**TO ALL PARTIES OF RECORD**

Application of UGI Utilities Inc., for approval of the alteration of the public crossing (DOT 592 187 F) by the installation of a natural gas main where 19th Street (State Route 3007) crosses, above grade, tracks of Norfolk Southern Railway Company, in the City of Harrisburg, Dauphin County.

To Whom It May Concern:

By application received by the Commission on December 22, 2025, and plans received December 29, 2025, UGI Utilities Inc., (UGI) seeks Commission approval to alter the public crossing (DOT 592 187 F) where 19th Street (State Route 3007) crosses, above grade, tracks of Norfolk Southern Railway Company, in the City of Harrisburg, Dauphin County.

UGI proposes to attach an 8-inch steel gas line that will be supported by pipe hangers and located in between the beams on the underside of the bridge. The bottom elevation of the pipe and hangers will not exceed the bottom elevation of the bridge beams. The minimum vertical clearance from the top of rail to the bottom of the bridge beams is 19.7 feet.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, UGI states that the installation is necessary to provide reinforcement to the existing distribution system and create a redundant feed to the existing distribution system in order to improve system pressures. UGI is responsible for the protection of highway and pedestrian traffic during installation. UGI accepts future maintenance responsibility for the gas facilities, at its sole cost and expense. The cost of the portion of the project within the railroad right of way is anticipated to be \$350,000.

All work is to be performed in accordance with the plans entitled: "19TH ST REPLACMEENT GAS MAIN HARRISBURG CITY DAUPHIN COUNTY, PA" consisting of three (3) sheets submitted to the Commission on December 29, 2025.

UGI has served a copy of the application and plan on Pennsylvania Department of Transportation, Norfolk Southern Railway Company, West Penn Power, Comcast Cable Communications Inc., Verizon Pennsylvania LLC, Lumen, Capital Region Water, PPL Electric Utilities, the City of Harrisburg and Dauphin County. All parties in interest were queried by letter dated December 31, 2025, sent via email as to any objection to the subject application and plans. None of the parties have responded with any objections.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.
