Dear Sir/Madam,

Grace & Loving Home Care LLC respectfully acknowledges the Commission's determination regarding the incidental nature of transportation services provided solely to existing home care clients.

However, we would like to clarify and amend our application to reflect our intent to operate as a Motor Common Carrier of Passengers in Paratransit Service.

The Applicant proposes to provide non-emergency transportation services to the general public, including both ambulatory and wheelchair-bound individuals, within Philadelphia, Bucks, Montgomery, Delaware, and Chester Counties. These services will be available upon request and are not limited to existing home care clients.

While transportation may be utilized by current home care participants, the service is intended to operate as a standalone offering accessible to the public at large.

Additionally, the Applicant does anticipate entering into contractual arrangements with transportation brokers such as Coordinated Transportation Solutions Inc (CTS) and Medical Transportation Management Inc (MTM); however, such arrangements will represent only a portion of operations and will not define the scope of service. The company will operate as a common carrier, offering services directly to individuals and, where applicable, seeking reimbursement from insurance programs following approval.

We respectfully request that the Commission reconsider the application under the Motor Common Carrier of Passengers in Paratransit Service classification based on this clarified operational model.
