Re: Application of Mainlines, Manholes & Wastewater Treatment, Inc. for approval, *nunc pro tunc*, of the right to begin to offer, render, furnish, and supply wastewater service to the public in portions of Girard and Waterford Townships, Erie County, Pennsylvania at Docket No. A-2024-3050786; **REQUEST FOR EXTENSION**

Dear Secretary Homsher:

Pursuant to the November 7, 2025 Secretarial Letter setting the deadline for responding to the Bureau of Technical Utility Services (“TUS”) Data Request Set 1, Mainlines, Manholes & Wastewater Treatment Inc. (“MMWT”) respectfully requests a **30-day extension** to submit the remaining materials identified in TUS Data Request Set 1.

MMWT is submitting today responses to a number of the remaining outstanding requests in TUS Data Request Set 1. MMWT requires this additional time to gather and organize the requested information, a portion of which is decades old and not maintained in a centralized format. As a small utility operator, MMWT is working diligently to locate, review, and compile accurate historical documentation, and additional time is necessary to ensure that the response is complete and reliable. MMWT is awaiting documents from governmental agencies to complete its responses. MMWT hope to be able to obtain documents for review in January 2026. Accordingly, MMWT respectfully requests that the deadline be extended by 30 days to permit a full and accurate submission.

Respectfully,
/s/ Whitney E. Snyder

Whitney E. Snyder
