Dear Secretary Homsher:

Attached for filing is the Application of PPL Electric Utilities Corporation Under 15 Pa.C.S. § 1511(c) For A Finding And Determination That The Service To Be Furnished By The Applicant Through Its Proposed Exercise Of The Power Of Eminent Domain To Acquire A Certain Portion Of The Lands of Humboldt Realty LP in Hazleton Township, Luzerne County, Pennsylvania For The Sugarloaf 500/230 kV Transmission Line Associated With The Proposed Sugarloaf 500/230 kV Transmission Line Project Is Necessary Or Proper For The Service, Accommodation, Convenience, Or Safety Of The Public (“Condemnation Application”).

Contemporaneously with the filing of this Condemnation Application, PPL Electric is submitting the: Application Of PPL Electric Utilities Corporation, Filed Pursuant To 52 Pa. Code Chapter 57 Subchapter G, for Approval to (1) Bifurcate and Rebuild 4.4 Miles of the Existing Sunbury-Susquehanna #1 230 kV Transmission Line; (2) Construct 0.9 Miles of New Transmission Line Tap for Future 230 kV Double-Circuit Operation; (3) Raise Approximately 0.5 Miles of the Sunbury-Susquehanna 500 kV Transmission Line; and (4) Construct 11.2 Miles of New Double

**APPLICATION OF PPL ELECTRIC UTILITIES CORPORATION**

---

**TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:**

PPL Electric Utilities Corporation (“PPL Electric” or the “Company”) herein files this Application, pursuant to 15 Pa. C.S. § 1511(c), for a finding and determination by the Pennsylvania Public Utility Commission (“Commission”) that the service to be furnished through its proposed exercise of the power of eminent domain, to the extent such exercise is required to acquire a right-of-way (“ROW”) and easement over a certain portion of the lands of Humboldt Realty, L.P. in Hazleton, Luzerne County, Pennsylvania for the proposed PPL Electric-owned Sugarloaf 230/500 kV Transmission Line which will be constructed in conjunction with the “Sugarloaf 500/230 Kilovolt (“kV”) Transmission Line Project,” or the “Project,”<sup>1</sup> is necessary or proper for the

Creek, Conyngham, Hazle, Hollenback, Nescopeck, and Sugarloaf Townships in Luzerne County, Pennsylvania" (hereinafter, the "Sugarloaf 500/230 kV Transmission Line Project Application" or the "Siting Application").

4. PPL Electric is a Pennsylvania business corporation formed in 1920. PPL Electric is subject to the Pennsylvania Business Corporation Law of 1988, P.L. 1444, No. 177, Section 103, *as amended*, 15 Pa. C.S. §§ 1101 *et seq.* (“BCL”).

5. PPL Electric is also a Pennsylvania public utility and has the power of eminent domain pursuant to the Pennsylvania BCL. PPL Electric submits this Application pursuant to Section 1511 of the BCL, 15 Pa. C.S. § 1511.

6. PPL Electric furnishes electric service to approximately 1.5 million customers throughout its certificated service territory, which includes all or portions of twenty-nine counties and encompasses approximately 10,000 square miles in eastern and central Pennsylvania.

7. PPL Electric is a “public utility” and an “electric distribution company” as defined in Sections 102 and 2803 of the Pennsylvania Public Utility Code, 66 Pa.C.S. §§ 102, 2803. PPL Electric is also a “public utility” as defined by the Federal Power Act, 16 U.S.C. § 824(e), a transmission owner, and a member of PJM Interconnection, L.L.C. (“PJM”).

8. Upon Commission approval, PPL Electric proposes to (1) rebuild approximately 4.4 miles of the existing single-circuit Sunbury-Susquehanna #1 230 kilovolt (“kV”) Transmission Line for double-circuit 230 kV operation (“Susquehanna-Nescopeck #1 and #2 230 kV Transmission Lines”) from the existing Susquehanna Switchyard to the proposed Nescopeck 230 kV Switchyard (“Nescopeck Switchyard”); (2) construct a new approximately 0.9-mile-long 230 kV transmission line tap for future 230 kV double-circuit operation (“Sunbury-Nescopeck #1 230 kV Transmission Line” or “Tap Line”) from the existing single-circuit Sunbury-Susquehanna #1 230 kV Transmission Line to the new Nescopeck Switchyard; (3) raise approximately 0.5 miles of the Sunbury-Susquehanna 500 kV Transmission Line to accommodate the undercrossing of the proposed Susquehanna-Nescopeck #1 and #2 230 kV Transmission Lines and the proposed

Sunbury-Nescopeck #1 230 kV Transmission Line; and (4) construct a new 11.2 mile-long 230 kV transmission line (“Sugarloaf 500/230 kV Transmission Line”) for future double-circuit 500 kV capacity between the proposed Nescopeck Switchyard, new Tomhicken 230 kV Switchyard (“Tomhicken Switchyard”)<sup>2</sup>, and existing Harwood 230/69 kV Substation (“Harwood Substation”). The Project is necessary to address transmission reliability issues associated with projected load growth from new customers who are requesting 230 kV electrical service.

9. A portion of the property proposed to be continued to be occupied by facilities associated with the Project, and in particular the Sugarloaf 500/230 kV Transmission Line, is located on land owned by Humboldt Realty, L.P. in Hazleton, Luzerne County, Pennsylvania. By this Application, PPL Electric is requesting a finding and determination—to the extent any such finding and determination is determined to be necessary—that the service to be furnished through its proposed exercise of the power of eminent domain to acquire a right of way and easement over a certain portion of Humboldt Realty, L.P.’s property for the construction of the public utility facilities associated with the Project is necessary or proper for the service, accommodation, convenience, or safety of the public.

10. On April 6, 2026, PPL Electric filed the Sugarloaf 500/230 kV Transmission Line Project Application. Therein, PPL Electric requests Commission approval of the Sugarloaf 500/230 kV Transmission Line Project in Luzerne County, Pennsylvania.

11. A complete copy of the Sugarloaf 500/230 kV Transmission Line Project Application, together with the supporting Attachments, is being served on Humboldt Realty, L.P. The Sugarloaf 500/230 kV Transmission Line Project Application (“Siting Application”) and supporting Attachments are incorporated herein by reference.

<sup>2</sup> The Tomhicken Switchyard has not yet been constructed. It is the subject of a Letter of Notification (“LON”) which was filed on December 19, 2025, at Docket No. A-2025-3059443. A Decision has not yet been issued in this matter.

## **II. NEED FOR THE PROJECT**

12. PPL Electric has a responsibility to provide transmission assets and maintain them in a manner that is safe, reliable, and resilient to meet the needs of the electric system and the service expectations of its customers. To meet this duty, PPL Electric applies its transmission asset management planning procedure, which includes system performance and condition assessments. These performance and condition assessments identify system needs and prioritize projects based on several variables such as equipment age, condition, maintenance schedule, and impact on system reliability and performance to ensure a reliable electric grid and reasonable service to its customers.

13. PPL Electric engages in proactive planning and action to ensure that its system operates safely and reliably. This allows PPL Electric to identify future reliability problems and correct them before they occur. The system planning process is not designed to wait until a violation actually occurs before taking measures to resolve it. Rather, the system planning process is designed to prevent violations from occurring in the first place.

14. PJM is a Federal Energy Regulatory Commission (“FERC”) approved Regional Transmission Organization (“RTO”) charged with ensuring the reliability of the electric transmission system under its functional control (100 kV and above) and coordinating the movement of electricity in all or parts of thirteen states and the District of Columbia, including most of Pennsylvania. PPL Electric, an owner of transmission facilities in Pennsylvania, is a member of PJM and actively participates in the PJM transmission planning process.

15. New load customers are covered under Attachment M-3 Procedure of PJM’s Open Access Transmission Tariff (“OATT”).<sup>3</sup> **Attachment 2 – Necessity Statement** to the Siting

---

<sup>3</sup> PJM’s OATT is available at <https://www.pjm.com/directory/merged-tariffs/oatt.pdf>

Application contains a detailed description of PJM’s Attachment M-3 Procedure. This Project has gone through the M-3 Supplemental Project Process and the do no harm tests to ensure the proposed solution will not create overloads, voltage violations, or other criteria violations. The Project is part of PJM Supplemental Number S3528, specifically segments S3528.2, S3428.3, S3528.5, S3528.7, S3528.8, and S3528.10.

16. As explained in the Siting Application and in **Attachment 2 – Necessity Statement**, the Project is necessary to address transmission reliability issues associated with projected load growth from multiple new customers who are requesting 230 kV electrical service in the Hazleton area. As detailed in the Siting Application, the Company projects a combined requested load in the Hazleton area of over 5,000 MW by 2033. This projected load growth will create overloads and voltage violations on the Susquehanna-Tomhicken #1 and #2 230 kV Transmission Lines.

17. The Project was reviewed through PJM’s M-3 Supplemental Project Process, covered under Attachment M-3 of PJM’s Open Access Transmission Tariff (“OATT”). The Project was also studied by PJM to ensure that the changes will do no harm (“DNH”) to the system by creating overload, voltage violations, or resulting in other criteria violations.<sup>4</sup>

18. The Project is required to comply with: (1) PPL Electric’s General Tariff at Rate Schedule LP-5 to provide non-discriminatory service to customers at 69 kV or above, (2) PPL Electric’s general right and obligation to serve customers in its service territory, subject to the terms and conditions of its tariffs and Certificate of Public Convenience,<sup>5</sup> and (3) PJM’s M-3 Supplemental Project Process.

---

<sup>4</sup> The Project has been assigned the PJM supplemental number 3528.

<sup>5</sup> See, e.g., 66 Pa.C.S. §§ 1103, 1501, 2802(12); 52 Pa. Code §§ 57.19; *Popowsky v. Pa. PUC*, 910 A.2d 38, 48-56 (Pa. 2006); *Pa. Gas Co. v. Pub. Serv. Comm’n*, 83 Pa. Super. 557, 565-66 (1924); *Philadelphia Transp. Co. v. Pa.*

19. PPL Electric performed a comprehensive analysis to identify feasible and cost-effective solutions to best resolve the violations created by the prospective customers. The Project, as the Proposed Solution, will allow the Company to provide safe and reliable transmission-level service to the prospective customers in the Hazleton area, maintain reliability of the Bulk Electric System (“BES”), increase the resiliency of the 230 kV system, resolve the risk of future congestion on the Susquehanna-Tomhicken #1 and #2 230 kV Transmission Lines, and is the least impactful option to landowners and to the local community among the feasible alternatives.

20. Therefore, and for the reasons more fully explained in the Siting Application, the proposed Project, including the Sugarloaf 500/230 kV Transmission Line, is necessary to address transmission reliability issues associated with projected load growth from new customers who are requesting 230 kV electrical service.

