APPENDIX A

AFFIDAVIT

[Commonwealth/State] of Pennsylvania :
: County of Cumberland :

SS.

John J. Spanos, Affiant, being duly sworn or affirmed according to law, deposes and says that:

Affiant is the President (Office of Affiant) of Gannett Fleming Valuation and Rate Consultants LLC (Name of Applicant);

That Affiant is authorized to and does make this affidavit for said Applicant;

That Gannett Fleming Valuation and Rate Consultants, LLC, the Applicant herein, has the burden of producing information and supporting documentation demonstrating technical fitness to be registered as a Utility Valuation Expert pursuant to Section 1329. 66 Pa. C.S. § 1329.

That Gannett Fleming Valuation and Rate Consultants, LLC, the Applicant herein, acknowledges that it has answered the questions on the application correctly, truthfully and completely and has provided supporting documentation as required.

That Gannett Fleming Valuation and Rate Consultants, LLC, the Applicant herein, acknowledges that it is under a duty to update information provided in answer to questions on this application and contained in supporting documents.

That Gannett Fleming Valuation and Rate Consultants, LLC, the Applicant herein, verifies that neither the UVE nor the UVE's firm, including affiliates, have a conflict of interest that would compromise, or have the appearance of compromising, the UVE's professional judgement and ability to perform the valuation in an unbiased manner.

That the facts above set forth are true and correct to the best of Affiant's knowledge, information, and belief, and that Affiant expects said Applicant to be able to prove the same at hearing.

John J. Spanos
Signature of Affiant

Sworn and subscribed before me this 15th day of December, 2015.

8. Attach to this Application a brief biography or single page professional resume for all principal officers and management directly responsible for Applicant's operations.

The following are the brief biographies of the principal officers and management directly responsible for Gannett Fleming Valuation and Rate Consultants, LLC's 66 Pa. C.S. Section 1329 related services.

John J. Spanos, CDP will be responsible for our valuations which are based on the **cost approach**. Mr. Spanos has been with Gannett Fleming for over 39 years and is President of Gannett Fleming Valuation and Rate Consultants, LLC. He is a nationally-recognized expert in public utility plant valuation and depreciation with more than 39 years of experience. He assembles and oversees the basic data required for utility plant valuation and depreciation studies, conducts statistical analyses of accounting data, estimates service life and net salvage, and calculates annual and accrued depreciation. He performs field inspections for purposes of estimating service lives and verifying property records for utility plant valuation and depreciation studies. He also has supervised the updating of continuing property records. Mr. Spanos supports the utility plant valuation and depreciation studies with expert testimony and continually presents key depreciation issues at industry conferences.

Technical Specialties

Public Utility Plant Depreciation
Public Utility Plant Valuation

Personal Information

M.B.A., York College of Pennsylvania, 1997
B.S., Industrial Management and Mathematics, Carnegie-Mellon University, 1986
Member, Society of Depreciation Professionals – President, 2012
Member, American Gas Association Industry Accounting Committee
Certified Depreciation Professional

Testimony Experience

Regulatory - Utility plant valuation and depreciation testimony before 48 regulatory commissions

Mr. Spanos' technical education has included formal instructional programs offered by Depreciation Programs, Inc. Courses successfully completed include "Techniques of Life Analysis," "Techniques of Salvage and Depreciation Analysis," "Forecasting Life and Salvage," "Modeling and Life Analysis Using Simulation," and "Managing a Depreciation Study." Mr. Spanos also completed the week long course "Introduction to Public Utility Accounting" conducted by the American Gas Association.

Harold Walker, III will be responsible for Gannett Fleming's economic valuations which will be based on the **income approach and market approach**. He has more than 40 years of providing specialized financial services for utilities; about 30 of which have been with Gannett Fleming. Mr. Walker is Manager, Financial Studies of Gannett Fleming Valuation and Rate Consultants, LLC and supervises and develops financial and economic studies on behalf of investor-owned and municipally owned utilities, as well as resource recovery companies. He has extensive valuation and ratemaking experience and has presented expert testimony or been deposed on various topics

before regulatory commissions and courts of law in 29 states. He is responsible for the economic valuation of utility property, municipal property and common stock. His valuations consider market conditions, rate regulation, change of law and future capital costs. The valuations were estimated, in part, through the application of the market approach and the income approach. Mr. Walker is also responsible for having conducted hundreds of "cost of capital" studies for regulated firms. He provides clients with financial decision studies for capital budgeting purposes and develops financial models for determining future capital requirements. Mr. Walker assists in both the public and private placement of fixed capital securities.

