**Data Request A-14**

---

A-14 In the Application's Paragraph 17, Aqua certified that there is adequate capacity to supply, treat, store and distribute 370,740 gallons per month for the Elementary School and the 82 additional existing single-family homes. However, Aqua's response for Data Request A-5 identified that in year one, Aqua also expects to serve the East Brandywine Township Park, which has an estimated water demand of 850 gallons per day, or approximately 25,500 gallons per month. Please confirm that Aqua can provide adequate water supply, treatment, storage, and distribution capacity to meet present and future demands in the requested territory, including the East Brandywine Township Park.

**Response:**

Aqua can provide adequate water supply, treatment, storage, and distribution capacity to meet present and future demands in the requested territory, including the East Brandywine Township Park.

**Data Request A-15**

---

A-15 Aqua's response for Data Request A-6 did not identify any customer connections or estimated annual revenues and expenses for the Elementary School's private fire service connection and the three public fire hydrants identified in the Application's Section 13. Please provide a revised response for Data Request A-6 that includes the estimated annual revenues and expenses for the private fire service connection and three public fire hydrants.

**Response:**

The response below, based on the demands and connections by class, utilizes Aqua's current rates and O&M, and are not adjusted for unknown future rate cases, rate increases. The revenue and expenses shown in the below projections represent revenue at year 1, 5 and 10 inclusive of the previous projected years.