### **III. DESCRIPTION OF THE PROJECT**

21. To address the issues described above, PPL Electric has proposed to (1) rebuild approximately 4.4 miles of the Susquehanna-Nescopeck #1 and #2 230 kV Transmission Lines from the existing Susquehanna Switchyard to the proposed Nescopeck Switchyard; (2) construct the Sunbury-Nescopeck #1 230 kV Transmission Line from the existing single-circuit Sunbury-Susquehanna #1 230 kV Transmission Line to the new Nescopeck Switchyard; (3) raise approximately 0.5 miles of the Sunbury-Susquehanna 500 kV Transmission Line to accommodate the undercrossing of the proposed Susquehanna-Nescopeck #1 and #2 230 kV Transmission Lines and the proposed Sunbury-Nescopeck #1 230 kV Transmission Line; and (4) construct the new

11.2 mile-long Sugarloaf 500/230 kV Transmission Line between the proposed Nescopeck Switchyard, new Tomhicken Switchyard, and existing Harwood Substation.

22. PPL Electric will complete the contemplated new construction and rebuild of the existing facilities as follows:

23. The Project, as accepted by PJM, includes reinforcements of the 230 kV system from the Susquehanna Switchyard to the Tomhicken Switchyard and Harwood Substation, via the proposed Nescopeck Switchyard. The existing Sunbury-Susquehanna #1 230 kV line will be bifurcated into the new Nescopeck Switchyard. The section of the Sunbury-Susquehanna #1 230 kV line between the Nescopeck-Switchyard and the Susquehanna Switchyard will be rebuilt to double-circuit 230 kV operation. The other section of the Sunbury-Susquehanna #1 230 kV line between the bifurcation and the Nescopeck Switchyard will be rebuilt to single-circuit 230 kV operation. PPL Electric will raise the Sunbury-Susquehanna 500 kV Transmission Line to accommodate the proposed 230 kV transmission line undercrossings. The new Sugarloaf 500/230 kV Transmission Line will extend south from the Nescopeck Switchyard. After traveling 8.4 miles, the eastern circuit (“Nescopeck–Tomhicken #1 500/230 kV Transmission Line”) turns east for approximately 0.3 mile as a single-circuit transmission line to the new Tomhicken 230 kV Switchyard. At Structure 41, the western circuit (“Nescopeck–Harwood #1 500/230 kV Transmission Line”) continues south for approximately 2.5 miles as a single-circuit transmission line from outside the Tomhicken Switchyard to the existing Harwood Substation. The existing corridor of the vacated Harwood-Berwick 69 kV right of way will be utilized for the 500/230 kV lines. The additional paths from the Susquehanna Switchyard to the Tomhicken Switchyard and Harwood Substation will prevent the thermal overload of the Susquehanna-Tomhicken #1 & #2 230 kV lines and voltage violations at Tomhicken Switchyard and Harwood Substation.

24. The new Nescopeck-Tomhicken #1 and Nescopeck-Harwood #1 500/230 kV Transmission Lines will be constructed for future 500 kV operation but will initially operate at 230 kV. In the future, the lines will operate at 500 kV as the amount of load requests in the Hazleton area increases and thus necessitate 500 kV lines and 500-230 kV transformation in the immediate area. At that time, the Nescopeck-Harwood #1 500/230 kV Transmission Line will be converted to 500 kV and will extend to a new 500/230 kV substation under PJM baseline projects B4029.1-4. The Nescopeck-Tomhicken #1 500/230 kV Transmission Line will continue at 230 kV operation but will be designed at 500 kV to sustain structure symmetry and to provide the 230 kV circuit with a high conductor rating.

25. The new Nescopeck Switchyard will be constructed in a breaker-and-a-half arrangement. Breaker-and-a-half arrangements are the preferred design because of the balance of operational flexibility and cost that this design affords.

**A. SUGARLOAF 500/230 KV TRANSMISSION LINE**

26. The Sugarloaf 500/230 kV Transmission Line is the sole aspect of the Siting Application which necessitates the instant Condemnation Application.

27. PPL Electric will construct the new Sugarloaf 500/230 kV Transmission Line on new single-shaft steel poles. The proposed transmission line will require the installation of approximately 90 structures ranging in height from 150 to 205 feet, with an average height of approximately 165 feet. All 90 structures will be self-supported (i.e., no guy wires) and installed on concrete foundations and will have an average span length of approximately 912 feet.

28. The proposed structures will include approximately 39 tangent suspension structures, 7 angle suspension structures, and 26 tension structures that will be single pole weathering tubular steel structures equipped with steel arms and installed on concrete foundations.

There also will be approximately 18 tension structures that will be two pole weathering tubular steel structures installed on concrete foundations.

**B. SUSQUEHANNA-NESCOPECK AND SUNBURY-NESCOPECK 230 KV TRANSMISSION LINES**

29. The existing 230 kV transmission lines are composed of double bundle 1033.5 ACSR<sup>6</sup> with dual alumoweld overhead ground wire. The rebuilt 230 kV transmission lines will be constructed with new steel monopoles, high capacity conductors, and two Optical Ground Wires (“OPGW”). The existing towers range in height from approximately 95 feet to 130 feet with an average height of 105 feet. The proposed structures for the rebuilt 230 kV transmission lines will range in height from approximately 95 feet to 150 feet with an average height of approximately 125 feet.

**C. SUNBURY-SUSQUEHANNA 500 KV TRANSMISSION LINE RISER STRUCTURES**

30. PPL Electric will raise 4 or 5 existing structures along the Sunbury – Susquehanna 500 kV Transmission Line. The existing structures are steel H-frame structures with an average height of 145 feet. The proposed steel H-frame or 3-pole structures will range between 150 feet to 250 feet with an average height of 200 feet. The proposed structures will be self-supported (i.e., no guy wires) and installed on concrete foundations.

31. The Project will be located in Black Creek, Conyngham, Hazle, Hollenback, Nescopeck, and Sugarloaf Townships in Luzerne County, Pennsylvania.

32. An aerial map showing the Project location is attached to the Siting Application as **Attachment 4 – Alternatives and Siting Analysis, Aerial Exhibit**, and is also provided in this

---

<sup>6</sup> ACSR stands for aluminum conductor steel reinforced.

proceeding as PPL Electric Exhibit AKW-1, which is attached to PPL Electric Statement No. 2 (Humboldt 2).

#### **IV. HEALTH AND SAFETY**

33. The proposed Project will not create any unreasonable risk of danger to the public health or safety. The Project will be designed, constructed, operated, and maintained in a manner that meets or surpasses all applicable National Electric Safety Code (“NESC”) minimum standards and all applicable legal requirements.

34. PPL Electric’s construction, operation, maintenance and safety standards and procedures for transmission and distribution lines meet or exceed all relevant NESC standards and all standards of the Federal Occupational Safety and Health Administration (“OSHA”).

35. **Attachment 5 – Engineering Description** and **Attachment 11 – PPL Electric Magnetic Field Management Program** accompanying the Sugarloaf 500/230 kV Transmission Line Project Application also explain PPL Electric’s standards for Magnetic Field Management. The minimum conductor to ground clearance for the proposed 500/230 kV line will be 31.4 feet.

36. No airports are located within the Study Area. The nearest Federal Aviation Administration (“FAA”) facility is a privately-owned, grass-landing airstrip located approximately 3.3 miles northeast of the Study Area.

37. One registered Federal Communications Commission (“FCC”) tower was identified within the Study Area. One gas pipeline operated by Sunoco bisects the Study Area in a general northwest to southeast direction.

38. No other utilities will be affected by the proposed Project.

39. A further description of the safety considerations which will be incorporated into the design, construction and maintenance of the proposed Project are provided in **Attachment 13 – PPL Electric Design Criteria and Safety Practices** to the Siting Application.

**V. PROPERTY FOR WHICH EMINENT DOMAIN APPROVAL IS SOUGHT**

40. The to be furnished by PPL Electric through the proposed Project is necessary or proper for the service, accommodation, convenience, or safety of the public for the reasons set forth in the Siting Application and supporting Attachments and Testimony, which are incorporated herein by reference.

41. A certain portion of the route selected for the Sugarloaf 500/230 kV Transmission Line Project, *i.e.*, the portion that contemplates the proposed Sugarloaf 500/230 kV Transmission Line, crosses a tract of land located at parcel number 26U7 00A36E000, Luzerne County, Pennsylvania.

42. A deed for the property is recorded at Luzerne County, Pennsylvania as Instrument Number 202314500 and Book 3023/Page 46592, and a copy of said recorded deed is provided in this proceeding in PPL Electric Exhibit AKW-2 (Humboldt 2). A copy of the plan showing the Humboldt Realty, L.P. property is provided as PPL Electric Exhibit AKW-3 (Humboldt 2), and a copy of the existing easement conveyance to PPL Electric in order to site, construct, maintain and operate existing transmission facilities on this property is provided as PPL Electric Exhibit AKW-4 (Humboldt 2).

43. The name and mailing address of the owner of record of said tract of land is:

Humboldt Realty, L.P.  
822 South Avenue W.  
Westfield, NJ 07090

44. The property, or any part of the reasonable curtilage appurtenant thereto, that is the subject of this Condemnation Application does not include property used as a burying ground, place of public worship, or a dwelling house.

45. A map depicting the ROW that traverses the subject property is provided in this proceeding in PPL Electric Exhibit AKW-1.

46. Accordingly, PPL Electric herein files this Application for a finding and determination, to the extent that such finding and determination may be required pursuant to 15 Pa. C.S. § 1511(c), that the service to be furnished through PPL Electric's proposed exercise of the power of eminent domain for the Sugarloaf 500/230 kV Transmission Line Project is necessary or proper for the service, accommodation, convenience, or safety of the public.

**VI. THE REQUIREMENTS FOR CONDEMNATION HAVE BEEN SATISFIED**

47. No other public utility is now furnishing or has the corporate authority and certificate to furnish the same service as, or service similar to, that which PPL Electric will furnish by means of the transmission line to be constructed in the proposed right of way and easement over the land to be acquired as set forth in this Application.

48. The service to be furnished by PPL Electric through the proposed Sugarloaf 500/230 kV Transmission Line Project and related facilities is necessary or proper to provide safe and reliable electric service.

49. Appropriate resolutions have been adopted by PPL Electric's Board of Directors authorizing and directing this Condemnation Application. A copy of the applicable resolution is included as PPL Electric Exhibit AKW-6.

## **VII. CONSOLIDATION OF RELATED PROCEEDINGS**

50. As explained above, PPL Electric contemporaneously filed the Siting Application with the Commission requesting approval to site and construct the overhead HV transmission lines associated with the Project, which includes the proposed Sugarloaf 500/230 kV Transmission Line that is the subject of this Condemnation Application. In addition, PPL Electric contemporaneously filed a petition pursuant to 52 Pa. Code § 5.41 and 53 P.S. § 10619, for a finding that one structure to shelter electrical control equipment at the proposed PPL Electric-owned Nescopeck Switchyard in Nescopeck Township, Luzerne County, Pennsylvania, is reasonably necessary for the convenience or welfare of the public and, therefore, exempt from any local zoning ordinance (“Zoning Petition”).

51. Pursuant to 52 Pa. Code § 57.75(i)(1), PPL Electric requests that these related proceedings be consolidated for purposes of hearings, if necessary, and decision.

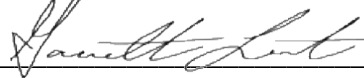

52. In accordance with the requirements of 52 Pa. Code §57.75(i)(2), PPL Electric is serving a complete copy of the Siting Application, together with the accompanying Attachments and Testimony and the instant Condemnation Application upon Humboldt Realty, L.P.

