RE: Application of Verizon Pennsylvania LLC (DOT 528 140 P)

To Whom It May Concern:

RJ Corman is filing to **WITHDRAW** the following objection to the application:

R. J. Corman requires an annual fee of \$4,000 to be paid by Verizon for the requested overhead installation. R. J. Corman reviews each application request to cross its rail line on a case-by-case basis and determines if there will be any ongoing costs to the railroad with respect to the requested installation, especially if the installation could jeopardize the safety of the rail line and or hinder operations. The assessed fee will cover the costs necessary to ensure the installation does not and will not impact or encroach upon railroad-related activities that may occur at or near the location of the overhead installation each year. This fee will also cover ongoing expense required to ensure the railroad crossing remains safe for motorists and pedestrians who may cross the track.

Please contact me with any questions or concerns at (859) 881-6504 or Rebecca.Cummings@rjcorman.com.

Sincerely,

Becky Cummings
