VIA ELECTRONIC FILING

Mr. Matthew Homsher, Secretary
Pennsylvania Public Utility Commission
Commonwealth Keystone Building
400 North Street, 2nd Floor
Harrisburg, PA 17120

Re: FirstEnergy Pennsylvania Electric Company Tariff Electric Pa. P.U.C. No. 1 – Rate Changes in Compliance with FirstEnergy Pennsylvania Electric Company’s Distribution System Improvement Charge Rider, Docket No.

Dear Secretary Homsher:

Transmitted herewith for filing with the Pennsylvania Public Utility Commission (“Commission”) is Supplement No. 35 to FirstEnergy Pennsylvania Electric Company’s (“FE PA” or the “Company”) Tariff Electric Pa. P.U.C. No. 1 bearing an issue date of March 20, 2026. The tariff changes contained in Supplement No. 35 are proposed to be effective for bills rendered on or after April 1, 2026.

The purpose of this filing is to reflect changes to the Distribution System Improvement Charge (“DSIC”) Rider. Each of FE PA’s Rate Districts have exceeded the plant account balances agreed upon in settlement, as is consistent with the Commission’s Order entered November 21, 2024, at Docket No. R-2024-3047068.

Additionally, included in Supplement No. 35, are two minor tariff changes. The formula definition for Projected Quarterly Revenues (PQR) (page 241) has been updated to incorporate the alternative methodology of deriving PQR by taking one fourth of the projected annual DSIC eligible revenues. Finally, in the Customer Safeguards section (page 242), language regarding Penn Power being capped at 7.5% has been removed, as this temporary provision has expired.

If you have any questions regarding the enclosed documents, please feel free to contact me.

Sincerely,

Joanne M. Savage
Director, Rates & Regulatory Affairs - PA
610-921-6525

Enclosure

c: Per Certificate of Service

NOTICE

Supplement No. 35 makes changes to Distribution System Improvement Charge Rider.
See Thirty-Fourth Revised Page No.2

LIST OF MODIFICATIONS

CHANGES:

Distribution System Improvement Charge Rider – Distribution System Improvement Charge rates have been increased. (See Ninth Revised Page 239).

Distribution System Improvement Charge Rider – Projected Quarterly Revenues (PQR) definition has been updated. (See First Revised Page 241).

Distribution System Improvement Charge Rider – Updating DSIC cap language to reflect the 5% cap for all Rate Districts. (See First Revised Page 242).

DISTRIBUTION SYSTEM IMPROVEMENT CHARGE RIDER

In addition to the net charges provided for in this Tariff, a charge of:

Rate District	Met-Ed	Penelec	Penn Power	West Penn
Net Charge	0.37% (I)	0.39% (I)	0.81% (I)	0.12% (I)

will apply consistent with the Commission Orders dated June 9, 2016 and April 19, 2018, at Docket Nos. (ME) P-2015-2508942, (PN) P-2015-2508936, (PP) P-2015-2508931, and (WP) P-2015-2508948 approving the Distribution System Improvement Charge (“DSIC”). This charge will be effective during the period April 1, 2026 through June 30, 2026. (C)

1. General Description

A. Purpose: To recover the reasonable and prudent costs incurred to repair, improve, or replace eligible property which is completed and placed in service and recorded in the individual accounts, as noted below, between base rate cases and to provide the Rate Districts with the resources to accelerate the replacement of aging infrastructure, to comply with evolving regulatory requirements and to develop and implement solutions to regional supply problems.

The costs of extending facilities to serve new customers are not recoverable through the DSIC.

B. Eligible Property: The DSIC-eligible property will consist of the following:

- Poles and towers (account 364);
- Overhead conductors (account 365) and underground conduit and conductors (accounts 366 and 367);
- Line transformers (account 368) and substation equipment (account 362);
- Any fixture or device related to eligible property listed above, including insulators, circuit breakers, fuses, reclosers, grounding wires, crossarms and brackets, relays, capacitors, converters and condensers;
- Unreimbursed costs related to highway relocation projects where an electric distribution company must relocate its facilities; and
- Other related capitalized costs.