## **VIII. CONCLUSION**

WHEREFORE, PPL Electric Utilities Corporation respectfully requests that the Pennsylvania Public Utility Commission: (1) approve the Application of PPL Electric Utilities Corporation, Filed Pursuant to 52 Pa. Code Chapter 57 Subchapter G, for Approval to (i) Bifurcate and Rebuild 4.4 Miles of the Existing Sunbury-Susquehanna #1 230 kV Transmission Line; (ii) Construct 0.9 Miles of New Transmission Line Tap for Future 230 kV Double-Circuit Operation; (iii) Raise Approximately 0.5 Miles of the Sunbury-Susquehanna 500 kV Transmission Line; and (iv) Construct 11.2 Miles of New Double Circuit 230 kV Transmission Line for Future Double

Circuit 500 kV Capacity, Located in Black Creek, Conyngham, Hazle, Hollenback, Nescopeck, and Sugarloaf Townships in Luzerne County, Pennsylvania contemporaneously filed herewith; and (2) find and determine that the service to be furnished by PPL Electric through the proposed exercise of the power of eminent domain, as set forth above, is reasonably necessary or proper for the service, accommodation, convenience, or safety of the public.

Respectfully submitted,

Michael J. Shafer (I.D. # 205681)

**PPL ELECTRIC UTILITIES CORPORATION**

**STATEMENT NO. 1 (HUMBOLDT 2)**

**TESTIMONY OF JOSEPH LOOKUP**

**DATED: APRIL 6, 2026**

1 **I. INTRODUCTION**

2 **Q. Please state your full name and business address.**

3 A. My name is Joseph Lookup, and my business address is 827 Hausman Road, Allentown,  
4 Pennsylvania 18104.

5

6 **Q. By whom are you employed and in what capacity?**

7 A. I am employed by PPL Services Corporation as Vice President – Transmission and  
8 Distribution Planning and Asset Management and provide services to PPL Electric Utilities  
9 Corporation (“PPL Electric” or the “Company”).

10

11 **Q. What are your current responsibilities?**

12 A. I oversee the Transmission Planning, Asset Strategy, Portfolio Management, Project  
13 Development, Real Estate, Project Management and Construction Management Groups.  
14 This includes responsibility for Transmission system reliability, investment strategy and  
15 project execution.

16

17 **Q. Please describe your professional experience.**

18 A. Prior to working at PPL Electric, I worked as a consultant providing engineering, project  
19 management, construction management services for utility, industrial, commercial, and  
20 educational clients. At PPL Electric I have worked in Engineering, Project and  
21 Construction Management, and Asset Management in various engineering and project  
22 leadership, and management roles.

23

1 **Q. What is the purpose of your testimony?**

2 A. The purpose of my testimony is to explain why the service to be provided by the Sugarloaf  
3 500/230 kV Transmission Line Project is necessary or proper for the service,  
4 accommodation, convenience, or safety of the public.

5  
6 **II. OVERVIEW OF THE PROJECT AND THE NEED FOR IT**

7 **Q. Please summarize the proposed Sugarloaf 500/230 kV Transmission Line Project.**

8 A. The Project, as accepted by PJM, includes reinforcements of the 230 kV system from the  
9 Susquehanna 230 kV Switchyard (“Susquehanna Switchyard”) to the Tomhicken 230 kV  
10 Switchyard (“Tomhicken Switchyard”) and Harwood 230/69 kV Substation (“Harwood  
11 Substation”), via the proposed Nescopeck 230 kV Switchyard (“Nescopeck Switchyard”).  
12 The existing Sunbury-Susquehanna #1 230 kV line will be bifurcated into the new  
13 Nescopeck Switchyard. The section of the Sunbury-Susquehanna #1 230 kV line between  
14 the Nescopeck-Switchyard and the Susquehanna Switchyard will be rebuilt to double-  
15 circuit 230 kV operation (“Susquehanna-Nescopeck #1 and #2 230 kV Transmission  
16 Lines”). The other section of the Sunbury-Susquehanna #1 230 kV line between the  
17 bifurcation and the Nescopeck Switchyard will be rebuilt to single-circuit 230 kV operation  
18 (“Sunbury-Nescopeck #1 230 kV Transmission Line”). PPL Electric will raise the  
19 Sunbury-Susquehanna 500 kV Transmission Line to accommodate the proposed 230 kV  
20 transmission line undercrossings. Two new 500 kV lines (initially operating at 230 kV)  
21 will extend south from the Nescopeck Switchyard, with one line terminating at the  
22 Tomhicken Switchyard and one line terminating at the Harwood Substation (“Sugarloaf  
23 500/230 kV Transmission Lines”). The existing corridor of the vacated Harwood-Berwick  
24 69 kV right-of-way (“ROW”) will be utilized for the 500/230 kV lines. The additional

1 paths from the Susquehanna Switchyard to the Tomhicken Switchyard and Harwood  
2 Substation will prevent the thermal overload of the Susquehanna-Tomhicken #1 & #2 230  
3 kV lines and voltage violations at Tomhicken Switchyard and Harwood Substation.

4 A detailed engineering description is provided in **Attachment 5 – Engineering**  
5 **Description** to the Siting Application.

6  
7 **Q. Please describe the facilities that are the subject of the Sugarloaf 500/230 kV**  
8 **Transmission Line Project.**

9 A. The Project involves the construction of a new transmission line and the rebuild of an  
10 existing transmission line. The element of the Project necessitating the instant  
11 Condemnation Application is the Sugarloaf 500/230 kV Transmission Line. I will describe  
12 each element of the Project in turn.

13  
14 **Q. Please describe the new facilities that are contemplated to be constructed as a part of**  
15 **the Project.**

16 A. PPL Electric will construct the Sunbury-Nescopeck #1 230 kV Transmission Line from the  
17 existing single-circuit Sunbury-Susquehanna #1 230 kV Transmission Line to the new  
18 Nescopeck Switchyard. The Company will also construct an 11.2-mile-long 230 kV  
19 transmission line for future double-circuit 500 kV capacity between the proposed  
20 Nescopeck Switchyard, new Tomhicken Switchyard<sup>1</sup>, and existing Harwood Substation  
21 (“Sugarloaf 500/230 kV Transmission Line”). After traveling 8.4 miles, the Nescopeck-  
22 Tomhicken #1 500/230 kV Transmission Line turns east for approximately 0.3 miles as a

---

<sup>1</sup> The Tomhicken Switchyard has not yet been constructed. It is the subject of a Letter of Notification (“LON”) which was filed on December 19, 2025, at Docket No. A-2025-3059443. A Decision has not yet been issued in this matter.

1 single-circuit transmission line to the new Tomhicken 230 kV Switchyard. At Structure  
2 41, the Nescopeck-Harwood #1 500/230 kV Transmission Line continues south for  
3 approximately 2.5 miles as a single-circuit transmission line from outside the Tomhicken  
4 Switchyard to the existing Harwood Substation. The existing corridor of the vacated  
5 Harwood-Berwick 69 kV right-of-way (“ROW”) will be utilized for the 500/230 kV lines.

6 The new Sugarloaf 500/230 kV Transmission line will be constructed with new  
7 single-shaft steel poles, two pole weathering tubular steel structures, and will be installed  
8 on concrete foundations.

9  
10 **Q. Please describe the existing transmission line facilities that are contemplated to be**  
11 **rebuilt as a part of the Project.**

12 A. The Company will rebuild approximately 4.4 miles of the Susquehanna-Nescopeck #1 and  
13 #2 230 kV Transmission Lines from the existing Susquehanna Switchyard to the proposed  
14 Nescopeck Switchyard. The Company will also raise approximately 0.5 miles of the  
15 Sunbury-Susquehanna 500 kV Transmission Line to accommodate the undercrossing of  
16 the proposed Susquehanna-Nescopeck #1 and #2 230 kV Transmission Lines and the  
17 proposed Sunbury-Nescopeck #1 230 kV Transmission Line. The rebuilt Susquehanna-  
18 Nescopeck and Sunbury-Nescopeck 230 kV Transmission Lines will be constructed with  
19 new steel monopoles, high capacity conductors, and two Optical Ground Wires  
20 (“OPGW”).

21  
22 **Q. What aspect of the facilities contemplated by the Project are the subject of this**  
23 **Condemnation Application?**

1 A. The Sugarloaf 500/230 kV Transmission Line.

2

3 **Q. In your opinion, is the service to be furnished through the condemnation of this**  
4 **property necessary?**

5 A. Yes. The service the Company shall provide through the Project is necessary or proper for  
6 the service, accommodation, convenience, or safety of the public for the reasons set forth  
7 in my testimony and the associated Condemnation Application, and in the Sugarloaf  
8 500/230 kV Transmission Line Application and supporting Attachments and Testimony.

9

10 **III. CONCLUSION**

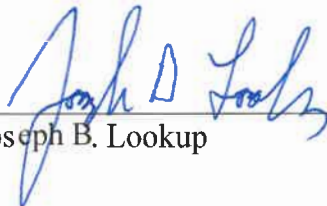

11 **Q. Does this conclude your Direct Testimony at this time?**

12 A. Yes.

## VERIFICATION

I, JOSEPH B. LOOKUP, being the Vice President – Transmission & Distribution Planning and Asset Management at PPL Services Corporation, hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief and that I expect PPL Electric Utilities Corporation to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 relating to unsworn falsification to authorities.

**STATEMENT NO. 2 (HUMBOLDT 2)**

**TESTIMONY OF AUSTIN WESELOH**

**DATED: APRIL 6, 2026**

1 **I. INTRODUCTION**

2 **Q. Please state your full name and business address.**

3 A. My name is Austin K. Weseloh. My business address is 827 Hausman Road, Allentown,  
4 Pennsylvania 18104.

5  
6 **Q. By whom are you employed and in what capacity?**

7 A. I am employed by PPL Services Corporation as Transmission Right of Way and Real Estate  
8 Supervisor. In this position, my primary responsibility is to supervise all Transmission  
9 Right of Way (“ROW”) and Real Estate assets for PPL Service Corporation in service to  
10 PPL Electric Utilities Corporation (“PPL Electric” or the “Company”).

11  
12 **Q. What is your educational background?**

13 A. I attended the University of Pittsburgh for 3 years, majoring in Economics.

14  
15 **Q. Are you a member of any professional organizations?**

16 A. Yes. I am currently a member of the International Right of Way Association (“IRWA”)  
17 where I am taking classes to attain the Senior Right of Way Agent (“SR/WA”) certification  
18 which is the highest-level industry designation. The certification requires course work  
19 consisting of both core courses and elective courses. The certification requires satisfactory  
20 completion of the certification test administered by the IRWA.

21

22

1 **Q. Please describe your background and employment history.**

2 A. I have been employed by PPL Electric in my current position as Transmission Right of  
3 Way and Real Estate Supervisor for approximately seven years. Prior to that, I was a Senior  
4 Right of Way Specialist at PPL Electric for three and a half years.

