Application Checklist, CPA Template and Retainage Release Templates

Checklist can be found in e-Builder: https://app.e-builder.net/da2/daLanding.aspx?QS=a61722d1fb0442b4a22a5a944bdfdbed

PWSA e-Builder Contractor Pay Application Process Checklist

The responsibility and actions taken for a Project Manager (PM) or PWSA Project Manager is to review the Contractor Pay Application (CPA) process for completeness and accuracy.

The PM is to review and validate that the information entered by the Contractor and Construction Manager-Project Manager (CM-PM) Firm in e-Builder matches the attached documentation. In doing so, the PM will be responsible for reviewing and recommending approval or reviewing and returning (to the CM Firm) the process submitted to them for review.

The Contractor and CM-PM Firm shall complete the "pencil copy" CPA review process in advance of thesteps addressed via this checklist.

A. The following items shall be entered/uploaded into e-Builder by the Contractor in support of ALL PWSA's Contractor Payment Applications (CPAs):

- ☐ Signed and notarized PWSA's Contractor Application for Payment (attached by Contractor)
- ☐ Updated progress schedule (attached by Contractor)
- ☐ Certified payroll records (attached by Contractor)
- ☐ Monthly calculation (calc) sheets (attached by CM-PM)
- ☐ Other Entries into e-Builder (completed by either Contractor or CM-PM)

A reviewer's checklist for each of the above-listed items follows:

PWSA Contractor's Application for Payment (see Appendix A – PWSA Contractor's Application for Payment Template)

1. ☐Ensure that attached pay app is based on the most recent CPA template in e-Builder (page 1 is a summary of the itemization sheets on pages 2 through X)
2. ☐PWSA Project Name matches that on project in e-Builder (check all pages of PDF)
3. ☐Contractor matches that on project in e-Builder (check all pages of PDF)
4. ☐PWSA Project Number matches that on project in e-Builder (check all pages of PDF)
5. ☐Contract Date matches date documented in Notice-to-Proceed (into field/construction) letter to Contractor
6. ☐Substantial Completion Date matches date documented in Notice-to-Proceed (into field/construction) letter to Contractor, or that of an approved contract extension, perhaps through an ECCO (entered in e-Builder only)
7. ☐Final Completion Date matches date documented in Notice-to-Proceed (into field/construction) letter to Contractor, or that of an approved contract extension, perhaps through an ECCO (entered in e-Builder only)
8. ☐Application No. should be numbered sequentially from previous application (entered both in e-Builder and on attached PDF) [check all pages of PDF]
9. ☐Period From should not overlap a previous application and should not be a date prior to Contract Date (entered both in e-Builder and on attached PDF) [check all pages of PDF]
10. ☐Period To should not overlap a previous application and should not be a date after the Final Completion date as listed on the Notice-to-Proceed letter or change order (CCO or ECCO) that alters the contract completion date (entered both in e-Builder and on attached PDF) [check all pages of PDF]

11. ☐Original Contract Sum matches awarded value found in the executed Agreement which can be found in the project in e-Builder
12. ☐Additional Work By Change Order matches approved change orders in-place to date which can be found in the project in e-Builder (also should update based on tally completed on left-hand side of the CPA template)
13. ☐Retainage amount appropriate for percentage of completed work (see Appendix B – PWSA's Retainage Release – Template)
14. ☐Billing Summary calculation of Current Payment Due is correct and appropriate (with existing formulas, cells should update as progress occurs)
15. ☐Contractor's Certification is signed and notarized (after "Period To" date)
16. ☐Quantity Itemization Sheets (pages 2 through X) quantify usage of bid item units and totals on last page should be summarized on page 1 of the application itself
17. ☐Liquidated Damages Summary (see Appendix A – PWSA Contractor's Application for Payment Template)
    - Liquidated damages number
    - Date
    - Amount assessed
    - Reason for Liquidated Damages
    - Attached supporting documents related to Liquidated Damages

Updated Progress Schedule

18. ☐Approved baseline schedule used as basis for updated progress (data date should match CPA "Period To" date)
19. ☐Progress period matches period covered in CPA
20. ☐Progress shown for sites completed is supported by notes in CM's monthly calc sheets

Certified Payroll Records

21. ☐Records correlate with period of CPA
22. ☐Records of any subcontractors are to be included

Monthly Calculation Sheets

23. ☐Sheets are typically a hand-written account/record of work completed during the period and should correlate to progress reported on Contractor's updated progress schedule AND on the pay app itself

Diversity Participation Information

M/W/SDVBE Utilization Report worksheet will no longer need to be attached with CPA. Diversity Participation invoice information will now need to be entered in EB (under the Diversity Participation section), if work was completed by the subcontractor on this CPA. If no Diversity Participation subcontractor was used or work was not completed during this period, please leave this section blank.

