Docket No. A-2024-3051463**

STATEMENT OF VICE CHAIR KIMBERLY BARROW

In the transmission application before us, and in a similar proceeding also considered today at Docket A-2024-3051467, the application comes to us without all of the necessary land use rights for PECO to accomplish the project. PECO recognizes this in their application, and indicates should any problems arise, they will return for further proceedings related to those land use rights. I highlight only that PECO should not rely on the need determination made here for the purposes of a similar need determination which would be required should it fail to secure its right-of-way.
