Pennsylvania Public Utility Commission
Harrisburg, PA

Re: Description of Transportation Services

Dear Commission Representative,

Van Der Meer Stone & Excavation Corp provides hauling and transportation services for construction-related materials, including sand, stone, dirt, and construction debris. In addition to excavation work, the company is contracted by other businesses to transport these materials between job sites, suppliers, and disposal facilities.

These transportation services are not incidental to our excavation operations. Van Der Meer Stone & Excavation Corp is frequently hired specifically to pick up and transport materials such as sand, excavated material, and debris for third-party companies.

Because the company transports property belonging to other businesses for compensation within the Commonwealth of Pennsylvania, these activities constitute for-hire transportation and fall under the jurisdiction of the Pennsylvania Public Utility Commission. For this reason, the company is applying for PUC authority to operate in compliance with state regulations.

I, Julian G Vandermeer, hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief, and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 (relating to unsworn falsification to authorities).

Sincerely,

Julian G Vandermeer

Owner
Van Der Meer Stone & Excavation Corp