Mr. Walker also heads Gannett Fleming GASB 34 Task Force responsible for developing Governmental Accounting Standards Board (GASB) 34 services and educating Gannett Fleming personnel and Gannett Fleming clients on GASB 34 and how it may affect them. The GASB 34-related services include inventory of assets, valuation of assets, salvage estimation, annual depreciation rate determination, estimation of depreciation reserve, asset service life determination, asset condition assessment, condition assessment documentation, maintenance estimate for asset preservation, establishment of condition level index, geographic information system (GIS) and data management services, management discussion and analysis (MD&A) reporting, required supplemental information (RSI) reporting, auditor interface, and GASB 34 compliance review.

Technical Specialties

The fair market value appraisal of the Sewer System complied with the Uniform Standards of Professional Appraisal Practices, employing the cost, market and income approaches in accordance with 66 Pa. C.S. Section 1329.

North Maine Utilities - Valuation, Village of Glenview, IL, Aqua Illinois, Inc. [2014] Economic valuation of the water assets used/operated by North Maine Utilities for sale. The valuation of the assets was estimated through the application of the capitalization of earning method (income approach), the market multiples method, and the selected transactions method.

North Maine Utilities - Valuation, Village of Glenview, IL, Aqua Illinois, Inc. [2014] Economic valuation of the wastewater assets used/operated by North Maine Utilities for sale. The valuation of the assets was estimated through the application of the capitalization of earning method (income approach), the market multiples method, and the selected transactions method.

Appraisal of the Fair Market Value of the Jointly Used Facilities (JUF), Erie, PA, Millcreek Township Water Authority. [2014] Provided fair market value of the JUF of its water utility infrastructure assets. Due to the unique nature of the JUF, we conclude the asset-based approach was the best method of appraising the JUF assets. Our appraisal of the fair market value of the JUF was based on a total original cost less depreciation (OCLD) study of the JUF and a trended original cost or replacement cost new less depreciation (RCNLD) study of the JUF.

Valuation of Water Utility Assets, Plymouth, MA, Farmington Bank. [2013-2014] Abbreviated appraisal study for the assets of the Plymouth Water Company. The valuation was required for the client to determine a fair value to support a debt financing by the client. The estimated valuation of the assets was completed using the market approach, as well as the rate-base (cost) approach.

Fair and Reasonable Economic Value of Leases and Lease Extension, Erie, PA, MacDonald ILLig Jones & Britton, LLP. [2013-2014] Valuation and Ratemaking Expert responsible for the review and analysis of the leases and lease extension/initial upfront rental payments made by the Erie City Water Authority to the City of Erie in 2001, 2004, and 2008. The review and analysis determine if the Erie City Water Authority provided fair and reasonable economic value for both parties in regard to the terms of the leases and the value of the assets being leased. The economic value of leases and lease extension was determined based on the leasable water system assets analyses and lease rental analyses. These analyses proved the leases were not economical for the Authority and produced monopolistic profits for the City.

Valuation of Water and Wastewater Utility Assets, Southbury, CT, Farmington Bank. [2011] Abbreviated appraisal study for the assets of the Heritage Village Water and Wastewater Company. The valuation was required for the client to determine a fair value to support a debt financing by the client. The estimated valuation of the assets was completed using the market approach, as well as the rate-base (cost) approach.

Valuation of Water Utility Assets, Plainville, CT, Farmington Savings Bank. [2006-2007] Abbreviated appraisal study of the assets of Valley Water Systems utility. The valuation was required for the client to determine a fair value to support a debt financing. The valuation of the assets was estimated through the market approach, the income approach, and the selected-transactions approach.

Regional Wastewater System Evaluation, Stroudsburg, PA, *Borough of Stroudsburg*. [2005-2008] Fair and reasonable value of assets used in the formation of a joint area authority that would provide regional wastewater conveyance and treatment for Stroudsburg Borough, Stroud Township, and Pocono Township, one of the fastest growing regions in the country. Provided the requested inventory and asset valuation of Stroudsburg's sewage treatment plant assets. The asset valuation was based on the replacement cost new, less depreciation and contributions method. We also provided a study to determine the economic value of Stroudsburg's sewage treatment plant assets based on the income approach.

Reproduction or Replacement Cost New (RCN) Analysis of Tangible Assets Being Condemned, Merrimack, NH, *Baker Donelson Bearman*. [2005-2007] RCN valuation of tangible water system assets on behalf of the company. The assets of Pennichuck Water Works, Inc. (Pennichuck), located in Nashua and 10 surrounding New Hampshire municipalities, were being condemned by the City of Nashua. The required RCN analysis was based primarily upon a replacement cost analysis. For certain aboveground assets, the RCN analysis was based upon a reproduction cost analysis.