5 • From 2012 through 2013 I worked as a Right of Way Agent for Doyle Land  
6 Services negotiating the acquisition of ROW grants, access roads, property  
7 damages and real estate contracts to add a 60-mile pipe adjacent to an existing  
8 ROW in Pennsylvania.

9 • From 2011 through 2012 I worked as a Right of Way Agent for Meridian Land  
10 Group negotiating the acquisition of ROW grants, access roads and property  
11 damages for 75 miles of new pipeline ROW to connect 69 new natural gas wells in  
12 Northeast Pennsylvania.

13 • From 2010 through 2011 I worked as a Right of Way Agent for Miller Land  
14 Professionals reviewing title for potential natural gas leases and ROWs in Bradford  
15 and Susquehanna Counties, Pennsylvania.

16 From 2004 through 2010 I worked for LTS Builders and Realty Company purchasing land  
17 for new home construction. My duties included negotiating for individual lots as well as  
18 large tracts to be subdivided into developments.

19

20 **Q. What are your responsibilities in connection with the Sugarloaf 500/230 kV**  
21 **Transmission Line Project?**

22 A. My team and I are responsible to review and interpret easements and deeds to determine  
23 the rights PPL Electric has over properties that are affected by the Sugarloaf 500/230 kV

1 Transmission Line Project. We provide notice to landowners of the Company’s upcoming  
2 project and answer landowner inquiries about the impact our work has on their properties.  
3 These notices include but are not limited to: property boundary survey, wetland  
4 delineation, core borings, access review and natural and cultural resource studies or other  
5 studies required by PPL Electric or any jurisdiction governing the work of the Company.  
6

7 **Q. What is the purpose of your testimony?**

8 A. The purpose of my testimony is to describe the Humboldt Realty, L.P. property, as it relates  
9 to the Project, and describe PPL Electric’s proposed right-of-way easement over said  
10 property.  
11

12 **II. OVERVIEW OF THE PROJECT**

13 **Q. Please summarize the proposed Sugarloaf 500/230 kV Transmission Line Project.**

14 A. The Project is the subject of the Application of PPL Electric Utilities Corporation, filed  
15 Pursuant to 52 Pa. Code Chapter 57 Subchapter G (“Siting Application”). As explained in  
16 the Siting Application, the Project is required to comply with PPL Electric’s obligation to  
17 provide service to customers upon a request subject to reasonable terms and conditions and  
18 to resolve the projected violations created by multiple customers’ projected load additions  
19 in the Hazleton area. To address these reliability issues, PPL Electric proposes to (1)  
20 rebuild approximately 4.4 miles of the existing single-circuit Sunbury-Susquehanna #1 230  
21 kV Transmission Line for double-circuit 230 kV operation (“Susquehanna-Nescopeck #1  
22 and #2 230 kV Transmission Lines”) from the existing Susquehanna Switchyard to the  
23 proposed Nescopeck 230 kV Switchyard (“Nescopeck Switchyard”); (2) construct a new  
24 approximately 0.9-mile-long 230 kV transmission line tap for future 230 kV double-circuit

1 operation (“Sunbury-Nescopeck #1 230 kV Transmission Line” or “Tap Line”) from the  
2 existing single-circuit Sunbury-Susquehanna #1 230 kV Transmission Line to the new  
3 Nescopeck Switchyard; (3) raise approximately 0.5 miles of the Sunbury-Susquehanna 500  
4 kV Transmission Line to accommodate the undercrossing of the proposed Susquehanna-  
5 Nescopeck #1 and #2 230 kV Transmission Lines and the proposed Sunbury-Nescopeck  
6 #1 230 kV Transmission Line; and (4) construct a new 11.2-mile-long 230 kV transmission  
7 line (“Sugarloaf 500/230 kV Transmission Line”) for future double-circuit 500 kV capacity  
8 between the proposed Nescopeck Switchyard, new Tomhicken 230 kV Switchyard  
9 (“Tomhicken Switchyard”)<sup>1</sup>, and existing Harwood 230/69 kV Substation (“Harwood  
10 Substation”).

11 An aerial photograph map showing the location of the proposed facilities is attached  
12 hereto as PPL Electric Exhibit AKW-1.

13  
14 **III. THE PROPERTY OF Humboldt Realty, L.P.**

15 **Q. Please describe the property of Humboldt Realty, L.P.**

16 A. The property of Humboldt Realty, L.P. is located along Forest Rd in Hazleton, within Hazle  
17 Township in Luzerne County, and carries the situs ZIP 18202. This parcel consists of  
18 approximately 13.63 total acres in size and is designated for commercial use. The site  
19 contains no outbuildings and is documented under PPL Survey Exhibit No. EU0058225.  
20 PPL Electric Exhibit AKW-2 (Humboldt 2) is a copy of the deed for this property, which  
21 is recorded in Luzerne County.

22  

---

<sup>1</sup> The Tomhicken Switchyard has not yet been constructed and is the subject of a Letter of Notification (“LON”) which was filed on December 19, 2025, at Docket No. A-2025-3059443. A Decision has not yet been issued in this matter.

1 **Q. Are there any dwellings on the property?**

2 A. No.

3

4 **Q. Does the property contain any burial grounds or places of worship?**

5 A. No.

6

7 **Q. Does PPL Electric own any transmission facilities that currently traverse a portion of**  
8 **the property of Humboldt Realty, L.P.?**

9 A. No, there are no facilities currently constructed on the Humboldt Realty, L.P. property;  
10 however, PPL Electric does have an existing easement over the property.

11

12 **Q. How did PPL Electric acquire its existing easement over the property of Humboldt**  
13 **Realty, L.P.?**

14 A. PPL Electric acquired the existing easement through mutually agreeable negotiations. A  
15 copy of the existing easement conveyed to PPL Electric is attached hereto as PPL Electric  
16 Exhibit AKW-4 (Humboldt 2).

17

18 **Q. If PPL Electric possesses a valid easement over the property of Humboldt Realty,**  
19 **L.P., why is it filing the Condemnation Application that is the subject of your**  
20 **testimony?**

21 A. PPL is seeking widened easements to accommodate the new transmission line, which  
22 requires a ROW width of 200 feet. A plan showing the property with the proposed ROW  
23 is attached hereto as PPL Electric Exhibit AKW-3 (Humboldt 2).

**Q. Have you, and/or the right-of-way agents working under your supervision, been to the Humboldt Realty, L.P. property?**

A. Yes, the team under my supervision has been to the property. In addition, PPL Electric’s survey crew and other contractors hired by the Company have been on the property to review the ROW. My team and the other parties that have been to the property have investigated all items required for the submittal of the Sugarloaf 500/230kV Transmission Line Application and any required state and federal permits.

**Q. Prior to the filing of the Condemnation Application that is the subject of your testimony, did PPL Electric provide Humboldt Realty, L.P. with the notices and information required by the Commission’s regulations?**

A. Yes. The 15-day notice required by 52 Pa. Code § 57.91 was sent to Humboldt Realty, L.P. on November 18, 2024. A copy of this notice is attached hereto as PPL Electric Exhibit AKW-5 (Humboldt 2). In addition, a copy of the Company’s Code of Conduct and the information required by 52 Pa. Code § 69.3102 was sent to Humboldt Realty, L.P. on November 18, 2024. Copies of these documents are also included in PPL Electric Exhibit AKW-5 (Humboldt 2).

**Q. Has PPL Electric’s Board of Directors authorized the acquisition of a ROW and easement over the Humboldt Realty, L.P. property via the use of eminent domain, to the extent the exercise of eminent domain is required?**

1 A. Yes. An appropriate resolution was adopted by PPL Electric's Board of Directors  
2 authorizing and directing this Application. A copy of the applicable resolution, as certified  
3 by the Assistant Corporate Secretary of PPL Electric, is provided as PPL Electric Exhibit  
4 AKW-6. The resolution remains in effect.

5

6 **IV. CONCLUSION**

7 **Q. Does this conclude your Direct Testimony at this time?**

8 A. Yes.

**THIS DEED IS EXEMPT FROM REALTY TRANSFER TAX PURSUANT TO 72 P.S. § 8102-C.3(4) and 61 PA. CODE § 91.152.**

**THIS INDENTURE** is made the 17th day of November in the year Two Thousand Twenty Two (2022) between **HUMBOLDT REALTY, LP**, a Pennsylvania limited partnership (hereinafter called the Grantor), of the one part, and **HUMBOLDT REALTY, LP**, a Pennsylvania limited partnership (hereinafter called the Grantee), of the other part.

**WITNESSETH**, that the Grantor, for and in consideration of the sum of ONE DOLLAR and 00/100 (\$1.00) lawful money of the United States of America, unto it well and truly paid by the Grantee, at or before the sealing and delivery hereof, the receipt whereof is hereby acknowledged, has granted, bargained and sold, aliened, enfeoffed, released and confirmed, and by these presents does grant, bargain and sell, alien, enfeoff, release and confirm unto the Grantee, its respective successors and assigns,

**ALL THAT CERTAIN** lot or parcel of land situate in the Township of Hazle, Luzerne County, Commonwealth of Pennsylvania, bounded and described as set forth in the legal description attached to this Deed as **Exhibit "A"** and incorporated by reference.

**UNDER AND SUBJECT** to all covenants, conditions, restrictions, easements, rights of way and reservations of record, to the extent valid, subsisting and enforceable.

**TOGETHER** with all and singular the buildings, improvements, ways, streets, alleys, driveways, passages, waters, water-courses, rights, liberties, privileges, hereditaments and appurtenances, whatsoever unto the hereby granted premises belonging, or in any wise appertaining, and the reversions and remainders, rents, issues, and profits thereof; and all the estate, right, title, interest, property, claim and demand whatsoever of the Grantor, in law, equity, or otherwise howsoever, of, in and to the same and every part thereof.

**TO HAVE AND TO HOLD** the said lot or piece of ground above described with the buildings and improvements thereon erected, hereditaments and premises hereby granted, or mentioned and intended so to be, with the appurtenances, unto the Grantee, its respective successors and assigns, to and for the only proper use and behoof of the Grantee, its respective successors and assigns forever.

**UNDER AND SUBJECT**, as aforesaid.

### AGREEMENT

THIS AGREEMENT is made this 12<sup>th</sup> day of December, 2016, (the "Effective Date") between PPL ELECTRIC UTILITIES CORPORATION, a corporation organized and existing under the laws of the Commonwealth of Pennsylvania, having an address of 2 N. 9<sup>th</sup> Street, Allentown, Pennsylvania 18101, hereinafter called "PPL," and HUMBOLDT REALTY, L.P., a New Jersey limited partnership, having an address of 822 South Avenue West, Westfield, NJ 07090, hereinafter called "Requester"

### WITNESSETH

WHEREAS, Requester is the owner of a certain properties located in Hazel Township, Luzerne County, Pennsylvania, identified as Tax Parcel Number 26-U7 00A-36E and 26-U7-00A-36A, said properties being more fully described in a deed dated March 11, 2008 and recorded in the Recorder of Deeds Office in and for Luzerne County at Record Book 3008, Page 57024 and in a deed dated October 30, 2009 in the Recorder of Deeds Office in a deed dated October 30<sup>th</sup> 2009 at Record Book 3009, Page 221091 (the "Property"); and

WHEREAS, PPL has an existing electric transmission line right of way (the "PPL ROW") across and over Requester's property pursuant to an Easement Agreement recorded in the Recorder of Deeds Office in and for Luzerne County at Book 3005, Page 85959 and Book 3003, Page 179157; and

WHEREAS, Requester is desirous of obtaining from PPL an agreement to construct a 30 foot wide access road and fencing located in a portion of the PPL ROW, which proposed use is more fully identified on the plans Final Plan Expansion For Romark Logistics, prepared by Quad3 Architecture Engineering Environmental Services, SitePlan C-203, Utility Crossing Profiles C-205, Grading and PCSM Plan C-303 and Construction Details C-502 dated 3/17/2016 and last revised 6/2/1016 which plans are attached hereto and made a part hereof (the "Plans").

