Dear Counsel Untead,

Rather than incur a legal fee that would surpass any accurate compensation for our loss of food and cash spent in an effort to save refrigerated food I have put in a claim with First Energy, and also contacted the Public Utilities Commission all pertinent information with receipts.

I understand your claimed policy of not having requirements to be in any way responsible for loss and how this is allowed. I do not understand but I think perhaps an actual impartial judge should make the final determination. We always pay our bills on time. I'd like to hear from the judge.

Have a great honorable day.

Sincerely,

Constance Rivure
