Attachment C
Response to Question 3 – experience statement

The applicant, Desquared Logistics LLC, possesses substantial hands-on experience in the household goods transportation industry through its active operation as a federally authorized interstate motor carrier under USDOT 3942787 and MC 1464839. The applicant has successfully completed and supervised a significant number of residential moves involving the packing, loading, transportation, and delivery of household goods, including the handling of fragile, high-value, and specialty items. The applicant has remained in full compliance with all applicable requirements of the Federal Motor Carrier Safety Administration, including safety, insurance, and operational standards.

The applicant, acting as owner-operator, maintains direct control over all aspects of business operations, including but not limited to customer estimates, dispatching, crew supervision, regulatory compliance, claims handling, and customer service. Through this experience, the applicant has developed a thorough understanding of industry best practices and applicable federal regulations governing household goods carriers.

In addition, the applicant employs an Operations Supervisor, Michael Vasapolli, who brings over five years of direct experience in the household goods moving industry within the Commonwealth of Pennsylvania. Mr. Vasapolli has extensive experience supervising moving crews, coordinating logistics, and ensuring proper handling and transportation of household goods in compliance with industry and regulatory standards. This combined operational experience ensures that the applicant possesses the necessary knowledge, skill, and managerial capability to provide safe, reliable, and compliant household goods transportation service within the Commonwealth.

Response to Question 4 — facilities, record maintenance plan, and communication network

1. Physical Facilities

The applicant maintains its principal place of business at 4911 E Street Rd, unit A, Feasterville-Treose, PA 19053.

The office is leased by the applicant, and serves as the administrative and dispatch location for the company's moving operations. The facility contains standard office equipment including computers, printer and scanner equipment, telephones, and internet access used for scheduling, dispatching, and record-keeping. Additionally, the office houses all necessary equipment and supplies.

Company vehicles are parked and housed at a secure parking lot that is leased and under control of the applicant. Vehicles are inspected regularly and maintained according to manufacturer and safety requirements.

2. Record Maintenance Plan

The applicant maintains all records required by the Pennsylvania Public Utility Commission, including estimates, bills of lading, invoices, inventory, vehicle maintenance, customer correspondence, and claims records. These records are received via telephone, email, and online customer inquiry forms. Records are maintained both electronically and in paper form. The company will schedule and dispatch vehicles and moving crews through its office dispatch system.

Electronic records are stored using secure cloud-based storage (e.g. Zip software) and company computer systems to ensure they are easily retrievable. The applicant will maintain all required books, records, and documents in accordance with applicable provisions of 52 Pa. Code Chapter 32 and other relevant regulations of the Pennsylvania Public Utility Commission. All records shall be retained for the prescribed retention periods and will be made available for inspection by the Commission upon request.

3. Communication Plan

Customer requests for moving services are received by telephone, email, and online inquiry forms. We will offer both binding and non-binding estimates to customers following an in-person or virtual survey of the goods to be transported. Jobs are scheduled and dispatched through the company's office dispatch system. Drivers and crew leaders maintain communication with the office through mobile telephones and messaging applications to provide updates regarding arrival times, job status, and operational matters.

All shipments will be documented with written contracts and bills of lading that clearly outline the terms and conditions of service, including pricing, delivery windows, and valuation coverage options. Customers will be provided with required consumer information pamphlets and disclosures prior to the move. We are committed to fair business practices, transparent pricing, and timely resolution of any customer concerns or claims.

Attachment E
Response to Question 5 — driver hiring standards

The applicant currently operates in interstate commerce utilizing one straight truck with two drivers, including the owner/operator. Both current drivers have successfully passed USDOT physical examinations and are medically qualified to operate commercial vehicles safely. Additional straight truck and drivers will be added once the PUC authority is granted. This staffing level is appropriate for the size of our operation and the territory we serve, as it allows for efficient scheduling, safe operation of the vehicle, and proper handling of household goods during loading and unloading. As business demand increases, we plan to scale responsibly by adding additional qualified drivers while maintaining the same standards of safety and service. All drivers are thoroughly vetted prior to operating company vehicles. This includes verification of a valid driver's license, driver's 5-10 year driving history records, and confirmation of medical fitness where applicable. Drivers are required to follow all state and federal safety regulations, and the company maintains internal policies to ensure safe and responsible vehicle operation at all times.

a. Hiring Standards for Drivers

All drivers must meet the following minimum qualifications:

