(m)   If the interruption / outage event was weather-related, the utility's weather
        reports, outlooks, or scenarios for the day before and the day of the
        interruption / outage event:

        As of Sunday, December 28, PPL Electric's weather outlook for Monday,
        December 29 called for a cold front bringing approximately 15-25 MPH
        common winds with 35-40 MPH gusts throughout the service territory,
        with gusts up to 50 MPH. Actual conditions were generally in line with the
        forecast.

(n)   If the interruption / outage event caused approximate outages that exceed
        10% or more of customers in the utility's entire service territory, rank the
        event in terms of the number and duration of outages and provide 2
        comparable events, including the number and duration of outages for those
        comparable events:

This event did not impact more than 10% of PPL Electric customers.
