TO ALL PARTIES OF RECORD

Application of PPL Electric Utilities Corporation for approval to alter the public crossing (DOT 264 158 S) by transferring all power facilities from a 40' pole to a new 45' pole to be placed by Verizon Pennsylvania LLC where Jacobs Alley crosses, at grade, one (1) track of SEDA-COG Joint Rail Authority, operated thereon by North Shore Railroad Company located in Danville Borough, Montour County.

To Whom It May Concern:

By application filed with the Commission on November 20, 2025, PPL Electric Utilities Corporation (PPL) seeks Commission approval to alter the public crossing (DOT 264 158 S) by the transfer of all power facilities from a 40' pole to a new 45' pole where Jacobs Alley crosses, at grade, one (1) track of SEDA-COG Joint Rail Authority (SEDA-COG), operated thereon by North Shore Railroad Company located in Danville Borough, Montour County.

The proposed 45-foot replacement utility pole will be installed by Verizon Pennsylvania LLC and PPL will transfer power facilities from the existing 40-foot utility pole to the new pole all located within the joint right of way of Jacobs Alley and SEDA-COG. The alteration will provide a minimum vertical clearance of 27 feet 3 inches from the top rail to the lowest transferred aerial cable (Telco Com).

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, PPL states that the proposed installation is necessary to provide adequate, efficient, and reasonable communication facilities and power to the public in Montour County and surrounding areas. PPL will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the transferred facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$3,000.00.

All work is to be performed in accordance with the plan entitled: "EXHIBIT A," consisting of one (1) sheet submitted to the Commission with the application.

PPL Electric Utilities Corporation has served a copy of the application and plan on the Pennsylvania Department of Transportation, North Shore Railroad Company, Danville Borough, Montour County, Verizon Pennsylvania LLC and Comcast. All parties in interest were queried by letter dated December 5, 2025, sent by electronic mail as to any objection to the subject application and plan. None of the parties have responded with any objection to the subject application or plan.

Upon review of the subject application by a Commission staff engineer, an application by Verizon Pennsylvania LLC to the Commission requesting approval for the installation of the 45-foot utility pole within the jurisdictional joint right-of-way of Jacobs Alley and SEDA-COG was not located within the Commission's records. This Secretarial will serve to approve the application of PPL so as to not impact their construction schedule, however Verizon Pennsylvania LLC is directed to submit an application to the Commission either before construction or nunc pro tunc requesting approval of the alteration of their facilities within the joint right-of-way of the public crossing (DOT 264 158 S).

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.
