

Extension request.

We had to apply for Ficticious name and the state mentioned it would be faster to just change name of our existing foundation (Jordance Foundation) to Bobby Gees Foundatiin to expedite the process. Well, that unfortunately is a good idea and what we elected to do however has not made the process fast. Without that paperwork (we have it recently) we can't change the name of the bank account nor can we change the titles from personal name to foundation. While this is all coming together now and to be soon, it's not meeting the 17th dismissal. We'd love for more time. I'd like to request 30-45 days although it may not take long because it seems like things are coming together.

More time would be great, we are actively working on this it's just delays in waiting for paperwork hard copies that banks need and messenger services need to get everything done. We'd truly appreciate a bit more time. I've been working with Dave and he's aware of all the bumps in the road. I think he's confident we are working on it as I've filled him in of what's going on. Thanks for the consideration
