

**CONSERVATION SERVICE PROVIDER (“CSP”) APPLICATION
FOR REGISTRATION IN THE COMMONWEALTH OF PENNSYLVANIA**

Conservation Service Providers (“CSPs”) have a specific role under Act 129, which requires a covered Electric Distribution Company’s Energy Efficiency and Conservation (EE&C) plan to include one or more CSPs to implement at least a portion of the EE&C Plan. 66 Pa.C.S. § 2806.1(b)(1)(i)(E). CSPs provide information and technical assistance to EDCs on *measures* that enable a person to increase energy efficiency or reduce energy consumption. CSPs must have no direct or indirect ownership, partnership or other affiliated interest with an EDC. 66 Pa.C.S. § 2806.1 (m). Only registered CSPs may advise an EDC and/or provide consultation, design, or administration or management services to an EDC related to the implementation of the EDC’s EE&C Plan. As such, registration of business entities as approved CSPs is required before entering into a contractual agreement with an EDC exclusively for the provision of consultation, design, administration, management or advisory services regarding that EDC’s EE&C plan. This registry is not intended as a resource for business, whose sole purpose is the installation of measures, supplying of equipment or other contracting work for use by the general public and EDC customers. If providing such services, registration as a CSP is not required for entering into an agreement with an EDC.

Any CSP subcontractor with an annual contract cost that equals or exceeds 10% of the CSP annual contract cost and is directly performing services pursuant to a contract with a CSP which has contracted with an EDC after Commission approval should also register as a CSP. This does not include third party contractors which participate in or support an EE&C Plan but are not directly contracted with a CSP which has a direct contractual relationship with the EDC subject to Act 129.

To qualify an applicant must have at least two years of experience in providing program consultation, design, administration, management or advisory services related to energy efficiency and conservation services. CSP registration is not required of entities that limit their services to the installation of energy efficiency measures or the provision of equipment or materials to EDC customers or the public in general.

Executive Team:

Chris Ashley – VP, Utility Sales and Market Development

Chris oversees EnergyHub's Sales, Regulatory Affairs, and Energy Markets teams. He is responsible for driving growth in EnergyHub's DERMS business through new and expanded partnerships with utility customers and participation in wholesale market programs. Prior to joining EnergyHub in 2016, Chris spent eight years at EnerNOC in a variety of market development and sales roles, most recently as Regional Director of Utility Sales. Previously, Chris was a Vice President at Chestnut Partners, a boutique investment bank, and the Director of Finance and Operations for AutoCell Labs, a wireless networking startup. Chris holds a BA in International Politics and Economics from Middlebury College, and an MBA from Northwestern University.

Dana Dohse – VP, Marketing

Dana oversees EnergyHub's marketing organization which includes brand, product, and program marketing. Dana has over 15 years of experience in high tech marketing, spanning F500 brands and high-growth startups. She is the former VP of Marketing at climate tech company Cleartrace and former VP of Marketing for HR technology company Outmatch. She holds a BS in Communications and Studio Art from Tulane University.

Erika Diamond – SVP, Customer Solutions

Erika is responsible for EnergyHub's utility and market services, including program delivery, customer engagement, and market development. Before joining EnergyHub, she was the SVP of Corporate Development and Strategy at Recyclebank and the head of business development at ThinkEco. Erika holds a BA in environmental studies from Vassar College, a MEd from the Yale School of Forestry and Environmental Studies, and an MBA from the Harvard Business School. She is also the Vice Chair of the Advanced Energy Management Association and the Co-chair of the Women in Demand Management Interest Group of the Peak Load Management Association.

Laura Dobrzynski – VP, Product

Laura joined EnergyHub in 2023 and leads the product team, which includes product management, product design, and technical writing. Together with engineering, they deliver scalable, reliable, and secure digital products to utilities and their customers. Laura brings 12 years of software product management experience in high-growth startups and has built a variety of B2B and B2C products in multiple industries. Laura holds a BA in Anthropology and in German Language & Culture from the University of Rochester.

Mark O'Neill – SVP, Product and Engineering

Mark leads EnergyHub's Engineering and Product organization. He is responsible for building and growing our platforms to meet the energy market's evolving needs. Mark has 20+ years of experience in tech at high growth startups, including nine years as CTO at Thrillist Media Group. He has built products & technology teams across such diverse industries as search,

ecommerce, media and robotics. Mark holds a BS in Computer Engineering from Tufts University.

Matthew Johnson - VP, Business Development

Matt leads business development efforts for EnergyHub. His responsibilities include establishing relationships with connected home service provider partners to bring EnergyHub's DERMS platform to consumers, as well as maintaining relationships with key utility customers. Matt is also responsible for finalizing agreements with EV/EVSE, energy storage, and solar PV inverter manufacturers to support EnergyHub's DER strategy. Prior to joining EnergyHub in 2009, Matt held a variety of positions in the energy sector, including serving as Director of Business Development at Gaia Power Technologies, an energy storage firm, and as an Assistant Vice President at Sentech, an alternative energy consultancy. He holds an MBA and an MS in Natural Resources and Environment from the University of Michigan, and a BA in History and Public Policy Analysis from the University of North Carolina.

Paul Hines - VP, Power Systems

Paul leads the Data Science and Power Systems Intelligence (DataPSI) team at EnergyHub, which develops and maintains the advanced control, prediction and machine learning algorithms used within EnergyHub's DERMS. Paul joined EnergyHub in 2021 through the acquisition of Packetized Energy, a distributed energy software startup, where he was co-founder and CEO. From 2007-2021, Paul was also a professor in electrical engineering and director of the energy systems laboratory at the University of Vermont, leading research on energy reliability, resilience and distributed technology and policy. Formerly, he worked at the US National Energy Technology Laboratory, the US Federal Energy Regulatory Commission, Alstom ESCA, and for Black and Veatch. Paul earned a Ph.D. in Engineering and Public Policy from Carnegie Mellon University in 2007, and MS and BS degrees in Electrical Engineering (power and energy focus) from the University of Washington and Seattle Pacific University.

Seth Frader-Thompson - CEO

Seth co-founded EnergyHub in 2007 and continues to serve as its President. Under his leadership, EnergyHub has become the leading grid-edge DERMS provider managing over 2 GW of flexibility capacity across more than 70 utilities. Utilities rely on EnergyHub's DERMS platform to manage all distributed energy resources to serve grid and market objectives. Seth is a frequent speaker on DERs, demand response, connected home issues, and he serves on the Executive Committee as a member of the Board of Directors of the Smart Electric Power Alliance. Prior to founding EnergyHub, Seth served in several managerial and technical roles at Honeybee Robotics. Seth has an MS in Mechanical Engineering from the University of Colorado, where his research focused on Microelectromechanical Systems (MEMS) for Ultracold Atom Optics.

After printing this label:
CONSIGNEE COPY - PLEASE PLACE IN FRONT OF POUCH
1. Fold the printed page along the horizontal line.
2. Place label in shipping pouch and affix it to your shipment.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.