NOW, THEREFORE, the parties, intending to be legally bound hereby, and PPL insofar as it has the right to do so, hereby grants Requester the right and privilege of using a portion of the PPL ROW for the uses and improvements (the "Facilities") identified on the Plans, under and subject to the following reservations, restrictions and conditions:

1. Additional Double Leaf Chain Link Gates to be installed within PPL ROW to provide PPL un-restricted access to the ROW. A PPL 50 key lock is to be installed with the customer lock for unrestricted access to the transmission structures on this line for maintenance activities.
2. Humboldt operators will ensure that any dump trucks traveling under or parallel to PPL facilities will operate with the dump box down and in secured position.
3. Humboldt operators will not use any high-reach equipment such as cranes or excavating equipment within the ROW.
4. Requester shall limit the installation of the Facilities to those identified on the Plans approved by PPL.
5. Any additional items beyond the Facilities approved on the Plans, including but not limited to changes in grade or the construction of additional buildings, structures or other improvements, shall be prohibited unless further written approval is obtained from PPL.
6. The installation of the Facilities shall be in compliance with any and all municipal, state and/or federal laws, statutes, rules, ordinances or regulations.
7. Storage of flammable fuels or materials; parking of vehicles which contain highly flammable or explosive cargoes; and fueling of vehicles are prohibited.
8. PPL reserves unrestricted rights of ingress and egress for line maintenance, repair, reconstruction or other work, and access to PPL's facilities shall at no time be impeded by Requester.
9. Requester agrees to remove, at its sole cost and expense, any and all Facilities if any of the Facilities violate any future laws, statutes, codes or regulations governing the operation of electric transmission or distribution facilities.
10. PPL shall be relieved of all responsibility for any and all environmental matters or claims resulting from the Facilities or the repair and construction of the Facilities on the PPL ROW, and any such matters shall be resolved without expense to PPL and with the approval of, and to the satisfaction of, all appropriate local, state and federal governmental agencies.
11. Requester hereby releases, quitclaims, discharges, indemnifies, defends and holds harmless PPL, its officers, directors, employees and agents, from and against any and all loss, liability, damages, demands, claims, suits, fines, penalties or causes of action whatsoever, caused by, resulting from, or in any way related to the Facilities or the presence of Requester or its agents or employees within the PPL ROW, including but not limited to

indemnification against third- party claims or claims by employees or agents of Requester.

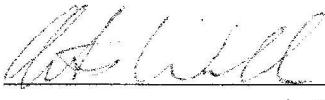

12. Requester releases PPL from any and all damages to the Facilities or losses sustained by Requester caused by PPL's use of equipment, including but not limited to trucks or other heavy equipment (up to 50 tons double-axle weight, which may be operated over and across the Property).
13. If Requester or its employees or agents damage any PPL facilities, including underground facilities, the damage shall be reported immediately to PPL and Requester shall be responsible to reimburse PPL for all costs and expenses incurred by PPL in repairing the damaged facilities.
14. Requester agrees to restore the subject right of way to its original condition and to be responsible for any ground settling which may result from the installation of the facilities, for a period of one (1) year from completion of facilities, and any maintenance which may be required thereafter.
15. This Agreement shall commence on the Effective Date and continue thereafter. However, should Requester violate any of the reservations, terms, or conditions set forth in this Agreement and fails to cure such breach within the time period set by PPL in written notice to Requester from PPL, PPL may terminate this Agreement and PPL may cure said breach at Requestor's cost and expense.
16. This Agreement shall extend to and be binding upon the respective successors and assigns of each of the parties hereto.
17. This Agreement shall not be amended, altered, or modified except by an instrument in writing duly executed by both parties.
18. If any part or provision of this Agreement shall be determined to be invalid by a Court of competent jurisdiction, said part shall be ineffective to the extent of such invalidity only, without in any way affecting the remaining parts of said provision or the remaining provisions of this Agreement.
19. This Agreement has been duly authorized by all required corporate or other necessary action of both parties and, upon execution hereof, shall constitute a valid and binding obligation of both parties, enforceable in accordance with its terms.
20. This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof, and it supersedes any and all prior oral or written agreements, commitments or understandings with respect to the matters provided for herein.
21. If counterpoise, usually 12 inches to 18 inches below grade, or any other PPL facility is damaged or severed, the damage shall be reported immediately to PPL. The damaged facility will be re-established by PPL at the responsible party's expense.

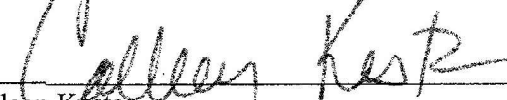

- 22. Any cranes or other equipment which may be used in close proximity to PPL's lines and facilities for installation or repair of the Facilities must be operated in a manner that will avoid contact with the electric lines and be in accordance with any and all applicable municipal, state or federal rules, statutes, ordinances or regulations, including but not limited to the Federal Occupational Safety and Health Act and safety standards and regulations promulgated by the Department of Labor and Industry.
- 23. Contractors must exercise extreme caution to avoid shock hazards.
- 24. PPL reserves the right to restrict parking or use of roadways during maintenance or other associated work.
- 25. Fences and any attachment to it shall not exceed the height approved on the Plans. If a fence is made of a conductive material, it shall be effectively grounded. Requester assumes responsibility and liability for determining, installing, and maintaining an effective grounding system, as necessary, and ensuring adequate safety protection against shock hazard for the life of the fence. Any materials outside PPL ROW is highly suggested to be grounded especially metallic fencing paralleling the Transmission circuits.
- 26. Permission herein granted shall continue in force until terminated at any time by PPL giving Requester, their successors and assigns, not less than sixty (60) days notice of its intention to terminate the same. It is to be understood that because of the nature of PPL's business, it may be required at any time for PPL to invoke the herein stated cancellation clause in order to ensure the integrity and use of its property or right of way.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed the day and year first written above.

AND Susquehanna Pipe Line Company, hereinafter called )  
"Pipe Line Company", party of the second part, both of said )  
parties being corporations organized and existing under the )  
laws of the State of Pennsylvania.

W I T N E S S E T H.

WHEREAS, party of the second part, is constructing a pipe line near the village of Harwood Mines, in Hazle township, Luzerne county, Pennsylvania, and desires the right, liberty and privilege to install, use, and maintain a 6 inch pipe line for the transportation of gasoline, oil and petroleum products (not including artificial or natural gas) upon, over, under and along the lands of electric company at Harwood Mines, in Hazle township, Luzerne county, Pennsylvania; and

WHEREAS, Electric Company is willing to grant such right, liberty and privilege so far as it may lawfully do so, upon the terms and conditions hereinafter set forth;

NOW, THEREFORE, THIS AGREEMENT WITNESSETH, that, subject to the requirements of any law now in force or hereafter enacted and of any rules or regulations of any Commission or other tribunal having jurisdiction in the premises by reason thereof, the Electric Company hereby grants unto the Pipe Line Company, its successors and assigns, for the purpose aforesaid, in so far as it has the legal right to do so, during the term hereinafter provided, the right, liberty and privilege of erecting, constructing, operating, inspecting, maintaining, repairing and renewing a 6 inch pipe line with appurtenant fixtures and apparatus upon, over, under and along the lands of the Electric Company, situate in Hazle Township, Luzerne county, Pennsylvania, the location of the said pipe line being described by a line running through the center thereof, as follows;

Beginning at a point in the northerly line of land now or formerly of Harwood Coal Co., said point being W. 83° 28' E. 92.83 <sup>129</sup> ft. and N. 18° 10' E. 126.3 ft. and W. 25° 47' W.

204 ft. more or less from a stake in stone pile corner; thence through lands of the grantor herein N. 25° 47' W. 347 ft. and W. 8° 05' W. 988.4 ft. to a point in the southerly line of other lands now or formerly of Harwood Coal Company,

and as shown in red on the blueprint plan numbered LB-1539G, attached hereto and made a part hereof; together with the right, liberty and privilege of ingress, egress and regress to and from said pipe line for any and all the purposes aforesaid.

UNDER AND SUBJECT, NEVERTHELESS, to the following reservations, terms and conditions:

FIRST: That upon a breach by the Pipe Line Company of any of the covenants and conditions herein, the Electric Company may serve written notice thereof upon the Pipe Line Company, and if the said breach shall be persisted in by the Pipe Line Company for a period of thirty (30) days after the date of said notice, then this agreement shall cease and be determined, and all the estate, right, title and interest of the Pipe Line Company in and to the demised premises shall cease and be at an end, and the Electric Company, or any person or persons by it so directed, may, without notice to the Pipe Line Company, re-enter upon and take possession of the said demised premises as of its first and former estate and put out and remove the Pipe Line Company from the same; or any attorney of any court having competent jurisdiction in said county may appear for the said Pipe Line Company in an amicable action of ejectment, to be entered in said Court against the said Pipe Line Company for the said premises, and without service of notice, confess judgment in ejectment therein against the said Pipe Line Company, for which this shall be a sufficient warrant, and thereupon a writ of habere facias possessionem, with clause of fieri facias for costs, may forthwith issue upon said judgment without any stay of execution and the said Pipe Line Company does hereby remise, release and forever quit claim unto the said Electric Company all and all manner of error or errors, misprisions, misentries, defaults and imperfections whatsoever in the entering of said action and judgment or in any process or proceeding thereon or thereto, or anyway touching or concerning the same.

AND IT IS ALSO AGREED, that the said Electric Company may use and employ under this agreement the remedies prescribed by law, or the remedies hereinafter set forth, or both, at the option and pleasure of the Electric Company, and that no determination of this agreement, nor the taking nor recovering possession of the premises shall deprive the Electric Company of any remedy or action against the said Pipe Line Company for rent or for damages for the breach of any covenant herein contained, nor shall the bringing of any such action for rent or for the breach of any covenant or condition, nor the resort to any other remedy herein provided for the recovery of rent or damages for such breach, be construed as a waiver of the right to insist upon the forfeiture and to obtain possession in the manner hereinabove provided.

AND IT IS FURTHER AGREED, that acceptance by said Electric Company of any rent at any time after the same has become due, or default has been made in the payment thereof, or any failure of the Electric Company to enforce any of its rights under this agreement, or any of the penalties, forfeitures or conditions herein contained shall not in anyway be considered a waiver of its right to enforce the same, and that it may enforce such forfeiture without any notice whatsoever; and that any attempt to collect the rent by one proceeding shall not be considered as a waiver of the right of said Electric Company to collect the same by any other proceeding. Any waiver at any time of the rights of the Electric Company as to anything herein contained shall not be deemed a waiver of any breach of covenant or other matter subsequently occurring.

