

**CONSERVATION SERVICE PROVIDER (“CSP”) APPLICATION
FOR REGISTRATION IN THE COMMONWEALTH OF PENNSYLVANIA**

Conservation Service Providers (“CSPs”) have a specific role under Act 129, which requires a covered Electric Distribution Company’s Energy Efficiency and Conservation (EE&C) plan to include one or more CSPs to implement at least a portion of the EE&C Plan. 66 Pa.C.S. § 2806.1(b)(1)(i)(E). CSPs provide information and technical assistance to EDCs on *measures* that enable a person to increase energy efficiency or reduce energy consumption. CSPs must have no direct or indirect ownership, partnership or other affiliated interest with an EDC. 66 Pa.C.S. § 2806.1 (m). Only registered CSPs may advise an EDC and/or provide consultation, design, or administration or management services to an EDC related to the implementation of the EDC’s EE&C Plan. As such, registration of business entities as approved CSPs is required before entering into a contractual agreement with an EDC exclusively for the provision of consultation, design, administration, management or advisory services regarding that EDC’s EE&C plan. This registry is not intended as a resource for business, whose sole purpose is the installation of measures, supplying of equipment or other contracting work for use by the general public and EDC customers. If providing such services, registration as a CSP is not required for entering into an agreement with an EDC.

Any CSP subcontractor with an annual contract cost that equals or exceeds 10% of the CSP annual contract cost and is directly performing services pursuant to a contract with a CSP which has contracted with an EDC after Commission approval should also register as a CSP. This does not include third party contractors which participate in or support an EE&C Plan but are not directly contracted with a CSP which has a direct contractual relationship with the EDC subject to Act 129.

To qualify an applicant must have at least two years of experience in providing program consultation, design, administration, management or advisory services related to energy efficiency and conservation services. CSP registration is not required of entities that limit their services to the installation of energy efficiency measures or the provision of equipment or materials to EDC customers or the public in general.

RESUME OF KEVIN WARREN, PE, MSME, LEED AP

Kevin Warren is the Principal of Warren Energy, LLC. The core of Mr. Warren's experience is energy engineering analysis. He has evaluated hundreds of buildings and process facilities. His analyses have included energy audits, development of commissioning plans, measurement and verification, and incentive application assistance.

Mr. Warren works on many sides of the energy efficiency delivery structure. He has provided quality assurance assessments and impact evaluations for public goods funded programs and has also provided analyses under contract with large energy services companies (ESCOs). Mr. Warren also works directly for private end-users.

Mr. Warren is a nationally recognized expert on measurement and verification and impact evaluation. He is an active member of the Efficiency Valuation Organization's (EVO) International Performance Measurement and Verification Protocol (IPMVP) and of the uncertainty and M&V 2.0 subcommittees, and he chairs their EM&V subcommittee. He represented EVO in efforts by the North American Energy Standards Board to create national standards for calculation of energy impacts, and on a working group for the evaluation, measurement, and verification standards for the ANSI EESCG project. Mr. Warren was recently part of the team revising the M&V protocols used by the Bonneville Power Authority (BPA). He is also a member of the Technical Advisor Group for NREL's Uniform EM&V Methods Project. He was also chosen by EVO to develop M&V protocols for the World Bank.