- Possess a valid driver's license appropriate for the vehicle operated (non-CDL or CDL if applicable)
- Maintain a clean driving record with no major violations (e.g., DUI, reckless driving)
- Be physically fit to perform moving-related duties
- Have prior experience in commercial driving or household goods moving
- Demonstrate professionalism and customer service skills
- Successfully pass background screening and drug testing prior to hire

b. Criminal Background Check System

The applicant conducts background checks on all drivers prior to employment through a reputable 3rd party vendor (e.g. Checkr). This includes:

- Multi-state criminal background screening
- Identity verification

All current drivers have successfully passed background checks. Any applicant with a history of theft, violent crime, or fraud is disqualified due to the nature of handling customers' personal property.

c. Driver Training Program

Drivers are trained in:

- Safe driving practices and defensive driving techniques
- Proper loading and unloading of household goods to prevent damage
- Handling of fragile and high-value items
- Use of moving equipment (dollies, pads, straps, etc.)
- Customer service standards and communication

d. Driver License Check System

The applicant verifies driver qualifications by:

- Conducting an initial Motor Vehicle Record (MVR) check prior to hire
- Periodically reviewing driving records

- Requiring drivers to report any changes in license status

Drivers must maintain a valid license at all times to remain eligible for operating company vehicles.

e. Alcohol and Drug Policy

Drug and alcohol testing policies are implemented in accordance with the applicable federal and state requirements based on vehicle classification. The applicant maintains a strict zero-tolerance policy regarding alcohol and drug use:

- Drivers are prohibited from operating vehicles under the influence of alcohol or any controlled substance
- Pre-employment drug screening is required
- Drivers are subject to random and post-accident testing where applicable
- Any violation results in immediate termination

All hiring, qualification, and oversight procedures are implemented to ensure compliance with applicable state and federal safety regulations, and to promote the safe and responsible operation of motor vehicles in the transportation of household goods. The applicant, as an owner-operator, conducts training directly to ensure consistency and adherence to company standards. New drivers, when hired, will be supervised until fully trained.

Attachment F
Response to Question 6 — equipment list

The applicant currently operates household goods moving equipment including one straight truck (20' and 12,000 lbs GVWR). Equipment is owned and financed by the applicant. Additional equipment may be leased from commercial rental providers as needed. All equipment is operated under the control and direction of the applicant and shall be properly registered, insured, inspected, and maintained in accordance with applicable state and federal requirements to ensure safe and lawful operation.

This number of equipment is sufficient for the current scope of operations, allowing for efficient scheduling and reliable service within the intended territory. As business demand increases, additional vehicles will be added to maintain service quality and operational efficiency.

Attachment G
Response to Question 7 — vehicle safety program

The applicant maintains a comprehensive vehicle safety program to ensure that all vehicles are operated safely and in full compliance with applicable regulations. As an owner-operator, the applicant oversees all maintenance and safety procedures directly to ensure consistency and accountability. Vehicle maintenance records are retained and available for inspection in compliance with regulatory requirements.

a. Periodic Vehicle Maintenance Plan

The applicant follows a structured preventative maintenance program for its vehicle, which includes:

- Pre-trip and post-trip inspections conducted daily by the driver
- Routine maintenance and state inspections performed at regular intervals, including oil changes, brake inspections, tire checks, and fluid level monitoring
- Scheduled servicing based on manufacturer recommendations and vehicle mileage
- Immediate repair of any identified safety issues before the vehicle is returned to service

All maintenance and repairs are documented and records are maintained for review.

b. Compliance with Pennsylvania Equipment Standards (67 Pa. Code, Chapter 175)

The applicant ensures continuous compliance with Pennsylvania vehicle equipment and inspection standards by:

- Maintaining the vehicle in condition to pass Pennsylvania state inspection requirements at all times
- Conducting regular checks of critical safety components, including brakes, lights, tires, steering and suspension systems, emergency equipment, seat belts and safety equipment
- Addressing any defects or deficiencies immediately upon discovery
- Utilizing qualified repair facilities when necessary to ensure compliance

The applicant is committed to maintaining full compliance with all applicable safety regulations and to ensuring that all vehicles are operated in a safe manner consistent with industry standards and regulatory requirements.

Attachment I
Response to question 9 - convictions

The applicant is a single-member LLC. In 2017, Dmitriy Dyutin, owner, was convicted of a misdemeanor DUI. This was an isolated incident without subsequent offenses. The applicant complied with all legal requirements related to the matter and has maintained a clean record since that time with no subsequent offenses. The applicant takes safety and compliance seriously, and affirms that this incident does not impact any ability to operate safely or in compliance with applicable laws and regulations.
