

**BEFORE THE
PENNSYLVANIA PUBLIC UTILITY COMMISSION**

Application of NextEra Energy Transmission :
MidAtlantic, Inc., filed pursuant to 52 Pa. Code :
Chapter 57 Subchapter G, for approval to site : Docket No. A-2026-3060856
and construct a 500 kV transmission line :
associated with the MidAtlantic Resiliency Link :
Project located in portions of Greene County :
and Fayette County, Pennsylvania :

Application of NextEra Energy Transmission :
MidAtlantic, Inc., for All of the Necessary :
Authority, Approvals, and Certificates of Public : Docket No. A-2026-3060921
Convenience (1) to Begin to Furnish and Supply :
Electric Transmission Service in Greene County :
and Fayette County, Pennsylvania; (2) for :
Certain Affiliated Interest Agreements; and (3) :
for any Other Approvals Necessary to Complete :
the Contemplated Transactions :

PETITION TO INTERVENE

Before the Pennsylvania Public Utility Commission (Commission), pursuant to 52 Pa. Code Sections 5.71 through 5.74, [*Print Name of Petitioner*] Thomas John Bozek^{III} hereby files this Petition to Intervene in the above-captioned Application(s). In support thereof, [*Print Name of Petitioner*] Thomas John Bozek^{III} states as follows:

1. **Name and contact information of the Petitioner.** [*Provide name and address of Petitioner.*]

Thomas John Bozek^{III}
875 Wymps Gap Road, Smithfield, PA 15478

2. **Name and contact information of Petitioner's attorney.** [*Provide names and addresses of Petitioner's attorneys. If none, clearly state "No attorney representation."*]

No attorney representation at this time

3. Set out clearly and concisely the facts from which the alleged intervention right or interest of the Petitioner can be determined. 52 Pa. Code § 5.73(a)(1).

[Explain why the utility's proposals affect you and/or your interests. For example, you may have an interest in this proceeding as a utility ratepayer, a landowner, a resident near the facilities, and/or a business owner.] I'm a ratepayer, landowner and resident in the project study area between multiple proposed routes. I don't want my electric rates to go up to pay for data centers in Virginia. I don't want our area's viewshed and landscape ruined for Virginia's benefit.

4. State the grounds of the proposed intervention. 52 Pa. Code § 5.73(a)(2).

[Explain why you are filing this Petition to Intervene. For example, you may be concerned with how the Company's proposals will impact utility rates, your property interests, your health and safety, and/or business interests.] I don't want to pay increased utility rates with no benefits going to the state of Pennsylvania. I am also concerned with my property being devalued as many local Realtors have said that property values decrease after power lines are installed. I moved to my property after surviving cancer in 2004 to enjoy the natural beauty of our mountains. I feel that the beauty of our area will be destroyed if the power lines are built. I'm also concerned of the health risks of living near the lines such as stray voltage and electromagnetic fields affecting my family and of course, my cancer returning.

5. State Petitioner's position on the issues in the proceeding. 52 Pa. Code § 5.73(a)(3).

[Explain Petitioner's position on the issues in the proceeding. In this regard, the PUC must make the following findings relating to the transmission facilities in order to approve the Siting Application: (1) that there is a need for it; (2) that it will not create an unreasonable risk of danger to the health and safety of the public; (3) That it is in compliance with applicable statutes and regulations providing for the protection of the natural resources of this Commonwealth; and (4) That it will have minimum adverse environmental impact, considering the electric power needs of the public, the state of available technology and the available alternatives. 52 Pa. Code Section 57.76(a)] There is no need for these power lines to be located in Pennsylvania. None of the power is going to Pennsylvania and Pennsylvanians do not benefit from this since the power will flow to data centers in Virginia. Unreasonable risks of danger to the health and safety of the public will be created by extra wind blowing through these mountainous timbered corridors and causing wind damage. Stray voltage and electromagnetic fields will affect livestock and people living near the lines. Studies have shown that pacemakers and insulin regulatory devices are affected by the electromagnetic fields created by the power lines. I myself have been affected by cancer and don't want to live near large electromagnetic fields, which could increase my odds of the cancer returning. I moved to the area where I live to stay away from intense industry and electromagnetic fields. In addition, Pennsylvania has beautiful state parks and forests in the path of this project. Our region heavily relies on tourism and natural beauty to attract visitors and generate revenue. The unnatural look of the power lines directly contrasts the area's tourism industry. Since Pennsylvania does not benefit in any way from these power lines, I feel it would make more sense to build the power generating facilities near the data centers. Hundreds of miles of beautiful property would then remain unaffected. This is private property that people in this area cherish and hand down through generations. Industrial areas will then remain industrial while beautiful natural landscape where people live will stay intact.

6. **Service on Petitioner**

For the purposes of receiving communications from the Commission and from the parties to this proceeding regarding the intervention, if the intervention is granted, [Print Name of Petitioner] _____

Thomas John Bozek III agrees to (check one):

Open and use a Commission eFiling account and receive eService

Receive all documents by email at: [email] tommyguitar4@aol.com

** Petitioner acknowledges documents cannot be filed via email.

Receive all documents by First Class Mail at the above-listed address

7. **Verification and Signature**

Pursuant to 52 Pa. Code Section 1.36, I, [Print Name of Petitioner] Thomas John Bozek III hereby state that the facts above set forth are true and correct to the best of my knowledge, information, and belief, and that I expect to be able to prove the same at a hearing held in this matter. I understand that the statements herein are made subject to the penalties of 18 Pa. C.S. §4904 (relating to unsworn falsification to authorities).

Date

8. **Relief Requested**

[Print Name of Petitioner] Thomas John Bozek III requests that the Commission grant this Petition to Intervene in the Applications and respectfully requests that the Public Utility Commission to [Identify the relief that you want. For example, you may want the Commission to not approve the Applications and/or you may want the Commission to investigate and hold full hearings regarding the filings, or both.] not approve the applications. Residents of Pennsylvania should not have to pay financially and suffer the consequences and impacts of this power line while no benefits are going to Pennsylvania. This project is solely to benefit data centers in Virginia.

9. **Signature and Date**

Respectfully submitted,

[Signature of Petitioner]

Thomas John Bozek III