24. ☐ MBE Firm (CPA) (Select MBE firm from the drop-down menu where charges were made on the invoice being submitted)
25. ☐ WBE Firm (CPA) (Select WBE firm from the drop-down menu where charges were made on the invoice being submitted)
26. ☐ VBE/SDVBE Firm (CPA) (Select SDVBE firm from the drop-down menu where charges were made on the invoice being submitted)
27. ☐ Original Commitment (Enter the original commitment of the M/W/SDVBE firm on this contract)
28. ☐ Amount Paid on This Invoice (Amount being paid to the M/W/SDVBE firm only)

29. ☐ Amount Paid to Date (Amount paid to date for the individual subconsultant)

Note: If a firm is not listed in any of the M/W/SDVBE drop down menus, please contact e-Builder Team (Juan Hirmas – jhirmas@pgh2o.com, Tiffany Patton – tpatton@pgh2o.com, or Giuseppe Sciulli – gsciulli@pgh2o.com)to have a firm added.

Other Entries into e-Builder

30. ☐Final Pay App ("Yes" should be selected if this is the final pay app, if not "No" should be selected)
31. ☐Ensure proper Commitment has been selected (verify against those included in Cost/Commitments section within the project in e-Builder
32. ☐Invoice Items (ensure proper breakdown of total is hitting the appropriate line items – if it's original contract value work it should hit the original contract value line item; if it's change order work it should hit the appropriate change order line item)
33. ☐Total Current Payment Due should match that included on the CPA (attached PDF)
34. ☐Take Action according to the results of your review

B. The following items shall be entered/uploaded into e-Builder by the Contractor that includes a REDUCTION IN RETAINAGE (Retainage reduction is not yet managed within the project in e-Builder, but is accomplished by the Contractor and CM-PM agreeing to a retainage reduction and then documenting it in both the CPA and a PWSA's Retainage Release Template, see Appendix B):

Retainage Reduction

35. ☐If CPA indicates a reduction in retainage (i.e., 10% on previous CPA, but 5% on this CPA), then variance of the retainage (5% in this case) is released while the balance (5% in this case) is retained (verify by reviewing the first page and last page of the CPA itself)
36. ☐Retainage reduction should be explained by the CM-PM attaching a spreadsheet (or PDF of the spreadsheet) that explains the total payment, both the payment of the bid items used during the period AND the retainage release) – spreadsheet being performed at the request of PWSA Finance
37. ☐Consent of Surety to Reduction in or Partial Release of Retainage (attached by Contractor)

C. The following items shall be entered/uploaded into e-Builder by the Contractor and/or CM-PM in support of FINAL Contractor's Payment Applications (CPAs):

Final Application for Payment

38. ☐Maintenance Bond (typically two years) [attached by Contractor; hard copy provided to PWSA PM]
39. ☐Certificate of Insurance covering "correction period" (typically two years) [attached by Contractor; hard copy provided to PWSA PM]
40. ☐Consent of Surety to Final Payment [attached by Contractor]
41. ☐Contractor's Affidavit of Payment of Debts & Claims [attached by Contractor]
42. ☐Contractor's Affidavit of Release of Liens [attached by Contractor]
43. ☐Final Calc Book [attached by CM-PM]

