Summary of Electricity Usage Dispute

Complainant: Matt Schwartz, MD

Service Address: 335 Righters Ferry Road, Bala Cynwyd, PA

Utility: PECO Energy Company

Docket: Pennsylvania Public Utility Commission

Hearing Date: February 10, 2026

Statement of Issue

I contest PECO Energy Company's assertion that my electric energy consumption increased between 45% and 200% year-over-year beginning December 2024. My household usage behavior, appliance inventory, and conservation practices remained unchanged or became more restrictive.

Factual Background

- Residence: New construction apartment (2020) with new, energy-efficient appliances.
- Occupant behavior: Highly energy-conservative; HVAC largely disabled.
- Laundry: Approximately five washer/dryer cycles per month.
- Constant load: One energy-efficient refrigerator.
- Rate error acknowledged by PECO and partially corrected with a \$250 credit.

Basis of Dispute

The magnitude and consistency of the reported increase are statistically inconsistent with reasonable appliance load calculations and my documented usage behavior. The absence of third-party meter testing raises concerns regarding measurement or billing error.

Relief Requested

1. Independent third-party meter testing pursuant to PUC standards.
2. Adjustment or refund of charges found inconsistent with verified consumption.
3. Confirmation of correct tariff classification going forward.
4. Replacement of meter if accuracy cannot be independently verified.

Exhibit B – Detailed Account of Issues – LMS, MD v PECO Energy Co Electric – F-2025-3056138

RESIDENCY AT 335 BALA – APARTMENT 312:

- I have lived in this apartment since 7/1/21 (more than 4-1/2 years). This unit has western and southern exposure.
- Over this time period, I have been the sole inhabitant and control all electricity usage in this 1260 ft.² apartment.

ELECTRICITY UTILIZATION BEHAVIOR:

1. My electricity usage behavior has always been and remains highly conservative. These behaviors include:
 - a. Keeping the thermostat of the HVAC unit at or below 68° during the winter and cooler months and at or above 77° during the summer and warmer months (except for 74° for a few hours, on occasion, on hot days over the summer).
 - b. The HVAC unit is not permitted to cycle as it is mostly off when I'm home or out.
 - c. The refrigerator and freezer are always kept at a modest setting of 4 (max settings are 7)
 - d. The blinds in the apartment are kept completely closed over the summer and warm months and completely open over the winter and cool months.
 - e. Power strips are used for all appliances except the refrigerator, microwave oven, and toaster oven. These strips are flipped off overnight and when I am away from the apartment. This is done rigorously.
 - f. There is minimal use of the televisions, computer, toaster oven, and microwave oven.
 - g. There is very sparing use of the garbage disposal, lighting, and outlets for the vacuum cleaner, telephone charger, and electric razor charger.
 - h. The dishwasher and large oven (gas) are never used. The stove is gas-powered.
2. Please see Exhibit D for specific accounting of electricity usage in apartment 312 regarding specific appliances.
 - a. Of note, my monthly usage had been in the 200-450 kWh/month range for years since 2021, except for during the dead of winter or summer.
 - b. Throughout 2025, my reported usage (billed by PECO) was between 564 and 719 kWh/Month, except for May, June, September, and October, when the HVAC system was entirely turned off.

CLAIMS:

1. I contend that the pattern of billed consumption is statistically inconsistent with my long-standing conservative and stable electricity usage behavior and appliance load calibrations. My true expected usage, given my unchanged and new (c. 2020) appliances, ought to have been nearly constant year-over-year. **Consistently** reported/billed usage spikes, despite milder weather and shortened billing cycles, is circumstantial evidence of inaccurate metering and billing practices.

2. Meter billing or tariff classifications may be using incorrect multipliers or codes. Data corruption or time-of-use misalignment may produce incorrect/faulty usage measurements. There may be duplicate interval aggregates.
3. PECO performed its own testing of my meter (and unsurprisingly found it to be accurate within expected PUC standards). PECO's performance of its own testing, in light of its internal control, may represent a conflict of interest.
4. I have formerly requested accurate metering inspection and third-party testing of my meter. On 1/5/26, as per 52 Pa. C.S. 57.22(a-b), I emailed ALJ Marta Guhl (via Eric Ball – erball@pa.gov) and PECO Counsel Margaret A Morris, Esq. (MMorris@RegerLaw.com) to deliver this request.

RELIEF REQUESTED:

1. Independent third-party meter testing pursuant to PUC standards (Exhibit C - request)
2. Confirmation of correct rate/tariff classifications for billing going forward, which match the actual service agreement
3. A home electricity usage audit performed by an independent third-party funded by PECO: An electrical load study by a licensed electrician, looking for real vs. phantom loads, using a power draw meter within my apartment over a standard time period
4. Replacement of my electric meter if accuracy cannot be independently verified as per 66 Pa. C.S. section 1504(2) – (4), under PUC authority on metering standards and accuracy
5. A pre-hearing order of pre-filed testimony

Re: Formal Request for Independent Electric Meter Testing and Meter Configuration Disclosure

Dear Ms. Morris:

I am writing regarding my ongoing dispute with PECO Energy Company concerning the accuracy of electric energy usage measured and billed to my account referenced above, associated with my residence at 335 Righters Ferry Road, Unit 312, Bala Cynwyd, Pennsylvania.

