**Re: Borough of Hanover – Hanover Municipal Water Works
Request for Extension of Time to Submit Responses to TUS Data Request Set 1
Docket No. P-2024-3050231**

Dear Secretary Homsher:

Our firm serves as counsel to the Borough of Hanover and represents Hanover Municipal Water Works (“Borough”) in the above-referenced matter. On April 6, 2026, the Borough received a secretarial letter enclosing Data Request Set 1 from the Bureau of Technical Utility Services (“TUS”), which sought various responses and/or information to 18 numbered data requests. The secretarial letter established a deadline within 10 business days.

Shortly after receipt of the secretarial letter, our office organized a call with the Borough’s Director of Planning & Engineering to discuss preparing the requested responses and information. Because several of the requested items require updating the Borough’s service line inventory information as well as consideration of the structure of the Borough’s Lead Service Line Replacement Program, the Borough respectfully requests a **sixty (60)** day extension of time from the April 20, 2026 deadline to June 22, 2026.

Thank you for your assistance in this matter. If you have any questions or require any information relating to this filing, please feel free to contact me.

Very Truly Yours,

SALZMANN HUGHES, P.C.
