Petition is on behalf of Benjamin M Thompson owner of BT Builds LLC

# PUC APPEAL

1. I am submitting this statement in support of my appeal to obtain a Pennsylvania Public Utility Commission (PUC) number. My initial application issues stemmed from a misunderstanding of the PUC requirements and how they applied to my specific type of work.

2. At the time of my application, I was confused about whether my business operations required a PUC number, as my hauling work is limited in scope and performed under direct request from stone quarries. I believed my operations may have fallen under different regulatory requirements than those outlined by the PUC.

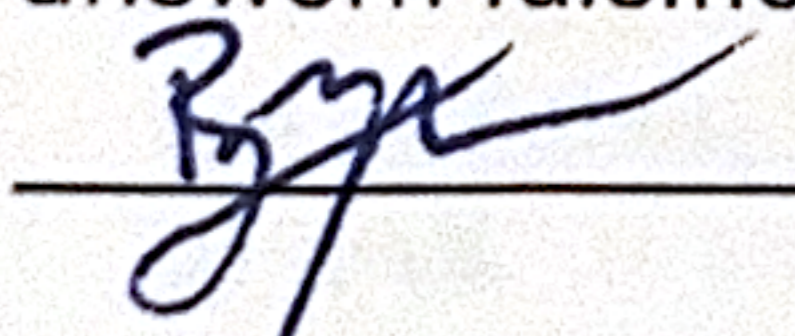

3. Since submitting my application, I have spoken directly with representatives from the Harrisburg PUC office by phone. During that conversation, my questions were clearly explained and any confusion regarding the requirements was resolved. I now have a full understanding of what is required for compliance.

4. My company operates a tri-axle truck and is primarily engaged in delivering stone and dirt materials that are called for by stone quarries. My hauling services are specific to quarry material delivery as requested by those facilities. My growth is a business will take me down lots of roads in the main road that has kept me in business and functioning is those supplying trucks needed by the Quarry's to transport their goods.

5. I am committed to operating fully within Pennsylvania regulations and in compliance with all PUC requirements moving forward. Any prior issues were unintentional and the result of misunderstanding, not an attempt to avoid compliance.

6. I respectfully request that my appeal be considered in light of the clarification I have received, my good-faith effort to correct the issue, and my willingness to comply with all applicable rules and regulations.

I Benjamin Thompson hereby state that the facts set forth above are true and correct or are true and correct to the best of my knowledge, information and belief) and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 (relating to unsworn falsification to authorities).
