Pennsylvania-American Water Company 2025 Annual Asset Optimization Plan  
at Docket No. M-2026-3060809

M-2. The Commission's Order entered October 3, 2019, at Docket No. P-2017-2606100 (October 2019 Order), Ordering Paragraph No. 4, directed that PAWC's AAOP filings shall include the total annual cost and average unit cost of replacements disaggregated by customer class (i.e., residential, commercial, industrial) and geographic location.

PAWC's 2025 AAOP, Table 8, included the total annual cost and average unit cost of replacements disaggregated by geographic location. However, Table 8 did not include the total annual cost and average unit cost of replacements disaggregated by customer class. Also, it appears that Attachment C of PAWC's 2024 AAOP filed with the Commission on March 3, 2025, at Docket No. M-2025-3053700, included the total annual cost and average unit cost of replacements, disaggregated by customer class and geographic location. Please provide the following information:

- a. Provide a revised Table 8 that specifies the total annual cost and average unit cost of replacements disaggregated by customer rate category; or
- b. Confirm that the AAOP's Attachment C provided in response to Data Request M-1 includes the total annual cost and average unit cost of replacements, disaggregated by customer class and geographic location.

- Response:
- a. Please see **Exhibit TUS-1-M-1\_Attachment C** for the total annual cost and average unit cost of replacements, disaggregated by customer class and geographic location.
  - b. Yes, **Exhibit TUS-1-M-1\_Attachment C** includes all the information requested.
