Application of PPL Electric Utilities Corporation for approval to alter the public crossing (DOT 953 131 K) by raising the aerial facilities and replacement of utility pole where State Route 0641 (E Trindle Road) crosses, below grade, the tracks of Norfolk Southern Railway Company located in Hampden Township, Cumberland County.

To Whom It May Concern:

By application filed with the Commission on August 19, 2025, PPL Electric Utilities Corporation seeks Commission approval to alter the public crossing (DOT 953 131 K) by the replacement of utility pole where State Route (SR) 0641 (E Trindle Road) crosses, below grade, tracks of Norfolk Southern Railway Company located in Hampden Township, Cumberland County.

PPL Electric Utilities Corporation will replace the utility pole and raise the aerial cables located within the joint right of way of SR 0641 (E Trindle Road) and Norfolk Southern Railway Company to be attached to existing poles. The alteration will provide a minimum vertical clearance of 22 feet and 8 inches above the top of rail to the aerial cable.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, PPL Electric Utilities Corporation states that the proposed alteration is necessary to provide adequate, efficient, and reasonable communication facilities and power to the public in Cumberland County and surrounding areas. PPL Electric Utilities Corporation will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the facilities, at its sole cost and expense. The cost of the project is anticipated to be approximately \$10,000.00.

All work is to be performed in accordance with the revised plans hereby entitled: "EXHIBIT A," consisting of one (1) sheet submitted to the Commission on January 9, 2026.

PPL Electric Utilities Corporation has served a copy of the application and plans on the Pennsylvania Department of Transportation, Norfolk Southern Railway Company, Cumberland County and Hampden Township. All parties in interest were queried by letter dated September 9, 2025, sent by electronic mail as to any objection to the subject application and plans. None of the parties have responded with any objection to the subject application or plans.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.
