Dear Chairman DeFrank:

As elected officials representing legislative districts in Bucks County, we are writing to request that the Pennsylvania Public Utility Commission hold a public hearing in Bucks County for our constituencies to discuss the recently proposed rate increases by the PECO Energy Company.

Beginning in 2027, PECO announced a proposed rate hike that would increase bills for residential electric customers by \$20.08 or 12.5% per month, and for residential natural gas customers, \$14.52 or 11.4% per month. Working families are currently struggling to afford groceries, rent, and everyday essentials, and this proposed rate hike would only add to their crippling financial circumstances.

Furthermore, Pennsylvanians are already facing higher utility costs, in part driven by growing energy demands like data centers that are not paying their fair share. Asking families to shoulder yet another double-digit increase is unacceptable. While we understand the need to make improvements to the power grid, this rate hike would place an even greater burden on middle-class households who are already stretched thin and simply cannot afford any more.

Again, we ask that the PUC schedule a public hearing in our community so that our constituents can weigh in on this proposal. We appreciate prompt consideration of this request and look forward to hearing from you.

Sincerely,