I am current on all billing obligations. However, beginning in December 2024 and continuing through 2025, PECO's bills reflect year-over-year increases in reported electricity usage ranging from approximately 60% to over 200%, despite no material change in occupancy, appliance inventory, or usage behavior during this period. In fact, my energy-conservation practices increased during the relevant timeframe.

The magnitude and persistence of these increases are inconsistent with reasonable appliance load calculations for my apartment, which is a new-construction (2020) building equipped with modern, energy-efficient appliances. As such, I formally contest the accuracy of the electricity usage attributed to my unit as measured by PECO's metering and billing systems.

Accordingly, I respectfully request the following:

Independent Third-Party Meter Testing

That the electric meter serving my apartment be tested by a certified, independent third-party testing entity, calibrated against ANSI C12 standards (or equivalent nationally recognized standards), rather than testing performed solely by PECO or its internal contractors.

Meter Configuration and Programming Disclosure

That PECO provide the meter's internal configuration and programming printout, including but not limited to:

Meter model and serial number

Multipliers or scaling factors

Firmware version

Time-of-use or interval recording parameters (if applicable)

Tariff and rate-class associations applied to the meter data

Preservation of Data

That all interval data, billing determinants, and meter communications associated with my account be preserved pending resolution of this dispute.

This request is made in good faith and is intended to resolve the dispute based on objective, technical verification of measured consumption. PECO has already acknowledged and corrected a prior rate-classification error, resulting in a billing credit, which further supports the need for independent verification of the remaining measurement issues.

Please advise in writing as to PECO's position on permitting independent meter testing and providing the requested technical documentation. I request a response sufficiently in advance of the February 10, 2026 administrative hearing so that the results may be properly submitted into the evidentiary record.

Thank you for your attention to this matter.

Respectfully,

Linden Matthew Schwartz, MD

Exhibit D

LMS, MD v. PECO Energy Company (Electric)

Energy Star Specifications and AI-Based Usage Calculations

Appliance Estimated Average Monthly Usage (kWh)

Refrigerator – Whirlpool WRB322DMBM00	49
HVAC – Samsung AC024KN2DCH-AA (annualized)	144
Washer – Whirlpool WFW5620HW0	12
Dryer – Whirlpool WGD560LHW0	57
Televisions (40" + 32")	5
Desktop Computer – Lenovo ThinkCentre	2
Microwave – Whirlpool WMH31017HS-3	3
Toaster Oven – Oster TSSTTVF816	10
Incidental / Small Appliances	20

Total Estimated Average Monthly Electric Usage: 302 kWh/month

Summary of Usage Assumptions

- **Refrigerator:** Whirlpool WRB322DMBM00 operated at temperature setting 4 of 7 for both refrigerator and freezer compartments, with minimal door openings.
- **HVAC:** Samsung AC024KN2DCH-AA system operated seasonally only. Cooling set to 77°F for approximately 3 hours per day during four summer months, with occasional one-hour reductions to 74°F at night. Heating set to 68°F for approximately 3 hours per day during four winter months. System completely off during April, May, October, and November. Energy usage conservatively annualized over 12 months.
- **Laundry:** Five total loads of laundry per month, including both washer and gas dryer usage.
- **Televisions:** Two Samsung televisions (40-inch and 32-inch), each used two hours per day or less.
- **Computer:** Lenovo ThinkCentre desktop computer used two hours per day or less.
- **Microwave:** Whirlpool WMH31017HS-3 used on high power for approximately five minutes per day.
- **Toaster Oven:** Oster TSSTTVF816 used approximately two hours per month.
- **Incidental Usage:** Blender operated approximately one minute per day; routine charging of a mobile phone and small speaker; occasional vacuum cleaner use; rare use of MIDI equipment and a PA system and razor recharging.

All energy values are derived from Energy Star published data, manufacturer specifications, and conservative AI-assisted calculations based on sworn user-stated usage patterns. This exhibit is submitted for review by the Pennsylvania Public Utility Commission as supporting evidence of reasonable expected household electric consumption.

Exhibit E – LMS, MD v PECO Energy Company – Electric – F-2025-3056138

Complaint Records and Customer Advocacy Data – RE: PECO Energy Company Billing

a. Better Business Bureau (BBB) Complaint Logs

Profile: PECO Energy Company, BBB Accredited Business

Date: 2022–2025 complaint records

Summary: Hundreds of complaints related to billing issues have been filed with the BBB, including:

multi-month billing gaps resulting in lump-sum balances;

lack of billing transparency and usage data;

unauthorized withdrawals from bank accounts;

disputes about deposits and rate disclosure.

These illustrate a systemic trend of billing process failures reported by customers.

b. Broader Consumer Complaints (Public Forums & Social Media)

Independent customer reports on Reddit and other forums describe recurring issues with:

long periods without bills;

large unexpected back bills;

meters swapped or mis-assigned;

difficulty reaching customer service;

confusion over billing system glitches and delayed payments.

