

February 21 2026

Matthew Homsher, Esquire
Secretary
Pennsylvania Public Utility Commission
P.O. Box 3265
Harrisburg, PA 17105-3265

Reference: Docket No. C-2026-3059943

Dear Mr. Homsher,

This filing is in reference to Docket No. C-2026-3059943, Gregg Warner v. PECO, and is a response to the February 10 2026 letter received from Margaret A. Morris, Esq., from the firm Reger Rizzo & Darnall LLP, who are representing PECO in this matter. The letter advises that we are to reply within 20 days to this answer from PECO. Page 6 of the answer states the following as a summary of the formal complaint submitted:

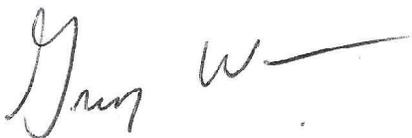

PECO avers that the Service Address experienced an outage on September 19, 2025 during a major rainstorm with high winds that impacted the entire service territory. The outage was due to vegetation that interfered with PECO's facilities. The outage lasted 1,049 minutes and impacted 3,223 customers.

The above description is not consistent with the information provided in the formal complaint, which relates to power surges that occurred in June 2025, and the resultant impact on the air conditioning/heating unit in the home. There was no claim in the complaint of this being a weather-related event. The answer from PECO needs to be updated to align with the details presented in the formal complaint with a response aligned to these specific details.

As requested in the PECO response, a copy of this communication will be sent to Margaret A. Morris, Esq., at mmorris@regerlaw.com.

Thank you for your assistance with this matter. If there is any further information needed, please don't hesitate to let me know.

Sincerely,

Gregg Warner