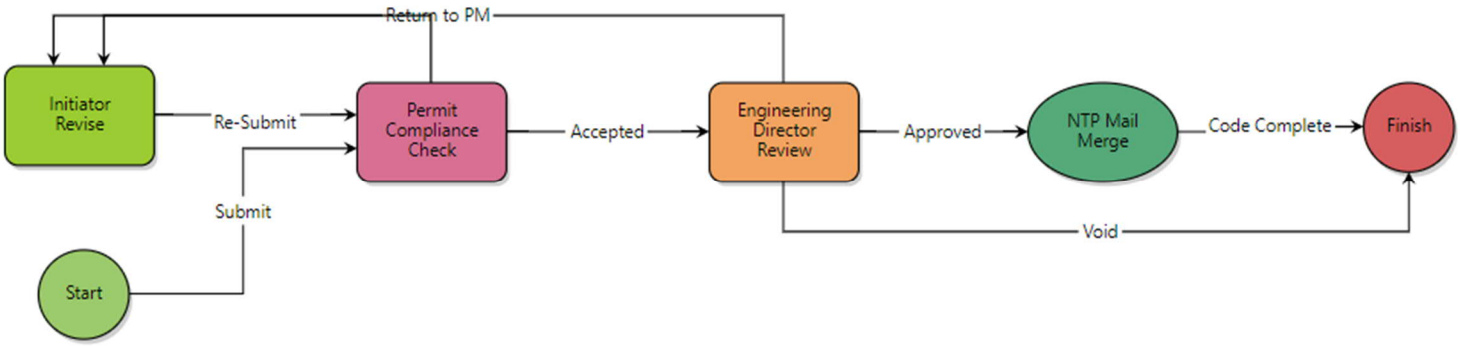
5.5 Notice to Proceed (NTP) Process

Revision Number	Effective Date	Description
0	8/20/2021	Established Process
1	4/26/2022	Update the sequence numbers in the Process Step section to reference the correct action take in each step.
2	6/16/2022	Updated Section 5.54 Process Steps (IFB) Step 4.0 should read "The Director of Engineering (DEC) will review the NTP request that has been approved by the Permit Manager. ...."

5.5.1 Overview

The Notice to Proceed ("NTP") process is used when a PWSA Project Manager needs generate a NTP letter to present to the Contractor in order to begin work.



5.5.2 Roles

The following project participants are involved in this process:

Project Manager (PM)
Permit Manager
Director of Engineering & Construction (DEC)

5.5.3 Process Overview

The workflow diagram is the standard workflow process implemented in e-Builder which identifies the roles and how the Notice to Proceed (NTP) is processed from start to finish.

5.5.4 Process Steps

The standard operating procedure for the NTP is outlined in the following table which provides detailed instructions, including roles, responsibilities, and accountability for completing the process.

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Manager (PM)**	**1.0** **Start -** The purpose of this step is to define the basic information necessary for the Notice to Proceed letter, initiated primarily by the Project Manager (PM). In this step, the Initiator must provide the information required to properly execute the NTP process. 1.2 Submit – The PM will initiate the process and submit the request. The PM will make sure that all information is accurate, as well as attaching the necessary permits before moving forward. 1.2.1 Proceed to **Step 3**
Project Manager (PM)	**2.0** **Initiator Revise Step -** If the NTP was returned for revision, the Initiator revises as necessary and resubmits. Otherwise, this step is omitted. 2.1 Resubmit – Initiator revises information as necessary, including updating data fields, addressing comments, and/or attaching supporting documents. 2.1.1 Once the NTP is revised, the Initiator is required to enter a comment to explain the revision(s). 2.1.2 Proceed to **Step 3.** 2.2 Void-Cancel – If it is determined the NTP needs to be cancelled (i.e., duplicate, error, etc.), the PM cancels the process instance. 2.2.1 User is prompted to confirm the action. 2.2.2 User is prompted to enter required comments to explain reason for cancelling. 2.2.3 Status of the NTP is set to "Void." 2.2.4 Proceed to **Step 5**.
Permit Manager	**3.0 Permit Compliance Check –** Permit Manager will review whether permits are required for the Notice to Proceed and if so, determine if all permit requisites have been applied for and received. 3.1 Return to PM– If the appropriate permits have not been applied for and/or received, the Permit Manager returns the process to the Initiator. 3.1.1 Proceed to **Step 2**. 3.2 Reviewed – If the permit information is acceptable and all requisite permits have been applied for and received, the Permit Manager acknowledges review of the information and the NTP is sent the Director of E&C for review. 3.2.1 Proceed to **Step 4.**

Step Actor(s)	Process Action
• **Director of Engineering & Construction (DEC)**	**4.0 Director of Engineering & Construction Review –** The Director of Engineering (DEC) will review the NTP request. The DEC has the ability to Void/Cancel the request, return it back to the PM, or approve it to the next steps. 4.1 Cancel-Void – If it is determined that this NTP needs to be cancelled (i.e., duplicate, error, etc.), the DEC cancels the process. 4.1.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 4.1.2 The status will be displayed as "Void." 4.1.3 Proceed to **Step 5.** 4.2 Return to PM – If the NTP requires revision or additional information, the DEC returns the process to the Project Manager. 4.2.1 User is required to enter a comment to explain reason for returning. 4.2.2 Proceed to resubmit back to PM. 4.2.3 Proceed to **Step 2.** 4.3 Approve – If the NTP is acceptable, the DEC recommends approval and the NTP request that has been approved by the Permit Manager, is sent to a Mail Merge step for a formatted printout of the Notice to Proceed Letter (see Appendix A – Notice to Proceed Letter Mail Merge printout). Mail Merge document gets sent to the Process Initiator. 4.3.1 Proceed to **Step 5**.
• **Finish**	**5.0 Finish - Process is closed.**