SECOND: That the Pipe Line Company shall not assign or transfer this agreement without the Electric Company's consent in writing first had and obtained.

THIRD: That this agreement covers surface only, and is taken and held by the Pipe Line Company in strict subordination to the reservation by the said Electric Company of the right by itself, its successors, lessees, tenants and assigns, to mine and remove all or any portion of the coal and other minerals underlying the whole or any part of the above described land, or underlying any adjacent or adjoining land or lands, and to pass into and through said land or lands or any other lands, in all directions, and to excavate and use the said land or lands below the surface for all purposes necessary or convenient in mining the said coal and other minerals under the said land or lands or any other lands, at its discretion, as fully and freely as if this agreement had not been made, without incurring in any event any liability whatsoever for any damage, loss or injury which can or may occur to the surface of the said land or lands, or to any person or persons, or to any improvement or improvements now or hereafter placed thereon, by reason of the said mining operations.

FOURTH: That the Electric Company, its successors, tenants, lessees and assigns, shall have the unqualified right at all times to cross the above described pipe line rights of way with pipe lines, roads, tracks, pole lines, wires, or in any other way it may desire, but in such manner as to not unreasonably interfere with the uses of the Pipe Line Company.

FIFTH: That whenever, for the purpose of mining the coal underneath the pipe line rights of way above described or in using the surface, or in conducting the operations of the Electric Company, it shall be found necessary, in the opinion of the Electric Company, to change the location of the said pipe line, in whole or in part, temporarily or permanently, then the Electric Company shall so notify the Pipe Line Company in writing and at the same time shall designate a new location for the said line as near to its present location as the operations of the Electric Company will permit. If the Pipe Line Company shall neglect or refuse to remove its pipe line to the designated location, within sixty (60) days from the date of the aforesaid notice, then this agreement shall cease and be determined, with the same force and effect as set forth in Paragraph "First" hereof.

SIXTH: That all the coal and other minerals, in, under and upon the surface hereinabove described and occupied and used by said Pipe Line Company for its pipe line, with the right and privilege of mining and removing the same and making and driving tunnels, passages and ways under the surface of the said land so to be occupied by the said Pipe Line Company, for the purpose of mining any coal owned, leased or otherwise held by the said Electric Company upon said land or any adjoining lands, are excepted and reserved by the said Electric Company, as fully as if this agreement had not been made. And the said Pipe Line Company accepts and executes this agreement with the full knowledge that the coal and other minerals under the surface hereinabove described have been or may be entirely mined out and removed and that from such mining out and removal, whether carelessly, in skillfully or negligently done, or from other causes, the surface, with the pipe line of the said Pipe Line Company therein or thereon may be injured or entirely destroyed and with the full understanding that the said Electric Company does not agree, undertake or in anywise covenant to support said surface vertically, laterally or otherwise, or to protect from injury the said pipe line.

SEVENTH: The Pipe Line Company shall pay to the Electric Company at its office at Allentown, Pa., or such other office as may be designated from time to time, an annual rental of ten (\$10.00) dollars, payment to be made annually in advance on the first day of September in each and every year during the continuance of this agreement.

EIGHTH: The Pipe Line Company accepts this agreement with knowledge that high tension electric transmission lines and facilities have been erected upon the property of the electric Company and other and additional lines and facilities may hereafter be erected thereon and Pipe Line Company agrees to indemnify and save harmless the Electric Company, its successors, affiliated companies, lessees, tenants, contractors and assigns, of, from and against all damage, loss or injury, claims or demands of every nature whatsoever, suffered by the Electric Company, its successors, affiliated companies, lessees, tenants, contractors and assigns, or for which they, or any of them shall or may be responsible, by reason of the location, construction, maintenance and operation of said pipe line, and the Pipe Line Company hereby releases the Electric Company, its successors, affiliated companies, lessees, tenants, contractors and assigns, of and from all liability whatsoever for any damage that may be done to said pipe line or delays or interference with the operations of the Pipe Line Company by reason of the mining or surface operations of the Electric Company, its successors, affiliated companies, lessees, tenants, contractors and assigns, or from any other cause whatsoever.

NINTH: Nothing herein contained shall prevent the Electric Company from selling, leasing or otherwise disposing of any or all of its said lands now owned or hereafter acquired free and discharged from the easement herein granted and this agreement and the right, liberty and privilege herein granted shall be subject and subordinate to the lien of any and all existing mortgages upon said lands now owned or hereafter acquired and of any renewals and extensions thereof and of any and all bonds secured thereby as also any and all mortgages hereafter created by the Electric Company or by any company or companies with which it may be merged and consolidated and secured on said lands or any part thereof.

TENTH: Unless sooner terminated as provided in Paragraphs "First" and "Fifth" hereof this agreement shall continue in effect as long as the Pipe Line Company shall require the said rights of way for pipe line, and when no longer so required by it, the Pipe Line Company shall remove the said Pipe line from the property of the Electric Company and surrender possession of the said premises to the Electric Company in good order and condition. If the Pipe Line Company neglects or refuses to remove the said pipe line within sixty (60) days after the termination of this agreement, then the said pipe line shall be and remain the property of the Electric Company without making any compensation to the Pipe Line Company therefor.

ELEVENTH: The privileges hereby granted are subject to any and all rights heretofore granted or acquired by other parties in the premises, particularly the Harwood Coal Company and Wyoming Valley Water Supply Company.

TWELFTH: This agreement shall extend to and be binding upon the successors and assigns of the parties hereto, respectively.

PENNSYLVANIA POWER & LIGHT COMPANY, doth hereby constitute and appoint C. M. Walter to be its attorney for it and in its name and as and for its corporate act and deed to acknowledge this agreement before any person having authority by the laws of the Commonwealth of Pennsylvania, to take such acknowledgment to the intent that the same may be duly recorded.

Dear Humboldt Realty LP,

PPL Electric Utilities Corporation (PPL Electric) is planning to build the Nescopeck – Harwood/Tomhicken Double Circuit 500 kV transmission line in your area. I am notifying you of this proposed project as required by the Pennsylvania Public Utility Commission since we would like to place the transmission line on your property.

Enclosed are notices required by the Pennsylvania Public Utility Commission that provide important information regarding eminent domain, right-of-way maintenance practices, and land agent conduct. Also enclosed is PPL's Internal Practices for Dealing with the Public on Power Line Projects. The Pennsylvania Public Utility Commission's regulations require that PPL provide you with this information at least 15 days in advance of our discussions. For your convenience, I have also enclosed information on electromagnetic fields and a brochure on vegetation management, as well as a glossary of real estate terms.

If you have any questions or concerns, please feel free to contact me at 231-709-3198 or email me: [Matt.sly@contractlandstaff.com](mailto:Matt.sly@contractlandstaff.com).

I kindly request that you sign, in the space provided, on the following page to indicate that you have received this information.

Sincerely,

**RE: Survey Permission**

In order for PPL Electric Utilities Corporation [PPL] to design its transmission line, various surveys may need to be performed first. This survey work can include but are not limited to, property boundary location surveys, topographic survey, utility easement locating, environmental and archaeological surveys, core borings, soil resistivity testing, infiltration testing, etc. All PPL employees and contractors will be able to provide their company identification upon request.

Please sign in the space provided below to indicate the granting of your permission for PPL or its agents or contractors to perform surveys on your property.

Sincerely,

Matthew Sly

**DISCLOSURE of  
EMINENT DOMAIN POWER**

The Pennsylvania Public Utility Commission requires PPL Electric Utilities Corporation to give you the following information:

PPL Electric Utilities Corporation (PPL) is planning to build the Nescopeck – Harwood/Tomhicken Double Circuit 500 kV transmission line in your area. Since a field survey and detailed engineering have not been completed, the physical dimensions of the proposed lines and the type and height of supporting structures to be used cannot be precisely determined at this time. However, based on past experience it is expected that the poles will range in height from approximately 100' to 240' with an average height of around 200'. Actual pole heights will be determined during engineering. PPL currently plans to acquire a right of way corridor 200 feet in width to accommodate the 500 kV transmission line.

Since the route could affect your property, a representative of the utility will contact you in the near future to discuss the utility's plans as they may affect your property. In order to better prepare you for these discussions and to avoid possible misunderstandings, we want to take this opportunity to inform you of your legal rights and the legal rights of PPL Electric Utilities Corporation with regard to this project. You have the right to have legal counsel represent you in these negotiations. You do not have to sign any agreement without the advice of counsel. If you do not know an attorney, you may contact your local bar association.

***MUST YOU ACCEPT AN OFFER MADE BY THE UTILITY FOR YOUR PROPERTY?***

No. You may refuse to accept it. However, the utility has the power to take property by eminent domain, subject to the approval of the Public Utility Commission, for the construction of transmission lines if the utility is unable to negotiate an agreement to buy a right of way. If your property is condemned, you must be paid "just compensation". "Just compensation" has been defined by the courts in Pennsylvania as the difference between the fair market value of your property before condemnation, unaffected by the condemnation, and the fair market value of your remaining property after condemnation, as affected by the condemnation.

***CAN THE UTILITY CONDEMN YOUR HOUSE?***

The company cannot condemn your house or a reasonable "curtilage" around your house. Generally, "curtilage" includes the land or buildings within 100 meters of your house which are used for your domestic purposes. However, the 100 meters limit does not automatically extend beyond the homeowner's property line.

***DO YOU HAVE A RIGHT TO A PUBLIC HEARING WHEN THE UTILITY SEEKS TO CONDEMN YOUR PROPERTY?***

Yes. When an electric utility seeks to have your property condemned, the utility must first apply to the Pennsylvania Public Utility Commission for a certificate finding the condemnation to be necessary or proper for the service, accommodation, convenience, or safety of the public. The Commission will then hold a public hearing. As the landowner whose property may be condemned, you are a party to the proceeding and may retain counsel, present evidence, and/or testify yourself in opposition to the application for a certificate. If you wish to testify at the public hearing, you should make your intention known by letter to Secretary, Pennsylvania Public Utility Commission, P.O. Box 3265, Harrisburg, PA 17120.

If the Commission approves the utility's application for a certificate finding the condemnation in the public interest, then the utility may proceed before the local Court of Common Pleas to condemn your land. If the Commission denies the utility's application, the utility cannot condemn your land. If you retain an attorney to represent you before the Commission, you must do so at your own expense.

The Commission will not decide how much money you should receive if your land is condemned. The only issue the Commission will decide is whether the condemnation serves the public interest. If the Commission approves the utility's application for condemnation, the amount of money to which you are entitled will be determined by a local Board of View of the Court of Common Pleas. However, you may at any time make an agreement with the utility as to the amount of damages you are to be paid.

**NOTIFICATION of  
RIGHT-OF-WAY MAINTENANCE  
PRACTICES**

The Pennsylvania Public Utility Commission requires that PPL Electric Utilities Corporation give you the following information on the right of way maintenance practices for the 500 kV line:

The methods currently used by PPL Electric Utilities Corporation are set forth in PPL Electric Utilities Corporation "Program for Vegetation Management", which will be made available to you for your inspection upon request. If you wish further information concerning right of way maintenance methods, you may contact the person named on the cover letter. You may discuss with this person, either before or during negotiation of the right of way agreement, these methods and any other questions you may have about right of way maintenance.