Replacement Cost New Analysis of Tangible Assets Being Condemned, Felton, CA, *Baker Donelson Bearman*. [2007-2008] RCN valuation of tangible water system assets on behalf of the company. The assets of California American Water (CAW) were being condemned by the San Lorenzo Valley Water District. The required RCN analysis was based primarily upon a replacement cost analysis. In doing so, we provided the RCNLD analysis of CAW's tangible personal property being condemned.

Economic Valuation for Use of Government-Supported Debt Refinancing, Zanesville, OH, *Gasco Distribution Systems, Inc.* [2004-2005] Economic valuation of a private gas system on behalf of the company. Gasco Distribution Systems, Inc., owns and operates assets in Pennsylvania, Tennessee, Kentucky, and Ohio. The valuation was required for the client to determine a fair value to support a debt refinancing. The valuation of the assets was estimated through the market approach, the income approach, and the selected-transactions approach.

Fairness Opinion, Sewer Valuation, Eagle Rock, PA, *Eagle Rock Community Association, Inc.* [2003-2005] Fairness opinion of sale price of sewer utility system. The analysis relied upon the selected-transactions approach to reach our conclusion.

Fairness Opinion, Water Valuation, Eagle Rock, PA, *Eagle Rock Community Association, Inc.* [2003-2005] Fairness opinion of sale price of water utility system. The analysis relied upon the selected-transactions approach to reach our conclusion.

Economic Valuation for Water System Purchase, Palmerton, PA, *Borough of Palmerton*. [2003-2004] Economic valuation of a private water system on behalf of a borough. The valuation was required for the client to determine a fair and competitive offering price to purchase the water system assets. The valuation of the assets included a physical inspection of aboveground assets and was estimated through the income approach and the selected-transactions approach.

Utility Authority Economic Valuation, Sewer System, Northampton, PA, *Northampton Township*. [1999] Economic valuation of the assets of a 20,000-customer sewer utility. The valuation was required for the client to evaluate offers to purchase the assets. The valuation of the assets was estimated through the application of the cost approach, market multiples method, the income approach, and the selected-transactions method.

Utility Authority Economic Valuation, Water System, Northampton, PA, *Northampton Township*. [1999] Economic valuation of the assets of a 20,000-customer water utility. The valuation was required for the client to evaluate offers to purchase the assets. The valuation considered market conditions, rate regulation, and future capital costs. The valuation of the assets was estimated through the application of the cost approach, market multiples method, the income approach, and the selected-transactions method.

Landfill Economic Valuation, Warren County, NJ, *Pollution Control Finance Authority of Warren County*. [1998] Valuation of the assets comprising the solid waste system of the Warren County Landfill. The valuation of the assets was estimated through the application of the market multiples method, the income approach, the cost approach, and the selected-transactions method.

STATEMENT OF FIDUCIARY DUTY

Fair market value is a well-established and the most commonly accepted standard of value. The Supreme Court defined fair market value as, "the price at which the property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts."¹ Gannett Fleming Valuation and Rate Consultants, LLC is experienced at determining fair market value in compliance with the Uniform Standards of Professional Appraisal Practice. Gannett Fleming Valuation and Rate Consultants, LLC has a fiduciary duty to, and will, provide a thorough, objective, and fair market valuation using the cost, market and income approaches in accordance with 66 Pa. C.S. Section 1329 and Pennsylvania laws.

We reach our conclusion of fair market value based on an objective analyses of basic data, informed professional judgment, and clear presentation of the results. Our staff includes professionals specialized in public utility accounting and ratemaking, valuation, cost of capital, depreciation, cost of service and financial analysis. Our opinion of fair market value is based on informed reasoning, not a prescribed formula, when deciding the relative weight to be accorded to the indications of value reached on the basis of the cost, market and income approaches. We have been helping clients in public pricing policy and related financial matters for managerial purposes, before regulatory commissions and courts of law since 1915.

Gannett Fleming Valuation and Rate Consultants, LLC attests that it does not derive any material financial benefit from the sale of, or purchase of, a selling utility other than fees for services rendered. Gannett Fleming Valuation and Rate Consultants, LLC also verifies it does not have any immediate family members who are directors, officers or employees of either an acquiring public utility, entity or selling utility within a 12-month period of the date of hire to perform an appraisal. We further affirm that Gannett Fleming Valuation and Rate Consultants, LLC is not directly or indirectly owned, partnered or in any way affiliated with a water/wastewater distribution company.
