**Re: Aqua Pennsylvania, Inc. – Distribution System Improvement Charge (DSIC)
expenditures for January 1, 2026 through February 28, 2026**

Dear Secretary Homsher:

Enclosed is one copy of Aqua Pennsylvania Wastewater, Inc.'s Supplement No. 6 to its Tariff Sewer – PA. P.U.C. No. 4 and the Company's supporting DSIC work papers for the expenditures for January 1, 2026 through February 28, 2026, which establishes the Distribution System Improvement Charge at 0.21 percent effective April 1, 2026. This filing is in accordance with the terms and conditions of the Final Opinion and Order from the Company's last base rate case at docket No. R-2024-3047824.

As noted in the PUC Order, these documents are also being served to the Office of Consumer Advocate and the Office of Small Business Advocate. Aqua Pennsylvania is also serving these documents to the PUC Bureau of Audits.

Should you have any questions regarding this filing, please contact me at (610) 520-6359.

Sincerely,

A handwritten signature in blue ink that reads "Erin Feeney".

SCHEDULE OF RATES

DISTRIBUTION SYSTEM IMPROVEMENT CHARGE (DSIC)

In addition to the net charges provided for in this Tariff, a surcharge of 0.21% shall apply to all bills issued on or after the Effective Date at the bottom of this page for Rate Zones 1, 2, 3, 4, 5, and 6. (I)

I. General Description

Purpose: To recover the reasonable and prudent costs incurred to repair, improve or replace eligible property which is completed and placed in service and recorded in the individual accounts, as noted below, between base rate cases and to provide the Company with the resources to accelerate the replacement of aging infrastructure, to comply with evolving regulatory requirements and to develop and implement solutions to regional supply problems. The costs of extending facilities to serve new customers are not recoverable through the DSIC. Utility projects receiving PENNVEST funding or using PENNVEST surcharges are not DSIC-eligible property.

Eligible Property: The DSIC-eligible property will consist of the following:

- Collection sewers, collecting mains and service laterals, including sewer taps, curb stops and lateral cleanouts installed as in-kind replacements for customers. Accounts. (360 & 361)
- Collection mains and valves for gravity and pressure systems and related facilities such as manholes, grinder pumps, air and vacuum release chambers, cleanouts, main line flow meters, valve vaults, and lift stations installed as replacements or upgrades for existing facilities that have worn out, are in deteriorated condition or are required to be upgraded by law, regulation or order. Accounts (360;361;362;363;364; & 365)
- Collection main extensions installed to implement solutions to wastewater problems that present a significant health and safety concern for customers currently receiving service from the wastewater utility. Accounts (360 & 361)
- Collection Main rehabilitation including inflow and infiltration projects. (Account 361)
- Unreimbursed cost related to highway relocation projects where a wastewater utility must relocate its facilities. Account (360;361;362;363;364; & 365)
- Other related capitalized costs. Account (389.2)

Effective Date: The DSIC will become effective for bills rendered on and after October 1, 2013.

II. Computation of the DSIC

Calculation: The initial charge, effective October 1, 2013, will be calculated to recover the fixed costs of eligible plant additions that have not previously been reflected in the Company's rates or rate base and will have been placed in service between June 1, 2013 and August 31, 2013. Thereafter, the DSIC will be updated on a quarterly basis to reflect eligible plant additions placed in service during the three month periods ending one month prior to the effective date of each DSIC update. Thus, changes in the DSIC rate will occur as follows:
