**TO ALL PARTIES OF RECORD**

Application of PPL Electric Utilities Corporation for approval of the alteration of the crossing (DOT 591 568 R) by the installation of an aerial wire where Shearers Road crosses the tracks of the East Penn Railroad, LLC in the Township of Spring in Berks County.

To Whom It May Concern:

By application received by the Commission on January 29, 2026, PPL Electric Utilities (PPL) seeks Commission approval to alter the at-grade crossing (DOT 591 568 R) by the installation of an aerial wire where Shearers Road crosses a single track of East Penn Railroad, LLC (East Penn) in Spring Township, Berks County.

PPL proposes to attach the aerial line, located within the joint right of way of Shearers Road and East Penn, to existing poles. A minimum overhead clearance of 29 feet 2 inches above the tracks will be maintained with the installation of the proposed ariel wire.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, PPL states that the proposed aerial line is necessary to facilitate the upgrade of existing electric and communication facilities for the area. PPL will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the proposed facilities, at its sole cost and expense. The cost of the project is anticipated to be \$10,000.

All work is to be performed in accordance with the plan hereby entitled: "EXHIBIT A" consisting of a single sheet submitted to the Commission with the application on January 29, 2026.

PPL has served a copy of the application and plan on Spring Township, South Heidelberg, Berks County, Service Electric Cablevision, Verizon, East Penn and the Pennsylvania Department of Transportation. All parties in interest were queried by letter dated February 11, 2026, sent via email as to any objection to the subject application and plans, and none of the parties have responded with any objections.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.