C. Effective Date: The DSIC will become effective July 1, 2016.

(C) Change
(I) Increase

DISTRIBUTION SYSTEM IMPROVEMENT CHARGE RIDER (continued)

- C. Application of DSIC: The DSIC will be expressed as a percentage carried to two decimal places and will be applied to the total amount billed to each customer for distribution service under the Rate District’s otherwise applicable rates and charges, excluding amounts billed for the State Tax Adjustment Surcharge (STAS). All Customers will be billed the DSIC on a bills-rendered basis. To calculate the DSIC, one-fourth of the annual fixed costs associated with all property eligible for cost recovery under the DSIC will be divided by the Rate District’s projected revenue for distribution service (including all applicable clauses and riders) for the quarterly period during which the charge will be collected, exclusive of the STAS.
- D. Formula: The formula for calculation of the DSIC is as follows:

$$DSIC = \frac{(DSI \times PTRR + STFT + Dep + e) \times [1 / (1-T)]}{PQR}$$

Where:

- DSI = Original cost of eligible distribution system improvement projects net of accrued depreciation and associated accumulated deferred income taxes pertaining to property-related book/tax depreciation timing differences resulting from the use of accelerated depreciation per Internal Revenue Code, 26 U.S. Code § 168.
- PTRR = Pre-tax return rate applicable to DSIC-eligible property.
- STFT = (State Tax Flow Through) Pre-tax flow through calculated on book-tax timing differences between accelerated tax depreciation and book depreciation net of federal tax.
- Dep = Depreciation expense related to DSIC-eligible property.
- e = Amount calculated (+/-) under the annual reconciliation feature or Commission audit, as described below.
- T = If applicable, Pennsylvania Gross Receipts Tax rate in effect during the billing month, expressed in decimal form.
- PQR = Projected quarterly revenues for distribution service (including all applicable clauses and riders) are based on one fourth of the projected annual revenues from applicable customers, excluding those customers listed in 4. Customer Safeguards E. below. (C)

Minimum bills shall not be reduced by reason of the DSIC, nor shall changes hereunder be a part of the monthly rate schedule minimum. The DSIC shall not be subject to any credits or discounts. The STAS included in this Tariff is applied to charges under the DSIC.

DISTRIBUTION SYSTEM IMPROVEMENT CHARGE RIDER (continued)

3. Quarterly Updates: Supporting data for each quarterly update will be filed with the Commission and served upon the Commission's Bureau of Investigation and Enforcement, the Bureau of Audits, the Office of Consumer Advocate, and the Office of Small Business Advocate at least ten (10) days prior to the effective date of the update.
4. Customer Safeguards
 - A. Cap: The DSIC is capped at 5.0% of the amount billed to customers for distribution service (including all applicable clauses and riders) as determined on an annualized basis. (C)
 - B. Audit/Reconciliation: The DSIC is subject to audit at intervals determined by the Commission. Any cost determined by the Commission not to comply with any provision of 66 Pa C.S. §§ 1350, et seq., shall be credited to customer accounts. The DSIC is subject to annual reconciliation based on a reconciliation period consisting of the twelve months ending December 31 of each year or the Company may elect to subject the DSIC to quarterly reconciliation but only upon request and approval by the Commission. The revenue received under the DSIC for the reconciliation period will be compared to the Company's eligible costs for that period. The difference between revenue and costs will be recouped or refunded, as appropriate, in accordance with Section 1307(e), over a one-year period commencing on April 1 of each year, or in the next quarter if permitted by the Commission. If DSIC revenues exceed DSIC-eligible costs, such over collections will be refunded with interest. Interest on over collections and credits will be calculated at the residential mortgage lending rate specified by the Secretary of Banking in accordance with the Loan Interest and Protection Law (41 P.S. §§ 101, et seq.) and will be refunded in the same manner as an over collection. The Company is not permitted to accrue interest on under collections.
 - C. New Base Rates: The DSIC will be reset at zero upon application of new base rates to customer billings that provide for prospective recovery of the annual costs that had previously been recovered under the DSIC. Thereafter, only the fixed costs of new eligible plant additions that have not previously been reflected in rates or rate base will be reflected in the quarterly updates of the DSIC.
 - D. Customer Notice: Customers shall be notified of changes in the DSIC by including appropriate information on the first bill they receive following any change. An explanatory bill insert shall also be included with the first billing.