Once a utility has constructed an electric transmission line on a right of way across your land, the utility must maintain the right of way free of tall growing trees and brush which might impair the reliability of electric service, the safety of the line, and access to the line or its towers. The utility or its contractors may remove and control tall growing trees and brush by several methods: hand cutting of trees, limbs and brush; mechanical cutting with chain saws or motorized cutting machines or application of herbicides. The utility must confine its maintenance activities to the approved right of way across your land, except where tall growing trees or brush or their root systems grow into the right of way from adjoining land and constitute a threat to the electric transmission line and its structures.

If you believe that the maintenance method(s) used by the company would raise problems with your use of your land adjacent to the right of way, it is your responsibility as the landowner to bring this to the attention of the utility before you sign the right of way agreement.

The utility company has the responsibility to maintain its right of way, and regular maintenance must occur. Although you as the landowner cannot determine whether or not maintenance will occur, your right of way agreement may specify certain conditions on the performance of the maintenance program which are important to you. These conditions can be part of the negotiations between you and the utility company for your land, since a right of way agreement is a legal contract between a landowner and a utility company. It is important for you to understand also that the maintenance methods used by the utility company may change over time as the costs of maintenance or the methods of performing maintenance change. You may want to specify in your right of way agreement that the utility company inform you of changes in its maintenance methods or in the maintenance schedule for your land.

The provisions of the right of way agreement are enforceable in the local Court of Common Pleas. The right of way agreement cannot be enforced by the Pennsylvania Public Utility Commission. Any claims for damages resulting from improper maintenance of the right of way must be settled with the utility, its contractors, or in the local Court of Common Pleas at your own expense. The Commission cannot award damages for violations of the right of way agreement.

**INTERNAL PRACTICES  
for  
DEALING WITH THE PUBLIC ON POWER LINE PROJECT**

PPL Corporation has a long-standing commitment to conducting business in an honest and ethical manner. Consistent with expectations for our employees and representatives laid out in the PPL Standards of Conduct and Integrity, and the Standards of Conduct and Integrity for Suppliers, PPL Electric Utilities Corporation's employees, contractors and agents who interact with members of the public (including landowners along proposed rights of way) in activities such as planning, real estate and right-of-way transactions, siting, and construction of power lines and other facilities will:

- Act with integrity at all times.
- Treat people courteously and in a professional manner.
- Be forthright and honest in all actions and communications.
- Comply with applicable laws and regulations.
- Seek to avoid conflicts of interest.
- Accept responsibility for actions and decisions.
- Be responsible stewards of the environment.
- Place a high priority on the safety of the public and our representatives and employees.

**NOTIFICATION REGARDING  
LAND AGENT PRACTICES**

PPL Electric Utilities Corporation is planning to build the Nescopeck – Harwood/Tomhicken Double Circuit 500 kV transmission line. Since the route could affect your property, a representative from PPL Electric Utilities Corporation will contact you in the near future to discuss the utility's plans as they may affect your property.

The Pennsylvania Public Utility Commission requires PPL Electric Utilities Corporation to provide you the following contact information for concerns regarding the practices of the land agents acting on behalf of PPL Electric Utilities Corporation in connection with the construction of the 500 kV transmission line:

## GLOSSARY of REAL ESTATE TERMS

**ABSTRACT OF TITLE:** The condensed history of ownership to a particular parcel of real estate, consisting of a summary of ownership from a given time to the present owner.

**ACRE:** A measure of land equal to 43,560 square feet.

**APPRAISAL:** An estimate of the value of property; the process through which conclusions of property value are reached.

**APPRECIATION:** An increase in the worth or value of a property.

**CHAIN OF TITLE:** A history of ownership of a particular property (see abstract of title).

**CONDEMNATION:** A judicial or administrative proceeding to exercise the power of eminent domain through which private property is taken for public use.

**CONDUCTOR:** The wire which carries electric energy.

**CONVEYANCE:** A transfer of property ownership.

**DEED:** A written document that, when executed and delivered, conveys title to or an interest in real estate.

**DEED RESTRICTIONS:** Clauses in a deed limiting the use of the property.

**DEPRECIATION:** A loss of value in property.

**EASEMENT:** A right to use the land of another for a specific purpose (e.g., as a right of way for utilities.)

**EGRESS:** The right to exit a tract of land.

**EMINENT DOMAIN:** The right of a government, municipal body or public utility to acquire property for public use. (See condemnation)

**ENCROACHMENT:** An intrusion, such as a house, sign, wall or fence, that intrudes on another's property or right of way.

**FAIR MARKET VALUE:** The highest price which a willing buyer would pay and the lowest price a willing seller would accept.

**FEE OR FEE SIMPLE:** The complete and absolute ownership of real estate.

**GRANT:** The transfer of property rights through a legal document.

**GRANTEE:** One who acquires property or any property rights from another person.

**GRANTOR:** One who transfers property or any property rights to another person.

**INGRESS:** The right to enter a tract of land.

**KV:** Kilovolt or 1000 volts (138 kV = 138 x 1000)

**LIEN:** A claim against real or personal property for satisfaction of a debt.

**METES-AND-BOUNDS DESCRIPTION:** The legal description of a parcel of land that begins at a well-marked point and follows the boundaries, using directions and distances.

**MONUMENT:** A fixed natural or artificial object used to establish real estate boundaries.

**OPTION:** The right to purchase a certain property at stated terms, price and time.

**RECORDING:** The act of entering documents in the Recorder of Deeds office established in each county.

**RIGHT OF WAY:** Used interchangeably with the word easement. (See easement)

**SURVEY:** A process of scientifically measuring the quantity and location of a parcel of land.

**TAX MAP:** Maps used by the county Tax Assessment office showing the locations of properties.

**TITLE:** Evidence of ownership of land.

**ZONING:** Regulations pertaining to the use of land and/or buildings.

## EMF and Health Information

## FACT SHEET

### What is EMF?

"EMF" is an abbreviation for "electric and magnetic fields" and "electromagnetic fields." Power lines, appliances, and home wiring all produce electric and magnetic fields. "EMF" is also often used by people as shorthand for just "magnetic fields," which some people are concerned about, so that is what "EMF" refers to here.

### Is EMF "radiation" like medical X-rays or ultraviolet sunlight?

No. Radiation from medical X-rays and from the ultraviolet part of sunlight is strong enough to damage DNA. EMF from power lines, appliances, and home wiring is not.

### What are the EMF levels from common sources? (in milligauss)

Examples of EMF Sources*	
Coffee makers	7
Electricity distribution line – upper level of typical average	20
Dishwashers	20
500 kV electricity transmission line -- typical average at end of right of way	30
Electricity distribution line -- typical maximum above underground line	40
Florescent lights	40
Electricity distribution line -- typical maximum under overhead line	70
Blenders	70
500 kV electricity transmission line -- typical average under line	87
Toasters	100
Hair dryers	300
Can openers	600

\* People typically change activities and locations during a day, so we are exposed to a variety of sources of EMF and a wide range of field levels. In the table above, field levels are taken from the U.S. National Institute of Environmental Health Sciences (NIEHS) EMF Questions & Answers, pages 33-35 (median level at 6 inches from appliances), page 36 (distribution lines), and page 37 (transmission lines). As noted by NIEHS, field levels of transmission lines can approximately double during peak loads, which occur about 1% of the time.

### What conclusions have public health authorities reached about whether EMF causes health effects?

The EMF health research has been examined by governmental public health authorities and public health organizations in over 160 reports. The World Health Organization has examined the reports on the research and says on its website:

"Based on a recent in-depth review of the scientific literature, the World Health Organization concluded that current evidence does not confirm the existence of any health consequences from exposure to low level electromagnetic fields."

(<http://www.who.int/peh-emf/about/WhatisEMF/en/index1.html>, section 2, "Conclusions from scientific research.")

### Q. Are there any exposure limits for EMF in Pennsylvania?

A. Pennsylvania has not adopted any electric or magnetic field exposure limits.

### Q. What is PPL Electric Utilities doing about EMF?

- A. PPL Electric Utilities has a magnetic field management program to design and build new lines when practicable in ways that reduce magnetic fields at low or no cost to our customers. For example, the options we will consider for new lines include:
- Reversing the phases of new overhead double-circuit transmission lines, which can result in some cancellation of magnetic fields from the line and lowers the magnetic fields at the edge of the right of way.
  - Building new transmission and distribution lines higher than previous designs because the level of magnetic fields at ground level will be lower.

Magnetic field management is considered in the process we use to site new facilities, balancing cost and function with land use and environmental concerns.

### Q. Where can I get additional information on EMF?

A. This guide contains detailed information on EMF. More information is also available at the PPL Electric Utilities website at [www.PPLElectric.com/EMF](http://www.PPLElectric.com/EMF). If you would like to speak with someone at PPL Electric Utilities about EMF, please call 1-800-DIAL-PPL (1-800-342-5775).

# Vegetation management is critical to electric reliability

Millions of people served by PPL Electric Utilities depend on having reliable power for their homes and businesses. Effective vegetation management along high-voltage transmission lines is a critical part of maintaining that reliability.

PPL Electric Utilities operates thousands of miles of high-voltage transmission lines. Our vegetation management program is designed to promote the safe and reliable operation of the electric grid while making sure that we are sensitive to the concerns of property owners and our obligations to electric customers.

## An award-winning program

PPL Electric Utilities is a proud recipient of the Tree Line USA award from the Arbor Day Foundation and the National Association of State Foresters.

The groups seek to promote proper utility arboriculture and public education through annual worker training, quality tree care, tree planting and public education, energy conservation and collaboration with community groups. For information about planting the right tree in the right place, visit [arborday.org](http://arborday.org).

PPL Electric Utilities works with state and local conservation, land management and environmental groups to advance common goals of electric reliability and environmental stewardship.

# Transmission Line Vegetation Management

Keeping your electric service reliable

### PPL Electric Utilities' right to do this work

The vegetation management work we do will depend on the specific rights we have for each property. We will be happy to discuss these rights with you in advance of any work.

To schedule a meeting with a PPL Electric Utilities representative, email us at [PPLVegetationManagement@pplweb.com](mailto:PPLVegetationManagement@pplweb.com).

For further information, visit [ppllectric.com/vegetation](http://ppllectric.com/vegetation).

## We take a proactive approach to vegetation management

PPL trims and clears its transmission line rights of way in a much more comprehensive way than in the past. Coupled with investments in new poles, wires, equipment and technology, we've been able to substantially improve reliability for customers.

### Our pledge to you

We maintain our transmission line rights of way according to a schedule that allows us to cover our entire system over a period of several years.

We know removing and trimming trees is not always popular, but it is the right thing to do on behalf of everyone who depends on the grid.

- We pledge to communicate with property owners well in advance of scheduled work.
- We pledge to work in a professional manner, and to work within the limits of the rights we have to perform this work on each property.
- We pledge to treat all property with care.
- We pledge to strike a careful balance between landowner concerns and the need to keep the grid safe and reliable.

