TO ALL PARTIES OF RECORD

Application of Aqua Pennsylvania, Inc for approval of the alteration of the public crossing (DOT 592 997 X) by the installation of an 8-inch diameter PVC water main in a 16-inch diameter steel casing pipe where Park Avenue crosses, below grade, two (2) tracks of Southeastern Pennsylvania Transportation Authority (SEPTA), in Cheltenham Township, Montgomery County.

To Whom It May Concern:

By application received by the Commission on December 23, 2025, Aqua Pennsylvania, Inc., (Aqua) seeks Commission approval to alter the public crossing (DOT 592 997 X) by the installation of an 8-inch diameter PVC water main in a 16-inch diameter steel casing pipe where Park Avenue crosses, below grade, two (2) tracks of Southeastern Pennsylvania Transportation Authority (SEPTA), in Cheltenham Township, Montgomery County.

Aqua proposes to install an 8-inch diameter PVC carrier pipe in a 16-inch diameter steel casing pipe by open cut trench that will be installed within the roadway of Park Avenue. An existing 6-inch cast iron water line will be plugged in place and filled with grout. The minimum vertical cover over the casing pipe from the surface of the roadway is 4 feet, as shown on the plans.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, Aqua states that the installation is necessary to improve water distribution operations and maintenance. Aqua is responsible for the protection of highway and pedestrian traffic during installation. Aqua accepts future maintenance responsibility for the water facilities, at its sole cost and expense. The cost of the portion of the project within the railroad right of way is anticipated to be \$60,000.

All work is to be performed in accordance with the plans entitled: "ELKINS PARK SEPTA CROSSING PROJECT," consisting of one (1) sheet submitted to the Commission with the application.

Aqua has served a copy of the application and plan on Pennsylvania Department of Transportation, SEPTA, PECO, Comcast, Verizon Business, Lumen, Texas Eastern / Enbridge, Transcontinental Gas / Williams Gas, Cheltenham Township, and Montgomery County. All parties in interest were queried by letter dated January 5, 2026, sent via email as to any objection to the subject application and plans. None of the parties have responded with any objections.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.
