To Whom It May Concern:

By application filed with the Commission on September 4, 2025, and revised September 5, 2025, PPL Electric Utilities Corporation seeks Commission approval to alter the public crossing (DOT 851 862 H) by raising the aerial cables and replacing the utility pole where Schoenersville Road (SR 1009) crosses, at grade, one (1) track of Norfolk Southern Railway Company located in Hanover Township, Northampton County.

PPL Electric Utilities Corporation will replace the utility pole and raise the aerial facilities located within the joint right of way of Schoenersville Road (SR 1009) and Norfolk Southern Railway Company. The alteration will provide a minimum vertical clearance of 28 feet 7 inches above the top rail to the lowest aerial cable.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, PPL Electric Utilities Corporation states that the proposed installation is necessary to provide adequate, efficient, and reasonable communication facilities and power to the public. PPL Electric Utilities Corporation will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$15,000.00.

All work is to be performed in accordance with the plans hereby entitled: “EXHIBIT A,” consisting of one (1) sheet submitted to the Commission with the application.

PPL Electric Utilities Corporation has served a copy of the application and plans on the Pennsylvania Department of Transportation, Norfolk Southern Railway Company, Northampton County, Verizon, Metropolitan Fiber Services, Level 3 Fiber Optic Communications, RCN, Service Electric Cablevision, XO Communications, Greenlight Networks PA, LLC and Hanover Township. All parties in interest were queried by letter dated September 22, 2025, sent by electronic mail as to any objection to the subject application and plans. None of the parties have responded with any objection to the subject application or plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.