## Transmission Line Vegetation Management

Trees on other vegetation must be kept away from power lines. They are the top cause of storm-related power outages.

If trees get too close to power lines, the result can be a serious power outage. There is also the potential of a serious safety risk to you and to our employees.

We have an obligation to keep the grid safe and reliable and oversight is provided at both the state and federal levels.

Events like the Northeast Blackout of 2003 and the Halloween 2011 snowstorm involved prolonged outages caused by trees. Our vegetation management program is aimed at limiting the effects of trees on the grid.

### Details of the work we will do

Reducing tree-related power outages is important everywhere, especially along transmission lines which carry high-voltage electricity over long distances.

When it comes to transmission line vegetation management, we view the rights of way in two main sections. The area directly under the wires, plus an additional 10 feet is called the wire zone. The rest of the right of way is called the border zone. What kind of vegetation is allowed in the rights of way depends on the voltage of the line, but in all cases it must be compatible with PPL's job to reduce the threat from trees and other vegetation.

**Hazard trees** – Sometimes, trees near the right of way fall into poor condition because of disease, storms or other factors. In order to prevent these trees from falling onto our lines, we remove them at no cost to the property owner. Those who decline the removal of a hazard tree could be liable for the cost of repairs to the power line due if it is damaged by the hazard tree.

**Benefits to birds** – Managing transmission line rights of way creates openings and edges that provide opportunities for native plants to grow and attract birds. According to the National Audubon Society, there are many birds that favor shrub lands and thrive along edge habitat.

## **Amendment of Public Utility Easement**

**KNOW ALL MEN BY THESE PRESENTS**, That Humboldt Realty, LP, a Pennsylvania limited partnership, of 822 South Avenue West, Westfield, New Jersey 07090,

hereinafter referred to as “GRANTOR”, in consideration of the sum of One Dollar (\$1.00) and other consideration, paid at the date hereof by PPL ELECTRIC UTILITIES CORPORATION, hereinafter referred to as “PPL”, the receipt whereof being hereby acknowledged, and in lieu of condemnation, does hereby irrevocably grant and convey unto PPL, its successors, assigns and lessees, the right to construct, operate and maintain, and from time to time to reconstruct its overhead and underground electric transmission, distribution and communication lines, including but not limited to such poles, towers, guys, anchors, cables, wires, fiber optics for PPL’s and third-party use, fixtures and apparatus above and below ground, hereinafter referred to as “PPL Facilities”, that may be from time to time necessary for the convenient transaction of the business of PPL, its successors, assigns and lessees, upon, across, over, under, along and within strip(s) of land 200 feet in width, as shown on the plan attached hereto as Exhibit “A” and incorporated by reference herein, (“Easement Area”), said Easement Area being a part of the property which GRANTOR owns, or in which GRANTOR has any interest in the Township of Hazle, County of Luzerne, Commonwealth of Pennsylvania (as further described in certain deed dated November 17, 2022 and recorded in the Office for Recording of Deeds in and for Luzerne County in Deed Book 3023 Page 46592) (the “GRANTOR property”), including the right of ingress and egress over and across the GRANTOR Property to and from the Easement Area at all times for any of the purposes aforesaid; also the right to cut down, trim, remove and to keep cut down and trimmed by mechanical means or otherwise, any and all trees, brush or other undergrowth now or hereafter growing on or within the Easement Area, as well as the right to cut down, trim and remove and to keep cut down and removed any and all trees adjoining or outside of the Easement Area which in the judgment of PPL, its successors, assigns and lessees, may or could potentially at any time interfere with the construction, reconstruction, maintenance or operation of the PPL Facilities or menace the same, and in connection therewith, the right to remove, if necessary, the root systems of said trees, brush or other undergrowth, and to treat said brush and undergrowth with herbicides labeled to allow their use for the removal and control of said vegetation.

**Notwithstanding anything to the contrary contained herein, GRANTOR shall have the right to use all or any portion of the Easement Area for open and uninterrupted ingress and egress, internal vehicular circulation and related trailer and vehicle parking, insofar as the above aforementioned activities do not prohibit PPL from constructing, reconstructing, maintaining or operating PPL Facilities within the Easement Area.**

And further, in consideration of said payments, GRANTOR does hereby understand, covenant and agree to and with PPL, its successors, assigns and lessees, that no buildings, swimming pools or any other improvements or structures whatsoever shall be built, constructed or placed on, under or within the Easement Area; that no flammable or explosive materials of any kind shall be stored on, under or within the Easement Area; and that PPL, its successors, assigns and lessees, shall be informed of any proposed changes in use of the land, or changes in grade under or within the Easement Area.

It is further understood and agreed that PPL, its successors, assigns and lessees, shall not be limited in its or their enjoyment of the rights hereby granted for such PPL Facilities as may be first constructed in the Easement Area, but shall have, at all times in the future, the right to construct, operate and maintain, and from time to time to reconstruct, additional PPL Facilities of any type necessary for the convenient transaction of the business of PPL upon, across, over, under, along and within the Easement Area.

This Amendment of Public Utility Easement shall be binding on GRANTOR and PPL and his/her/their/its heirs, executors, administrators, successors and/or assigns.

This Amendment of Public Utility Easement amends and supersedes, but only insofar as it relates to the property now owned by the GRANTOR herein, that certain **Corrective Deed, Special Warranty Deed** between **PPL (Grantor)** and **Greater Hazleton Community Area New Development Organization, Inc., a/k/a CAN DO, INC.**, dated **March 13, 2003** and recorded in the Office of Recording of Deeds in and for **Luzerne County, Pennsylvania** in **Deed Book 3003 Page 179157, and specifically the paragraph on page 179160 reading Excepting and Reserving unto Grantor (PPL) a driver training facility and an easement thereunder as more specifically described in a certain Easement Agreement dated March 12, 2001 by and between Grantor and Grantee and recorded contemporaneously herewith** ("Original Easement"). As of the date that this Amendment of Public Utility Easement is executed, the Original Easement shall cease to be of any force and effect, and all of PPL's rights shall be governed in accordance with the terms hereof.

**Notwithstanding anything to the contrary contained in this agreement, in no event shall PPL be permitted to install any above-ground PPL Facilities in any portion of the Easement Area which is used by GRANTOR for ingress and egress, internal vehicular circulation and related trailer and vehicle parking on the GRANTOR Property or which would otherwise interfere with the ordinary use and enjoyment of the GRANTOR Property.**

IN WITNESS WHEREOF, said GRANTOR has caused this agreement to be executed in its corporate name by its proper officers, this \_\_\_\_\_ day of \_\_\_\_\_, 2025.

PPL ELECTRIC UTILITIES CORPORATION  
UNANIMOUS WRITTEN CONSENT OF DIRECTORS  
IN LIEU OF MEETING

MARCH 25, 2026

The undersigned, being all of the duly elected members of the Board of Directors of PPL Electric Utilities Corporation, a Pennsylvania corporation (the "Company"), pursuant to § 1727(b) of the Pennsylvania Business Corporation Law of 1988, waive any required notice and consent in writing to the adoption of the following resolutions as though adopted at a duly called and noticed meeting of the Board:

WHEREAS, all of the landowners, as more particularly described in Exhibit "A", are the owners of certain properties located in Conyngham, Hollenback, Nescopeck, Black Creek, Sugarloaf, Hazle Township, and Nescopeck Township, of Luzerne County, Pennsylvania; and

WHEREAS, the rebuilding and construction by the Company of the Sunbury-Nescopeck #1, #2, and the Sunbury-Susquehanna 230 Transmission Lines as well as the Nescopeck 230 kV Switchyard on, over, across or under the land described in Exhibit "B" (collectively, the "Land"), is necessary for the supply of light, heat and power to the public; and

WHEREAS, the Company has endeavored to agree but has not reached agreement with the landowners or their representatives upon the proper compensation, terms and conditions for real property rights and the damage which will be done or is likely to be done to or sustained by them; and

WHEREAS, subject to approval by the Pennsylvania Public Utility Commission ("PA PUC"), the Company is authorized by law to condemn and appropriate the properties necessary for such purposes; and

WHEREAS, Board of Directors approval is a necessary legal condition for the Company to appropriate the required right of way for the Land.

NOW, THEREFORE, BE IT RESOLVED, that it is necessary to condemn and appropriate right of way and easements on, over, across or under the Land to the extent required for right of way to be presently used for the overhead or underground construction, operation and maintenance of Sunbury-Nescopeck #1, #2, and the Sunbury-Susquehanna 230 Transmission Lines and the Nescopeck 230 kV switchyard, for the transmission and/or distribution of electric light, heat and power, or any of them, including such poles, wires, conduits, cables, manholes, and all other facilities, fixtures and apparatus as may be necessary for the proper and efficient construction, operation and maintenance of such lines and switchyard; and further

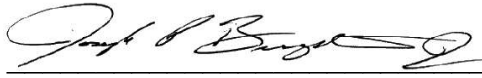

RESOLVED, that, subject to approval by the PA PUC, the Company shall and hereby does condemn and appropriate right of ways and easements ("Easement Areas") to the extent necessary for the right of way described above on, over, across or under the Land owned or reputed to be owned by the above-named property owners, such right of ways being more fully described in Exhibit "B", as applicable, and being necessary for the Company's corporate uses for the construction, operation, renewal, replacement, relocation, addition to, and maintenance of the facilities constituting the overhead or underground transmission line, including poles, wires, conduits, cables, manholes and all other necessary appurtenances for the transmission or distribution of electricity ("Electric Facilities"), on, over, across or under the right of ways described in Exhibit "B", as applicable, together with: (1) the right of ingress and egress to, from, upon, and over the subject properties to access the Easement Areas and Electric Facilities at all times for the construction, operation, maintenance, replacement, and reconstruction of the Electric Facilities and for any of the purpose aforesaid (2) the right to cut down, trim, remove, and to keep cut down and trimmed by mechanical means or otherwise, any and all trees, brush, or other undergrowth now or hereafter growing on or within the Easement Areas, as well as the right to cut down, trim, and remove any and all trees adjoining or

outside of the Easement Areas which in the judgment of PPL Electric, its successors, assigns, and lessees may at any time interfere with the construction, reconstruction, maintenance, or operation of the Electric Facilities or menace the same, and in connection with the aforementioned rights, the right to remove, if necessary, the root systems of said trees, brush, or other undergrowth; (3) a prohibition against any buildings, swimming pools, or other improvements or structures whatsoever being built, constructed, or placed within the Easement Areas, as well as any flammable or explosive materials being stored within the Easement Areas, as well as the right to remove any buildings, structures, or other improvements from the Easement Areas; and further

RESOLVED, That the proper officers of the Company are hereby authorized and directed to execute such bonds and/or other paper, to take such action and to bring such proceedings on behalf of the Company as may be necessary or advisable in the exercise of the power of eminent domain to condemn and appropriate such right of way and easements or fee simple title and to enter upon, use and occupy any of the Land for the purposes described in the above resolutions.

This Unanimous Written Consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

IN WITNESS WHEREOF, the undersigned have executed this  
Unanimous Written Consent as of the date set forth above.
