TO ALL PARTIES OF RECORD

Application of Gigapower, LLC for approval to alter the public crossing (DOT 859 644 D) by the installation of an aerial fiber optic wireline where Fellows Avenue crosses, at grade, one (1) track of Norfolk Southern Railway Company located in Hanover Township, Luzerne County.

To Whom It May Concern:

By application filed with the Commission on October 7, 2025, Gigapower, LLC seeks Commission approval to alter the public crossing (DOT 859 644 D) by installation of an aerial fiber optic wireline where Fellows Avenue crosses, at grade, one (1) track of Norfolk Southern Railway Company located in Hanover Township, Luzerne County.

It was noted that the plans provided with the application did not comply with Commission overhead (vertical) clearance requirement pursuant to 52 Pa. Code § 33.121. On October 10, 2025, a Commission staff engineer contacted Gigapower, LLC notifying them of the deficient clearance and suggested they find an alternative crossing location or increase the height of their wireline above the tracks. On October 14, 2025, Gigapower, LLC provided a Commission staff engineer with a revised copy of its plan, increasing its proposed vertical clearance.

Gigapower, LLC will install an aerial fiber optic wireline, attached to existing joint-use poles. The installation will provide a minimum vertical clearance of 22 feet above the top of rails.

In its application, Gigapower, LLC, states that the proposed installation is necessary to provide access to high quality fiber internet. Gigapower, LLC will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$10,000.00.

Gigapower, LLC has served a copy of the application and original plans on the Pennsylvania Department of Transportation, Norfolk Southern Railway Company, Hanover Township, UGI Corporation, Verizon Pennsylvania LLC, North Penn Long Distance Corporation Empire/North Penn Telephone, Comcast c/o Americomm LLC, Ion Holdco LLC, Teleport Communications America LLC, CTSI LLC, Zito Media and XO Communications Services, Inc. All parties in interest, with the addition of Luzerne County, were queried by letter dated October 15, 2025, sent by electronic mail as to any objection to the subject application and revised plans. None of the parties have responded with any objection to the subject application or revised plans.

All work is to be performed in accordance with the revised plans entitled: “PUBLIC UTILITIES COMMISSION RAILROAD PERMIT APPLICATION,” consisting of nine (9) sheets submitted to a Commission staff engineer on October 14, 2025, and later provided to the parties of record with the Commission’s query letter dated October 15, 2025.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.
