To Whom It May Concern,

Thank you for your review of my application.

The intent of this application is to obtain authority to operate as a Motor Common Carrier of Property for compensation between points in Pennsylvania.

While the application references towing and recovery services, the company also intends to provide non-emergency transportation services that are subject to Commission regulation. These services include the transportation of vehicles, trailers, and equipment for compensation within Pennsylvania, including work for dealerships, auctions, and individual customers.

The company currently operates under a USDOT number issued by the Federal Motor Carrier Safety Administration for interstate operations. This application is being submitted to ensure proper authority for intrastate operations within Pennsylvania.

The reference to towing and recovery was not intended to limit the scope of services to exempt activities only.

Regarding prior operations, the company previously held PA PUC authority and provided these same intrastate transportation services mentioned above that were subject to Commission regulation and assessment.

This application is being submitted to ensure full compliance and proper authority for current and future operations.

I, Sofia Diana Andras, hereby state that the facts above set forth are true and correct to the best of my knowledge, information and belief, and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa.C.S. § 4904 (relating to unsworn falsification to authorities).

Regards,

Sofia Diana Andras
