A-2026-3060701

TO ALL PARTIES OF RECORD

Application of Verizon North, LLC, for approval of the alteration of the crossing where State Route 0403 (Whistler Road) crosses, at grade, track of CSX Transportation, Inc. (DOT 145 226 N) by the installation of an aerial fiber optic cable and innerduct in Quemahoning Township, Somerset County.

To Whom It May Concern:

By application received by the Commission on February 24, 2026, Verizon North, LLC (Verizon) seeks Commission approval to alter the at-grade crossing (DOT 145 226 N) by the installation of an aerial fiber optic cable and innerduct where State Route 0403 (Whistler Road) crosses track of CSX Transportation Inc. (CSX) in Quemahoning Township, Somerset County.

Verizon proposes to install a new aerial fiber optic cable in an innerduct attached to existing poles, located within the joint right of way of State Route 0403 (Whistler Road) and CSX. The installation will provide a minimum overhead clearance of 27 feet as measured from the top of rails to the proposed aerial facility and innerduct.

The Commission hereby establishes its jurisdictional limits at the subject crossing as the area within the confines of the railroad right-of-way and the highway right-of-way.

In its application, Verizon states that the proposed aerial fiber optic cable and innerduct is necessary to provide subsidized broadband to the local area. Verizon will be directed to perform the necessary installation, provide for maintenance and protection of highway and pedestrian traffic during installation and accept future maintenance responsibility for the proposed facilities, at its sole cost and expense. The cost of the project is anticipated to be \$10,000.

All work is to be performed in accordance with the plan hereby entitled: "EXHIBIT A" consisting of a single sheet submitted to the Commission with the application on February 24, 2026.

Verizon has served a copy of the application and plan on Somerset County, Quemahoning Township, CSX and the Pennsylvania Department of Transportation. All parties in interest were queried by letter dated February 26, 2026, sent via email as to any objection to the subject application and plans, and none of the parties have responded with any objections.

The Commission has exclusive jurisdiction in crossing alterations and is the final arbiter of any fees associated with a crossing application. Any conditions, including fees associated with a crossing application, must be approved by the Commission.

Upon full consideration of the matters involved, we find that a hearing is not necessary and that a Secretarial Letter may be issued approving the application.

The Commission issues this Secretarial Letter in accordance with Section 2702 of the Public Utility Code and finds that the alteration of the crossing is necessary and proper for the service, accommodation, convenience or safety of the public.

The application of Verizon North, LLC, is approved as herein directed:
