**TO ALL PARTIES OF RECORD**

Application of Greenlight Networks PA, LLC for approval of the alteration of the crossing where Schoenersville Road crosses, at grade, a single track of Norfolk Southern Railway Company, Inc (DOT 851 862 H) for the installation of an aerial fiber optic crossing in the City of Bethlehem, Northampton County.

To Whom It May Concern:

By application received by the Commission on July 16, 2025, Greenlight Networks PA, LLC (Greenlight) seeks Commission approval to alter the at grade crossing (DOT 851 826 H) by the installation of an aerial wire where Schoenersville Road crosses a single track of Norfolk Southern Railway Company (NS) in the City of Bethlehem, Northampton County.

Greenlight proposes to attach the new aerial fiber optic cable, located within the joint right of way of Schoenersville Road and NS, to existing poles owned by PPL. The proposed aerial fiber optic cable will have a minimum overhead clearance of 35 feet 4 inches above the tracks.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application Greenlight states that the proposed aerial fiber optic cable is necessary to expand their fiber optic network to reach more customers in the Bethlehem area. Greenlight will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the proposed facilities, at its sole cost and expense.

All work is to be performed in accordance with the plans hereby entitled: "EXHIBIT A" consisting of four (4) sheets submitted to the Commission with the application on July 16, 2025.

Greenlight has served a copy of the application and plan on PPL Electric Utilites, NS, City of Bethlehem, and the Pennsylvania Department of Transportation. All parties in interest were queried by letter dated July 31, 2025, sent via email as to any objection to the subject application and plans, and none of the parties have responded with any objections. Northampton County was not included as a party of record and was not provided a copy of the 20 day letter, however they will be added as a party of record in this Secretarial Letter.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.
