RE: Response to PUC's letter dated November 21, 2025

Utility Code: 310623

Dear Ms. Zuvich,

Please consider this letter as our formal response to your letter to MAW dated November 21, 2025.

MAW has been a certificated facilities-based CLEC for over 26 years. In those 26 years, MAW has never had a formal customer complaint and is in good standing with the Commission. 2024, was the first year in 26 years that MAW filed zero jurisdictional public utility services revenue. The reason MAW filed zero revenue on our Assessment report is because MAW had zero revenue in 2024 due to MAW selling its assets to Keystone Metro Fiber, LLC, in August of 2023. The asset sale included all of MAW's existing customers. MAW maintained its regulatory status and CPC in order to ensure a smooth transition of our customers. At this time, the transition of MAW's customers has been completed in 2023, resulting in zero jurisdictional public utility services customers for MAW and zero revenue as reported in our Assessment Report for 2024.

At this time, MAW does not have any plans of continuing to provide jurisdictional public utility services in the near future. Consequently, MAW Communications hereby voluntarily relinquishes MAW's CPC under file 610623. MAW will also be filing a Discontinuance of Services Application with the Commission. MAW has ceased providing jurisdictional public utility services since 2024 and will not provide these public utility services without first re-acquiring the Commission's approval and CPC issuance.

MAW is proud of our 26 years of services to Pennsylvania: residents, businesses, not for profit entities, educational institutions, local government, and other certificated carriers. We are also proud of our efforts to assist the Commission over the decades of significant change to our industry and its regulatory environment. MAW thanks the Commission for its support and oversight over the last 26 years. A hard copy of this letter will be sent to the Secretary's Office.

Respectfully,

*Frank T Wiczowski*