Shopping Information Box

When shopping for a competitive electric/natural gas supplier, please provide the following:

Electric Choice ID: XXXXXXXXXX
Electric Rate: Electric Residential Heating Service

If you are purchasing the energy you use from a competitive supplier, it is important to understand the terms of your contract and expiration date.

Message Center

From PECO:

New charges contain estimated total state tax of \$3.65, including \$6.51 for State Gross Receipt Tax.

Your estimated electric price to compare adder is \$0.104 per kWh, which includes ancillary charges and the purchased generation adjustment but excludes energy and capacity. This may change in March, June, September and December. For more information and supplier offers visit PAPowerSwitch.com.

From CleanChoice Energy:

Thank you for purchasing 100% clean energy and helping us all enjoy cleaner air.

Shopping Information Box

When shopping for a competitive electric/natural gas supplier, please provide the following:

Electric Choice ID: 1942939524
Electric Rate: Electric Residential Service

If you are purchasing the energy you use from a competitive supplier, it is important to understand the terms of your contract and expiration date.

Message Center

From PECO:

New charges contain estimated total state tax of \$4.86, including \$8.99 for State Gross Receipt Tax.

Your estimated electric price to compare adder is \$0.0924 per kWh, which includes ancillary charges and the purchased generation adjustment but excludes energy and capacity. This may change in March, June, September and December. For more information and supplier offers visit **PAPowerSwitch.com**.

From CleanChoice Energy:

Thank you for purchasing 100% clean energy and helping us all enjoy cleaner air.

Shopping Information Box

When shopping for a competitive electric/natural gas supplier, please provide the following:

Electric Choice ID: 1942939524
Electric Rate: Electric Residential Heating Service

If you are purchasing the energy you use from a competitive supplier, it is important to understand the terms of your contract and expiration date.

Message Center

From PECO:

New charges contain estimated total state tax of \$1.94, including \$3.05 for State Gross Receipt Tax.

Your estimated electric price to compare adder is \$0.104 per kWh, which includes ancillary charges and the purchased generation adjustment but excludes energy and capacity. This may change in March, June, September and December. For more information and supplier offers visit PAPowerSwitch.com.

From CleanChoice Energy:

Thank you for purchasing 100% clean energy and helping us all enjoy cleaner air.

Total Annual kWh Usage 6,466

Shopping Information Box

When shopping for a competitive electric/natural gas supplier, please provide the following:

Electric Choice ID: 1942939524
Electric Rate: Electric Residential Heating Service

If you are purchasing the energy you use from a competitive supplier, it is important to understand the terms of your contract and expiration date.

Message Center

From PECO:

New charges contain estimated total state tax of \$3.37, including \$6.91 for State Gross Receipt Tax.

Your estimated electric price to compare adder is \$0.1102 per kWh, which includes ancillary charges and the purchased generation adjustment but excludes energy and capacity. This may change in March, June, September and December. For more information and supplier offers visit [PAPowerSwitch.com](https://www.PAPowerSwitch.com).

Account Number: [REDACTED]

Ways to Pay

Online

Visit peco.com/paybill where you can enroll in AutoPay, or make a one-time payment using your credit card or bank account.

Mobile App

Download the **PECO mobile app** for your Apple or Android device for the quickest and easiest way to manage your account and pay bill with one swipe of the finger.

Mail

Mail checks payable to PECO and write your account # on your check. Make sure to include the tear-off portion of your bill at the bottom of page 1.

Phone

Call **877-432-9384** to make a payment with a credit card, debit card, or your bank account.*

* Fees apply for card & phone payments.
No fees apply when you create a PECO My Account and pay using your bank account

Number of Children:	0
Ages:	

Case#: 4056217	
Utility Name:	PECO Energy
Utility Type:	Electric Distributor
Date Opened:	04/18/2025
Reason For Contact:	BILLING DISPUTES (# 18)
Other Related Information/Disputes:	18 - High bill dispute. Customer stated that his normal usage was around 200 kWh - 400 kWh/month because he hardly used power at the apartment, and he was energy conscious person. Customer complained that he lived by himself, but his usage had been doubled since Nov 2024. Customer informed that his usage went up to 564 kWh, then 712 kWh/month. Customer believed that PECO overcharged him since the end of 2024. - Relief Sought - Investigate the high usage. Get credits toward customer's account. - Relief Sought - The Cell Phone Number [REDACTED] has been allowed to be shared. The Email Address [REDACTED] has been allowed to be shared
Company Position:	04/17/2025 Customer's usage had increased. Company checked the meter, and it was accurate.
Misc. Information:	

Case#:	4056217
Utility Name:	PECO Energy
Decision Issue:	Yes
Oral/Written:	W
Violation:	NO
Chapter 56/64/Other:	
Section/Rule:	
Total Balance:	\$136.24
Closing Date:	06/11/2025
Resolution:	DECISION ISSUED: There is no factual evidence discovered to support the customer claim that the bills were incorrect. The bills were based on actual readings, no meter mix, no shared meter and the meter tested at 100% accuracy. The customer has been properly billed. CASE DISMISSED.