Re: Notice to Proceed for 2017 Valve Replacement, Project Number 2017-325-104-0

Dear John Doe:

This letter shall serve as your Notice to Proceed for the above-referenced contract. In compliance with Paragraph 4.01 of the General Conditions, the contract term shall be 07.01.2021 – 04.30.2022. The Notice to Proceed Date is 07.15.2021. The Substantial Completion Date is 04.01.2022.

This work shall only proceed with mandatory compliance to the CDC and the PA Department of Health guidelines. In addition, strict enforcement of the previously submitted / accepted COVID-19 Safety Plan will be expected.

The Project Manager for this project will be Kate Mechler, KMechler@pgh2o.com. Please contact Kate Mechler with any questions you may have, as well as to coordinate any work.

Thank you for your interest in doing business with the Authority.

Sincerely,

Signed electronically on 07.14.2021

Barry King, PE
Director of Engineering and Construction

6 Project Controls

6.1 PWSA Project Audits (PPA) Process

Revision Number	Effective Date	Description
0	2/26/2019	Established Process
1	3/29/2019	Included additional fields in PM step
2	5/13/2019	Included Program Managers and Director of E&C in process to Audit or Not Audit submitted PPAs

6.1.1 Overview

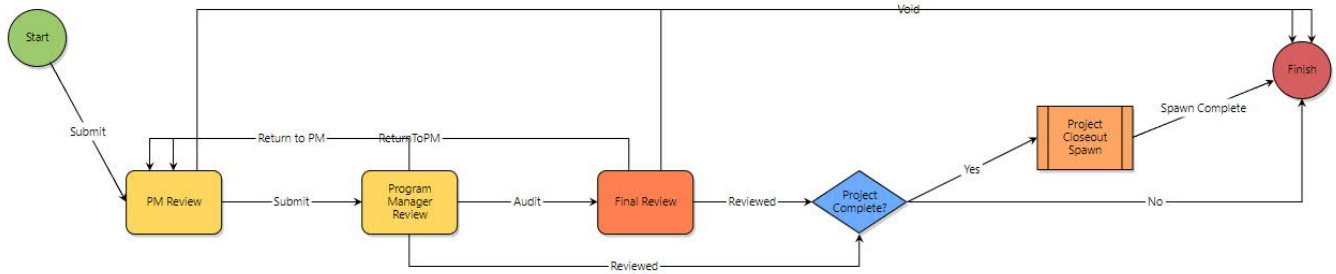
This process explains how project audits are prepared, reviewed and approved.

PWSA has implemented a monthly PWSA project audit ("PPA") review process for Project Managers ("PM") to submit their project's audit to the Program Manager(s) ("PrgM") and Director of Engineering and Construction ("DEC") in order to be aware of any changes and/or updates happening within a specific project.

The process of preparing, reviewing, approval of a project audit is incorporated within an e-Builder structured workflow. The automation of these activities provides the advantages of process consistency, quality control, performance audits and accountability.

Below is the monthly schedule for PPA's:

Week 1 – The first of every month, PPA's are initiated by the e-Builder team
Week 2 – PPA's are to be completed by the 15th of every month
Week 3 – PrgM Reviews PPA's and determine if a project will or will not be audited
Week 4 – One on one interview with PM, PrgM and DEC



6.1.2 Roles

The following project participants are involved in this process:

Project Manager (PM)
Program Manager (PrgM)
Project Controls (PC)
e-Builder Administrator (EBA)

6.1.3 Process Overview

This workflow diagram is the standard workflow process implemented in e-Builder which identifies the roles and how the PPA's are processed from start to finish.

6.1.4 Process Steps

Step Actor(s)	Process Action
Initiator Step (Start): • **Project Controls (PC)** or • **E-Builder Administrator (EBA)**	1.0 **Start** - The Initiator, typically Project Controls (PC) or e-Builder Administrator (EBA), begins the PWSA Project Audit (PPA) for all active projects on a monthly basis. 1.1 Submit – PC or EBA initiates the PPA process on the first of each month for all active projects. 1.1.1 Proceed to **Step 2**.
• **Project Manager (PM)**	2.0 **PM Review** – The PM is required to review and complete all required data fields and may take one of the following actions: 2.1 Submit – The PM reviews all information and completes all required data fields. 2.1.1 Proceed to **Step 3**. 2.2 Cancel-Void – If it is determined that this PPA needs to be cancelled (i.e., duplicate, inactive project, etc.), the PM cancels the process. 2.2.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 2.2.2 The status will be displayed as "Void." 2.2.3 The PPA will move to **Step 6**.

