TO ALL PARTIES OF RECORD

Application of Verizon Pennsylvania, LLC for approval of the alteration of the crossing where Jury Road (T 329) crosses, at grade, track of RJ Corman Railroad Group (DOT 528 143 K) by the installation of an aerial fiber optic cable and innerduct in Bradford Township, Clearfield County.

To Whom It May Concern:

By application received by the Commission on November 7, 2025, Verizon Pennsylvania, LLC (Verizon) seeks Commission approval to alter the at-grade crossing (DOT 528 143 K) by the installation of an aerial fiber optic cable and innerduct where Jury Road (T 329) crosses a single track of RJ Corman Railroad Group in Bradford Township, Clearfield County.

Verizon proposes to install a new aerial fiber optic cable in an innerduct attached to existing poles, located within the joint right of way of Jury Road (T-329) and RJ Corman Railroad Group. The installation will provide a minimum overhead clearance of 27 feet as measured from the top of rails to the aerial facility and innerduct.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, Verizon states that the proposed aerial fiber optic cable and innerduct is necessary to provide subsidized broadband to the local area. Verizon will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the proposed facilities, at its sole cost and expense. The cost of the project is anticipated to be \$10,000.

All work is to be performed in accordance with the plan entitled: "(R.J. CORMAN) RAILWAY PERMIT SKETCH 1A7X3MG" consisting of two (2) sheets submitted to the Commission with the application on November 7, 2025.

Verizon has served a copy of the application and plan on Bradford Township, Clearfield County, RJ Corman Railroad Group and the Pennsylvania Department of Transportation. All parties in interest were queried by letter dated November 12, 2025, sent via email as to any objection to the subject application and plans, and none of the parties have responded with any objections.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.
