Dear Secretary Homsher,

I am urging you to please reject the Data Centers in our area. We do not have the resources to sustain the needs of these data centers. Even if they supply their own gas and electricity, we don't have the water resources! Look how dried up the susquehanna can get in the summer. There have been many years where we have been on water restrictions and rationing without a single data center. Even just one or two will put a massive strain on the residents and it will cause our utilities to surge. Please don't allow all of these data centers to ruin PA. Thank you .

Respectfully,

Kimberly Distenfeld

Cumberland County resident.