Step Actor(s)	Process Action
• **Program Manager (PrgM)**	3.0 Program Manager Review – The PrgM reviews all data fields and determines if the project should be audited. The PrgM may take one of the following actions: 3.1 Audit – If it is determined the project will be audited, the PPA will be routed to Final Review. 3.1.1 Proceed to **Step 4**. 3.2 Return to PM – If the invoice requires revision or additional information, the PrgM returns the process to the PM. 3.2.1 User is required to enter a comment to explain reason for returning. 3.2.2 Proceed to **Step 2**. 3.3 Finish – If it is determined the project will not be audited, the PPA will be routed to Finish. 3.3.1 Proceed to **Step 5**.
• **Project Controls (PC)**	4.0 Final Review – Finance reviews rate tables, backup details, inspection reports, and cost and may take one of the following actions: 4.1 Return to PM – If PC requires revision or additional information, the PPA will be returned to the PM. 4.1.1 User is required to enter a comment to explain reason for returning. 4.1.2 Proceed to **Step 2**. 4.2 Cancel-Void – If it is determined that this PPA needs to be cancelled (i.e., duplicate, inactive project, etc.), PC cancels the process. 4.2.1 User is prompted to confirm the action and is required to enter a comment to explain the reason for cancelling. 4.2.2 The status will be displayed as "Void." 4.2.3 Proceed to **Step 5**. 4.3 Reviewed & Comp – If the PPA is acceptable after the interview(s), the process will be routed to Finish. 4.3.1 User is prompted to enter a comment. 4.3.2 The PPA will move to **Step 5**.
• **Finish**	5.0 **Finish** - Process is closed.

7 Appendices

7.1 Appendix A – Definitions

Acceptance – a final and very important phase in the construction: it marks the end of the project, transfer of title project ownership, beginning of guarantees and insurances period

As-builts – As-built drawings are an essential part of every construction project. The main purpose an as-built drawing serves is to replicate how the contractor built the project and identify what changes were made throughout the course of constructing the project.

Baseline Schedule – is a model of the contractor's project execution plan. The **schedule** should be a reflection of the contractor's intent to reach project completion while listing milestones,

Bidding Process – the process of submitting a proposal (tender) to undertake or manage the undertaking of a construction project**.** The process starts with a cost estimate from blueprints and material take offs

Board Resolution (BRP) Process – Process for submitting Board Resolutions for Board Approval

Budget Change Process – controlling the budget during change, adjustment and modification. PM submits an action item via eBuilder to Project Controls for budget amount(s). That needs to be increased or moved from one budget line item to another. If additional funds need to be added to the project, Project Controls submits budget change to Director of Finance and Deputy of Finance/Treasurer for approval.

Capital Investment Plan (CIP) – an investment in property, plant or equipment. Such investments are the essential means by which businesses provide the goods and services to customers

Capital Planning Process – The process of budgeting resources for the future of an organization's long-term plans

Contractor Change Order (CCO) Process- The Contractor Change Order (CCO) and Contractor Potential Change Order (CPCO) processes are used to manage the development and approval of changes to cost or schedule in a general contractor's contract

Closeout – The **final inspection, submission of necessary documentation, acceptance, and concluding payment** on a construction project, as required by the contract documents

Commissioning – an imperative part of the construction lifecycle that confirms a building and its systems perform as intended

Conceptual Scope – identifies the key elements of project that are necessary to advance the proposed project to the Project Development block where the scope, schedule, budget and funding are determined

Contractor Pay Application (CPA) – a construction document that outlines how a contractor will be paid. The application for payment includes the services or materials used or the jobs that are being executed under a contract agreement

Constructability Review – a project management technique to review construction processes from start to finish during pre-construction phase. It is to identify obstacles before a project is built to reduce or prevent errors, delays, and cost overruns

Dashboard – an information management tool that visually tracks, analyzes and displays key performance indicators (KPI), metrics and key data points to monitor the health of a business, department or specific process. Project dashboard can be found in eBuilder

