- G-13. The AIA's Section 4 specified that the Service Company "will provide maintenance and repair services for all water supply, treatment, storage and distribution equipment in a manner consistent with DEP and PUC requirements." However, since Nantmeal is a wastewater public utility, it is unclear why Nantmeal requires maintenance and repair services for water equipment. Please clarify whether the Service Company will provide Nantmeal maintenance and repair services for all wastewater collection, conveyance, treatment and disposal equipment, rather than for all water supply, treatment, storage and distribution equipment.
- G-14. The AIA's Section 5 specified that the Service Company "will record daily readings of influent, file DEP monthly and annual reports, obtain quarterly water quality test samples from monitoring wells and renew permits." However, since Nantmeal is a wastewater public utility, it is unclear why Nantmeal requires water quality test samples from monitoring wells. Please clarify whether the Service Company will obtain wastewater test samples, rather than quarterly water quality test samples from monitoring wells.
- G-15. Please provide an executed revised AIA that includes changes or updates to the services provided under the AIA that are consistent with Nantmeal's responses to Data Requests G-13 and G-14.
