Docket No. M-2024-3050313

RE: TUS Data Request Addressed to Public Utilities Distributing Natural Gas Concerning Plastic Pipe Data – 2025

To: All Natural Gas Public Utilities

The Pennsylvania Public Utility Commission (Commission) is charged with ensuring that utilities maintain adequate, efficient, safe, and reasonable service and facilities. 66 Pa.C.S. § 1501. Pursuant to its authority under 66 Pa.C.S. § 504, the Commission is requesting information from each jurisdictional public utility that distributes natural gas, including natural gas distribution companies (NGDC) and small natural gas distribution utilities, in order to properly evaluate the reliability and safety of natural gas distribution infrastructure. Pursuant to Commission Order entered September 11, 2025, at Docket No. M-2024-3050313, the Bureau of Technical Utility Services (TUS) is seeking information from each Natural Gas Public Utility in Pennsylvania regarding plastic components within their distribution systems.

Please compile a catalog of all plastic pipelines and other plastic components contained within your utility's distribution system. The catalog should include quantities of each component (footage in the case of pipelines, number/quantity in the case of other components), brand of the component, and age. We realize this may require multiple different listings or catalogs to provide the requested information.

In the event that you are unable to provide an accurate catalog as described above, please provide a plan to identify and catalog the amount and type of plastic components within your distribution system, and also provide an explanation of how your utility will differentiate between older, at-risk plastic components and newer ones in your DIMP, and Commission-approved LTIIP if you have one.

Please provide your response to the Secretary of the Commission at the address listed below **within thirty (30) business days** from the date of this letter.
