Re: Energy Efficiency and Conservation Program – Phase V
Docket No. M-2025-3052826

TO ALL PARTIES OF RECORD:

On September 4, 2025, the Commission entered an Opinion and Order,¹ which, *inter alia*, revised the Phase V Energy Efficiency and Conservation (EE&C) Program Planning Timeline originally established in the Implementation Order issued on June 18, 2025,² in the above-captioned matter.

In accordance with the *June 2025 Implementation Order*, as revised by the *September 2025 Order*, Pennsylvania's four major electric distribution companies (EDCs) filed proposed Phase V EE&C Plans with the Commission by December 1, 2025.³ The *September 2025 Order* provided for, *inter alia*, the Commission to publish a notice of each EDC's proposed Phase V EE&C Plan in the *Pennsylvania Bulletin* on December 13, 2025. However, due to an inadvertent administrative oversight, the EDCs' proposed Phase V EE&C Plans were not published in the *Pennsylvania Bulletin* on December 13, 2025.

In order to correct this administrative oversight, and to ensure that due process is adequately provided, the Commission will publish a notice of each EDC's proposed Phase V EE&C Plan in the *Pennsylvania Bulletin* on January 3, 2026. Consequently, certain other deadlines previously established in the *September 2025 Order* must also be revised. Specifically, Answers and Petitions to Intervene for each EDC's proposed Phase V EE&C Plan shall be filed no later than January 5, 2026 (originally due December 23, 2025). Also, any public comments for each EDC's

proposed Phase V EE&C Plan shall be submitted by January 18, 2026 (originally due January 12, 2026). All other procedures and timelines set forth in the *June 2025 Implementation Order*, as revised by the *September 2025 Order*, and not modified above, shall remain as previously established, including, but not limited to, the Prehearing Conferences for each EDC's proposed Phase V EE&C Plan that shall occur by January 6, 2026.

Sincerely,
