SULLYCARS@aol.com

Hi,

We are responding to a complaint from the PUC. We have stopped driving people to the airport. We still do try and generate leads and sell them to other transportation companies. We were not aware that a license was needed for this. We have shut everything down until we get everything figured out. On the complaint issues, there was no transportation completed nor any money exchanged for services. The complaint number is C-2026-3054694. We want to be compliant with all laws and regulation. If we are still required to pay the \$1000, we would need to do it in payments. Thank you for your time and consideration

Michael Sullivan
