

Hello,

Docket Number: M-2025-3054271

My name is Matthew Crocker, and I live at 52 Jefferson Dr, Spring City, Pa, 19475.

I am writing to protest the construction of the data center proposed for the Pennhurst site, located in East Vincent township.

This location is less than a quarter of a mile from my residence and will destroy the quality of our lives, will create conditions that will affect our health and well being, will destroy wild life, and will decrease our house value. In a few words, everything around this area will be changed and affected, lives will be destroyed.

The East Vincent township board of supervisors was elected by the residents of East Vincent. The board's first duty is to protect the residents, and to help improve their life. The board will not be able to write any ordinance that will adequately protect the residents of the township. The only acceptable decision that the board can take is to protect the residents and to not allow such constructions in East Vincent township, now or ever.

Please intervene and do not allow this construction to be built in East Vincent township, now or ever!

Matthew McGowan Crocker