Design Specifications – also known, as specs, detail the work and workmanship needed to complete a construction project. A written document describing in detail the scope of work, materials to be used, methods of installation, and quality of workmanship for a parcel of work to be placed under contract; usually utilized in conjunction with working (contract) drawings in building construction

Detailed Scope – list of construction or professional services obligations, work activities, that a consultant contractor, subcontractor, material supplier or equipment supplier is obligated to produce or install under a construction or professional services agreement. This agreement can be a contract, purchase order or other type of written agreement

Developer – Construction developers can be just project owners -- or both the owner and contractor of a development project

Developer Tap In Permit Process – process that provides a developer the ability to request a project kickoff meeting with PWSA and begins the Plan review plus approval process leading to the issuance of a Tap-in permit

EPA – Environmental Protection Agency

Expedited Contractor Change Order - This process is used when a Potential Change Order (PCO) must urgently be processed as a Change Order.

Feasibility Review – an analysis that takes all of a project's relevant factors into account—including economic, technical, legal, and scheduling considerations—to ascertain the likelihood of completing the project successfully

Finalize Funding – the final budgetary number used to execute the project. Used in the cost schedule and reporting

Identify and Capture Equipment – important step to capitalize and document assets of the organization

In Service Testing – provides that property is considered to be placed in service when it is “first placed in a condition or state of readiness and availability for a specifically assigned function” (emphasis added). If a building is specifically constructed to house machinery and equipment, as a general rule, the building will be deemed placed in service on the date it is ready and available to house the machinery and equipment

Inspection – **a** review and examination of a commercial structure, residence, or municipal project

Kickoff Meeting – one of the first meetings held amongst the project stakeholders when kicking off a new project. This meeting can include the high-level project stakeholders such as the project executives, finance, director(s), and the project manager as well as construction manager(s), consultants and subcontractors

Lessons Learned – are the tangible result of an executed "project review", taking the project experience, in whole or part, and breaking it down into actionable conclusions about what went right, what went wrong, and what could be done better

Metrics – monitor critical results, data and indicators to use them successfully in managing and improving the business model or program performance over time

Mobilization – Activation of a contractor's physical and manpower resources for transfer to a construction site until the completion of the contract

New Project Request – One of the first steps in Project Initiation, the request should contain need, area of interest, department and estimated total project budget amounts

Order Lead Items – materials or services that take longer than normal to manufacture, procure or ship to begin or continue the project

PaDEP – Pennsylvania Department of Environmental Protection

Permitting – that instrument of authorization required by rules and/or regulations by the Commission or governing body made pursuant to these rules/regulations for the construction of a project, or the installation of apparatus

Plan Resources – each resource is assigned a role and responsibilities

Potential Change Order (PCO) – are issues that could affect the cost of a construction projects. PCOs are created by the Owner to get pricing from subcontractors for changes on a project. A PCO can contain one or more pricing items to one or more subcontractors for a change in the project, depending on how many subcontractors the change affects

PreCon – Pre-construction services are used in planning a construction project before the actual construction begins

Project Audits – a review of various aspects of a project to ensure they are performing appropriately and in keeping with the contract

PUC – Pennsylvania Utility Commission

Purchase Order – direction to the subcontractor to begin an activity and/or specification develop of the project, service or providing materials

Purchase Order Change Order – direction to the subcontractor to adjust, amend or modify original contract, service or material list

Regulatory Approval – obtaining any prior approvals whether permits, **PaDEP, EPA or PUC** approvals to proceed with the project before first execution action

Request for Information – Formal notification that there is a question on the project that needs to be addressed

Risk Management – the process of finding ways to identify and manage risk components at the construction site. This includes not only the handling and choice of materials, but also the general safety conditions of the work site as it relates to both workers and anyone else who may be present at the site from time to time

Safety – assurance of the environmental, health and personal safety (EHS) of everyone involved within the construction project

Schedule – a document prepared and drafted containing a detailed description of the steps and actions to be taken in a developmental plan of a building project

Submittal Process – providing shop drawings, material data, samples, and product data. Submittals are required primarily for the architect and engineer to verify that the correct products will be installed on the project

Survey Site – is a survey of an area where it has been requested to gather information to provide a quotation, assess a site, inform or empower a decision

Task Order / Amendment Process– This process is used to prepare a Task Order or Task Order Amendment for professional services. This process is used for both new scope of work or and an amendment to existing Task Order (

Vendor Invoice – The Vendor Invoice (VI) process is used to manage the submission, review, and approval of invoices for a vendor's or consultant's contract.
